TANDY... Clearly Superior™ ■ Technology ■ Service ■ Support

In Business...for Business

Over 1200 of our Computer Centers nationwide are ready to help you and your business in choosing the very latest in computer technology, plus the service and support your business needs. We have what it takes to sit down and talk business. Tandy is Clearly Superior!

TECHNOLOGY...

When you buy a Tandy computer from Radio Shack, you're not just buying a computer, you're buying a computer company. Radio Shack invests heavily in product development so that our line is constantly updated with new technology. By staying a step ahead, we keep quality high, and costs down.

SERVICE...

In today's office, the microcomputer is as indispensable as the telephone. Radio Shack understands this and offers service responsiveness previously available only on mainframe computers, yet at a fraction of the cost.

Nationwide Service. 188 strategically located, company-owned Radio Shack Computer Service Centers assure convenient service nationwide. Service that's performed by employees of the same company that manufactured and sold you your computer.

On-Site and Carry-In Service. In most market areas, service is available at your place of business, as well as ours. And at our Business Products Service Centers, you can bring in your computer for routine service performed while you wait.

Affordable Service Contracts. For protection against unexpected repair costs, add one of our service contracts to your computer. Carry-in and on-site service contracts let you create a truly versatile service program to suit your specific needs. In effect, these plans extend the limited warranty of your computer on parts and labor.

SUPPORT...

Training. Radio Shack offers training and support that is unequalled in the industry. Letting us teach you about your computer system shortens and smoothes that period of "becoming compatible with each other." You can select from a wide variety of courses taught at over 300 Computer Centers. On-site computer instruction with training tailored to your specific needs is available from our Customer Training and Support Centers located in 60 major market areas.

Support Services. Radio Shack provides more support options at less cost (much of it free of charge, in fact) than any other microcomputer company. Our army of support specialists (over 500 of them) are your "on-demand" experts. Nationwide, 60 strategically placed support operations plus our Fort Worth-based customer support operation ensure that support is available to you where and when you need it.

Express Order Services. We support you with "off the shelf" software, plus many other top name packages. Our exclusive Express Order Software service brings you software that's performance proven, and professionally supported by each

software manufacturer. Special expansion boards and other hardware enhancements are also available through our Express Order Hardware Service. Express Order items can be ordered at any Radio Shack Computer Center, store or participating dealer. Orders are transmitted electronically and shipped the next business day for super-fast service.

Referral Software Service. Our Directory of Reviewed Software puts an end to your search for hard-to-find software. It's packed with hundreds of specialized software applications that have been custom designed for businesses just like

yours. Each package has been evaluated by our professionals, but are not sold or supported by Radio Shack. Complete information on how to contact and order from the independent vendor is provided in the Directory at any Radio Shack Computer Center.

Commercial Leasing. Your business may lease computer systems on a 37-month lease. And since ours is a true lease, payments may be fully tax deductible as a business expense. We can provide leasing terms to non-profit, governmental and educational organizations, too.

Credit Cards Welcomed. Radio Shack honors American Express, Carte Blanche, Diner's Club, MasterCard, Visa and Radio Shack/CitiLine. With Citibank's special "On-Line" credit process, approval for up to \$2,500 takes only 15 minutes or less if you already have a Visa or MasterCard. Or you can use Citibank's standard credit process for approval on up to \$25,000 usually within an hour or less. CitiLine may be used to finance any initial purchase of \$100 or more, and subsequent purchases of \$25 or more. Payments can be

conveniently budgeted for up to 33 months, or paid in full any time. CitiLine is an open-ended credit plan from Citibank. Your actual payment may vary depending on your CitiLine balance. Come in for details.

How to Use This Catalog

This catalog has two sections: one for all software—including Radio Shack and Express Order programs; the other for hardware, peripherals, books and accessories.

The software section has three indexes: one organized alphabetically by title; one organized by computer model; and one organized by industry. The software descriptions are arranged by the categories described below.

Category Descriptions:

Accounting. Includes general ledger, accounts payable, receivable, payroll and more.

Business Graphics. Turns complicated columns of numbers into easy-to-understand charts and graphs.

Business Management. Includes time and appointment schedulers, project and expense managers and desktop organizers.

Communications. A complete selection of terminal/communications packages to access mainframe computers, an information service or bulletin board.

Database. Helps eliminate the file drawers of paper you maintain.

Education/Training. Software to help you and your children improve your skills or learn about your computer will be found in this section.

Entertainment. Programs to keep you or your children entertained, to relax after a hectic day or to liven up a party are listed in this section.

Graphics/Design. Includes everything from professional computer-aided design software to simple "painting" programs.

Industry Specific. Software for doctors, real estate agents, home builders, lawyers, investors, farmers, retailers and others.

Integrated Products. Programs that combine database management, word processing, graphics, telecommunications and more into one package.

Math/Science. These programs make number crunching, statistical analysis or scientific projections a breeze.

Operating Systems. The different disk operating systems featured in this section open up a new world of applications for your computer.

Personal Management. You'll find programs to help manage your finances, investments, home inventory and much more.

Programming Tools. Computer languages—from BASIC to C—are available.

Spreadsheets. Electronic ledger programs for doing profit and loss projections, sales analysis, budgeting and engineering calculations.

Word Processing. Save time and effort when you need to prepare correction-free letters, memos and reports.

Utilities. RAM disks, conversion programs, print utilities and bar code software are featured in this section.

Typical Software Description:

Company logo for quick and easy identification of software manufacturer.

T-Writer

100

Description: One of the most popular and versatile print formatting programs available. T-Writer allows editing and formatting of TEXT files. Provides both function key options and "dot" commands to set tabs, center, and justify left and right margins. Use with any printer to boldface, underline, condense print and more. T-Writer includes over fifty options, yet is simple to use. A special merge allows you to use T-Writer with T-Base (90-0129), the ADRS.DO file, and all "Business Manager" products from Traveling Software to include specific information in boiler plate letters or other documents. With this feature, it's possible to print over 300 letters from your 100 automatically!

Hardware Requirements: 16K.

Support: Traveling Software.

90-0130 49.95

Software listed alphabetically by title.

Specific model(s) of Tandy and Radio Shack computers that can run the program.

Hardware Requirements tell you if the software requires more than the standard computer configuration.

Indicates the company providing support for the program after purchase.

Catalog number and price line for each computer.

2-Key Accounting- General Ledger 1000/1200/2000/3000

Description: A complete, basic General Ledger accounting program created to run with Lotus 1-2-3. It is designed for small businesses and departmental corporate accounting needs. The package includes Subsidiary Ledgers, Cash Receipts, Cash Disbursements, Accounts Payable, Inventory Adjustment and General Journal.

Hardware Requirements: 256K, two disk drives and Lotus 1-2-3 version 1a or 1a*.

Support: Provided at no charge by Supplemental Software Co. for a limited time, after which a nominal fee is charged.

90-0408 199.95

STAR SOFTWARE SYSTEMS™

Accounting Partner I

1000/1200/2000/3000

Description: The Accounting Partner I is a complete accounting system designed for a small growing business. The system offers a complete General Ledger with Profit and Loss statements, Balance Sheets and Check Writing. Also includes: Accounts Receivable module with Customer Invoicing and Statements, and Accounts Payable module featuring Purchase Order Writing, a full Multi-State Payroll module with Paychecks and Government Reporting. The system is upgradable to the Accounting Partner II (90-0211).

Hardware Requirements: 256K and two disk drives.

Support: Provided by Star Software Systems for a nominal charge.

90-0112 395.00

STAR SOFTWARE SYSTEMS™

Accounting Partner II

1000/1200/2000/3000

Description: The Accounting Partner II is a 5-module, fully integrated small business accounting system including: General Ledger with Financial Statements; Accounts Receivable with Invoicing, Statements and Sales Analysis; Accounts Payable with Purchasing Analysis; Multi-State Payroll with Paychecks and Government reporting; and a full-featured Finished Goods Inventory Control module. The Accounting Partner II is designed to meet the accounting needs of a fast growing business with sales of \$2 million to \$25 million annually and is fully integrated.

Hardware Requirements: 256K and two disk drives.

Support: Provided by Star Software Systems for a nominal charge.

90-0211 995.00

STAR SOFTWARE SYSTEMS™

Accounting Partner Upgrade

1000/1200/2000/3000

Description: The Accounting Partner II Upgrade Kit allows the user of Accounting Partner I (90-011) to move up to the sophistication and features of the Accounting Partner II (90-0211). This Upgrade Kit provides complete instruction manuals and conversion software, so the major rekeying of data is not necessary. The upgrade provides you with additional features like Automatic Integration between modules, Open Item Accounts Receivable and Inventory Control.

Hardware Requirements: 256K and two disk drives.

Support: Provided at no charge by Star Software Systems for a limited time, after which a nominal fee is charged.

90-0273 600.00

Attoché Accounts Payable 1000/1200/2000/3000

Description: It may be used by itself or integrated with General Ledger. It is an open-item system that maintains a file of purchase history payment details and aged outstanding balances and generates a wide range of reports. Partial payments may be specified for any invoice. Manual check payments may be easily specified. The system optionally prints a test pattern prior to check printing to verify that the check forms align properly in the printer. Automatic vouchers are used to generate regular payments to vendors. "Passport" allows integration with popular productivity tools.

Hardware Requirements: 256K and two disk drives.

Support: Attache Software, Inc.

90-0161 395.00

Attoché Accounts Receivable

1000/1200/2000/3000

Description: May be used by itself or integrated with General Ledger. You define up to four aging periods and up to four types of miscellaneous charges for invoicing. You may define up to three sales codes for classifying sales. Slow-paying customers may be identified in summary through the aged trial balance report or in detail through the customer highlight report. You may define up to 999 different tax authorities and specify up to four different tax codes for each customer. Balance-forward and Open-item customer account types may be specified with the same ledger. "Passport" allows you to integrate with popular productivity tools.

Hardware Requirements: 256K and two disk drives.

Support: Attache Software, Inc.

90-0160 395.00

Attoché General Ledger

1000/1200/2000/3000

Description: This package is for small to medium-sized businesses, and can be used by itself or integrated with all other Attache modules. You define all elements of the chart of accounts structure, including account number and account name. You define the format and content of all financial statements. Annual, quarterly, monthly, 4-week periods and others. Financial statements may be obtained at any time. Multi-company, department, division or consolidated financial statements may be created. Eight methods of budget preparation are provided. "Passport" allows integration with popular productivity tools.

Hardware Requirements: 256K and two disk drives.

Support: Attache Software, Inc.

90-0162 395.00

Attoché Inventory Control

1000/1200/2000/3000

Description: May be used by itself or integrated with General Ledger and Accounts Receivable. Each item may be assigned up to three different selling prices. Inventory may be costed according to average cost, fixed cost, or decimal places for specifying fractional quantities. Produces a full line of reports, inventory worksheets and variance reports. "Passport" allows integration with popular productivity tools.

Hardware Requirements: 256K and two disk drives.

Support: Attache Software, Inc.

90-0163 395.00

Attaché**Attache Invoicing With
Sales Analysis****1000/1200/2000/3000**

Description: This package is for small to medium-sized businesses and is used with Accounts Receivable and Inventory. Accounts Receivable balances and inventory quantities are automatically updated. Comprehensive sales histories are automatically recorded. Accommodates stock items, non-stock items, and service billings. The system will display a warning message on the screen if the customer's credit limit has been exceeded or if the sales quantity exceeds the quantity on hand. Automatically computes sales discounts and sales tax.

