SEA DRAGON

by Wayne Westmoreland & Terry Gilman

Atari version by Russ Wetmore

Apple version by John Anderson

Secure all hatches! Prepare to dive! The creative pros who brought you "The Eliminator" and "Armored Patrol" now do for submarines what "Armored Patrol" did for tanks! Sea Dragon is a slick, arcade-ish simulation that puts you in command of a nuclear sub that's armed to the hilt with deadly missiles and torpedoes. You guide your submarine past underwater mountains and through labyrinthine passages while avoiding webs of explosive mines that rise from the seabottom. Additional dangers include mine-dropping ships, enemy attack stations, falling stalactites, and deadly lasers — any of which could keep you from your ultimate goal: destruction of the incredibly powerful nuclear reactor at the end of the undersea course! Maneuver around these dangerous obstacles and surface to refuel your ever-diminishing air supply — if you can!

You want variety? You got it! Sea Dragon boasts a scrolling seabottom that extends the equivalent of over two dozen screens laid end-to-end. And two-player option, sounds and high score save feature go hand in hand with the kind of graphics you've come to expect from Adventure International.

Not for the faint-hearted, Sea Dragon is your best bet for underwater thrills and chills. Action-plus from Adventure International!

Please Note: The above is a description of the TRS-80 version; APPLE and ATARI versions are similar.

STRATOS

ATARI Version by Neil Larimer

TRS-80 Version by John E. Cominio

Far above the clean, sweeping lines of a futuristic megalopolis, the first wave of craft from another world falls from the skies. Methodically, they work the skyline, releasing the most awesome of weaponry: the terrifying matter ravagers! Instantly, the energy envelope surrounding the city is punctured and several skyscrapers sustain serious damage. The first step in the havoc complete, the pulsating vessels disappear into hyperspace as quickly as they had come. But in the span of a few brief seconds, more appear to recreate anew the terrible destruction....

This is STRATOS — a kaleidoscopic explosion of awesome graphics and other-worldly sounds that's light-years beyond any arcade-type game you've ever seen on your micro! This joystick-compatible funfest puts you in TOTAL control of the devastating Armageddon Wave — the only weapon capable of decimating the attacking alien ships. STRATOS comes loaded with the professional features you've come to expect, including one or two player option, high score save, and mind-melting sounds.

Designed for the home arcader who takes his action white-hot, you can be certain the thrills don't let up with this scorcher! STRATOS — look to the skies and prepare for the battle that will shred the universe!!!

LASER BALL

TRS-80

by Neil Matson & Matthew T. McMahon

LASER BALL! A heart-stopping assault on your gaming reflexes! The action begins when your Laser Ball comes to life in the center of a twisting maze. You move him using either joystick or keyboard controls. The object of the game is to fill the maze completely with dots while avoiding the deadly destructoids that inhabit this lethal network of twists and turns. A boost from a recharger might help — but only if you're quick enough to dispatch the enemy with a burst from your laser!

LASER BALL! All of the extras you demand are here: two player option, multiple skill levels, speedy machine language graphics, game pause and reset, running high score, great sounds and action like you've never had with a micro!

LASER BALL! This snappy arcade simulation will have the neighbors lining up to take a crack at one of the most habit-forming programs we've seen yet. So, if you're ready for some serious fun, then do we ever have a game for you!

The Adventure

TEXT OR GRAPHIC, BEGINNER OR ADVANCED SKILL LEVEL...

The Adventure Series: An Overview

By definition, an adventure is a dangerous or risky undertaking; a novel, exciting, or otherwise remarkable event or experience. On your personal computer, Adventure is that and more.

Playing any of the Adventure series consists of three elements: you, the user; the games themselves; and the author, Scott Adams of Orlando, Florida.

In beginning any Adventure, you will find yourself in a specific location: a forest, on board a small spaceship, outside a fun house, in the briefing room of a nuclear plant, in a desert, etc. The top portion of your video display will tell you where you are and what you can see; the bottom section of the display is devoted to inputting commands to your robot computer and receiving messages that may arise as the result of your orders. You have to get used to looking at both the top and bottom portions in order to find out what's going on in the game but it doesn't take long for the reading to become a reflex. In fact, you will have to live in those imaginary worlds.

By using two-word commands you move from location to location (called "rooms" although some rooms represent outdoor sites such as a swamp), manipulate objects that you find in the different rooms (pick them up, put them down, carry them, etc.), and perform actions as if you were really there.

The object of a game is to amass treasure for points or accomplish some other goal such as preventing the destruction of the automated nuclear plant in Mission Impossible. Successfully completing a game, however, is far easier to state than achieve. In many cases you will find a treasure but be unable to take it until you are carrying the right combination of objects you find in the various locations.

If you're tired of video games of bouncing balls or shooting at targets; if you're ready for an intellectual challenge that transports you to new worlds of experience; if you want to see what a skilled programmer can do with a micro, invest in one of Scott Adams' games. An early Adventure (Adventureland or Pirate Adventure) is a good place to start because the more Adams creates, the tougher his puzzles get.

THE ADVENTURES

#0 SPECIAL SAMPLER — If you've never experienced the thrill of a Scott Adams Adventure, then this is a good place to start! All of the elements of a full-length Adventure are contained in this special cut-down version of our Adventure #1. Hours of enjoyment guaranteed — and at a special price too!

#1 ADVENTURELAND — Wander through an enchanted realm and try to recover the 13 lost treasures. There are wild animals and magical beings to reckon with, as well as many other perils and mysteries. Can you rescue the Blue Ox from the quicksand? You'll never know until you try ADVENTURE #1! This is the Adams Classic which started the whole ball of wax! Try it, you won't be sorry. Difficulty Level: Moderate

#2 PIRATE ADVENTURE — The lost treasures of Long John Silver lie hidden somewhere — will you be able to recover them? Only by exploring this strange island will you be able to uncover the clues necessary to lead you to your elusive goal! Difficulty Level: Beginner

#3 MISSION IMPOSSIBLE ADVENTURE — In this exciting Adventure, time is of the essence as you race the clock to complete your mission in time — or else the world's first automated nuclear reactor is doomed! So, tread lightly and don't forget your bomb detector! If you survive this challenging mission, consider yourself a true Adventurer! Difficulty Level: Advanced

#4 VOOODOO CASTLE — The Count has fallen victim to a fiendish curse placed on him by his enemies. There he lies, with you his only possible hope. Will you pull off a rescue, or is he down for the Count for good? Difficulty Level: Moderate

#5 THE COUNT — It begins when you awake in a large brass bed in a castle somewhere in Transylvania. Who are you, what are you doing here and WHY did the postman deliver a bottle of blood? Who can say ... but somewhere a centuries-old evil lies in dark wait ... Difficulty Level: Moderate

#6 STRANGE ODYSSEY — At the galaxy's rim, there are rewards aplenty to be harvested from a long-dead alien civilization, including fabulous treasures and advanced technologies far beyond human ken! Will you be able to recover them and return home? Prepare yourself for the incredible! Difficulty Level: Moderate

#7 MYSTERY FUN HOUSE — This Adventure puts you into a mystery fun house and challenges you to find your way through and back out of it. Sure to baffle you for quite a while, the MYSTERY FUN HOUSE is patiently waiting for you to enter. So, step right up and get your tickets he-yah! Difficulty Level: Moderate

#8 PYRAMID OF DOOM — This is an Adventure that will transport you into a mad-deniably dangerous land of crumbling ruins and trackless desert wastes — into the very PYRAMID OF DOOM! Jewels, gold — it's all here for the plundering — if you have the expertise to pull its recovery off! Difficulty Level: Moderate

#9 GHOST TOWN — You must explore a once-thriving mining town in search of the 13 hidden treasures. With everything from rattlesnakes to runaway horses, it sure ain't going to be easy! And — they don't call them ghost towns for nothing, pardner! Includes a special bonus scoring system too! Difficulty Level: Advanced

#10 SAVAGE ISLAND PART I — A small island in a remote ocean holds an awesome secret — will you be able to discover it? This is the beginning of a two-part Adventure, the second half concluding as SAVAGE ISLAND PART 2, ADVENTURE #11. NOTE: This one's a toughie — for experienced Adventurers only! Difficulty Level: Advanced

#11 SAVAGE ISLAND PART II — The suspense begun with Adventure #10 now comes to an explosive conclusion with SAVAGE ISLAND PART II! This Adventure requires you to have successfully finished #10 wherein you were given the password to begin this final half. The plot thickens as you wind your way through glowing corridors in search of the elusive clue that will enable you to solve the riddle of the island. NOTE: For experienced Adventurers only! Difficulty Level: Advanced

#12 GOLDEN VOYAGE — The king lies near death in the royal palace. You have only three days to bring back the elixir needed to rejuvenate him. Journey through the lands of magic fountains, sacred temples, stormy seas and gold, gold, GOLD! Can you find the elixir in time? This one is for experienced Adventurers only! Difficulty Level: Advanced

SKILL KEY

BEGINNER

Excellent introductory Adventure; ideal for younger players or first-time Adventurers. Minimum problem-solving skills required. Average completion time: 5 hours or more.

