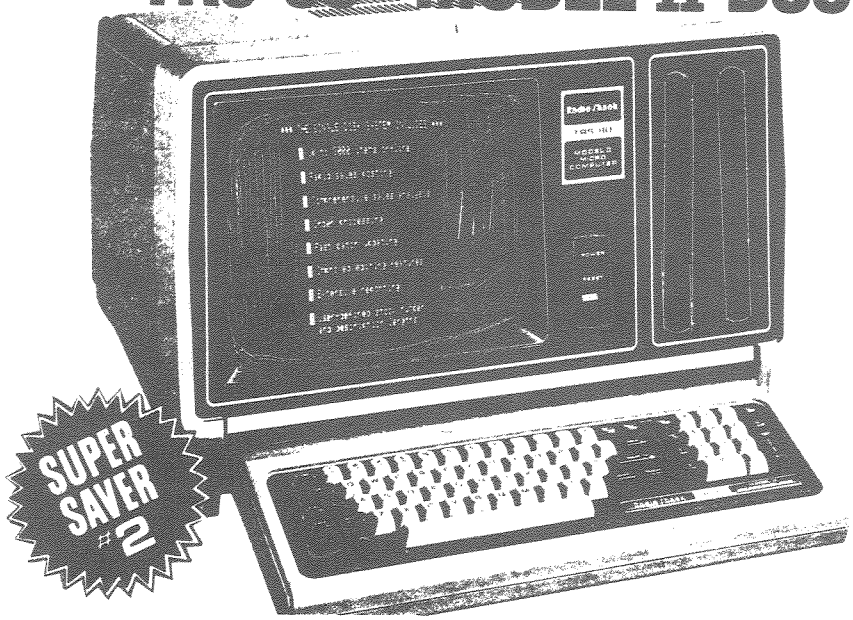
TRS-80™ MODEL II BUSINESS COMPUTER



Ready-to-Use, Simple to Operate, and Affordable

64 Thousand Characters of Internal Memory
Built-In 8" Double-Density Disk Drive
Growing Library of Powerful Applications Software

3440.00 64K, 1-Disk System Cash

For half the price you'd expect to pay, the TRS-80 Model II packs all the data and word-processing power many businesses will ever need! It's an extremely efficient tool that can speed through accounting tasks, file and retrieve vast amounts of data, and dramatically improve your planning and decision-making. Radio Shack offers many ready-to-use software packages — everything from word processing to Accounts Receivable. It's so easy to use, you won't need a "computer expert." Store data and programs on interchangeable floppy diskettes up to 416,000 characters each, using the built-in 8" drive. The Model II's compact desktop cabinet contains a 12" video display, the disk drive, two serial ports and one parallel port. The keyboard is detachable for convenient placement. And Model II easily expands with your requirements, so it won't become obsolete in a few years. You can add printers, plotters, communications with data-bases and other computers, plus a host of options. The Model II comes with a powerful BASIC language on diskette — with optional languages including COBOL and FORTRAN, also available. Come in for details today — and ask about leasing and on-site servicing.

NEW! Low-Cost, Direct-Connect Modem I for Easy Phone Communication

134.10

- ***Full Originate/Answer***
- ***Connects Directly to Phone Lines***

Here's a low cost alternative to an acoustic coupler — a full duplex modem that attaches directly to your phone lines. No loss of data due to microphonic interference. 300 or 600 baud, selectable. For use with TRS-80 Models I, II, III and Color Computer. Pick up on this affordable entry into the world of computer communications! **26-1172** **134.10**

Cassette Port to Modem Software. Allows connection of Modem I through the cassette port. Turns your Model I, Level II without RS-232, into a "dumb" terminal. Recognizes many normal communication codes and includes special codes to allow communication with CompuServe. Half duplex only. **26-1139** **8.95**

Cassette Port to Modem Cable. 26-3009 ..... **4.45**

Modem I to Color Computer Cable. 26-3020 ..... **4.45**

TRS-80 Model III Accessories