Hardware Requirements: 256K and two disk drives.

Support: Attache Software, Inc.

90-0164 395.00

Attaché**Attache Payroll****1000/1200/2000/3000**

Description: This package is for small to medium-sized businesses and integrates with General Ledger. The tax specification portion of the program has the flexibility to handle straight percentage, straight percentage with maximum tax, graduated tax method, percentage of other tax withheld and multi-state tax requirements. Provides automatic preparation of annual W-2 forms. Handles all payroll types: hourly, salary, commission and piecework. Accommodates tip reporting and tip deduction. Accommodates any payroll frequency: monthly, semi-monthly, bi-weekly and weekly.

Hardware Requirements: 256K and two disk drives.

Support: Attache Software, Inc.

90-0411 595.00

Attaché**Attache Business Pak I****1000/1200/2000/3000**

Description: This package includes Accounts Receivable, Invoicing/Sales Analysis and Inventory integrated into a complete business system. In addition, Business Pack I integrates with Business Pack II and Payroll to make fully-integrated accounting system for your business. "Passport" allows you to integrate with popular productivity tools. Comes handsomely packaged in an attractive attache case which you get to keep as your own.

Hardware Requirements: 256K and two disk drives.

Support: Attache Software, Inc.

90-0165 795.00

Attaché**Attache Business Pak II****1000/1200/2000/3000**

Description: This package includes General Ledger and Accounts Payable integrated into a complete business system. In addition, Business Pack II integrates with Business Pack I and Payroll to make a fully integrated accounting system for your business. "Passport" integrates to popular productivity tools. Refer to the description of the individual modules for a list of capabilities. Comes handsomely packaged in an attractive attache case which you get to keep as your own.

Hardware Requirements: 256K and two disk drives.

Support: Attache Software, Inc.

90-0166 695.00

**BPI
SYSTEMS****BPI Accounts Payable****1000/1200/2000**

Description: BPI Accounts Payable maintains vendor records and prints checks. Choose the accrual or cash basis method of accounting. Maintain two consecutive open accounting periods if using the accrual method. Determine unpaid accounts according to four aging periods. Print checks automatically using up to ten checking accounts. Record regular invoices plus credit and deduction memos. Enter vouchers for occasional vendors who have not been assigned a vendor number. Interface with other BPI products: General Accounting, Inventory Control and BPI Business Builder.

Hardware Requirements: 256K and two disk drives.

Support: Provided by BPI Systems for a nominal charge.

90-0372 595.00

**BPI
SYSTEMS****BPI Accounts Receivable****1000/1200/2000**

Description: BPI Accounts Receivable maintains the information needed to manage cash and credit accounts wisely. Choose between open item and balance forward accounting methods. Use four types of charge accounts, including revolving charge, repetitive charge, fixed-installment payment and regular charge. Assess up to two levels of finance charges. Divide receivables into four aging periods. Print customer statements, mailing labels and past-due notices. Interface with other BPI products: General Accounting, Inventory Control, and BPI Business Builder.

Hardware Requirements: 256K and two disk drives.

Support: Provided by BPI Systems for a nominal charge.

90-0369 595.00

**BPI
SYSTEMS****BPI General Accounting****1000/1200/2000**

Description: BPI General Accounting provides all the features of a complete accounting system. It offers three subsidiary ledgers: Accounts Receivable, Accounts Payable and Payroll; a flexible chart of accounts; six special journals, plus a General Ledger to record each transaction; automatic posting of ledgers; automatic check writing; comprehensive financial reports; integrates with other BPI products. Other features include: consolidated and departmental income statements, automatic entries from external sources into the general journal. Reports can be made available to other popular ASCII file software programs and accounting files can be written in DIF.

Hardware Requirements: 256K and two disk drives.

Support: Provided by BPI Systems for a nominal charge.

90-0153 595.00

**BPI
SYSTEMS****BPI Inventory Control****1000/1200/2000**

Description: BPI Inventory Control organizes inventory records and tracks sales and receipts of inventory items. Choose FIFO, LIFO or average cost accounting methods. Adjust for overages and shrinkages automatically. Track low-balance and backordered items automatically and write purchase orders for them. Print customer invoices, packing lists, credit memos and coded price labels. Print lists of inventory items sorted in 14 different ways. Interface with other BPI products: General Accounting, Accounts Receivable, Accounts Payable and BPI Business Builder.

Hardware Requirements: 256K and two disk drives.

Support: Provided by BPI Systems for a nominal charge.

90-0371 795.00

BPI Payroll 1000/1200/2000

Description: BPI Payroll streamlines payday routines. Handles salaried, hourly and commissioned employees. Specify up to three hourly rates and choose from among four methods of calculating commissions. Pay employees weekly, biweekly, semimonthly or monthly. Assign up to six optional deductions (in addition to FICA, FIT and SIT, which are automatic) to each employee. Calculate withholdings automatically for 58 taxing jurisdictions. Set up employer-sponsored IRA contributions. Process pay for employees who receive tips and for those eligible for earned income credit. Print W-2 forms and paychecks. A Payroll Tax Table Update Service is available. Interfaces with other BPI products.

Hardware Requirements: 256K and two disk drives.

Support: Provided by BPI Systems for a nominal charge.

90-0370 595.00

Radio Shack Business Checkwriter

III

Description: Ideal for small business! You get a check writer, a detailed check stub for paying multiple invoices and a bank reconciliation system. Records handwritten checks and multiple daily deposits. Prints a check register and a payee summary which shows how much you have paid to date to each payee. Your account balance is available at any time and it prints a check summary at the end of each check run.

Support: Radio Shack.

26-1585 149.95

Certified Accounts Payable 1000/1200/2000/6000

Description: Designed to accommodate a cash or accrual-based accounting system. It integrates expenses from multiple departments, branches or companies to the Certified General Ledger (90-0388/90-0382). Checks are printed automatically from a planned check date. Cash requirements report shows outstanding invoices by due date, allowing for accurate cash flow analysis. Payment dates and discounts are automatically calculated. System allows for manually written checks and multiple payments for one invoice.

Hardware Requirements: 256K and two disk drives. Xenix requires 512K and a hard disk drive.

Support: Provided at no charge by Certified Software, Inc. for a limited time, after which a nominal fee is charged.

Tandy 1000/1200/2000. 90-0383 795.00

Tandy 6000. 90-0389 795.00

Certified Accounts Receivable 1000/1200/2000/6000

Description: An open item or balance forward system that processes charge sales, cash sales, finance charges, debit adjustments, credit memos, payments and credit adjustment entries. Automatic customer number verification. Payments automatically calculated and posted. Customer statements printed on demand. Accounts Receivable Aging Report allows five user-defined periods. Recurring entries feature allows repetitive entries to be made with one entry. Sales year-to-date maintained for each customer. Status window allows viewing of customer account as debits and credits are posted in a real-time mode.

Hardware Requirements: 256K and two disk drives. Xenix requires 512K and a hard disk drive.

Support: Provided at no charge by Certified Software, Inc. for a limited time, after which a nominal fee is charged.

Tandy 1000/1200/2000. 90-0384 795.00

Tandy 6000. 90-0390 795.00

Certified General Ledger

1000/1200/2000/6000

Description: A true multi-company, multi-department accounting system designed to accept entries from Certified Accounts Payable (90-0383/90-0389) or Accounts Receivable (90-0384/90-0390) modules automatically. Standard Chart of Accounts, Income Statement and Balance Sheet may be used "as is" or modified, allowing for customizing of your accounting system. Specialized budget-entry process allows easy maintenance of a 12 month budget file. Allows for departmental or consolidated financial statements giving detail and summary account history, which is maintained for comparisons.

Hardware Requirements: 256K and two disk drives. Xenix requires 512K and a hard disk drive.

Support: Provided at no charge by Certified Software, Inc. for a limited time, after which a nominal fee is charged.

Tandy 1000/1200/2000. 90-0382 795.00

Tandy 6000. 90-0388 795.00

Certified Inventory 1000/1200/2000/6000

Description: Meets the needs of most small retail, wholesale and finished goods manufacturing businesses with either a standard or average costing method. System accommodates up to 99 different locations. Status Window shows current status of each inventory item as issues, receipts and on-order entries are posted in a real-time mode. System allows immediate access to information on the stock level of any item. Stock status and reorder may be printed on demand. Sales analysis of profit margins by item and product class may be printed on demand.

Hardware Requirements: 256K and two disk drives. Xenix requires 512K and a hard disk drive.

Support: Provided at no charge by Certified Software, Inc. for a limited time, after which a nominal fee is charged.

American Information Systems

COBOLCRAFT RediWrite

1000/1200/2000/3000

Description: Used with software written in COBOL, RediWrite permits you to design your own report and label formats, as well as bridge your accounting data to popular word processing, spreadsheet, database and graphics software. RediWrite's features include: column-style management report formats, plus label formats for mailing, identifying inventory, etc.; accesses up to five existing accounting data files at a time; produces reports in sorted sequence; choice at runtime of both detail and summary reports; report formats up to 20 columns and 160 characters wide; report format displayed on the screen as you design it; includes calculated data in your report; designate horizontal breaks and subtotals.

Hardware Requirements: 256K and two disk drives.

Support: American Information Systems, Inc.

90-0323 795.00

COBOL Query Query 16

II/12/16/6000

TANDY

Description: With Query, you can retrieve desired information from any COBOL data files. After you enter a query by specifying the file and the fields from which you want to retrieve data and the selection criteria (if any), Query scans the data file, selects the qualifying records and formats the report. The information can then be displayed on the screen or printed. You can also design reports by entering a report title, column headings and widths. You can have Query calculate values in columns by entering the desired formulas. The selection criteria you specify instructs Query to select only that data which meets certain

conditions. You can also save on disk a query that you frequently use and then execute the query whenever needed. You can query a single data file or two data files that have been "joined." You can store retrieved data in an output file, and then convert the file into the appropriate format to use in a document or a spreadsheet. Query comes with built-in data dictionaries for the following applications: Accounts Payable (26-4605, 26-6205), Accounts Receivable (26-4604, 26-6204), General Ledger (26-4601, 26-6201), Order Entry (26-4607, 26-6207) and Payroll (26-4603, 26-6203).

Hardware Requirements: Hard disk drive.

Support: Radio Shack.

Model II/12. 26-4612 149.00

Tandy 6000/Model 16 Multiuser. 26-6212 249.00

COBOL Query III/4

Description: Query makes it possible for you to quickly retrieve information from your COBOL application data files and design your own reports. You specify the fields to be included and the selection criteria and moments later the required information is displayed on the screen or printed on the printer. The retrieved data can be SORTED on any two fields in ascending or descending order and formatted into a report. COBOL Query output can also be in SCRIPSIT or Multiplan readable file format. So you can select and move data from your accounting data files into your documents or spreadsheet for further analysis. Query comes with built-in data dictionaries for the following applications: General Ledger (26-1540), Accounts Receivable (26-1541), Accounts Payable (26-1542), Payroll (26-1543) and Inventory Control (26-1545).

Hardware Requirements: Two disk drives.

Support: Radio Shack.