MODERATE

Recommended for players with some Adventuring experience. Moderate problem-solving skills required. Average completion time: 5 to 10 hours or more.

ADVANCED

Recommended for experienced players. Advanced problem-solving skills required. Completion time will vary substantially with experience.

... THERE'S AN ADVENTURE THAT'S RIGHT FOR YOU!

The Graphic Adventures

As the name implies, the Scott Adams Graphic Adventures are the classic text Adventures which have been enhanced with exciting hi-res graphics — graphics which colorfully depict your voyage into wonderment each and every step of the way. Each Adventure challenges the player to accumulate points, crack a mystery or accomplish a goal using the unique tools of Adventuring: two-word commands, some common sense and a little ingenuity.

If you've never played an Adventure, you couldn't have found a better place to begin. And if you're an experienced Adventurer, prepare for a magical encounter unlike any other. Remember: Anything can happen when you play a Scott Adams Graphic Adventure ... and, it usually does!

See Individual descriptions on opposite page.

BOOK OF HINTS

Never let it be said that Scott Adams doesn't provide at least **some** help for the perplexed Adventurer! Our hint book provides additional clues to help you out of some of those sticky spots you've gotten into, while still letting you solve the Adventure yourself — all without giving away any clues until you really want them! So if you can't seem to get out of the bog or locate the pharaoh's heart, then you've come to the right place for help! This expanded edition includes hints for all 12 Adventures, and a special section on the making of Adventure maps. Relief at last!

CLASSIC ADVENTURE APPLE

OTHER VENTURE #1

By John Rausch

TECHNOLOGICAL BREAKTHROUGH!!!

Since Will Crowther and Don Woods created it years ago, ADVENTURE has been programmed to run on nearly every computer known to man. The original Fortran version ran on a large PDP machine requiring nearly 300K of storage. At least three other versions of ADVENTURE exist for the APPLE. Some claim to be the only complete version; some claim to fill whole disks with program and data. To date, however, all require diskette access during the game to retrieve text for display on nearly every command. All added "features" of their own, changed some of the original text, or omitted something from the original.

In this version of ADVENTURE you get nothing but the real thing. All of the grandeur and mystery of the original Colossal Caves are re-created here — nothing has been added or left out! By using a text compression technique seldom used on microcomputers, the nearly 44K bytes of text fit in less than 25K. This means no disk access is needed during the game and that it can be played on 48K systems without disk drives. Both tape and disk versions are identical; only the media is different. The tape version includes instructions for making a disk copy. All Apple versions work with either DOS 3.2 or 3.3 and APPLE 2 or APPLE 2 Plus machines.

ALSO INCLUDES COMPLETE SAVE & RESTORE GAME FEATURES

APPLE 2 48K DISK WORKS ON 3.2 OR 3.3

THE CURSE OF CROWLEY MANOR

OTHER VENTURE #2

by Jyym Pearson

TRS-80
APPLE
ATARI

The scene is London, in 1913. Scotland Yard is buzzing with the news — there's been a murder at the Crowley Estate! What starts out as a simple homicide investigation becomes a trip into the depths of the occult as you try to solve **The Curse of Crowley Manor**. This program uses many unique plot-twists and strange devices to guide you through to victory, or a certain trip to the gates of hell. Second in the Other Venture Series, this program is sure to keep you riveted to your computer screen waiting for the next axe to fall! **Skill Level: Moderate.**

ESCAPE FROM TRAAM

OTHER VENTURE #3

by Jyym Pearson

TRS-80
ATARI

From Jyym Pearson, author of CURSE OF CROWLEY MANOR, comes a powerful new contender in the popular Other Venture Series: **ESCAPE FROM TRAAM!**

Your small space cruiser is in trouble — and even though you survived the initial crash on a bizzare, distant world, you may soon wish that you hadn't! The alien environment of Traam is replete with incredible wonders and sights which no human eyes have ever beheld. You must escape this dangerous world — but be warned that if your decisions are not tempered with intelligence and caution, you may not see home again! **Skill Level: Advanced.**

EARTHQUAKE - San Francisco 1906

OTHER VENTURE #4

by Jyym Pearson

TRS-80
ATARI

On April 19, 1906 at 5:18 a.m., one of the most violent earthquakes of modern times decimated metropolitan San Francisco. Now, Jyym Pearson (author of **ESCAPE FROM TRAAM** and **THE CURSE OF CROWLEY MANOR**) has crafted his finest Other Venture to date: **EARTHQUAKE — San Francisco 1906!** Painstakingly researched with close attention to detail and historical accuracy, **EARTHQUAKE** puts you into a topsy-turvy scenario: The city's remains are awash with flame; buildings burn and crumble, and death's dark sentry holds watch over all. It is through this madness that you must plunge — your chances of survival are directly related to your ability to reason logically — hopefully escaping from fallen San Francisco with your life. **EARTHQUAKE** features a new and more powerful data base and is certain to provide you with many hours of thrilling action & challenging puzzles! **Skill Level: Moderate.**

DEATH PLANET: The Dog Star Adventure

OTHER VENTURE #5

by Lance Micklus

Lance Micklus, who has authored some of the finest programs available today, has channeled his energies into the making of his first adventure. Now, for both the Color and the TRS-80 computers comes DEATH PLANET: The Dog Star Adventure — an exhilarating dip into a peril-filled universe! The evil General Doom and his Roche Soliders are preparing to launch an attack against the forces of freedom lead by the beautiful Princess Leya. The Princess has been captured by Doom — and it's up to you to pull off a daring rescue and save her and the royal treasury!

DEATH PLANET: The Dog Star Adventure has been written in a format similar to a standard adventure — your electronic alter-ego is manipulated by keying in one- or two-word responses as you react to the game's events. Prepare yourself for a thrilling adventure Lance Micklus-style — prepare yourself for DEATH PLANET: The Dog Star Adventure!

NIGHTWALKER

TRS-80

by Bob Cassady

Nightwalker! Beautiful women. Dangerous men. A weird gravedigger. They're all here in this interactive tale that challenges you to gather enough evidence to crack a dangerous underground heroin ring. The story unfolds as you search a seedy (and potentially deadly) waterfront town for clues. **Nightwalker** is an interactive story, so your decisions during the game will have a direct bearing on its outcome. You collect evidence, buy information, log observations, and interview townspeople. You must successfully gather enough evidence to present to the police for a bust. **Nightwalker** is a text-oriented program that is beefed-up with some sharp graphics routines, and has an extensive data base that will assure you of many, many hours of varied excitement — if you survive!

LABYRINTH OF CRETE

APPLE

by Cliff Johnson and Allen Pinero

An Adventure of truly epic proportions, LABYRINTH OF CRETE paves the way for an entirely new form of Adventuring — you control the actions of TWO separate characters! That's right, the player is in complete control of two powerful warriors, the stalwart Jason, and the mighty-thewed Hercules. Straight from the mythology of ancient Greece they come, and their quest is a most dangerous one, indeed — the recovery of the mythical Golden Fleece from the heart of the horrific Labyrinth! But have a care, O rash one; the designer of the maze, Daedalus of Crete, crafted well the nefarious network. Evil most foul abounds within its walls, including all manner of traps, tricks and a gruesome parade of maze inhabitants. Many have tried, and many have failed to penetrate and exit the Labyrinth — will you be able to direct Jason and Hercules to success?

If you're ready for a new era in Adventuring, LABYRINTH OF CRETE is just what the leech ordered! Full color, hi-res graphics that depict your trek into terror have been included at key points throughout your journey, and you'll be amazed at the authors' slavish devotion to the spirit of the timeless Greek characters and situations. Having two characters means a friend can get in on the fun — plus an Adventuring first — a tri-level map that will help you plot your way through to success!

LABYRINTH OF CRETE comes with a detailed instruction manual that will add to your enjoyment of this unique form of Adventuring entertainment, and will operate on any APPLE 2 plus computer with one disk drive and 48K of memory.

REIGN of the RED DRAGON

TRS-80

by Dave Daring

Step into the fantastic — into a magical, mystical domain populated by gallant warriors and nightmarish vermin. Experience first-hand the ecstasy of a near-impossible quest successfully completed or the crushing despair of a hideous death at the slaving jaws of some denizen from the netherworld. REIGN OF THE RED DRAGON is the first of an exciting new fantasy series that gives you complete control over the design and outfitting of characters of your OWN creation! Select your character types — Human, dwarf, elf, warrior, cleric, magician or thief; purchase your supplies, weapons and magics, then brace yourself for entry into the dark, sorcerous realms that are the sole domain of the horror that is known as THE RED DRAGON! Fantasy role-playing at its finest! **Skill Level: Moderate.**

HIDDEN VALLEY

TRS-80

by Marc B. Stanis

HIDDEN VALLEY! From the bowels of the dankest dungeons come all of the elements necessary for the most challenging foray into excitement you've ever seen on your TRS-80! The object of the game is to take a character of your own creation through an awesome 99 separate levels of dungeons. Along the way, you'll come face to fang with a myriad of malevolent monsters — but for the stout of heart, pure of soul, and, occasionally, the fleet of foot, there is wealth to be had — and lots of it, too!

