Model 16 Microcomputer

DT-1 Data Terminal

PC-2 Pocket Computer

Three new additions to the broadest line of microcomputers in the world! Read all about our Model 16 Multi-User Microcomputer with state-of-the-art sixteen-bit technology, our first Data Terminal—the full-featured DT-1—and a second generation of the Pocket Computer—the PC-2!

COME BY TODAY FOR YOUR COPY OF THE NEW 1982 TRS-80 CATALOG—ASK FOR “RSC-7”

Our new full-color, 56-page catalog includes details on the latest software and accessories for your TRS-80 computer. Hurry in to your nearest Radio Shack Computer Center for your FREE copy.

Special Offer! Get New, Advanced VisiCalc® at No Charge With Purchase of a TRS-80 Model III Disk System!

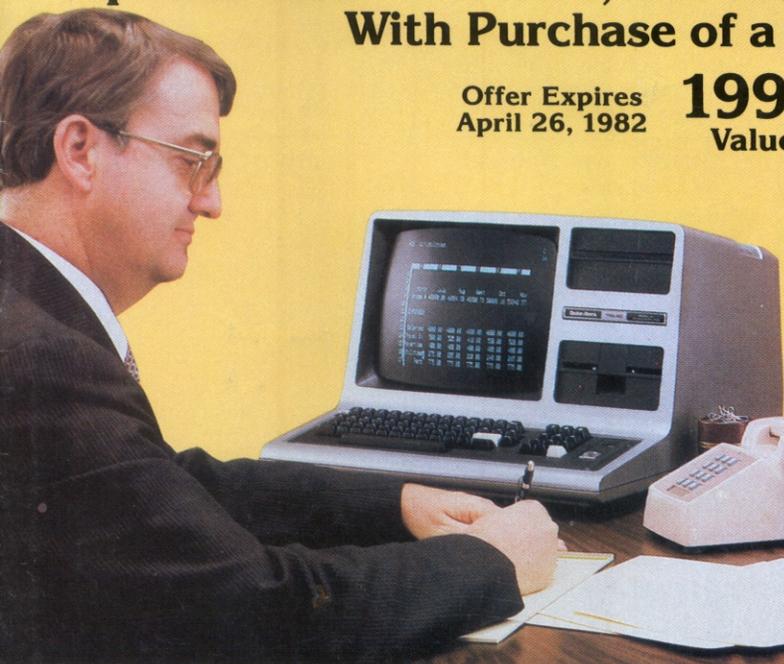

Offer Expires April 26, 1982

199⁰⁰
Value

Improve your personal productivity with a Model III and VisiCalc (26-1569)—a time-saving forecasting and planning system that displays an “electronic worksheet.” You define your formulas, enter figures, and VisiCalc performs all the calculations and displays the results. You can pose “What if . . .?” questions and VisiCalc updates every related number in seconds—automatically! Includes new features—a formula editor lets you edit entries without having to re-enter them. And logical functions and comparison operators allow branching and testing.

2-Disk Model III with RS232 Serial Interface. 26-1066 2495.00

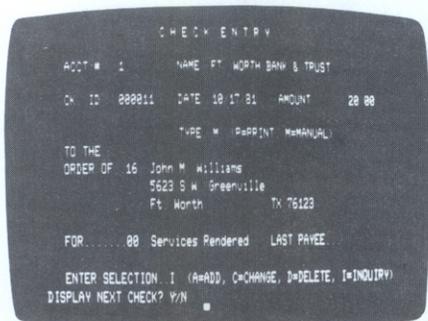

1-Disk Model III without RS232. 26-1065 . . 1995.00

Bookkeeping As Easy As Writing Checks!