26-2026 149.95

Dac-Easy Accounting 1000/1200/2000/3000

Description: Dac-Easy Accounting offers instant access to General Ledger, Accounts Receivable, Accounts Payable, Inventory, Purchase Order, Billing and Forecasting. Data entered once is automatically posted to all pertinent modules. Dac-Easy is designed to manage both product and service oriented businesses. Dac-Easy maintains a three-year history on all principal files and provides spreadsheet-like forecasting based on history. You can generate any of 300 different reports for instant access to the exact information you need and 14 different pre-printed forms.

Hardware Requirements: 256K and two disk drives.

Support: Provided by Dac Software, Inc. for a nominal charge.

90-0431 69.95

Fiscal Financial 1000/1200/2000/3000

Description: Integrated General Ledger, Accounts Receivable with Customer Billing and Accounts Payable system supporting 12 or 13 period accounting with open item and balance forward methods. The system can process multiple companies with up to 20 locations per company. Features include: General Ledger—user defined financial statements, comparative reports against budget and previous year and year-end adjustment capability. Accounts Receivable—user defined debt aging, finance charge calculation set by customer, invoices, credit notes and statements. Accounts Payable—check writing and manual check entry, cash requirements forecast, bank reconciliation. All modules—password protection.

Hardware Requirements: 256K and one hard disk.

Support: Provided at no charge by Fiscal Systems, Inc. for a limited time, after which a nominal fee is charged.

90-0428 1795.00

Fiscal Inventory/POS 1000/1200/2000/3000

Description: The system can process multiple companies with up to 20 locations per company and 20 stockrooms per location. Features include: INVENTORY—LIFO, FIFO, Avg. or standard cost evaluation, sub-assemblies, serial number records, POS interface with bar code scanner, 16 character stock number, quantity pricing; SALES ORDER PROCESSING—quotations, acknowledgements, shipping notes and invoices, partial shipments/invoices, order status by customer and item; PURCHASE ORDER PROCESSING—purchase orders, partial receipts/vendor invoices, order status by vendor and item; ALL MODULES—password protection.

Hardware Requirements: 256K and one hard disk.

Support: Provided at no charge by Fiscal Systems, Inc. for a limited time, after which a nominal fee is charged.

90-0430 1795.00

Fiscal Payroll 1000/1200/2000/3000

Description: A multi-state system for hourly, salary, piecework, commission and tipped payroll. The system can process multiple companies with up to 20 locations per company. Features include: vacation and sick leave accrual, distribution of payroll expenses against cost centers, checkwriting and pay slips for cash or bank transfer payment, manual checks and adjustments entry, "tips deemed wages" and tip credit calculation. Computation of employers' tax/benefit contributions, up to 99 deductions/benefits per employee, user defined overtime and premium pay, bank reconciliation, federal and state tax preparation reports, online inquiry, password protection, detailed and summary reports.

Hardware Requirements: 256K and one hard disk drive.

Support: Provided at no charge by Fiscal Systems, Inc. for a limited time, after which a nominal fee is charged.

90-0429 595.00

Great Plains Accounts Payable 1000/1200/2000/3000

Description: Prints current list of accounts payable due at any time and customized aging reports. Automatically calculates payment discounts and discount dates. Allows partial or deferred payments on any invoice. On-screen vendor inquiry shows the transaction story for each vendor and retains total amount billed, number of invoices received, discounts taken or lost, finance charges. Provides vendor list and mailing labels. Handles up to 3000 vendors.

Hardware Requirements: 256K and one hard disk drive.

Support: Provided at no charge by Great Plains Software for a limited time, after which a nominal fee is charged.

90-0171 695.00

Great Plains Accounts Receivable 1000/1200/2000/3000

Description: Examines profitability by customer type, salesperson, and state. Provides customer credit limits, flexible aging periods, calculates finance charges, automatically bills recurring transactions, handles commissions, and prints customer statements. Capabilities include: Applies customer's payment to specific or all invoices, supports both open-item and balance-forward customers simultaneously, handles cash and partial payments, allows prepayments to future invoices. Prints a customer list and mailing labels.

Hardware Requirements: 256K and one hard disk drive.

Support: Provided at no charge by Great Plains Software for a limited time, after which a nominal fee is charged.

90-0170 695.00

GREAT PLAINS

SMALL BUSINESS SOFTWARE

Description: You can customize financial statements to your current format and print them any time during the month or year. Analyzes current, YTD, last year, and budgeted performance. The system verifies input data and account numbers, and maintains a comprehensive audit trail. Capabilities: Flexible formats for financial statements; profit centers for each company/department, password protection, and recurring journal entry function to save time. Capacities: Allows 4, 7, or 10 digit account numbers, can define 999 centers and handles up to 2000 accounts.

Hardware Requirements: 256K and one hard disk drive.

Support: Provided at no charge by Great Plains Software for a limited time, after which a nominal fee is charged.

90-0169 695.00

Great Plains General Ledger

1000/1200/2000/3000

GREAT PLAINS

SMALL BUSINESS SOFTWARE

Description: Help keep track of inventory, reordering, discounts and turnover rates. Management reports show what merchandise is in stock, quantity by item and its value, and items out of stock or on order. Helps identify profitable inventory by item/product line. Supports 6000 items with part numbers up to 15 characters. It allows 5 price levels with 3 quantity breaks per level. LIFO, FIFO, and Weighted Average valuations are supported. Connects to a cash drawer for a retail point-of-sale system. It calculates the correct discounts and quantity price breaks; handles cash sales, account sales, returns and quotes; and prints sales slips or invoices.

Hardware Requirements: 256K and one hard disk drive.

Support: Provided at no charge by Great Plains Software for a limited time, after which a nominal fee is charged.

90-0173 695.00

Great Plains Inventory Management

1000/1200/2000/3000

GREAT PLAINS

SMALL BUSINESS SOFTWARE

Description: Eight different pay periods can be supported concurrently. Prepares SUTA, FUTA, and 941 Preparation reports. Employee checks, W-2 and W-2p statements are printed automatically for single and multistate payrolls. Payroll computes commissions automatically when integrated with Inventory and Accounts Receivable. It prints checks on blank or customized/printed forms. Tax tables for all 50 states are built in and are updated if the tax table update service is used.

Hardware Requirements: 256K and one hard disk drive.

Support: Provided at no charge by Great Plains Software for a limited time, after which a nominal fee is charged.

90-0172 695.00

Great Plains Payroll

Inventory Management

Radio Shack

II

Description: Provides inventory history, gain, turnover, profit margin and perpetual inventory status information. Manage a retail or wholesale inventory of up to 3000 line items. After initializing the program with your inventory system, you just enter purchase orders, merchandise receipts and sales and returns as they occur. The computer does the rest—keeping every item, vendor account and quantity total up to date. It allows you to project your expected inventory needs by analyzing actual sales trends, based on performance during the previous twelve sales reporting periods. Automatic assignment of "ABC" codes allow you to separate inventory items into groups, based on sales—allowing you to see at a glance which items are fast, average or slow moving, and thus minimize inventory investment while maintaining adequate supplies at all times.

Hardware Requirements: Will NOT run on hard disk.

Support: Radio Shack.

26-4502 199.00

MAI Accounts Payable 1000/1200/2000/3000

Description: Effectively manages outgoing cash flow requirements. By properly forecasting payment requirements, the system helps take advantage of available cash discounts and facilitates optimum cash management. Invoices can be selected for payment automatically based on invoice due date, discount due date or user specified pay cycle. Complete information on each vendor is maintained including name, address, phone number, current balance, year-to-date purchase and return history. On-line inquiry with open invoice detail is available. Accounts Payable creates checks and registers and reconciles bank balances, including interest, service charges or other adjustments.

Hardware Requirements: Two disk drives.

Support: Provided at no charge by Promark, Ltd. for 90 days, after which a nominal fee is charged.

Tandy 1000/1200/3000. 90-0396 495.00
Tandy 2000. 26-5212 495.00

MAI Accounts Receivable 1000/1200/2000/3000

Description: Allows maintenance and inquiry into customer and accounts receivable information including detailed open item display. Accounts Receivable ages invoices, applies finance charges and processes cash receipts. Credit limits can easily be checked and maintained. Overdue accounts are tracked with user defined late charge application. Customer statements are produced automatically at the end of a period or on demand. The Sales Tax Report, Cash Receipts Journal and Aged Open Invoice Report provide valuable management information. User parameters support balance forward or open item accounting methods. Payments can be automatically applied to the oldest invoices or optionally to user specified invoices.

Hardware Requirements: Two disk drives.

Support: Provided at no charge by Promark, Ltd. for 90 days, after which there is a nominal fee.

Tandy 2000. 26-5213 495.00

MAI Financial Statements 1000/1200/2000/3000

Description: Works with and enhances MAI General Ledger (90-0395, 26-5210) by providing user defined flexibility in financial reporting. Functions allow definition of report titles, column headings, reporting period, utilized accounts, computations and report line descriptions with selection of actual, budget or variance year to date or period to date figures. It allows creation of divisional or consolidated statements, month to month comparisons and reports such as net change in financial condition, source of funds, asset summaries, or expense analysis based on the users' General Ledger data base. Stores up to 99 user defined reports and outputs them automatically in a single step.

Hardware Requirements: Two disk drives.

Support: Provided at no charge by Promark, Ltd. for 90 days, after which there is a nominal fee.

90-0402 395.00

MAI Fixed Assets 1000/1200/2000/3000

Description: Provides stand alone or integrated tracking of asset value, depreciation and investment tax credits. It simplifies tax preparation by automatically printing all the data necessary to complete federal tax form 4562. Features include choice of seven different depreciation methods, and automatic selection of the most advantageous depreciation method. It maintains independent tracking of actual, book and tax values and provides automatic posting to MAI General Ledger.

Hardware Requirements: Two disk drives.

Support: Provided at no charge by Promark, Ltd. for 90 days, after which there is a nominal fee.

90-0403 395.00

MAI General Ledger 1000/1200/2000/3000

Description: Provides the nucleus of the accounting process. By keeping track of all business transactions, General Ledger provides up-to-the-minute financial statements, including comparative balance sheets and income statements with budget and prior year information. It is a double-entry accounting system conforming to standard, established generally accepted accounting principles. The system supports user-tailored account number formats and accounting periods. Automatic allocating and reversing functions enhance operations and data entry. General Ledger processing is date driven on a multi-period basis allowing posting to a prior or future month.

Hardware Requirements: Two disk drives.

Support: Provided at no charge by Promark, Ltd. for 90 days, after which there is a nominal fee.

Tandy 1000/1200/3000. 90-0395 495.00

MAI Inventory Control 1000/1200/2000/3000

Description: Provides sophisticated tracing of all items in a user's inventory, helping to reduce instances of over and understocking. Under parameter control, the system offers LIFO, FIFO or average costing methods. Inventory Control supports user tailored inventory item numbering. Inventory transactions can be easily entered or automatically posted through integration with Order Entry and Purchase Orders. Up-to-the-minute information includes stock on hand, unit cost, economic order quantity and usage history. The Inventory Reorder Report shows reorder points, quantities on hand, suggested order quantity and the last purchase cost. It also generates physical count sheets and provides simplified counting and adjustment procedures.

Hardware Requirements: Two disk drives.

Support: Provided at no charge by Promark, Ltd. for 90 days, after which there is a nominal fee.

Tandy 2000. 26-5214 495.00

MAI Order Entry 1000/1200/2000/3000

Description: Provides a "single-entry" update of MAI Inventory, Accounts Receivable and Sales Analysis data bases. Output includes orders, picking sheets, shipping labels, packing slips and invoices with user created messages. User controlled pricing, payment terms, discounts and sales commission rates are all standard features. In addition, it tracks committed inventory and customer backorders.