HIDDEN VALLEY — No detail has been overlooked! Purchase your supplies — weaponry, foodstuff, magicks, and armor — then outfit a character of your own design for entry into the dungeon itself. The player has TOTAL control over dozens of variables, including character creation, dungeon levels, the buying AND selling of supplies (one may need to finance one's next dungeon adventure!), and dungeon/character saving for later play.

HIDDEN VALLEY — Certainly one of the most exciting fantasy programs ever devised for the TRS-80. If you've grown tired of arcade-type fare, then perhaps it's time to enter a world where you can *live* the fantastic. HIDDEN VALLEY — you may never want to leave. **Skill Level: Advanced.**

SPOOK HOUSE AND TOXIC DUMPSITE

TRS-80

by Roger Schrag

This is it — the blockbusting debut of the long-awaited Graphic Adventures! Now, your TRS-80 can hobnob with the best of 'em. Over 50 full screens of sharp, quality graphics breathe a realism and vitality into Adventuring, the likes of which you've yet to see on the TRS-80. Both Graphic Adventures feature game save, extensive vocabulary, real-time action (yes — we said real-time!) and accept FULL sentences! Exclusive area showings brought to you by Adventure International. Now playing at a TRS-80 near you!

SPOOK HOUSE — Horrors! A deranged madman has locked your unconscious form inside of a deserted creep house at a crazy carnival. You awake to some sobering facts: a bomb is set to explode, and only 30 real-time minutes stand between you and eternity. Somewhere, somehow you must locate and defuse the explosive — but we'd be less than honest if we thought you had more than a ghost of a chance! Brrrr — a real cliffhanger! **Skill Level: Moderate.**

TOXIC DUMPSITE — Something's gone very, very wrong at the Toxic Dumpsite where the treatment and burial of deadly contaminants take place. The entire plant will explode like the Fourth of July in less than 30 minutes — unless you can avoid the many traps and protection systems and shut the plant down in time. Of course, time is the one luxury you haven't got...! **Skill Level: Moderate.**

(Contains Two Full Disks of Data!)

Maces & Magic

BY CHAMELEON SOFTWARE

Atari conversion by David Simmons

BALROG

Meet the Chromatic Dragon face-to-flame in BALROG, the first in the MACES & MAGIC Series. This fantasy adventure features one of the largest data bases ever created for a microcomputer role playing game. Not only can you create completely individual characters, but you may also choose from a huge inventory of specific weapons and armor items. Freeform input combined with choices suggested by the program makes the discovery of the more secret areas of the dungeon a real challenge!

STONE OF SISYPHUS

The STONE OF SISYPHUS carries you to a "thinking man's" dungeon, wherein you must apply your skills to effect survival and to realize your goals. This is an unfriendly subterranean world populated by hideous monsters, and dripping with fabulous treasures — the latter enticing you to face the former! Your survival hinges upon hard intellect, as opposed to the wispy uncertainty of chance, so be prepared to draw deeply from your intellectual reservoir! And — the responsiveness of the program to the individual qualities of your character make this grand adventure frustratingly enjoyable for hundreds of hours before all of its elusive secrets can be unlocked!

MORTON'S FORK

The third entry in the Maces & Magic series, MORTON'S FORK transports you into a world bereft of natural laws — a realm populated by magical beings and strange creatures. The scenario is set within the confines of an ancient wizard's fortress. Through your keyboard input, you equip your warrior with armor, weapons, and gold, as well as with desirable personal attributes. Only then will you be able to face the dangers of MORTON'S FORK! Features include multiple skill levels and a comprehensive manual describing the colorful Maces & Magic world.

MACES & MAGIC are fantasy adventures involving you and your computer. Armed only with your wits, a microcomputer, and the software provided, you can become the hero or the meal your destiny dictates. You create a character, equip him (or her) with suitable weapons and armor, and enter the dungeon in search of fame and fortune. Neither is particularly easy to obtain.

If you are successful in avoiding or conquering the various monsters, traps, enchantments and illusions set by our nefarious dungeonmasters, you may escape with riches and glory. Your name and deeds will be recorded for posterity in the records of the dungeon. More importantly, you'll be alive. You may then use the same character in his more experienced and wealthy form when you enter dungeons on later occasions.

In each dungeon there are random events which occur, but in the vast majority of cases the skill of the player in making correct choices determines the outcome of the game. The majority of instructions are furnished within the program in the form of appropriate prompts.

There are many ways to meet an untimely demise in the dungeon. Monsters and such are just one of the lines of defense between you and the treasures stored there. Various traps await the unwary (and the wary too). Some are lethal, while others are merely unpleasant or inconvenient. It pays to be suspicious. Beware of orcs bearing gifts.

The object of the whole exercise is not just to fight the monsters and collect treasure. You have to get out alive to enjoy it. In every dungeon there is at least one exit. It is possible to escape from each and every dungeon with a whole skin. We state that fact here because players often believe this not to be true. We really aren't out to get you. Not really...

Once you successfully exit from the dungeon, you will have an opportunity to save your character for further adventures in this and other dungeons. Your treasures will be converted to their gold equivalent and your weapons and armor stored in bat guano. When you start another adventure, you may call up your experienced character for another trip. The only limitation is that once a character is killed, he may reincarnated three times; after that, he is gone forever. No second chances, no tears, no breast beating. Gone. Kaput. Finished. You will have the distinction of adding to the dungeon statistics, however. A sort of secondhand immortality in recognition of a nice try. No glory or cash though. CHARGE!!

ABOUT THE KID VENTURE SERIES...

By James Talley
Converted to Apple
By Phil Schwartz

KID VENTURES are computer adventures into a child's world of make-believe. They are based on fairy tales and children's stories and are made so that your child may interact with the story. In the TRS-80 versions, cardboard cutouts with pictures mask all keys except the second row and the space bar. This helps little fingers to find the right keys and allows use by readers and non-readers alike. (On APPLE version, the game paddle is used instead.) In addition to musical sound effects, the story mode also includes a special play-along cassette tape which will provide story narrative. During the story, your child will have the opportunity to answer simple questions. If the answers are correct, the story will proceed; if incorrect, he or she will be given another chance or may learn the correct answer by pressing the space bar. You will be surprised at how much your child will learn, and your child can color the cardboard cutouts that are included with all versions.

KID VENTURE #1 - LITTLE RED RIDING HOOD

KID VENTURE #1 introduces you to Riding Hood, Grandma, and of course, the Big Bad Wolf. Includes a play-along voice tape and cardboard cutouts of characters that your little one can color, plus a quiz mode so your child can learn while having fun.

KID VENTURE #2 - TWAS THE NIGHT BEFORE CHRISTMAS

This delightful program features the classic Yuletide poem, graphically illustrated (and with accompanying voice tape) that your child will want to see and hear again and again. In lieu of a quiz mode, the memory game **MATCH MAKER** is included — fun for readers and non-readers alike.

KID VENTURE #3 - OLD McDONALD'S FARM

OLD McDONALD'S FARM is the latest entry in the **KID VENTURE** Series. It is a single-venture based on the popular age-old nursery rhyme. Written in a new format, this **KID VENTURE** does not require a separate voice tape.

LOCAL CALL FOR DEATH

Meet Detective Sir Colin Drolley, as well as a host of other intriguing rogues, as you set about the task of solving the perfect crime. You won't believe the incredible depth and detail of this great program as the action flow submerges you into a world of TOTAL participation! You should find this program quite a challenge, as you put your analytical skills and social savoir-faire to the test!

HIS MAJESTY'S SHIP "IMPETUOUS"

You are at the helm of HMS Impetuous. As Captain, your decisions could bring either fame or fortune or utter disaster to you and your crew. Do you hang the rash young seaman for his treason, or pardon him and risk undermining discipline? Do you obey your orders, or risk your ship in an encounter with the enemy? Weigh your alternatives carefully — each decision you make has hidden implications.

TWO HEADS OF THE COIN

In **TWO HEADS OF THE COIN**, you are one of the world's greatest detectives. Mr. Conway's wife, Georgina, has vanished, and now it's up to you to gather the clues and solve the mystery behind her disappearance! A psychological brain-squeezer set in the London of Sherlock Holmes, this one will tax your skills of deduction, as well as your imagination!

DRAGONS OF HONG KONG

It begins in a sleazy bar when your sole contact, Professor Goodman, is murdered by a jade dagger hurled by an unknown assailant. Now, acting on the limited information provided before the Professor died, you must face the terrors of the dreaded Gregarine Order, and the merciless Akbar D'Evile!

If you are perceptive, shrewd, and steadfast in the face of danger, then maybe you have a chance to free the world of an age-old blight, clear your name of a despicable crime, and finish the story in the arms of the woman of your dreams.

But, then again, there are other endings...

THE INTERACTIVE FICTION™ SERIES

by Robert LaFore — APPLE Conversion by Marin Computer Center

ABOUT THE SERIES

Amidst the glut and duplication of recreational software for the home computerist, there is now a novel new concept in microcomputer entertainment: The **INTERACTIVE FICTION(tm)** SERIES.