Check Writer-80™ Computerizes Your Manual Bookkeeping System

- Quickly Prepares One or Multiple Checks
- Prints Check Registers And Expense Summaries
- Prints Lists of Banks, Payees, and Expense Items
- Reconciles Statements
- Accepts Handwritten Checks

Check Writer-80 Program Only **99⁹⁵**

Replace your pegboard system with a TRS-80 Model III and our unique Check Writer-80 program. This "computerized bookkeeper" gives you a check writer and register, plus an expense tracking and bank reconciliation system. It's an ideal all-in-one system for small business bookkeeping.

Entering Checks Is Quick and Easy

It's as easy to use as filling out a check or deposit slip, yet you get all the speed and accuracy of the computer. Handles up to 9 banks or 9 different accounts for one bank, 75 payees, 30 expense categories (including a miscellaneous description category), and 2500 transactions (checks and deposits). You can even enter handwritten checks. And it maintains year-to-date expense totals, too.

Prints Everything You Need

Check Writer-80 will print check registers, expense summaries, description lists of banks, and payees. Requires 48K 2-Disk TRS-80 Model III and printer.

Check Writer-80 Program. 26-1584 99.95

Complete System As Shown **3432⁹⁵**

A complete bookkeeping system—just add checks. Includes 48K 2-Disk TRS-80 Model III (26-1066), Check Writer-80 program (26-1584), Line Printer VIII (26-1168) suitable for check printing, and printer cable (26-1401).

A Complete Stock Analyzer and Portfolio Manager

Standard & Poor's STOCKPAK™

- Handles Up to 100 Securities
- Allows 30 Transactions on Each Issue

Standard & Poor's has teamed up with Radio Shack to create STOCKPAK for securities portfolio management and stock evaluation. The program keeps track of all transactions (including commissions) affecting your portfolio and handles all of the arithmetic required to evaluate holdings. Furthermore, it can even assist in preparing tax returns and in tracking dividend payments.

The sample data base includes 900 NYSE, AMEX, and OTC stocks. Data base monthly updates are available on diskette by optional annual subscription from Standard and Poor's Corporation.

Package includes four modules (details at right) and manual. Requires 32K Model I or III and two disk drives.

26-1507 49.95

Portfolio Management System

Maintains a portfolio of up to 100 securities with up to 30 transactions on each issue. It not only remembers all transactions that affect the portfolio, such as Stock Splits, Dividends, Buys, and Sells, but it also performs all the calculations necessary to evaluate them. It even handles Commissions.

With an optional printer, reports can be produced for a permanent record.

Report Writer

Allows you to create custom reports on stocks that meet the selection criteria of the Screen and Select diskette.

Includes ten screen formats and twenty report formats, based on reporting standards in current use in the financial community.

Reports can appear on the video screen or, with an optional printer, can be printed for a permanent record.

Screen and Select System

Allows you to analyze Standard & Poor's 900-stock data base according to a variety of investment criteria. The value of this program is realized when you subscribe to Standard & Poor's monthly update of the data base.

Ten ready-to-use sets of selection criteria have been included. You can even devise your own criteria based on the 30 financial elements appearing with each stock.

Sample Data Base

Contains a sample from the complete 900-stock data base available from Standard & Poor's on a subscription basis.

The 900 stocks are compiled from those most actively traded on the New York and American Exchanges and from Over-The-Counter transactions.

If your holdings are among these, then each month's diskette will give you an automatic update of your portfolio.

Sale! 33-50% Off on Cassette Software

Requires 16K Level II or Model III BASIC. Reg. 29.95
26-1605. Sale 19.95

Languages For Model III Disk Systems!

FORTRAN—The Problem Solver's Language

The deluxe features of our FORTRAN package are easy to use. The Editor lets you make corrections and insertions when you type in your code. The Compiler translates your source listing into object code. The Linker loads and executes

it. Model I/III FORTRAN is an extension of ANSI Standard FORTRAN (X3.9-1966). For example, PEEK, POKE, INP, and OUT subprograms have been added, as well as the ability to handle long character strings.