Hardware Requirements: Two disk drives.

Support: Provided at no charge by Promark, Ltd. for 90 days, after which a nominal fee is charged.

90-0400 395.00

MAI Payroll 1000/1200/2000/3000

Description: Meets the most demanding user provisions for multiple pay schedules, flexible automated and manual entry deductions, multi-state tax reporting, workers' compensation and multiple union reporting. It allows definition of earnings and deductions. User defined vacation and sick leave policies are automatically maintained by the system and voluntary deductions can be automatically withheld and applied toward specified goals or limits. Check, 941-A and W-2 printing are provided.

Hardware Requirements: Two disk drives.

Support: Provided at no charge by Promark, Ltd. for 90 days, after which a nominal fee is charged.

90-0399 495.00

MAI Purchase Orders

1000/1200/2000/3000

Description: Provides the necessary capabilities to enter, print and maintain user purchase orders. Checks current pricing against previous pricing history when integrated with MAI Inventory Control. Maintains user requested payment terms and other specified messages and instructions. All open purchase orders are system maintained. Provisions for partial completions allow individual items to be held on backorder or cancelled. Complete status reporting is available on demand.

Hardware Requirements: Two disk drives.

Support: Provided at no charge by Promark Ltd. for 90 days, after which a nominal fee is charged.

90-0401 395.00

MAI Report Writer

1000/1200/2000/3000

Description: Allows creation of reports and video queries from MAI Integrated Accounting data files. Data can be transferred in ASCII, DIF or Comma Separated (CS) formats to most spreadsheets, word processors, data bases or graphics products. Includes a tutorial and documentation for a user to produce custom reports. User specification of data selection criteria and sort sequences. It has the ability to integrate with applications such as Lotus 1-2-3, Symphony, Framework, WordPerfect, WordStar, dBASE II and III, SuperCalc, Multiplan, Chart Master, and MultiMate.

Hardware Requirements: Two disk drives.

Support: Provided at no charge by Promark Ltd. for 90 days, after which a nominal fee is charged.

90-0406 395.00

MAI Sales Analysis

1000/1200/2000/3000

Description: Provides analytical reports based on actual data allowing a user to make informed pricing and purchasing decisions. With Sales Analysis, a user can determine cost and profit margins, profitable items, best customers and most productive sales people. Data is transferred automatically from MAI Order Entry. Provides multiple report formats, computes profit margins and stores required period-to-date comparative figures automatically based on user specified parameters.

Hardware Requirements: Two disk drives.

Support: Provided at no charge by Promark, Ltd. for a limited time, after which a nominal fee is charged.

TANDY

Quartet

1000/1200/2000/3000

Description: A complete accounting system that performs the four major accounting functions. General Ledger prints a Trial Balance, Income Statement and Balance sheet and provides for journal entries. Accounts Receivable records customer sales and credit memos, prints invoices and statements and provides for reports such as aged accounts receivable and estimated income. Accounts Payable allows entry of expenses and vendor

invoices, and writes checks. It automatically calculates sales tax and discounts. It will automatically select items for payment based on due date and discount dates or allow selection of invoices individually for payment. It prints a Cash Requirements report and a Payment Register. Payroll calculates federal, state and city taxes. It tracks current, quarterly, and yearly amounts for earnings, deductions and prints payroll checks. It prints W-2's and allows changing of the W-2 format if the design changes.

Hardware Requirements: 256K and two disk drives.

Support: Radio Shack.

25-1146 399.95

Radio Shack
Accounts Payable

II/12

Description: To make sure you maximize your cash flow and don't lose any discounts, your small business needs our Accounts Payable program. Designed for flexibility and ease of operation, the Accounts Payable manual will take you step-by-step through the process of establishing and maintaining your own electronic Accounts Payable system. It provides comprehensive reports and a full audit trail and has password protection to make sure your data is secure. You can add a disk drive and automatically update our General Ledger program (26-4501) with data from your Accounts Payable program, giving you a complete interactive accounting system. Features include: easy entry of vendor invoice information, selection of a single invoice or group of invoices for posting, printing or holding. It prints a Cash Requirements report which lists all invoices that are within five days of losing a discount.

Support: Radio Shack.

RadioShack

Radio Shack
Accounts Receivable

II/12

Description: Now you can give your small or medium-sized business the benefit of electronic processing of Accounts Receivable—saving you time and money and giving you more control over the vital part of the business process. This Accounts Receivable program lets you tailor the system to your present accounting methods, gives you comprehensive reports so you stay up-to-date and with the addition of another disk drive, interacts with our General Ledger program for more efficient handling of orders and automatic updating of inventory. With Accounts Receivable, you can examine all account activities and General Ledger journals, prepare Aged and Non-Aged Trial Balance sheets (with and without detail of individual transactions), calculate late charges and print statements, invoices and address labels. You may have both balance-forward and open-item accounts and apply payments to specific open invoices or to the oldest balance.

Support: Radio Shack.

Radio Shack
General Ledger

II/12

Description: This flexible system lets you custom-tailor the program to fit your own needs, rather than forcing you to revamp your bookkeeping to its demands. You can enter your own four-digit account numbers. You can use our suggestions for income and expense categories or assign your own categories—to a total of ten. General Ledger features automatic "out of balance" detection, automatic, well-defined audit trails and easy daily operations. Best of all, just by adding another disk drive to your Model 12 or II, you can use the General Ledger program as the center of a complete interactive accounting system that receives updates from Accounts Payable (26-4505), Accounts Receivable (26-4504) and Payroll (26-4503).

Order Entry/
Inventory Control****II/12**

Description: Designed to be merged with our Accounts Receivable program (26-4504) giving the user more efficient handling of orders, automatic updating of inventory levels (stock quantity) and complete reports. Without an Order Entry system, normal operations require considerable duplication of effort to fill orders, produce invoices, maintain an accurate inventory, post sales and bill each customer's account. With Order Entry, all these elements are kept current with a minimum of duplication, greater efficiency and a considerable savings in clerical time. Features include an Inventory Control that supports up to 2000 stock items; reports and processes back-orders with automatic filling capabilities; prints a picking list for pulling items from the stockroom or warehouse; allows the processing of specific orders while others are still in the process of being filled; allows adjustment of order and credit memo information; and it prints invoices.

Support: Radio Shack.

26-4514 199.00

Radio Shack**Radio Shack Payroll****II/12**

Description: It allows you to set up Earning and Deduction categories, Federal Withholding and EIC tables, state and city taxes and Workmen's Compensation Classifications. Entry and correction of employee records is quick and easy. With an additional disk drive, information can be combined with General Ledger program (26-4501). Features include: automatic calculation of federal, state and city taxes; user modification of the W-2 forms to accommodate changes in tax laws; provision for automatic voluntary deductions; easy error correction and recovery; automatic advanced EIC payment calculation; and easy time card calculations with automatic overtime. Prints monthly, quarterly and annual journals.

Support: Radio Shack.

1000/1200/2000/3000

Description: Works with the Accounts Receivable and Inventory Control packages. It tabulates and prints the following reports: Sales Analysis by customer; Sales Analysis by customer type; Sales Analysis by customer sales volume; Sales Analysis by responsible salesman; Sales Analysis by state; Sales Analysis by item; Sales Analysis by item category; Sales Analysis by item sales volume. The package includes password protection. It

requires either the RealWorld Accounts Receivable or Inventory Control packages and can be used with both.

Hardware Requirements: 256K and two disk drives. Hard disk drive recommended.

Support: Provided by Real World for a nominal charge.
90-0205 348.00

TANDY Tandy Accounts Payable III/4

Description: Accounts Payable provides rapid and accurate monitoring of purchases and outgoing funds. Features automatic calculation of due dates, discount dates and discount amounts based on vendor payment terms; automatic selection of invoices to pay based on discount dates and due dates. Accounts Payable prints the following reports: Unposted Transaction List, Transaction Posting Report, Open Invoice List, Cash Requirements Report, Checks, Check Register and Vendor Labels. You may use Accounts Payable alone or with General Ledger (26-1540). When these two packages are used together, transactions and payments occurring within the Accounts Payable system are automatically posted to the General Ledger.

Hardware Requirements: Two disk drives. Requires three disk drives to interface with General Ledger.

Support: Radio Shack.
26-1542 199.95

TANDY Tandy Accounts Receivable III/4

Description: Give your office the advantage of processing sales and incoming funds—electronically! It will save time and money and increase the efficiency and productivity of your office staff. It is a “balance forward” system which can be used with Invoice Writer (26-1544) for invoice printing. The program is easy to learn and simple to use. The package contains a special sample data disk and a sample session in the operating manual to help you quickly learn the system. It offers late charge processing, statement printing and mailing label printing. When used with General Ledger (26-1540), the transactions you post while running Accounts Receivable are posted automatically to General Ledger. Reports include: Unposted Transactions, Posted Transactions, Customer List, General Ledger Account List, Aged Trial Balance and General Ledger Report.

Hardware requirements: Two disk drives. A third disk drive is needed to interface with General Ledger.

Support: Radio Shack.
26-1541 199.95

TANDY Tandy General Ledger III/4

Description: General Ledger makes small business accounting procedures efficient, simple and quick. It maintains accurate records of all bookkeeping transactions and gives you a balanced ledger and easy-to-read financial reports. This professional, comprehensive accounting package gives you instant access to the information you need to keep control of your business's financial picture. General Ledger lets you specify accounting periods and tailor reports specifically for your business. General Ledger prints these financial reports: Trial Balance; Income Statement with or without last year's comparatives, Posted Transaction Report and Unposted Transaction Report. Use General Ledger with Accounts Receivable (26-1541), Accounts Payable (26-1542), or Payroll (26-1543) for a complete accounting system.

Hardware Requirements: Two disk drives. A third disk drive is required to use General Ledger with other accounting packages in this series.

Support: Radio Shack.
26-1540 199.95

TANDY

Tandy Inventory Control 4

Description: Designed to make inventory control easier and more accurate. Produces a reorder report showing items below designated reorder level, plus an on-hand listing of items. Prints ten major reports, plus nine custom reports designed by you. Prints purchase orders and labels. Allows physical inventory count to be taken by cycle and lets you automatically reorder stock. Use Inventory Control with Invoice Writer (26-1544) to automatically update inventory while invoicing customers.

Hardware Requirements: Three disk drives.

Support: Radio Shack.

26-1545 199.95

TANDY Tandy Invoice Writer III/4

Description: Invoice Writer provides a rapid and accurate method of creating invoices. Its many features include: automatic sales tax calculations, automatic discounts calculation and invoice printing. Use Invoice Writer with Accounts Receivable (26-1541) to transfer invoice information to your customer accounts. You may also use Invoice Writer with Inventory to update your inventory as you create invoices. If you are a service company or do not need to update on-hand quantities in Inventory, you may use the “item file” which is built into the Invoice Writer for items to appear on customer invoices.

Hardware Requirements: Two disk drives. Three disk drives are needed to interface with the Inventory Control System. You must have the Accounts Receivable package (26-1541). The Inventory Control Program (26-1545) is optional.

Support: Radio Shack.