INTERACTIVE FICTION(tm) author/creator Robert LaFore has succeeded in eliminating the static structuring often found in entertainment programs in favor of a refreshing format which allows the player total involvement within inventive fictional situations.

As its name suggests, the ability to actually interact with characters and situations — to take part in the story — sets **INTERACTIVE FICTION(tm)** apart from the competition. The action begins when you react to a given situation or event, and then key in your response. You aren't limited to a couple of words; using full sentences is encouraged. You can enter the same situation time and again, and by using a different response, experience new twists of the adventure.

Explore the delightful world of **INTERACTIVE FICTION(tm)** — an engrossing and fascinating experience for all ages.

Interactive Fiction(tm) for the TRS-80 features the following full-length stories, plus "Encounter in the Park":

★ Local Call for Death ★ Two Heads of the Coin
★ His Majesty's Ship "Impetuous" ★ Dragons of Hong Kong

TRS-80 32K DISK Model 1 & 3 012-0081 \$29.95

Z-CHESS III

TRS-80

by Bill Miller

In the beginning, there was chess — quite possibly the most popular board game the civilized world had ever known. Eventually, with the advent and popularization of the computer, chess was adopted — as well as adapted — for use on the microcomputer. And now, the game has reached its apex — as the incredible Z-CHESS III!

Z-CHESS III is one of the fastest, most versatile chess opponents available for your micro today. With its seven levels of "look ahead" and its ability to accept and play all standard chess moves (including castling and En Passant captures), it is truly a challenge for both beginning and advanced players. It can play either white or black, and its versatile board set-up mode allows specific positions to be played as desired. Naturally, Z-CHESS III will solve mate-in-two problems and it will solve them FAST! Look out Bobby Fischer!

3-D TIC-TAC-TOE

ATARI
COLOR
COMPUTER

by Scott Adams

(ATARI conversion by Tom Schaeper)

The game of Tic-Tac-Toe has been a family favorite for years, and with good reason — the challenge and excitement never grow old or tiresome. Now, Scott Adams has taken this old-time favorite and upgraded it into a whole new experience — 3-D TIC-TAC-TOE! (ATARI version is by Tom Schaper) "3-D" means that instead of playing the game on a conventional 3 x 3 board, you must now rise to the challenge of four 4 x 4 boards stacked one atop the other! Featuring 8 separate skill settings from "dummy" to "genius," 3-D TIC-TAC-TOE offers a level of play that will please and delight just about everybody! This real-time game features sound, optional joystick compatibility, and is certain to thrill your friends and family. Believe us, until you've played 3-D TIC-TAC-TOE, you've yet to play the game at all!

THE MEAN CHECKERS MACHINE 2™

TRS-80

by Lance Micklus

Welcome to the world of checkers, a game that the entire family can play and enjoy. Your opponent is THE MEAN CHECKERS MACHINE 2™. Can you beat the computer? Sure — but only if you're careful!

At the beginning of the computer's turn, it begins searching throughout the checkerboard for every possible move. Once a legal move is found, the computer re-creates the move on an internal board, checking it against the playing board to see if the move looks promising. This "look ahead" function can continue up to 9 levels deep, depending upon the setting you choose.

Whether you're just starting out, or if you're already a checkers expert, you'll find that MEAN CHECKERS MACHINE 2™ will live up to its reputation as one of the greatest programs of its type anywhere!

BACK 40 III

TRS-80
APPLE

by Bill Miller & Steve Glen

The game that you've played and loved for years is now available for your micro! BACK 40 III is the last word in realistic Backgammon simulation — and, Backgammon buffs will appreciate this detailed machine language program which simulates the actual board game right down to the smallest detail. The computer is programmed to make some killer moves and uses excellent judgment in its use of the doubling cube. BACK 40 III also keeps a running total of games that have been won by both sides.

So, if you've been disappointed with other versions of this exciting game, now is the time to move up to a truly superior product. Fun for Backgammon fans of all ages, AND an excellent program for beginners and experienced players alike!

APPLE SPICE

**ALL YOU NEED TO EXTEND
YOUR APPLESOFT BASIC**

By Corey Kosak & David Fox

SOME OF APPLE SPICE'S FEATURES:

PRINT USING - gives your Apple the ability to print numeric values in a specified format. The syntax is similar to the PRINT USING command in other popular BASIC's. It supports commas, floating dollar signs, asterisk fill, and has an overflow indicator.

STRING SEARCH - allows your Apple to rapidly search through one string of characters for the occurrence of another string. It also supports searching a string for a list of words or phrases.

IF-THEN-ELSE - allows your Apple to execute one statement (or set of statements) if the "logical condition" (e.g., $A > B$) is TRUE and execute a different statement (or set of statements) if the condition is FALSE. You may use multiple lines and nest IF-THEN-ELSEs as deeply as you wish.

EXTENDED INPUT PACKAGE - makes entering data from the keyboard easier to control. Includes word warp (words which won't fit on the current line are moved to the next line down rather than being split in two), maximum string length control (will not accept characters past a length which you set), a control character filter (all control characters are ignored on input), and a selective character filter (allows you to specify up to 20 different characters which will be replaced by spaces during input).

SCREEN OUTPUT PACKAGE - You no longer need to spend time counting the characters in a PRINT statement to make sure a word doesn't break in the middle. In addition to automatic word wrap, this package allows you to set single, double or whatever spacing between lines, automatic "Press RETURN TO CONTINUE:" message when the screen fills (you set the maximum lines per screen), and automatic insertion of up to nine different variables in the text with an imbedded code. (Note: the Screen Output Package will not work on a printer.)

APPLE SPICE is a set of fast, assembly language routines that alleviate some of the drudgery of writing programs in Applesoft BASIC. APPLE SPICE allows you to concentrate more on your program logic and less on things like "prettifying" the screen and detecting keyboard entry errors. APPLE SPICE also greatly expands Applesoft's capabilities by adding features found in many larger BASICs such as PRINT USING, STRING SEARCH (INSTR), IF-THEN-ELSE, and LINE INPUT.

- Easy-Patch - Beginners with no machine language knowledge can use it.
- Excellent tutorial step-by-step manual. Written in easy-to-understand English.

APPLE SPICE is not copy-protected. You may include APPLE SPICE in your commercial programs without additional charge. Just mention that you used APPLE SPICE on your title screen and in your documentation.

APPLE SPICE comes with a clearly written hands-on manual (52 pages) that explains every feature in detail. All of the examples listed in the manual are included on the APPLE SPICE diskette, as well as some user-friendly programs that make it a snap to change APPLE SPICE's parameters and to relocate APPLE SPICE to where YOU want it in memory.

BASIC ROUTINES FOR THE ATARI

by Jerry White

Finally, a self-help system that cuts through the stuffy technical jargon and allows the user to learn effective programming techniques fast! BASIC ROUTINES FOR THE ATARI has been written especially for ATARI 400 or 800 users who wish to write programs in BASIC. This package comes complete with an extensive manual and your choice of a tape or disk which contains all of the routines from the manual — which means you'll be able to actually see each of them in action on your ATARI. Some of the BASIC routines include joystick, sound, player missile strings and much more — and presented in a way that you'll quickly be able to learn and apply to your own programs.

If your programming ability lies somewhere between beginning and advanced, then look no further — BASIC ROUTINES FOR THE ATARI is the system for you.

BASIC ROUTINES book with 16K TAPE

HOW TO ORDER ADVENTURE INTERNATIONAL SOFTWARE

FROM YOUR DEALER

Adventure International software is available from over 1400 retail stores in the United States, and is also available in twenty-six foreign countries. Your local dealer can give you personal service; however, if your dealer does not have in stock the Adventure International program you want, you can order it directly from us.

BY MAIL

- 1) Put the peel-off label from the back cover of this catalog in the address space on the order form. Correct any information on the label that is inaccurate.
- 2) Fill in the catalog number for **each** product you wish to purchase. Make sure you write down the catalog number that is listed for the program, the type of media (disk or tape), and computer system desired.
- 3) Fill in the quantity of each item, the name of the program, the price, and the total cost of merchandise. (If you live in Florida, add 5% sales tax.)
- 4) Fill in the amount of postage and handling from the table, and determine the final total.
- 5) Indicate how you want to pay. If you use your charge card, please fill in all applicable information.
- 6) Place the order form in an envelope, seal the envelope, affix the correct postage and mail it. *Thank you!*

ORDER BY PHONE

**You can call Toll Free: 1-800-327-7172
for FAST service**

Or, if you're in Florida, call 1-862-6917. Our phones are staffed from 9 AM to 10:30 PM EST Monday thru Friday, and from 10 AM to 6 PM EST on Saturday. On Sunday we rest and play Scott's Adventures.

SHIPMENT

All retail orders are shipped within 5 working days.

Foreign orders other than Canada, Mexico, the Virgin Islands and Puerto Rico, please add \$3.00 for air shipment.

Please pay in U.S. funds only. Prices are subject to change without notice.

