

## Now you can Word Process on your computer with the EG3085 Matrix Printer

### Features

The EG3085 is a quiet, fast, high quality matrix printer for use with personal computers. The print speed is 100 characters per second and printing is bidirectional at 80 or 136 characters per line.

### Graphics

The EG3085 offers a choice of two graphics modes: the 96 item character set is augmented with 64 graphics patterns, and bit image graphics of up to 1,275 dots per line are available also.

### Paper handling

This excellent printer has an adjustable pin feed, and a friction feed system which can take single sheets as well as roll paper. Paper motion may be forward or reversed.

### Characters

Three different typestyles are available on the EG3085, including one proportionally spaced - double width, bold and underlined printing are available with every style. The lower case characters from the EG3085 have true descenders.

### Value

The EG3085 is an ideal match for personal computers, offering a high specification and excellent value - it is also suitable for use with many other systems.