26-1544 49.95

TANDY Tandy Payroll III/4

Description: This is a complete payroll system for your small business. It keeps track of earnings, deductions and taxes for each of your employees, as well as all employer contributions such as FICA, FUI and SUI. You can use Payroll by itself or interface it with the General Ledger program (26-1540). When these two packages are used together, the transactions you enter while running Payroll are automatically posted to General Ledger. Payroll is easy to learn and use. The program includes complete documentation and sample data furnished on diskette. In no time at all, the Payroll program will let you easily and efficiently manage the usually tedious job of paying employees. It handles state taxes for up to three states at a time and prints payroll checks and reports to help you complete federal and state tax returns. Use Payroll with W-2 Writer (26-1539) for printing W-2's.

Hardware Requirements: Two disk drives. A third disk drive is needed to interface with General Ledger.

Support: Radio Shack.

26-1543 199.95

TANDY Tandy W-2 Writer III/4

Description: W-2 Writer works with Payroll (26-1543) for printing W-2's. It allows you to design and build your own W-2 form so when the government changes the design of the W-2 form you can change your W-2 program accordingly.

Hardware Requirements: Two disk drives.

Support: Radio Shack.

26-1539 49.95

Timeware**Business Graphics Analysis****III/II/12**

Description: Perfect for corporate planners, analysts and managers. Turns complicated numeric data into easy-to-understand charts and graphs. Select pie, bar, line or scatter charts, supply the data and the program quickly displays your graph on the screen. Menu-driven for easy use. Allows editing of titles and labels before printing. Enter data from keyboard or disk files using VisiCalc. Performs simple arithmetic or complex trend, growth, moving average, consolidation or logarithmic operations. Supports most Radio Shack printers and plotters.

Hardware Requirements: Model III: 48K, two disk drives. High-Resolution Graphics Board optional.

Support: Radio Shack.

Model III. 26-1597 174.95
Model II/12. 26-4550 249.00

TANDY**Color Disk Graphics**
Color Computer

Description: Create and plot color charts and graphs. Formats include vertical or horizontal bar charts, pie charts and line charts. You can label graph lines with a key legend and save your charts on disk.

Hardware Requirements: 32K, one disk drive.

Support: Radio Shack.

26-3251 39.95

Digital Research**DR Graph**
2000

Description: Add impact to your presentations. Display line, bar, step, stick, scatter, pie and text-only charts. Print your graphs on paper or transparencies using a wide variety of devices. Simple screen instructions guide you through every stage of graph design without extensive training. You choose labels, titles, colors, legends, type styles and borders to add the final touch to your work. Add, move and modify the size of your text at will with the aid of the optional Digi-Mouse.

Support: Radio Shack.

26-5278 195.00

TANDY**Graphics Pack**
Color Computer

Description: Easily create and plot a variety of charts and graphs. Graphics Pack lets you display them on your screen in color, or print them using an optional graphics printer. Chart formats include vertical or horizontal bar chart, pie charts and line charts. And you can label the lines used in your graphs with a key legend. Save your charts on cassette tape.

Hardware Requirements: 16K and cassette recorder.

Support: Radio Shack.

26-3157 29.95

Radio Shack**Graphics Pak**
PC-2

Description: A set of six programs designed to produce bar, pie, line and point charts. Charts are automatically scaled for best fit. The chart title is automatically centered and the graph segments may be labeled, too. Multiple colors can be used. Data can be read from a tape file or entered from the keyboard.

Hardware Requirements: Printer/Plotter/Cassette Interface.

Support: Radio Shack.

26-3715 19.95

Graphwriter**Graphwriter**
2000

Description: A business graphics package designed to produce formal presentation materials. The set includes 23 different chart types. Each format is pre-programmed to provide a professional-looking chart by simply entering data. Significant changes can also be made to the size, color, orientations and style of the chart. Graphwriter charts rival those produced by a graphics designer because a "built-in artist" feature individually composes each chart for the type of presentation materials needed. Automatic layout is customized for slides, paper or overheads. By using a "fill in the blank" input form, charts can even be prepared by the support staff.

Hardware Requirements: 256K, two disk drives and high-resolution graphics.

Support: Radio Shack.

26-5276 595.00

High
Tech™
Marketing
Inc.

High Tech
Business Graphics
16/6000

Description: Easy to learn and use—requires no special graphics hardware. Graphs are created on the screen as menu choices are made. You can quickly make horizontal and vertical bar graphs, line graphs, and cake graphs (rectangular pie charts). Data can come from the keyboard or Multiplan. Then presentation-quality graphics and true round pie charts can be generated on plotters. Twenty-two terminals, 20 printers, and 5 plotter types are supported. High Tech Business Graphics will also run on character-mode terminals.

Hardware Requirements: 512K and a hard disk drive.

Support: Provided by High Tech Marketing, Inc. for a nominal charge.

90-0417 595.00

MICROSOFT®**Microsoft Chart**
1000/1200

Description: Unmatched versatility for creating and printing presentation-quality graphics. Choose from a wide variety of chart types, picking whichever one communicates your ideas most effectively. Produce management reports, make executive presentations and display financial analyses. Customize your charts with movable text, arrows, patterns and colors. Data from many popular spreadsheet and database applications can be imported for use in Microsoft Chart.

Hardware Requirements: Tandy 1000: 384K and two disk drives.

Support: Microsoft.

90-0475 295.00

pfs:graph

1000/1200/2000/3000

Description: Helps you produce colorful bar, line and pie charts that make your points stronger, your reports shorter, your presentations clearer and your meetings more effective. Whatever kind of chart you need, Graph has the right one. And Graph lets you experiment with different types of graphs to find the best way to display your data. Change from a bar to a pie with just a few keystrokes. Type in your data and Graph will automatically arrange and display it, scaling your chart and selecting the patterns or colors for you. Graph also saves you time by working hand-in-hand with your other software. You can create charts instantly with data from pfs:file, pfs:plan and others. Since Graph is integrated with the other programs in the pfs family, you can add Graph charts to the documents you create with pfs:write to illustrate an important point.

Support: Radio Shack.

Tandy 1000/1200/3000. 25-1143 140.00

Tandy 2000. 26-5307 140.00

Appointment Manager

100

Description: Easy to use and efficient method of tracking business and personal appointments. Log appointments and get reminders of pending appointments. Automatically reschedule recurring appointments. Keeps daily lists of prioritized things to do.

Hardware Requirements: 16K and cassette recorder.

Support: Traveling Software.

90-0134 59.95

Radio Shack

Business Decisions

100

Description: Six programs designed to help you compete in today's demanding world of business and finance. Programs included are: inventory replenishment analysis, sequential decision analysis, financial ratios, break-even analysis, linear programming, and pricing table.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-3832 39.95

Radio Shack

Business Finance

100

Description: Twelve programs for business and personal finance applications. Included are programs for: days between dates, calendar, net present value, internal rate of return, rent or buy decisions, lease/purchase analysis, machinery replacement analysis, depreciation, annuity/annuity due, bond analysis, and portfolio analysis.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-3831 39.95

Radio Shack

Business Finance

PC-2

Description: Programs for loans, annuities, bond prices, compound interest, yield, depreciation, days and dates, and more.

Hardware Requirements: PC-2 Printer/Plotter/Cassette Interface, Cassette recorder.

Support: Radio Shack.

26-3703 19.95

Radio Shack

Business Finance

PC-1/PC-3

Description: Computes loans, annuities, bond price, yield, compound interest, depreciation and more.

Hardware Requirements: Cassette Interface and cassette recorder.

Support: Radio Shack.

26-3517 19.95

Business Forecasting Model

Radio Shack

III/12

Description: Allows you to generate financial reports based on your VisiCalc spreadsheets. Features preformatted templates for income statement, balance sheet, cash flow and financial ratios. Three supporting templates—sales and cost of goods sold, salaries and assets and depreciation—are provided.

Hardware Requirements: One disk drive.

Support: Radio Shack.

Model III. 26-1521 99.95

Model 12. 26-4526 99.00

Radio Shack

Calculator

100

Description: Powerful math "scratchpad" for finance and regular math functions. Consists of two programs. The first performs addition, subtraction, multiplication, division, exponentiation and several extended math functions. The second program performs all functions provided in the first, plus special extended calculations that are especially formulated to solve business-related problems. These special calculations include: days and dates, interest, loans, bonds, and futures.

Hardware Requirements: 8K and cassette recorder.

Support: Radio Shack.

26-3827 19.95

Radio Shack

Desktop/Plan 80

III

Description: Analyze probable results of business decisions. This sophisticated financial planning program guides you from model development to printing high-quality reports. Consolidates sub-models into one summary model, transfers several budgets to a summary budget, reads VisiCalc files to produce reports and more. Plots points for line charts and automatically formats printed reports.

Hardware Requirements: One disk drive.

Support: Radio Shack.

26-1594 199.00

Radio Shack

Executive Calendar

100

Description: Displays a calendar for any month of the year and records your scheduled appointments.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-3833 19.95

Expense Manager

100

Description: Logs expenses and prints out summary reports showing how expenses were incurred. User-definable accounts. Current balances of each account and cumulative expenses for all projects or clients can be displayed on the screen or printed. Reports may be produced for user-specified periods, by client or project, and by expense type.

Hardware Requirements: 16K and cassette recorder.

Support: Traveling Software.

90-0132 59.95

Financial Management

Lotus Development Corporation

Solverpack

4

Description: For use with TK!Solver for problems in financial analysis, including compound interest, net present value, internal rate of return, level debt service, cost of equity capital, ratio analysis, stock option pricing, bond swaps, convertible debt and bond refunding decisions.

Hardware Requirements: 128K, one disk drive.

Support: Radio Shack.

26-1631 99.95

MICROSOFT

Microsoft Project

1000/1200/2000

Description: A comprehensive management and costing system that can help you keep even your biggest projects on track. Plan, track and analyze projects. Collect information on project timing, resource use and cost. Includes ASAP and ALAP scheduling, Gantt and PERT charts, subproject linking, and tracking of plan versus actual.

Hardware Requirements: 256K, two floppy disk drives or hard disk system.

Support: Microsoft Corporation.

90-0473 395.00

**Silver Eagle Software
Publishing, Ltd.**

Money Decisions Series

4

Description: Each program puts the most frequently used business and financial problem-solvers at your fingertips! Create a set of problem-solving assumptions and then calculate "before and after" effects of multiple alternatives. Each can be used alone or in conjunction with the other Money Decisions programs.

Hardware Requirements: One disk drive.

Support: Radio Shack.

Money Decisions I: Investment Analysis. Includes Future Investment Value, Initial Investment, Annual Interest Rate, Internal Rate of Return and more.

26-1620 49.95

Money Decisions II: Real Estate and Loan Analysis. Includes Principal on a Loan, Regular Payment on a Loan, Last Payment on a Loan, Term of a Loan, Annual Interest Rate on a Loan, Mortgage Amortization Table and more.

26-1621 49.95

Money Decisions III: Business Statistics and Forecasting. Includes Risk Adjusted Net Present Value, Payoff Matrix Analysis, Regression Analysis/Forecasting, Bayesian Decision Analysis and more.

26-1622 49.95

Money Decisions IV: Business Management. Includes Lease Purchase Analysis, Depreciation Switch, Salvage Value, Bar Graph and more.

26-1623 49.95

Money Decisions V: Advanced Investment Analysis. Includes Future Investment Value (Uneven Cash), Present Value of Tax Deduction, Discount Commercial Paper, Accrued Interest on Bonds and more.