HOW TO TELL IF YOU WILL RECEIVE OUR NEXT CATALOG

Check the mailing label on the back cover. There is a three digit Alpha-numeric code after your name. If the code begins with a letter between "A" and "W", then you will receive the next catalog.

If there is no code or the code begins with "X", "Y" or "Z", peel off the label from the back cover and place it on the order form. Mail the completed order form back to us and we will make sure you get our next catalog.

DO YOU KNOW ANY MICROCOMPUTER OWNERS WHO WOULD LIKE TO RECEIVE OUR CATALOG?

If you do, write their names and addresses on the back of our order form and we will be happy to send each of them a free catalog.

Adventure International wants to add
hours of fun to your life.

Have you signed and enclosed your check
or indicated your charge card number?

Is your correct address
on the order form?

COMPUTER EXPO '83

FEBRUARY 25 - 27, 1983

at Orlando's Tupperware Convention Center

Coming in February 1983, the Second Annual Computer Exposition — COMPUTER EXPO '83! That's right, last year's show was such a hit that we've decided to go "annual"! And this year's show will be bigger and better in almost EVERY respect. Projected attendance is almost double that of last year's show, which was well over 10,000 for the three-day event.

COMPUTER EXPO '83 will feature scores of dealers and representatives from many of the major micro-computer retail operations and companies, and a full range of the latest hardware and software will be made available for your inspection. Many of the larger publishing companies will be in attendance, and — there'll be special seminar sessions running during show hours that will feature many important industry "insiders."

COMPUTER EXPO '83 is certain to be THE computer software/hardware fair of 1983. And we're only minutes from Disney World, Epcot, and dozens of other great Florida attractions, so make plans now to attend this great event.

See you at COMPUTER EXPO '83!

NOTE: There are a limited number of exhibition spaces left. For additional information, contact:

Computer Expo '83
Executive Director
P.O. Box 1185
Longwood, FL 32750

If you know any other microcomputer owners who would like to receive our catalog, please list their names and addresses below.

S.A.G.E. Scott Adams' Graphics Editor

ATARI

At last — an excellent graphics editor for ATARI owners! The Scott Adams Graphics Editor allows the user to draw and edit highly compressed (Graphics Mode 7 1/2) pictures using over 50 different colors & shades. This is the same editor developed and used by Scott Adams to create the vibrant graphics in his highly acclaimed S.A.G.A. Series.

Pictures created with S.A.G.E. may be inserted into BASIC or machine language programs that you've written, leaving four lines or half the screen respectively for text placement at the bottom of the screen. With the machine language interpreter stored in memory, the user will have room for approximately 16K of user programmable memory in both tape and disk versions. The pictures placed in memory are stored in a compressed numeric format, which means that they can be saved onto either tape or disk or even embedded into a BASIC program as a string!

But can I change the color palette, you ask? Certainly! A full range of colors is available with S.A.G.E. which contains between 50 to 100 colors & textures each per picture, all of which can be altered to suit your specific needs. A sample palette is included, too. Here are some more reasons why YOU need S.A.G.E.:

- ★ Drawing speed — pictures load & draw fast!
- ★ Picture Size — many of the pictures created with S.A.G.E. in the S.A.G.A. Series used only 300-400 bytes of memory — clearly an improvement over the "old way" which could eat up 4000-8000 bytes or more to store the same picture!
- ★ Pictures look identical on both the newer ATARIs (which use the GTIA chip) and the older models (which use the CTIA chip). Unlike many graphic packages available on the market today, S.A.G.E. provides great picture quality on identical systems used in Europe, too!
- ★ S.A.G.E. allows the user to place graphics quickly and easily into your own programs.
- ★ S.A.G.E. package includes both tape and disk versions and an easy-to-use manual.

ATARI 400/800 32K TAPE and 48K DISK Both in one package!
054-0166 \$49.95
Available February, 1983

NOTICE TO SOFTWARE AUTHORS

If S.A.G.E. is utilized in developing any graphics routines within a program intended for publication, it must first be offered to Scott Adams, Inc. for publication under the company's standard software contract. If the program is not accepted for publication by Scott Adams, Inc. and is published by another company, there will be an annual fee of \$50 levied to license the package within the program. Programs published by Scott Adams, Inc. which use S.A.G.E. in any of its graphics routines will have the licensing fee waived and will receive our usual high royalty rates. There are, of course, no obligating constraints regulating any non-published program utilizing S.A.G.E.

DISKEY

by Sparky Starks

ATARI

NEW!

**Includes 61
pages of
concise,
informative
documentation**

Potential into practical reality. This is the core of DISKEY — a remarkable utility program that gives ATARI disk drive owners the flexibility to accomplish tasks that other utilities either ignored or only hinted at. With DISKEY, the user will be able to actually examine a disk and its directory, and repair some files that might otherwise have been lost. DISKEY also performs a multitude of other practical functions, including the following:

- ★ Automatically lists any unreadable or destroyed sectors
- ★ Sends contents of disk to printer selectively
- ★ Up to four separate drives may be addressed
- ★ Can be used to backup some of those "unbackupable" disks
- ★ Allows direct examination of any file
- ★ Over 50 separate key functions available

As an ATARI 400 or 800 owner, you have extraordinary power and versatility at your disposal. Tap into those resources effectively with DISKEY — new from Adventure International.

ATARI 400/800 32K DISK
052-0158 \$49.95

(Note: Some features will require 40K)

Here's a partial list of key functions available with DISKEY:

A	Clear screen and filename	reference
B	Byte compare, D1 to D2, OS to DS	cH Hex to decimal, ASCII conversion
B	Copy sectors, OD to DD, OS to DS	cL Locate bad sector on drive OD
C	Toggle destination drive	cN Modify sector file number reference
D	Erase disk (format)	cO Select one drive functions sub-program
F	Select file sub-menu	cP Print current Disk Map
L	Set automatic function lower limit (OS)	cR RPM test drive OD
M	Modify Sector Map	cS Special file copy, no directory reference from source
N	New destination sector	cV VTOC update and repair, drive OD
O	Toggle originate drive	cY Toggle Sure Response prompt enable
P	Print screen to printer	FA File binary load address headers to printer
Q	Query (search for hex key, drive OD, sector OS to DS)	FD Delete file
R	Read new OS, set DS to match	FF Select filename for all file functions
S	Search for ASCII key, drive OD, sector OS to DS	FL Lock file
T	Tape to disk	FM Show memory address load position in file
U	Uppercase conversion of printer lower case	FQ Relative Query
V	Toggle write verify	FR Rename file
W	Write memory buffer to sector DS, drive DD	FS Relative Search
X	Select EOR Sector Map screen print mask	FT Trace file, return file type and file condition
Z	Zero memory buffer	FU Unlock file
+	Read upward, next sector on disk	FX Return to main menu
-	Read downward	F+ File relative upward read, next sector
?	Directory information	F- File relative downward read
!	Select directory sub-menu	dE Select new file extension
cB	Byte compare, D1 to D2, whole disk	dF Select new first sector
cC	Copy D1 to D2, whole disk	dN Select new file name, not including extension
cD	Decimal to hex, ASCII conversion	dT Select new total sectors
cE	Erase disk (without new format)	dW Write sector to disk
cF	Modify sector forward sector chain	dX Return to DISKEY main menu

ACCESSORIES

Book of **BASIC ADVENTURES**

foreword written by
Scott Adams

Adventure-mania is sweeping the world! And now, in answer to hundreds of inquiries, Bob Liddil (of the Programmer's Guild) has compiled and edited an indispensable new book that will take you step by step into the unique worlds of creating your own adventure! Targeted for the do-it-yourself computerist, BASIC ADVENTURES strips away the mystery and shows you just what an adventure is, how to play adventure, how to write adventures, how to sell your adventures and more! Over a dozen famous adventures are listed here (including one by Scott Adams), ready to be typed in. The secret techniques and methods of the masters are all here — plus, BASIC ADVENTURES includes a unique adventure generator program which will actually write another BASIC adventure program — not even the author will be able to predict the outcome! This 250-page tome will pay for itself many times over in the currency of sheer enjoyment. And who knows — you may soon be selling your own adventure!

099-9052 \$19.95

QUICK REFERENCE CHART FOR ATARI 400/800

Compiled by Daniel V. Horn II

If you're tired of searching through reams of technical manuals and books to find out exactly what those mysterious error codes mean, help is here! The Quick Reference Chart is a handy, pocket-sized reference card that lists in abbreviated form error codes, color values, graphic screen dimensions, joystick and paddle read values, and much, much more. The Quick Reference Chart is printed on lasting, durable stock and will provide quick-as-a-glance information as you need it.

So, stop wasting your valuable programming time and start enjoying your ATARI to its fullest. This is the "peripheral" that everyone can afford but no one can afford to be without!

STICK 80

TRS-80

Some of Adventure International's TRS-80 Model 1 & 3 programs are joystick compatible, and more are being converted all of the time. Now more than ever, you can get true arcade pizzazz and feel from your micro! This is the famous ATARI joystick, redesigned to work with any LEVEL II tape or disk TRS-80 Model 1 or 3 system. STICK 80 plugs directly into keyboard or expansion interface and is compatible with other accessories.