Model III FORTRAN. Reg. 48K 2-Disk. 26-2200 99.95

Model I FORTRAN. Reg. 32K 2-Disk. 26-2201 99.95

Compiler BASIC—Especially Useful for Businesses

Now you can program in familiar BASIC and get the extra accuracy and speed that many applications require. It's the easy way to protect your program source code.

Advanced features include single-key ISAM (Indexed Sequential Access Method) to help organize and retrieve data; cross-reference; interactive DEBUG to speed program development; easy calls to assembly language or other object programs; and 14-digit floating point decimal formats for "extra" business accuracy.

(Note: Compiler BASIC is intended only for program development and not for the conversion of existing software. It's not compatible with Level II or Model III BASIC programs.)

Includes Compiler and Run-Time Diskettes, plus detailed 420-page reference manual. 48K 2-Disk Model I or III required. 26-2204 149.00

COBOL—The Favorite for Business Programs

COBOL is perhaps the most popular language for business programming. That means a wide selection of software is available, much of which can be transferred to the TRS-80 with little or no modification.

Radio Shack's COBOL (Common Business Oriented Language) is based on the ANSI '74 Standard and provides features you wouldn't expect on a micro! The COBOL editor lets you easily create and edit your source code.

What's more, you get a built-in interactive DEBUG for development and testing of your programs. Our COBOL has a single-pass compiler for fast execution, and data access is rapid with multi-key ISAM (Indexed Sequential Access Method).

The package includes the System User's Guide, COBOL Editor Guide, and an extensive COBOL Reference Manual. 48K 2-Disk Model I or III required. 26-2203 199.00

Low-Cost, "Series-I" Editor/Assembler on Disk

Allows you to program your computer in Z-80 assembly language. It's especially useful in doing things faster than other languages allow, making the most efficient use of memory and modifying the way your computer inputs and outputs data.

You just enter the assembly language source code (a set of abbreviations and symbols). The assembler then "assembles" this into numeric object code, which the computer understands.

Entering source code is easy. The editor automatically numbers or renumbers lines and has a global search capability! You can even go back and forth between editing and assembling.

Includes two diskettes—one in Model I TRSDOS format and one in Model III—along with an extensive 250-page reference (not tutorial) manual that contains examples and sample programs. 32K 1-Disk Model I or Model III required. 26-2013 34.95

TRS-80 Is Supported by More Software Than Any Other Microcomputer in the World!

Complement Your Software With Top-Quality Radio Shack Forms

- Checks • Statements
- General Purpose • Invoices
- Matching Window Envelopes
- Fanfold Mailing Labels

Radio Shack offers a wide selection of output forms, checks, envelopes and mailing labels for use with your TRS-80 system. These products are specially designed to support TRS-80 hardware and software, so you can be sure of compatibility. And, since we sell in quantities as small as 500 units, smaller users can take advantage of the efficiency that custom forms provide. All forms, checks and envelopes are attractively designed to help your organization present a consistent, "quality" image. Best of all, you get the convenience of single-source support as well as prompt delivery when you order forms from Radio Shack. Visit your nearest Radio Shack Computer Center to place your order.