26-1624 49.95

Radio Shack

Personnel Manager

I/III

Description: A specialized filing system for organizing information. It helps you maintain accurate addresses, telephone numbers, projects, resumes and other data on your business contacts, employees and friends. Selection features allow you to quickly locate a specific person, company, product or service. Helps keep track of projects and records information on employee participation in training courses and programs, grades earned or hours attended, promotions, raises, work habits and progress.

Hardware Requirements: 48K, two disk drives.

Support: Radio Shack.

26-1581 99.95

Radio Shack

Project Manager

I/III

Description: A powerful tool for scheduling projects and tasks and using resources to the maximum. Using the Critical Path Method, Project Manager makes a project manageable by dividing it into tasks. Critical Path Analysis and Gantt, PERT, Time, Task and Resource charts are created quickly and easily.

Hardware Requirements: 48K, two disk drives.

Support: Radio Shack.

26-1580 99.95

Project Manager

100

Description: Simultaneously manage several projects of any kind, from small to large. Affords flexibility in defining, scheduling and setting budgets for all the activities and tasks within a project. A variety of printed reports show both individual expenditures and summaries, plus a chart comparing estimated starting and ending dates with the actual dates.

Hardware Requirements: 24K and cassette recorder.

Support: Traveling Software.

90-0135 59.95

Project Scheduler

100/200

Description: Plan and manage all your projects efficiently. Using Project Scheduler, you divide a large project into smaller individual tasks with specific time tables and interdependencies. Each time you make a change that affects the project completion date, such as add or slip a job, a new Critical Path is charted and the completion date is recalculated.

Hardware Requirements: 24K and cassette recorder.

Support: Radio Shack.

Model 100. 26-3843 39.95

Tandy 200. 26-3893 39.95

R Systems, Inc.

OFFICE AUTOMATION SOFTWARE

R Desk

6000

Description: Offers appointment calendars, card files, phone messages, calculators and "to-do list," as well as the ability to schedule any number of users to common meetings. One user or several people can access all functions easily, with personal data protected by individual passwords.

Hardware Requirements: 512K and a hard disk.

Support: Provided at no charge by R Systems, Inc. for a limited time, after which a nominal fee is charged.

90-0433 495.00

Sales Manager

100

Description: Keeps accurate and timely records. Provides a complete customer biography function to allow for the quick lookup of customer names, addresses, phone numbers and notes and an optional "reminder" service. Includes a customer contact log and a complete order entry system.

Hardware Requirements: 16K and cassette recorder.

Support: Traveling Software.

90-0133 59.95

Radio Shack

Time Manager

I/III

Description: A personal calendar/reminder and electronic notebook. It helps you organize your time and business information, and creates permanent records. Important activities are displayed from day to day until completed, forming a dynamic "to-do" list. Expenses may be computed according to your criteria for tax and budgeting purposes.

Hardware Requirements: 48K, two disk drives.

Support: Radio Shack.

26-1582 99.95

Time Manager

100

Description: A professional time-accounting and billing system. Time expenditures can be entered manually or automatically. Billing rates are automatically applied for each expenditure. Expenditures may be designated as billable or not. Summaries for any time period are available on screen or printed.

Hardware Requirements: 16K and cassette recorder.

Support: Traveling Software.

90-0131 59.95

Time Minder

200

Description: Manage your appointments and expenses effectively. It provides concise information about your expenses and time commitments—past, present and future. Set, update and cancel appointments. Print reports showing appointment schedules. Record and organize your expenses in six definable categories. View expense summary or print expense report.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-3883 39.95

ASCII Pro 1000/1200/3000

Description: A complete telecommunications program designed for power and versatility. ASCII Pro supports all the advanced features you look for in a communications program, including terminal emulation, file transfer, accessing on-line information services and more. Among the state-of-the-art features are: macro functions allowing access to databases with a single keystroke; unattended operation; a text editor for composing messages without a word processor; support of all 2400 baud protocols, including Kermit and XMODEM; support of multi-tasking and windowing environments; extensive on-screen help; both command and menu-driven operation.

Hardware Requirements: 256K and a telephone modem.

Support: United Software Technologies.

90-0310 189.95

BBS-PC 3.04 1000/1200/2000/3000

Description: An electronic bulletin-board program that allows the Tandy 1000, 1200, 2000 or 3000 to exchange messages and files with other computers. The program includes a menu customizer for changing the board's appearance and function. By customizing menus, the BBS operator can either run the system as one board with different message sections or up to 16 sub-boards. Message capacity is limited only by disk space. Many file-transfer protocols allowed for uploading and downloading. Security, speed, and versatility are this program's strong points.

Hardware Requirements: 256K and a telephone modem. Hard disk recommended.

Support: Micro-Systems Software.

90-0352 149.95

BIS 3270 12/2000

Description: A full function Bisync 3270 terminal emulator that allows a Model 12 or Tandy 2000 to communicate with a mainframe over phone lines. It turns your computer into an IBM 3271/3274/3275/3276 display station and a 3284/3286 printer. Features a modem analog loopback test, diagnostic support, help facilities, automatic data entry from disk files and a choice of physical or logical devices. The Tandy 2000 also includes status-line emulation and menu-driven configuration.

Hardware Requirements: Model 12: Serial port modification. Tandy 2000: Serial Expansion Board (26-5164).

Support: Radio Shack.

Model 12, 26-4730 1495.00

Tandy 2000, 26-5259 695.00

BIS 3780 12/2000

Description: Allows a Model 12 or Tandy 2000 to communicate with an IBM bisynchronous protocol host over phone lines. Your computer functions as an RJE or remote job entry terminal. Supports IBM JES, RES, HASP or POWER console commands; full bidirectional file transfer; print and punch destination data; all translation, reformatting and padding required to send and receive text or binary files. Features loop-back test, status inquiry and line diagnostics. The Tandy 2000 has menu-driven configuration.

Hardware Requirements: Model 12: Serial port modification. Tandy 2000: Serial Expansion Board (26-5164)

Support: Radio Shack.

Model 12, 26-4716 995.00

Tandy 2000, 26-5258 695.00

Radio Shack

Cassette Communications

I

Description: Allows your Model I to communicate with major information services (such as CompuServe) and other computers without an Expansion Interface.

Hardware Requirements: Modem-I (26-1172).

Support: Radio Shack.

26-1139 9.95

Phone-I

Cleo-3270 Cluster Controller 2000

Description: The Cleo-3270 Cluster Controller is your answer for Bisync remote 3270 emulation. Supports 4 devices, emulating 3276/3278 Model 2 and 3287 printer sessions with a host system. The Cleo-3270 Cluster Controller has all the features you're looking for in a 3270 emulation package including a "Hot Key" for keeping the data link alive while you do local applications. Features 3279 support for color monitors, video optimization for fast response and user-installed ASCII-EBCDIC translation tables.

Hardware Requirements: Serial Expansion Board (26-5164).

Support: Radio Shack.

26-5262 980.00

TANDY

Color Compac Color Computer

Description: A cassette-based communications program for the Color Computer. Supports the access of major data bases (such as CompuServe) and allows the transmission and receiving of BASIC and machine-language programs.

Hardware Requirements: Cassette recorder and a telephone modem.

Support: Radio Shack.

26-3330 29.95

Color Connection III Color Computer

Description: A comprehensive modem software package for the Color Computer to access electronic data services (like CompuServe and the Source), bulletin board systems, or to link up computers. It supports CompuServe Protocol B, XMODEM, and XON/XOFF protocols, auto-answer/auto-dial for both Hayes-compatible and all Radio Shack modems, as well as full upload/download capabilities. Features a large buffer, high-resolution screen, single-key macros, selectable printer baud rates, and "Introduction to Data Communications".

Hardware Requirements: 32K, one disk drive and a telephone modem.

Support: Computerware.

90-0348 49.95

CROSSTALK

CrossTalk XVI 2000

Description: CrossTalk XVI, Version 3.6 is Microstuf's latest version of its leading telecommunications software for MS-DOS-based microcomputers. Additional capabilities added to CrossTalk XVI in its latest version include the KERMIT file transfer protocol, automatic modem speed settings and support of modem speeds up to 115/200 bps. Also includes improvements in its XMODEM file transfer program and VT100 terminal emulator. Built-in "status lights" for use with internal modems, display the status of the modem's RS-232 pins in the screen's lower right corner. The RTS and CTS signals required by some modems are now recognized through a "handshake" command.

Support: Microstuf.
90-0344 195.00

COMMUNIQUE
CORPORATION

CQ-3780

1000/1200/3000

Description: A powerful 2780-3780 bisynchronous communications package. It has all of the features and benefits of CQ-HASTE (90-0297), but emulates an IBM 2770, 2780, 3780 or 3741 workstation rather than a HASP workstation. CQ-3780 is entirely menu driven and has context-sensitive help. It supports local disk commands, has a built-in text editor, and features superb error handling. CQ-3780 supports a physical card reader and a plotter and allows you to redirect incoming data to a file or the console, or to more than one destination simultaneously!

Hardware Requirements: 256K.

Support: Communique Corporation.
90-0299 825.00

COMMUNIQUE
CORPORATION

CQ-HASTE

1000/1200/3000

Description: CQ-HASTE, a powerful, easy-to-use HASP-station emulator, is the ideal program to fill your micro to mainframe—or micro to minicomputer—communications needs. CQ-HASTE works with IBM (running HASP, POWER, RES, JES, JES2 or MRJE), CDC, Burroughs, NCR, DEC, Data General, Harris, Tandem, Wang, Sperry Univac, Nixdorf, and other systems. CQ-HASTE is menu driven for ease of use and has in-context help at every menu for ease of learning. Systems errors—such as disk errors and printer problems—are trapped and a full screen-help message is available for assistance. All user errors are trapped, and where appropriate, an explanation of each error is provided. Includes interface board.

Hardware Requirements: 256K.

Support: Communique Corporation.
90-0297 1075.00

GIBBERMAN
ENTERPRISES

Emul-8

4

Description: This program allows the Model 4 to emulate an ADDS 25 remote terminal. Spooled printing allows the Model 4 to print in the background, independent of the foreground tasks (e.g., an application program). Ideal for use with TRS-XENIX systems.

Hardware Requirements: Telephone modem or null modem adapter.

Support: Gibberman Enterprises.
90-0224 169.95

Executive Information Service

CompuServe

I/III/4/II/12/1000/1200
2000/3000/100/200/600

Description: An easy and efficient way to get the information you want for business and personal needs. Get current and historical stock prices on over 50,000 securities, corporate financial history and future earnings estimates, key demo-

graphic data and statistical tools, plus business information and news wires. You also get electronic mail, airline schedules, electronic banking, shop-at-home and much more. Includes 2 hours of connect time for any time of day and user's guide. You will then be billed at low monthly rates.

Hardware Requirements: An RS-232 port, a modem and Videotex software.

Support: Radio Shack and CompuServe.

26-3848 44.95

Let's Talk

III/4/II/12/1000/1200/2000/3000

Description: An easy-to-use program for transferring ASCII files between TRSDOS and/or MS-DOS computers, using modems or direct-connect cables. Let's Talk allows files of any size to be transferred to or from an unattended computer, initiates the transfer from either computer and offers three transfer speeds. In addition, Let's Talk allows users to communicate directly by displaying on one computer screen what is typed on the keyboard of the other computer.

Hardware Requirements: Tandy 1000/1200/2000: 256K. Model II/12/III/4: RS-232 interface. Direct-connect cable or modem for each computer.