So don't be left out — turn your TRS-80 into an arcade machine today with a fully assembled and tested STICK-80!

099-9051	\$39.95	Model 1 Version
099-9053	\$39.95	Model 3 Version

COMPUTER SHADES

One of the problems inherent with prolonged viewing of a CRT is eyestrain. Harsh glare from a black and white monitor can begin to take its toll after just a couple of hours of steady viewing. Our green window will not only eliminate glare and eyestrain, but will make your micro more attractive to "boot." No tools are necessary — attaches in seconds to your monitor using no-mess adhesive stripping and can be removed at any time. Great for utility and recreational programs alike!

TRS-80 Model 1	099-9019	\$19.95
TRS-80 Model 3	099-9044	\$24.95

ARCADE GAMES

REAR GUARD

TRS-80 version by Wayne Westmoreland and Terry Gilman

APPLE version by John Anderson

ATARI version by Neil Larimer, assisted by Sparky Starks

Seldom has there been a program charged with such arcade-like power! In an awesome display of graphic realism, you are there — charged with protecting your mothership from the deadly waves of inhuman Cyborgs that are approaching from behind. You must maneuver around their ships as they pass and destroy them before they move offscreen and into contact with the mothership.

REAR GUARD flaunts the full range of your computer's sound capabilities, and features graphics so crisp and fluid that they actually seem to border on advanced computer animation! REAR GUARD also features many extras which are normally found only on expensive arcade machines, including advanced play levels, running high score (with a high score "clear" option), sharp graphics, horizontal scrolling and truly mind-boggling sounds.

So, if you've been searching for a program that will squeeze the maximum from your machine, then you've found it. REAR GUARD — your computer may never be the same!

TUNNEL TERROR

by Eric Popejoy

APPLE

Space and time go berserk in TUNNEL TERROR — an Apple experience that will shatter your senses! The scenario: While your ship moves around the circles on the edge of the dimensional tunnel, the enemy will move up the sides until they either reach the top or are destroyed by your ship's fission torpedoes. The enemy is varied as well as deadly: "Walker-Carriers" split into two "walkers" upon reaching the tunnel exit and will try to destroy your ship; "Crazies" are unpredictable and may attack upon emerging from the tunnel or retreat back into it — if you're lucky!

TUNNEL TERROR can be played by 1 to 4 players and features exciting sounds, high score save and 61 levels of difficulty to challenge both the beginner and the advanced player. You can choose either Apple Paddles or keyboard control, too! White-hot action from the fantasy masters, Adventure International!

LUNAR LANDER

TRS-80

by Mike Wall & Jack Moncrief Joystick Compatible!

This is Lunar Lander — an awesome arcade simulation that challenges you to defy the rigors of space flight! In this version of the popular game, your micro will be taxed to its graphic limits! Written in fast machine language, the landscape scrolls horizontally by as you guide your LEM (Lunar Excursion Module) across the lunar surface. As you near your selected landing site, the automatic camera left behind by the previous mission "zooms in" for a tight close-up of the final descent! Each crash will cost you 1000 fuel units, but for the skilled player, relief can be found at the ravine's bottom with a refill at the fuel depot!

STARFIGHTER

TRS-80

by Sparky Starks

Until now, you may have never experienced it — the electric thrill of an involvement so intense that the passing hours collapse seemingly into moments, and what might have been perceived as mere entertainment before has now shaped itself into the tangible magic of incredible challenge.

You may have never experienced it. But you will — and the experience has a name — STARFIGHTER, the last word in arcade simulations.

To refer to STARFIGHTER as a game is to pigeonhole it along with other simulations and programs which only hint at the capabilities the microcomputer can provide the user on an entertainment level. STARFIGHTER brings a gloss and sophistication to your micro that will not diminish with time, for the challenge is nearly endless. STARFIGHTER marries the physical playability of an arcade machine with the intellectual — without the ability to make rapid, intelligent decisions, one may not experience the comforts of old age in the STARFIGHTER universe.

The STARFIGHTER player begins his tour of duty as a NEW PILOT. At this embryonic stage, he or she must prepare for the mission ahead — a mission which will consist of the identification and destruction of enemy craft. Perhaps in time (but only perhaps), the coveted rank of STAR LORD can be attained. But for now, one need only concern oneself with basic survival.

STARFIGHTER is a multiple skill level game with razor-sharp graphics and sounds that will return its cost a hundredfold in sheer enjoyment. The STARFIGHTER package includes two program tapes (separate Main Mission and New Pilot Simulator), or one self-booting disk, and an extremely detailed 32-page manual.

ARMORED PATROL

by Wayne Westmoreland & Terry Gilman

If you think you've seen it all game-wise, then Adventure International has a program for you! ARMORED PATROL is a 3-D arcade-style game that is a definite heavyweight in the action department! Your mission is to patrol your sector and destroy all enemy tanks and robots with your tank's high energy plasma weapon. Fueling the excitement is a realistic you-are-there perspective that lets the player view the action from the inside of his powerful T-36 tank as it prowls an alien landscape in search of the waiting enemy. ARMORED PATROL is packed with lots of extras, including running score tally, sound, and high score display. But the most impressive feature of ARMORED PATROL is the incredible graphics which create the total illusion of movement and dimension. ARMORED PATROL accommodates one or two players so you can share the action with a friend!

THE ELIMINATOR

TRS-80
APPLE
ATARI

TRS-80 Version by Wayne Westmoreland & Terry Gilman
APPLE Version by John Anderson
ATARI Version by Steve Coleman

Let's face it, the true measure of any program's worth is simply how much you enjoy it. Since the release of the TRS-80 and APPLE versions of THE ELIMINATOR, fans and reviewers alike have spared no adjectives in praising these dynamic powerfests. Now, the action continues with the release of THE ELIMINATOR for the ATARI 400 and 800 computers! Your mission unfolds at a breakneck pace as you pilot your Eliminator craft over alien terrain and square off against hordes of marauding enemy ships. But the action doesn't stop there! THE ELIMINATOR pulverizes the competition with realistic sounds, superlative graphics, running high score and joystick compatibility on ALL versions — and these are just a few of the many "extras" included.

Arcade-style action at its finest, for the TRS-80, APPLE and the ATARI systems, THE ELIMINATOR is here and available now!

PLANETOIDS

TRS-80
APPLE

Apple Version by Marc Goodman
TRS-80 version by Greg Hassett
TRS-80 version currently being co-marketed by Adventure World under the name "FASTEROIDS."

Occasionally a game comes along which generates favorable public response to such an intense degree that it will actually develop cult status. PLANETOIDS is such a game!

It's your ship versus a swarm of killer planetoids and alien ships as you try to destroy them before they blow you into the next galaxy! PLANETOIDS gives you super-sharp graphics and sound effects (in the APPLE version), making this a sure bet for hours of unlimited fun.

The TRS-80 version is a dynamic heavyweight in its own right, including many extra features and playing modes. The "practice" mode will let you try out the game at some of the more difficult levels offered by being in a high score position. "Freeze" allows you to stop your game at any point to resume play later and "high speed" will increase the velocity of the passing planetoids. Add to all of this abort, "cruze," dogfight and score save (on cassette version only) options, and we think you'll agree that PLANETOIDS is arcade-style entertainment at its finest!

SPACE INTRUDERS

by Doug Kennedy

This is a state-of-the-art presentation of one of the most popular concepts in computer history! SPACE INTRUDERS singlehandedly redefines the meaning of "game" as you plunge into an experience beyond anything you've ever seen before!

The scenario: As battalions of evil invaders descend from the heavens, you jump into your laser turret and begin defending the earth from their unending attack! There's no way to survive — the more intruders you destroy, the more will arrive to crush their earth-bound opposition! The challenge is in the trying — and with SPACE INTRUDERS' many features and extras, such as the SOS of escaping invaders to the splitting intruders — the challenge is FUN! Throw away all previous versions. The ultimate is now available!

MISSILE ATTACK

TRS-80
APPLE

by The Cornsoft Group

Apple Version by Eric Popejoy

New For Apple

This real-time action game pits your twin silos of ABM's against a barrage of enemy missiles that are raining down upon your cities. MISSILE ATTACK will sharpen those reflexes to a cutting edge as you sight in on the descending ICBM's and attempt to score hits before they decimate your cities. As your skill increases, so does the difficulty of this arcade-style game. Sharp, detailed graphics and realistic sound effects make MISSILE ATTACK a must! One of our most popular arcade simulations — the entire neighborhood will be over to play this one!

PREPPIE!

by Russ Wetmore

ATARI

Preppie is here! Teeing off on the course may be delightfully fashionable but it can be pretty dangerous on this crazy green! Preppie is a graphics tour de force that dares you preppie to cross an alligator-filled river and recover wayward golf balls. Dangers lurk everywhere — from speeding golf carts to monster frogs. Only a true Ivy Leaguer could face up to this kind of punishment!