Radio Shack Computer Centers Maintain a Fine Tradition of Service After the Sale

Model II—Our Most Popular Business Comp

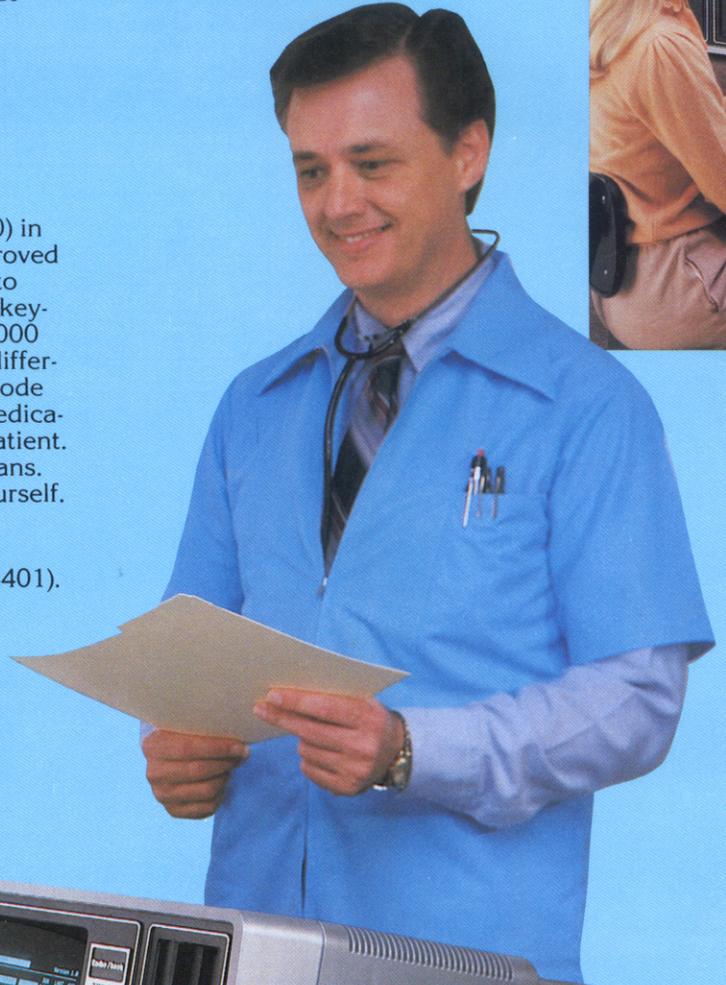

We Have a Radio Shack TRS-80 System That's Right for You—Just Add Our Ready-to-Run Programs!

Streamline the “Business End” of Your Medical Practice with This TRS-80 Medical Office System!

- Accurately Keeps Track of a Patient's Medical and Payment Information
- Prints Statements and Insurance Forms
- Automatically Ages Accounts

With our Model II **Medical Office** program (26-4508, \$750) in your office, you can get greater efficiency, fewer errors, improved collection time and lower accounts receivable. Data on up to 1000 patients can be reviewed and updated with just a few key-strokes! (Add additional disk drives to accomodate up to 3000 patients.) **Medical Office System** remembers up to 450 different procedures and diagnoses by name and their medical code number, plus your service fee. Easily handles four recall medications, two recall dates, and two insurance companies per patient. Ideal for a private practice or a clinic with up to ten physicians. It's easy to use by any member of your staff—including yourself. Our excellent reference manual guides you step by step. System includes Model II (26-4002), external disk drive (26-4160), Daisy Wheel II printer (26-1158), and cable (26-4401).

7048⁰⁰
Plus Software

The “Electronic” Medical Office is at Radio Shack Today!

Computer — Is Ideal for Professional Applications

Bring Computer Efficiency into Your Law Office with a Model II Today!

- Prepare Documents, Letters and Reports
- Supply Clients with Detailed Statements
- Access a Vast "Electronic" Law Library
- Keep Track of Information About Cases

8248⁰⁰
Plus Software

Here's a complete Model II system that makes computerization affordable—even for the small law office! And it will handle any of the legal applications described—just add the software. Our new **SCRIPSIT 2.0** word processing program (26-4531, \$399) lets you type, edit and correct correspondence and documents right on the video screen, then print letter-perfect originals at an incredible 500 words per minute. Add the **SCRIPSIT Dictionary** (26-4534, \$199) to automatically "proofread" your text for misspellings. **Time Accounting** (26-4520, \$499) provides your clients with detailed billings and tracks your costs. Individual attorneys can determine their own rates for various services. Our **WESTLAW™** software (26-4560, \$249) puts an "electronic" law library at your fingertips. Just add a telephone interface and place a call to WESTLAW to access West's Topic and Key Numbers, Shepard's Citations, Supreme Court Reporter and more—all for a low hourly rate. **Litigation Support** (26-4545, \$299) is a docket control program that stores up to 350 client records for quick review.