Support: Good Software, Inc.

90-0239 179.00

RadioShack

Micro/Courier

III

Description: Send and receive electronic mail quickly, inexpensively and reliably. Micro/Courier lets you send any TRSDOS file you can store and access with your computer to any other personal computer with the same communications protocol. Or access information services like Dow Jones News/Retrieval or CompuServe. Includes "unattended" mode that allows automatic dialing after business hours for reduced rate.

Hardware Requirements: Two floppy disk drives, Modem II, and RS-232C interface.

Support: Radio Shack.

26-1589 149.95

MICRO-INTEGRATION

Micro-SNA/3270

12

Description: Allows a Model 12 to communicate over telephone lines (via modem or modem eliminator) with a remote SNA/SDLC host that supports 3270 devices. Your Model 12 emulates a 3276/3278 Model 2 display station. Micro-SNA/3270 supports the 87-key EBCDIC keyboard with 24 PF keys and 3 PA keys.

Hardware Requirements: Serial port modification.

Support: Radio Shack.

26-4717 699.00

MICROSOFT® Microsoft Access 1.0

1000/1200/2000/3000

Description: A business communications program with advanced features that make on-line communications both easy and efficient. Access's Custom Menus make using commercial information services easy by being consistent across the services; you do not have to learn a new command interface each time you subscribe to another one. The "Learn" facility helps automate routine tasks. The Export feature allows transfer of information captured on line directly into other programs like Lotus 1-2-3, Multiplan, Microsoft Chart, and most word processors. Access provides built-in interfaces to Dow Jones News/Retrieval, CompuServe Executive Information Service, NewsNet, Official Airline Guide, MCI Mail and EasyLink.

Hardware Requirements: 256K and telephone modem.

Support: Microsoft Corporation.

90-0474 250.00

Lindbergh Systems, Inc.

OmniTerm
I/III/II/12

Description: Turns your Computer into a versatile, yet easy-to-use communications workstation. The program can be used by novices with little knowledge of communications. Applications include transferring files with or without error detection and correction, accessing information services and ASCII communications with other micros, mainframes and minis.

Hardware Requirements: Modem.

Support: Lindbergh Systems, Inc.

Model I/III. 90-0122 69.00

Model II/12. 90-0124 89.00

OmniTerm 2

1000/1200/2000/3000

Description: Turns your computer into versatile communications workstation. With OmniTerm 2 you can communicate with a mainframe or Tandy XENIX host as a VT100 terminal, transfer files with or without error detection/correction, access information services, communicate with other micros, or auto-answer and file transfer in the unattended mode. OmniTerm 2 setup is menu driven and allows you to customize every aspect of communication, including translation tables for the keyboard, screen and incoming and outgoing RS-232 lines.

Hardware Requirements: RS-232 port and telephone modem.

Support: Radio Shack.

25-1160 129.95

Lindbergh Systems, Inc.

OmniTerm Plus

4

Description: Turns your Model 4 into a powerful, yet easy-to-use communications workstation. The program can be used by novices with little knowledge of communications. Applications include connecting to XENIX, mainframes or minis as a VT-100 terminal, transferring files with or without error detection and correction, accessing information services and ASCII communications with other micros, mainframes and minis.

Hardware Requirements: Telephone modem.

Support: Lindbergh Systems, Inc.

90-0123 95.00

MCTel

Post Plus

4

Description: Fully integrates telecommunications and word processing, allowing the serious user of on-line information services to make the most efficient use of the respective

strengths of both Model 4 and favorite host services.

Hardware Requirements: Telephone modem.

Support: MCTel, Inc.

90-0279 160.00

SoftTEST Inc.

SoftGram

6000

Description: A Telex and TWX message management product for the Tandy 6000. SoftGram sends and receives domestic and international Telex and TWX messages, either via the phone network (DDD) or computer-to-computer direct mail. Maintains names/addresses for mass-distribution of messages.

Hardware Requirements: Telephone modem.

Support: Provided at no charge by Softest for a limited time, after which a nominal fee is charged.

90-0194 695.00

SOFTRONICS

Softerm 2000

2000

Description: A communications and terminal-emulation program that accesses bulletin boards, information services, and company mainframes. Softerm 2000 includes emulations of 30-plus popular terminals. Both conversational and block modes are supported. Softerm 2000 operates stand-alone, or as an extension of the MS-DOS operating system, to allow the program to be accessed from inside other applications. Other features include keyboard macros, a built-in phone book for automatic dialing and capture to print or disk.

Hardware Requirements: Modem.

Support: Radio Shack.

26-5261 195.00

Avatar

T-1000

Protocol Converter

II/12/16/6000

Description: Lets your computer or terminal access IBM host computers using BSC, SNA/SDLC or Channel Attachment Operations. This microprocessor-based unit allows your computer to emulate an IBM 3278-2 via direct type-A coax connection. An auxiliary port on the T-1000 can support a second asynchronous host or a telephone modem for access to remote asynchronous computers. Requires terminal-emulation software.

Hardware Requirements: RS-232 serial port.

Support: Radio Shack.

26-1169 995.00

TELEXPRESS™

TELETERM-EM

4/II/12/1000

1200/2000/3000

Description: A sophisticated terminal emulator and communications program that supports communications with XENIX, other personal computers, information services and mini/mainframe installations. TELETERM-EM emulates a number of popular terminals including TRS16 Console, VT100/102, VT52, ADM3A, IBM 3101 Model 10, ADDS 25 and others. The program allows download/upload of data files directly to/from disk, and supports TELETERM error-free and XMODEM transfer protocols. A full-screen ASCII text editor is included. Advanced features include remote printing and unattended mode.

Hardware Requirements: Modem or null-modem adapter. Tandy 1000: 256K.

Support: Telexpress, Inc.

Model 4. 90-0117 195.00

Model II/12. 90-0118 225.00

Tandy 1000/1200/3000. 90-0250 195.00

Tandy 2000. 90-0116 195.00

TELEXPRESS™

TELETERM-X

16/6000

Description: A sophisticated telecommunications program that supports communications with XENIX, other personal computers, information services and mini/mainframe installations. The program allows download/upload of data files directly to/from disk, and supports TELETERM error-free and XMODEM transfer protocols. In addition, file transfers can be accomplished in a background mode, allowing the user to execute other applications at the terminal while the file transfer is taking place. System offers extensive auto-dial and auto log-on support. Printing is supported through the system spooler. The program is easy to use by novices, yet offers considerable flexibility and power to the serious communication professional.

Hardware Requirements: Modem or null-modem adapter.

Support: Telexpress, Inc.

90-0394 395.00

TELEXPRESS™

XTX

16/6000

Description: A multi-function utility which permits the ERROR-FREE transfer of files between XENIX systems and other microcomputers/operating systems that use TELETERM-EM software. During the process, files can be automatically converted to a format compatible with the destination system's operating system. Most modems can be used or communicating systems may be hard wired. It allows unattended file transfer as well as transfer of entire directories and wild cards between XENIX systems. It does not require installation of the XENIX Development System.

Hardware Requirements: Modem or null-modem adapter.

Support: Telexpress, Inc.

90-0346 150.00

Universal Sign-Up Kit

Radio Shack

All Computers

Description: Includes: CompuServe Information Service manual, account number, and password; Dow Jones News/Retrieval manual and password; a Videotex software manual; one FREE hour on both Dow Jones and CompuServe. No software included—this package is intended for use with your existing communications software or terminal.

Support: Radio Shack.

26-2224 19.95

TANDY

Videotex

Color Computer

Description: A powerful and sophisticated communications package. Videotex lets you communicate with any computer information service (such as CompuServe and Dow Jones News/Retrieval). Includes: CompuServe Information Service manual, account number, and password; Dow Jones News/Retrieval manual and password; a Videotex software manual; one FREE hour on both Dow Jones and CompuServe.

Hardware Requirements: Modem.

Support: Radio Shack.

26-2222 29.95

Videotex Plus

I/III/4/II/12

Radio Shack

Description: A powerful and sophisticated communications package for your disk system. Videotex Plus lets you communicate with any computer information service (with the same communications protocol as Videotex), such as CompuServe and Dow Jones News/Retrieval. It's simple to use, yet loaded with features to help you minimize connection time. Videotex Plus includes one FREE hour on both Dow Jones and CompuServe and on-screen editing to tailor the auto log-on sequence.

Hardware Requirements: RS-232 port and a modem.

Support: Radio Shack.

Model 4. 26-1598 49.95

Model II/12. 26-4721 49.95

VIP Terminal

Color Computer

Description: A telecommunications program that allows you to send and receive text from other computers. It also allows you to communicate with information services such as CompuServe and bulletin boards. It uses high resolution to display true lower-case characters and up to 85 characters per line—a real benefit for 80-column information services. It also works with VIP Writer (90-0141) for editing of files. Includes tape and disk versions.

Hardware Requirements: 32K minimum.

Support: VIP Technologies.

90-0139 49.95

XENIX Console Emulator

Radio Shack

4

Description: Lets you use a Model 4 computer as an ADDS-25 terminal to a XENIX computer system.

Hardware Requirements: RS-232 port.

Support: Radio Shack.

26-1599 99.95

**MICRORIM®****Clout with File Gateway****1000/1200/2000/3000**

Description: Simplifies analysis of data from leading programs such as Lotus 1-2-3, dBASE II, pfs:File, R:BASE 4000 and others, in addition to ASCII, DIF and SYLK file formats. Clout can even read ASCII from mainframes. Clout lets you ask questions of your data in your own words. It will scan up to 40 files, plus automatically cross-reference, sort and merge up to five files to give you your answer. It can combine data files created with different software, and it doesn't require you to re-enter the data.

Hardware Requirements: 256K, two disk drives.

Support: Provided at no charge by MicroRim for a limited time, after which a nominal fee is charged.

90-0271 249.00

TANDY**Color File****Color Computer**

Description: File away your records electronically! Color File lets you quickly and easily store, retrieve and use various types of important data, such as addresses, warranties and personal records. Easily alphabetize, select, examine, print, change and save your information. Seven ready-to-use files, or create your own.

Support: Radio Shack.

26-3103 19.95

**condor****Condor 3****1000/1200/2000/3000**

Description: A menu-driven, relational database system with a full English-like command language. Designed for novice, as well as expert users. Features on-screen record design and customized menu creation capabilities. Sorts on up to 32 data items and can retrieve records by specifying up to 32 logical conditions. Supports boolean operations. Includes a report generator. Allows up to 65,534 records per file, 127 fields per record, 7 field types, and up to 18 decimal place numbers. On-line help is available upon command making it easy to learn and use. Includes a graphic command that allows for pie, line, scatter and three-dimensional bar charts, as well as a talk command allowing communication capabilities via a modem.

Hardware Requirements: 256K.

Support: Condor Computer Corporation.

90-0119 505.95

INFOCOM™**Cornerstone****1000/1200/2000/3000**

Description: A full-featured relational database system designed specifically for non-programmers. Simply select menu options or complete forms to build complex databases, enter data, and produce reports. Ten tutorial lessons are included and cover all the basics. The unique HELP system supports you by automatically creating context-sensitive messages incorporating information about your database. The flexibility lets you change virtually any aspect of your database at any time. Add, delete or change files, fields, indexes, relationships or reports in seconds. Fields are variable-length, so you never need to determine field lengths in advance. The OPTIONS key shows you your possible choices for any field or command. The interactive report writer lets you search out specific data according to any criteria and create new formats in seconds. Cornerstone is compatible with many other database and spreadsheet applications for transfer of data.