Preppie is a real-time game that's written in fast-paced machine language, and Mummy would most certainly approve of its high score save feature, inventive sound routines and joystick compatibility. Preppie also showcases a wide range of the Atari's colors — twenty-eight in all — that will delight and thrill the most fashion-conscious gamer.

So, why go slumming with lesser simulations? You'll be the toast of the country club with Preppie — new from Adventure International!

BUG OFF!

by Sparky Starks

ATARI

Looking for something really different? BUG OFF! Do you demand great, quality graphics? BUG OFF! Are you ready for more fun than you can shake a walking stick at? BUG OFF! Heavens no, we're not getting personal — we're just announcing the newest and perhaps wackiest arcade-style game to hit the ATARI yet — BUG OFF!

This is one game that will bug the heck out of you — but enjoyably so! Your garden has fallen into a Florida sinkhole where weird forces have mutated a bevy of bizarre bugs into a contingent of killers! In this case, relief is spelled D-D-T, and you'll need oodles of it to dispatch these pesky pests!

BUG OFF literally buzzes with excitement with pincer-sharp graphics and more colors than an exploding paint factory! The object of the game is to control the seven different types of bugs that are threatening to run helter-skelter over everything. And what an assortment there is! Butterflies and moths spin deadly cocoons; caterpillars drop teeny-weeny lady bugs by the score, and spiders and wasps add a sinister touch to the rabble roster. If you're lucky, the Army will airlift in more DDT in time; if not — well, we won't talk about that!

So, grab onto your joystick and brace yourself for the battle that'll shake your house to its (hopefully treated) foundation! BUG OFF! The only bugs around no one minds in their computer!

SHOWDOWN

by Russell Starkey

TRS-80

Now — all of the excitement and action of an authentic Old West gunfight can be yours with Russell Starkey's SHOWDOWN! Designed with arcade-tough playability, SHOWDOWN delivers the goods fast and furiously!

In SHOWDOWN, two gunslingers are pitted against one another in a dusty duel to the death. (You can play the computer or challenge a human partner.) Once you square off against your opponent, you maneuver your cowpoke into position for the kill, using various keys on your micro's keyboard which will raise or lower his firing arm. And — the moving obstacles between you and your nemesis will really keep you on your toes! Have fun, but have a care as well — life comes cheaply in the badlands!

TREASURE QUEST

by Luke Buxton

Atari Conversion by Dan Horn

TRS-80
ATARI

If you've ever wanted to captain the trackless seas of the world in search of riches beyond measure with a band of treacherous dogs who happen to double as your crew, then this game should act as a most effective substitute.

As captain of the 18th century sailing ship Zombie, you have come half a world in your quest for treasure. Your journey has brought you to the nefarious Blood Straits, and perhaps to a rapid death as well! In your favor are accurate chartings of the area, a dependable navigator, and a seasoned crew. However, the Blood Straits is an area frequented by both violent storms and an unsympathetic British Navy, which may mistake you and your men for pirates. A fickle crew and a rapidly approaching hurricane season round out your problem roster!

In TREASURE QUEST you give a series of commands to your microcomputer as you go about searching for buried or sunken booty. A detailed instruction booklet is included to clarify and expound upon the various situations that you will encounter, along with advice and hints to aid you in your search. Each game begins differently, so you are assured of many hours of seafaring fun!

TUTTI FRUTTI

ATARI

by Alan M. Newman

Get ready to savor a fruttl fest served up ATARI style — TUTTI FRUTTI is here, and Adventure International's got it! There's a wild and wacky place somewhere between Never Never Land and next Thursday where an orchard of fruit relaxes and ripens under a peppermint sun. It's a great place for your famished fruit-munching "Hungry" to pick up a quick snack. But hold on a minute — there are some nasty bugs that are threatening to spoil the fun. Will you be able to avoid the little meanies and fill your Hungry's tummy with the fresh fruit?

TUTTI FRUTTI is a colorful, machine language game for one or two players that'll have the whole family camped out around the ATARI! The action takes place in a jungle clearing where your joystick-controlled Hungry chows down on a variety of exotic fruits and pastries. Bite a banana, gobble a grape, or polish off a pear — but be sure to avoid the trees and bugs! Eat everything, and advance to the next level, and maybe — just maybe — you'll get a crack at the Key to Everlasting Tutti Fruttiness!

TUTTI FRUTTI will give your ATARI a real workout with its hi-res graphics, vivid colors, and lively sounds. And, you have complete control over numerous options, including the speed of the attacking bugs, the amount of fruit available on each level and lots more.

We're ready if you are! TUTTI FRUTTI is here NOW and the action's never been wackier. Guaranteed to be "grape fun" for the whole family!

SUNDAY GOLF

ATARI

by Jerry White

It's true — you can enjoy all of the fun and excitement that goes into a great round of golf, right at home — with Jerry White's SUNDAY GOLF! Select the type of course you wish to play on, the number of players (up to 4), and even the type of club that you'll need to sink that elusive hole-in-one.

SUNDAY GOLF realistically simulates all of the energetic strategy which makes golf the exciting sport that it is today. Nice graphics and sound may make you think twice before shelling out another green fee! Includes a graphic scoreboard that keeps a running tally of the hole number, par, and player's name. This is one course that is open for fun 24 hours a day!

- Payoffs are made using Atlantic City odds.
- Up to 8 players may play.
- The computer can also participate as a player and make bets.
- Includes sound effects and animated dice roll.
- Maximum bet limit increases or decreases according to your winnings.

PERSONAL CHECK MANAGER

TRS-80

by Jack McCabe

This disk-based system consists of several chain-ed BASIC programs which combine to make up a very powerful package. PERSONAL CHECK MANAGER will support up to 900 checks per year, recorded in up to 24 different accounts. PCM also keeps track of payroll information for tax time. All in all, a very good system for the price. A must for anyone who needs to streamline his or her personal check accounting system.

(One modem must be able to originate, the other answer.) If both computers are in same room then the two RS-232 cables may be connected with no modems or phone line required. Note: Atari doesn't support Lynx.

COMMBAT

by Bob Schilling

Requires 2 Complete Computers

COMMBAT is a strategic and tactical battle game that will allow you (interacting through your computer) to pit your skill and dexterity against another player and their computer in a real-time battle to the death!

You and your opponent are located in a 4096-square-kilometer combat reservation with exactly the same resources available to each, the outcome to be governed only by the skills of the players. As soon as you have established serial communication with your enemy (110 to 9600 baud modem or direct connection), the battle begins! You decide which weapons to carry, then load them onto and maneuver up to eight remote controlled tanks with the primary goal of finding and destroying your enemy's base before he can do the same to you. Each enemy tank that you can defeat in combat lessens his chances of finding you.

Offensive and defensive weapons available to you include: rockets, lasers, shells, mines, decoys, drone reconnaissance aircraft and one nuclear ICBM. All but the last two items may be loaded onto, carried by and fired or dropped by your tanks, up to their maximum load-carrying capacity.

Your computer displays current resource status, a map of the combat reservation updated by tank, base and decoy sensors, and handles all communication chores, freeing you to make the strategic decisions and handle the tactical battle situations that arise.

COMMBAT requires two computer systems, each with a RS-232 port and a 300 baud full duplex modem. Different types of computers may be used; for example, a TRS-80 user may play an Atari user.

WAR

by Stan Erwin

APPLE
ATARI

State-of-the-art brilliance comes to the APPLE and ATARI computers with WAR — a detailed war game for one or two players. Your army consists of armored units, infantry units, engineer units (which can either build or destroy all-important bridges), and aircraft. Set against a backdrop of forests, cities and rivers, you must move your units into battle and eventually destroy your opponent.

WAR comes complete with an extensive instruction manual that outlines all of the strategies and tactics that you'll need to execute a winning game. WAR is certain to provide the avid war gamer with many hours of colorful excitement and action-packed fun.

CONQUEST OF CHESTERWOODE

by Lun-Shin Yuen and Allan Armstrong

Several hundred moons ago, your ancestors migrated north through the dark Forest of Chesterwoode. During their trek, they met up with the dreaded basilisks, scores of worgs, a terrible worm, and many other dangerous creatures. The legends of the past have been lost, but tales were handed down through word of mouth for generations. In Chesterwoode, the voyagers began to think they would never leave that dark realm, and indeed, Chesterwoode is said by some to be eternal. Eventually, settling upon an area, the leaders of the wandering group surveyed a piece of land and divided it into 63 provinces. But as time passed, war swept through the provinces, and the remaining tyrants who had risen to power over the years, died out and were soon forgotten.

Each of the players in CONQUEST OF CHESTERWOODE is a descendant of one of the ancient tyrants. Your goal is to unite the provinces and modernize farming.

This is a war game similar to the strategy board variety, right down to the "hex" layout on your screen. CONQUEST OF CHESTERWOODE is a hybrid language, graphics-oriented game for 2 to 4 players. Disk version allows 1 player to challenge the computer. Truly a superior program, you will find CONQUEST OF CHESTERWOODE a unique and addictive playing experience.