System includes Model II (26-4002), external 3-drive disk expansion unit (26-4162), Daisy Wheel II printer (26-1158), and cable (26-4401).

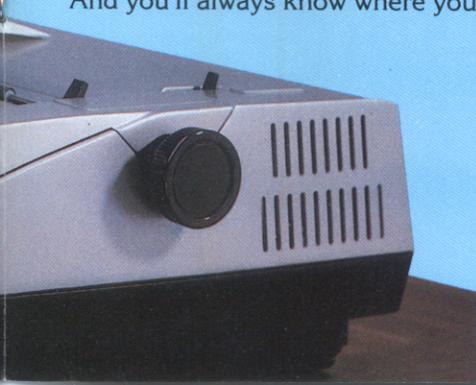

Improve Business Speed and Accuracy with a Model II System

8066⁰⁰
Plus Software

- Prepare P/L Statements
- Control Your Receivables
- Optimize Accounts Payable

You can streamline your accounting tasks by adding one or all of our 3-disk business programs to this Model II system. They can work together to form a powerful "total" accounting package. Our versatile **General Ledger** (26-4601, \$499) allows you to maintain your books the easy way. You can prepare accurate balance sheets and income statements for a fast analysis of your company's profits. It holds up to 400 accounts and 4300 year-to-date detail entries.

Accounts Receivable (26-4604, \$499) is an open item and/or balance forward system that stores up to 800 accounts and 2500 transactions. It can keep track of current and overdue accounts so you can speed up collections and identify bad debts. It provides a General Ledger Distribution Report and allows easy access to frequently used accounts. Prints Aging Report (with or without detail) for all or selected customers and Cash Application Worksheet showing balance owed, the valid discount, and the net amount due from each customer. And you'll always know where you stand with our **Accounts Payable** (26-4605, \$499) software. It's an accrual system that can manage your payables for maximum efficiency, cash flow, and earned discounts. Holds up to 1500 vendors, 800 open payable items, and 5000 G/L distributions.

An Ideal TRS-80 System for Accounting

You get the Model II (26-4002), external 2-drive disk expansion unit (26-4161), high-speed 132-column Line Printer V (26-1165), printer cable (26-4401), System Desk (26-4301), and Printer Stand (26-4302).

Have Fun With a TRS-80 Color Computer

It's the Affordable, Expandable Personal Computer for Home or Office!

399⁰⁰

Color receiver not included

- Vivid Color Graphics
- Exciting Sound Effects

• Large Selection of Plug-In Program Paks for Entertainment and Education

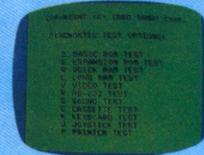

- You Can Easily Learn to Write Your Own Color BASIC Programs

Affordable price and ease of use make this computer the perfect choice for the whole family. Simply attach to any TV set or add the 13"-diagonal TRS-80 Color Video Receiver. Then plug in a Program Pak™ (available separately) and experience the thrill of electronic fun. You get a 4000-character (4K) internal memory (expandable to 32,000) and a Color BASIC language with simple commands to produce drawings, diagrams, charts, and more! Later, you can add Extended Color BASIC (16K memory required) for more versatility and highly-detailed graphics. Comes with a 308-page manual that will have you programming in no time. U.L. listed.

New! Our Most Powerful TRS-80 Yet!