Galactic Empire. Galactic Trader. Galactic Revolution. Each an individual chapter in an expansive saga that spans the universe. Author/Creator Doug Carlston (Atari conversions by Dave Simmons) has weaved an intricate mise-en-scene that takes you across the galaxy and into contact with distant worlds and strange alien societies. The voyage begins with Galactic Empire which puts you in command of a fleet of starships and challenges you to conquer and hold the twenty inhabited worlds of the central galactic system. Next, Galactic Trader finds you removed from the lofty position of command you enjoyed in Empire, but provides the opportunity for you to buy your way back to the top through the avenues of galactic trade. Lastly, Galactic Revolution — the final conflict — lashes the series together as you try to unseat the evil Emperor from his position of power.

The Galactic Series can be played and enjoyed either as a whole or separately. Each chapter comes complete with instructions and Galactic scenario which outline in full detail the universe according to Carlston. Experience the sweeping panorama of galactic conflicts and quests of epic proportions — experience the Galactic Series!

C.R.I.S. II!**

C.R.I.S. **Cash Register Inventory System** *by Scott Adams*

"We've used this system in our retail store for over a year now, and it's great"

— Pete Bender, Manager Adventure International Computer Store

The computer age comes to your retail business via C.R.I.S. (Cash Register Inventory System) — a complete software package that will literally convert your ATARI 400 or 800 into a total point-of-sales terminal. With C.R.I.S., you can perform virtually any of the functions found on standard register systems costing up to 10 times the price. But C.R.I.S. is also a complete inventory control system, too! Information on backorders, total items sold, items in stock, stock ordered, vendor numbers — it's all here and at your fingertips. C.R.I.S. also prints complete inventory reports, including purchase order, stock inventory, end of period, AND it will print customer sales receipts, just like the "Big Machines" do! Here's more:

- ★ Holds up to 1000 separate inventory items (1400 with C.R.I.S. II)
- ★ Supports up to 10 salesmen
- ★ User-defined commission rate based on total sales and is individualized to each salesman
- ★ Accepts stock name of up to 20 characters in length
- ★ Up to 16 items can be listed on each invoice
- ★ End of Day, End of Period, and Purchase Order reports can be generated at any time
- ★ Easy error correction and recovery
- ★ Many "password-protected" functions to help prevent accidental data loss
- ★ Calculates totals on sales tickets and computes change
- ★ Comes complete in an attractive binder with user-friendly documentation
- ★ Requires only 1 disk drive (2 required for C.R.I.S. II)

And now, included with each and every copy of C.R.I.S. is C.R.I.S. II. This latest version features the dependability of C.R.I.S. I with the added punch of a whopping 40% increase in storage capacity. Since C.R.I.S. II requires an additional 8K of memory (for a total of 40K) and two disk drives, you can purchase C.R.I.S. I for use now on your one-drive, 32K system, and move up to C.R.I.S. II whenever you decide to expand your system. It's actually two programs for the price of one!

Completely menu-driven, C.R.I.S. doesn't require a degree in computer science to use; its easy-to-follow 31-page manual will lead the user step-by-step from initial power-up to final report generation.

If you manage a small business and have ever considered "going computer," now is the time to move up to the finest in point-of-sales and inventory management — now is the time to move up to C.R.I.S.

ATARI 400/800 32/40K DISK (Includes C.R.I.S. II) 052-0132 \$249.95

C.R.I.S. has been designed for use with the following equipment:

- ★ ATARI 400 or 800 with 32K memory (40K required for C.R.I.S. II)
- ★ Atari 810 disk drive (2 drives required for C.R.I.S. II)
- ★ Black & white or color TV
- ★ 40-column printer (if customer receipts are to be issued)
- ★ 132-column printer (for report information)

We recommend having both printers (receipts can be run on the 132-column printer) and a second disk drive (to make backups easier). These peripherals are optional and can be added later.

MAXI CRAS

CHECK REGISTER ACCOUNTING SYSTEM

TRS-80

by Dale Kubler

Maxi CRAS (Check Register Accounting System) is a TRS-80 computerized check writing and recording system for personal or small business use. With Maxi CRAS, you can print a month's worth of checks in minutes (singly or on continuous forms), or you can write checks by hand and enter them into the register at your convenience. Maxi CRAS also eases the burden of reconciling your bank statement by providing the information you need to know quickly and efficiently. And Maxi CRAS **never** places a limit on your financial activity like some systems — **write as many checks per month as you need!**

But Maxi CRAS does much more than balance a checking account; it's an indispensable tool for managing money most effectively. You create up to 223 income and expense accounts in the system, and at any time, you can print a detailed statement that shows all activity in one or more of your accounts over a specified period of time. You always know exactly where your money is coming from and where it's going.

There's more! You can print complete check registers, income and expense sub-totals, and an account distribution statement that tells how each transaction was distributed over the individual accounts.

If you're weary of the messy, inefficient ledger method of bookkeeping; if you've been disappointed with other financial managing systems that don't deliver what they promise, then you're ready for best. We mean it when we say — **MAXI CRAS MEANS BUSINESS!**

ORDER NOW!

MAXI STAT

TRS-80

by David Walonick

MAXI STAT is a revolutionary new program that was designed as a complete analysis package for the TRS-80. If you're familiar with SPSS (Statistical Package for the Social Sciences) and what it does for statistical analysis on mainframe computers, then you have an idea of what MAXI STAT can do on your microcomputer. The following description of MAXI STAT is divided into the 3 main components of statistical analysis:

(1) CODEBOOK

The codebook describes the data file format and the labels to be used for all statistical printouts. The four programs have been designed for complete codebook creation and editing. They are menu-driven and have incorporated several automatic error-checking routines.

(2) DATA ENTRY

MAXI STAT's data entry procedure is designed for speed and ease of entry. Entering and editing the raw information you wish to analyze is facilitated by the use of either fixed or free format. The four Data Management programs are menu-driven and are designed with a special backup feature that will save the data on disk at user-specified intervals.

(3) CONTROL FILES AND STATISTICAL ANALYSES

With MAXI STAT, you create the task control file to describe the types of analyses you would like printed. Hundreds of tasks can be specified with only one control file and analysis may be done on ranges of variables.

MAXI STAT is the most useful statistical analysis package on the market today. It was written and designed to allow maximum flexibility in designing your own analyses.

If you're in need of a program that adapts to your specifications, you need MAXI STAT.

MAXI MAIL

TRS-80

by Dale Kubler

The **ultimate** in low-cost mail management is now here — MAXI MAIL, the latest entry in the highly acclaimed MAXI series. MAXI MAIL is a powerful mail list management system that's easy to use and has **totally unlimited storage capacity**. Completely menu-driven and loaded with error trapping routines and safeguards, each MAXI MAIL data disk will hold approximately 1000 names and addresses; you can add as many extra data disks as you like! MAXI MAIL prints address labels, too — up to four across and in any configuration you want. An alignment test ensures that everything is just right before your data printing begins. MAXI MAIL also merges data, supports three numeric codes (of up to four characters each), and offers all of the features necessary for professional mail list management.

So, if you need a dependable, easy-to-use mail list management system at an affordable price, your search is at an end. MAXI MAIL means business!

The finest
Data Base
Manager
Available

MAXI MANAGER

MAXI MANAGER. The culmination of years of development and research is now ready to go to work for you — ready to be utilized for your most demanding business and personal applications. **MAXI MANAGER** is the finest data base managing system available on the market today. And hundreds of satisfied users will quickly tell you that's no exaggeration.

MAXI MANAGER for TRS-80 Models 1 & 3
Requires 48K of RAM and 1 disk drive minimum

MAXI MANAGER is compatible with NEWDOS
2.1 & NEWDOS 80 & DOSPLUS & LDOS

MAXI MANAGER comes on TDOS, a special
version of the DOSPLUS operating system.

**Just Released: Version B.0 (Includes
Maxi Manager Utility Pack #1)**

MAXI MANAGER UTILITY PACK #1

by Dale Kubler

The finest data base manager gets even better! MAXI MANAGER UTILITY PACKAGE #1 consists of three indispensable programs on one handy diskette that will allow the user to recover, extract and merge data in conjunction with MAXI MANAGER (sold separately). One program recovers key files damaged by disk I/O problems, worn diskettes, dirty drive heads, and other hardware problems. The other two programs, when paired together, will allow you to extract information from one data base and insert into another MAXI MANAGER Data Base! This provides MAXI MANAGER with several unique new capabilities not found on any other data base manager available today.

***TRS-80 48K DISK 012-0159 \$49.95**
(Included in Maxi Manager B.0 Above)

Maxi Manager version B.0 offers many improvements over the previous version. The improvements are:

- ★ 30% minimum increase in sort speed.
- ★ Includes Maxi Manager Utility Pack #1.
- ★ New easier-to-understand User's Manual — completely rewritten, professionally typeset, and includes an exhaustive index and handy index tabs.
- ★ New easier to use document-formatting program.
- ★ Completely compatible with older versions of the program.
- ★ Furnished with the latest operating system from DOSPLUS — TDOS 3.4.
- ★ Now compatible with NewScript word-processing system.

JUST CHECK SOME OF THESE FEATURES