Introducing the Model 16 With 16/32-Bit Technology

Priced From **4999⁰⁰** 128K 1-Disk Model 16

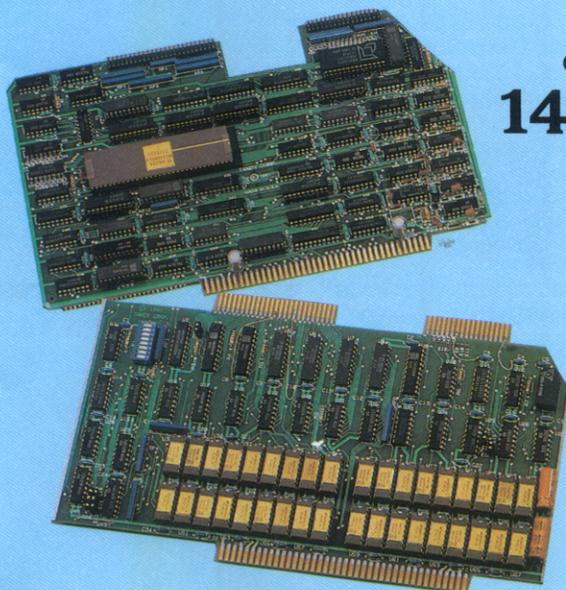

- Unique Dual-Processor Design Features MC68000 16-Bit and Z-80A Microprocessors
- 128,000 Characters of Memory, Expandable to 512,000
- One or Two Built-In New-Design 1.25-Million Character Slim-Line 8" Disk Drives
- Can Operate as a Model II and Run Model II Programs
- Multi-User Capability

Now very complex tasks can be accomplished with ease! Model 16 is designed around a state-of-the-art 16/32-bit microprocessor that accepts 16-bit data and processes it as 32-bit "words." Internal memory is easily expandable in 128K-byte increments to 512K using memory board and kit, at right. And you can choose one or two built-in slim-line 8" disk drives. A Model 16 can also become the hub of a multi-user system. One or two low-cost terminals—like our new DT-1—can simultaneously execute different programs. (Multi-user operating system available mid-1982). Features high-resolution 12"

diagonal green video display of 24 lines of 80 characters, detachable keyboard with numeric keypad, two RS-232C serial interfaces and a parallel printer interface. A hard disk port can be added. U.L. listed.

128K 1-Disk TRS-80 Model 16.	26-6001	4999.00

128K Memory Board.*	For 3rd 128K.	26-6011 699.00

Model II Can Grow to Model 16 Performance

Only **1499⁰⁰**

Model 16 Enhancement Option.* Good news for TRS-80 Model II owners! Now you can upgrade your present system to the 16-bit power of the TRS-80 Model 16 microcomputer, with 128,000 characters of internal memory—expandable to 256K with memory kit (26-6012), above. Your present disk drive and monitor are retained, and you can still use all of your existing Model II software. Enhancement option includes MC68000 16-bit microprocessor board and 128K memory board. 26-6010 1499.00

*Computer upgrade kit prices do not include required installation charges.

New! Full-Featured DT-1 Video Terminal

Use with the Model 16 or Other Host Computers and Time-Sharing Networks **699⁰⁰**

A no-compromise video data terminal—ideal as a low-cost workstation to access the computing power of our new Model 16. The 70-key typewriter-style keyboard includes 12-key datapad, and the 12"-diagonal CRT displays 24 lines of 80 upper and lower case characters per line. A revolutionary non-volatile memory (requiring no battery) retains keyboard-selected terminal configuration even with power off. Four popular terminals can be emulated. RS-232C, plus serial and parallel printer interfaces. U.L. listed. 26-6050 699.00

An Affordable Word Processing Printer

Radio Shack's Daisy Wheel II "Letter Quality" Printer

1960⁰⁰ Comes with Ribbon
And Print Wheel

Prints "letter-perfect" originals at an incredible 500 words per minute! Interchangeable character wheel and carbon ribbon give you that electric typewriter "look". Print densities include 10 or 12 characters per inch or proportional spacing. The Daisy Wheel II features forward and reverse paper feed, one-half line feed, backspace, and underline. Includes Courier 10-pitch print wheel and carbon ribbon cartridge. U.L. listed. 26-1158 1960.00

- Model I/III Printer Cable.** 26-1401 . . . 39.00