Hardware Requirements: 256K, two disk drives.

Support: Radio Shack.

26-5354 495.00

**data products** ⊕**Data Manager****100/200**

Description: Converts your Tandy 100 or 200 into a personal filing system, which can easily store, examine, update and list a wide variety of information from personnel records to client lists. Each record can have up to 20 fields. Reports can be formatted to list all or selected records. Sort in ascending or descending order. Autodial phone numbers included in records. Add or subtract on numeric fields.

Hardware Requirements: 24K.

Support: Radio Shack.

Tandy 100. 26-3836 39.95

Tandy 200. 26-3886 39.95

**Data/Sort****100**

Description: Easily organize related data into a consistent format. You can then list the data in columns, on labels, or merge with a common format for form letter applications. Input all or certain fields of data through the bar code reader instead of the keyboard. Sort lists on any field, either alphabetically or numerically. Sorts data in place so very little memory is used.

Support: Radio Shack.

26-3838 49.95

**ASHTON·TATE™****dBASE II****1000/1200/2000/3000**

Description: A relational database management system that uses simple English-like commands to handle tasks previously reserved for larger computers. You can create a database and enter data immediately, or wait and append data later. The database can be programmed so that even untrained personnel in the office can run complicated applications. Users can change, extend and modify the applications with simple commands without having to re-enter data. Records, or any part of a record, can be displayed, modified and updated. The report function allows quick organization of data. Forms and formats can be created that do calculations and totals on a field, a record or the entire database.

Support: Radio Shack.

26-5352 495.00

**ASHTON·TATE™****dBASE III****1000/1200/2000/3000**

Description: An enhancement of dBASE II. It fully addresses the needs of beginning and experienced personal computer users, and grows with you as your needs and knowledge become more sophisticated. Contains the "Assistant", an on-line context-sensitive help system. Fully relational. Allows up to 16 files to be open at one time. Handles large amounts of data—up to one billion records per file. Fully programmable in English-like terms using one of the most popular programming languages for personal computer database applications.

Hardware Requirements: 256K, two disk drives.

Support: Radio Shack.

Tandy 1000/1200/3000. 25-3190 695.00

Tandy 2000. 26-5353 695.00

**data products** ⊕**Disk Data Manager****100**

Description: Turns your Model 100 into a full-featured filing system. The data file is stored on the disk and its size can be as large as the free space on any disk. You can easily store, examine, update or list a wide variety of information. A record can have up to 20 fields. Reports can list all or selected data. Autodial phone numbers included in records. Sort in ascending or descending order. Add or subtract data in numeric fields.

Hardware Requirements: 24K, Disk Video Interface.

Support: Radio Shack.

26-3841 69.95

Elite Software

ELITE*FILE Color Computer

Description: A complete database manager. ELITE*FILE has editing and report formatting features that are typically found on much larger computer systems. The program allows the user to create very extensive file systems with no knowledge of programming. In addition, ELITE*FILE also accepts information from ELITE*CALC/3.0 (90-0188) and ELITE*WORD (90-0184).

Hardware Requirements: 32K and one disk drive.

Support: Elite Software.

90-0189 74.50

filePro 16

The Small Computer Company, Inc.

1000/1200/2000/3000

Description: An electronic filing system, data base manager and applications developer. It has all the capacity (16 million records, 4,608 characters per record) and customization features (error-checking dictionaries, conditional operations, user-definable menus) needed for large projects, while still being easy to use and to change. filePro 16 files can be transferred intact between single and multi-user computers.

Hardware Requirements: 256K and a hard disk drive.

Support: Provided at no charge by Small Computer Company for a limited time, after which a nominal fee is charged.

Tandy 1000/1200/3000. 90-0248 495.00

Tandy 2000. 90-0120 495.00

filePro 16 Plus

The Small Computer Company, Inc.

1000/1200/2000/3000/6000

Description: A menu-driven electronic filing system and application developer in a single package, with special programming tools for consultants and programmers. Included are screen, output and user-menu generators, eight self-balancing automatically-maintained indexes, user-definable edits, print codes, and a data-processing language module. The package runs on both TRS-XENIX and MS-DOS microcomputers, and files can be transferred easily between the two operating systems. Capacities: unlimited number of files, 16 million records, 999 fields and 16,384 characters per record. Includes manual and quick reference guide.

Hardware Requirements: 256K and a hard disk on MS-DOS. All upgrade packages require filePro 16 or Profile 16.

Support: Provided at no charge by Small Computer Company for a limited time, after which a nominal fee is charged.

Tandy 1000/1200/3000 Upgrade. 90-0425 495.00

Tandy 2000 Upgrade. 90-0424 495.00

Tandy 6000. 90-0456 990.00

ASHTON-TATE®

Friday! 1000

Description: An easy-to-use, easy-to-understand package that supports file management and report writing. Enter data using the standard format or prepare a custom screen format. Report formats can be customized. Temporarily sort data for display or reporting without affecting the sorted file. Allows math on fields and does totals and sub-totals.

Hardware Requirements: 128K, two disk drives.

Support: Radio Shack.

25-1149 299.95

Radio Shack

Microfiles I/III

Description: Allows you to design your own filing systems and forms. Without knowing a programming language, you can build a filing system based on the information you want, according to your individual needs. You can recall all information or selected items by the use of simple commands. All or part of the stored information can be printed using any format you choose.

Hardware Requirements: 32K, one disk drive.

Support: Radio Shack.

26-1565 24.95

Model 100 Interface

The Small Computer Company, Inc.

100 to 16/6000

Description: Lets you access your Profile 16 or filePro 16 data using the Model 100 as a terminal. Data can be sent between the Model 100 and Model 16/6000 directly or via modem. The Model 100 Interface consists of a special version of Inquire/Update/Add, plus programs that let you create special screens and menus.

Hardware Requirements: 512K, modem or cables to connect computers.

Support: Provided at no charge by Small Computer Company for a limited time, after which a nominal fee is charged.

90-0276 245.00

OS-9 Profile

TANDY

Color Computer

Description: End those frustrating searches through mounds of paper with your own personalized electronic filing system. This package makes it easy to create and update files for warranties, insurance, taxes, receipts, banking transactions, or any household records you want to keep track of. Store and recall information in seconds by defining up to four primary and four secondary search keys. Create up to 256 data fields. Includes convenient reallocate facility for easy insertion of new data.

Hardware Requirements: 64K, disk drive and OS-9 operating system.

Support: Radio Shack.

26-3274 49.95

Personafile

TANDY

Color Computer

Description: No more hectic searching for needed information. Here's a handy filing program that gives you fast access to household records and other personal data. It's a breeze to keep up with addresses, home inventories, medical history, car maintenance, investments and more because it's all on one convenient disk. Put your records in Personafile and say good-bye to cluttered drawers stuffed with papers. Information is easy to store and recall in just seconds. Allows up to 540 records, with up to 250 different subjects.

Hardware Requirements: 32K, one disk drive.

Support: Radio Shack.

26-3260 19.95

pfs:®

pfs:file

III/4/1000/1200/2000/3000

Description: An easy-to-use computerized filing system that lets you record, retrieve, update and print information in a fraction of the time it takes with a manual filing system. File gives you complete control over your information, because you organize it in "forms" that you design on the screen. Enter data by simply filling in the blanks on your form. Forms can be as long or short, complex or simple, as you need. And you can change your mind about the design, even after information has been entered. Finding exactly the information you need is just as easy. You can automatically select, sort and print the information you need for mailing labels, invoices and more.

Hardware Requirements: Model 4: Two disk drives.
Support: Radio Shack.
Model III. 26-1515 124.95
Model 4. 26-1518 124.95
Tandy 1000/1200/3000. 25-1140 140.00
Tandy 2000. 26-5305 140.00

pfs:report

III/4/1000/1200/2000/3000

Description: Helps you get the most from the information you have stored in pfs:file. Report summarizes File data into concise, meaningful tables that would take hours to produce manually. Simply tell Report what information you want to tally from your File forms and Report does the rest. It can automatically sort and sub-total your information alphabetically or numerically, with totals, averages and counts. It can also format your report with centered titles, correct decimal point alignment, column width adjustments, column headings and page numbers. Performs complex calculations based on formulas you create so you get the figures you need fast.

Hardware Requirements: Model 4: Two disk drives.

Support: Radio Shack.

Model III. 26-1516 99.95
Model 4. 26-1517 99.95
Tandy 1000/1200/3000. 25-1141 125.00
Tandy 2000. 26-5306 125.00

PowerBase

100/1200/2000/3000

Description: Allows you to set up the program and define complete applications. PowerBase's DataZoom feature links up to 10 files. Its PowerLinks feature lets users transfer data to and from popular software programs, including Lotus 1-2-3 and MultiMate, and downloaded mainframe data files automatically, without any re-keying. PowerBase also has multi-file reporting and customized mailing labels.

Hardware Requirements: 384K and two disk drives.

Support: Powerbase Systems Inc.

90-0341 349.00

Profile

The Small Computer Company, Inc.

II/III

Description: Simple-to-use computerized filing system. Keep track of names and addresses, accounts, records, or even personal references. Use as address book, recipe file, or grocery inventory. User-defined file layout, input screens and reports. Sorts in ascending or descending order on any field. Search your file and retrieve records for editing or printing. Data files can be accessed by user-written BASIC programs.

Hardware Requirements: 48K and one disk drive.

Support: Radio Shack.

26-1562 39.95

Profile II

The Small Computer Company, Inc.

II/12

Description: A powerful program that lets you design your own database and search through your records to find just the information you want in seconds. Keep track of names and addresses, bills owed and paid, personnel and customer records and much more. You can specify the way your files are set up and how information appears on the screen and in printed reports. Store up to 99 data fields in a single record, and print up to five different reports for each file. Search your files by up to 36 user-defined criteria. Stores up to 3000 records with a one-disk system and up to 20,000 with additional disk drives.

Support: Radio Shack.

26-4512 179.00

Profile Plus

II/12

The Small Computer Company, Inc.

Description: An expanded version of Profile II. Built-in math functions do extensions, calculate taxes and totals between numeric fields automatically. "Associated" fields can be searched for similar data. An indexing system automatically organizes files in logical order for high-speed access. Selectable record lengths.

Support: Radio Shack.

26-4515 299.00

Profile III Plus

III

The Small Computer Company, Inc.

Description: Store almost any type of information, then retrieve it at the touch of a key. User-designed file layout, input screens and reports. Supports multiple screen designs for different views of the data. Stores up to 700 records of 255 characters in length on a 2-disk system. Allows up to 99 fields per record. Sort and search by user-supplied criteria. Math functions between fields are supported. Comes with easy-to-understand tutorial manual.

Hardware Requirements: 48K and two disk drives.

Support: Radio Shack.

26-1592 199.00

Profile III Plus Hard Disk

III

The Small Computer Company, Inc.

Description: Includes all the features of Profile III Plus and allows much larger files (up to 65,535 records). Faster searches due to increased access speed of hard disk.

Hardware Requirements: 48K and hard disk drive.

Support: Radio Shack.

26-1593 299.00

Profile 4 Plus

4

The Small Computer Company, Inc.

Description: Turns your Model 4 into a well-organized filing system, letting you store almost any kind of information and retrieve it at the touch of a key. You can revise your system at any time without losing data. Automatically created screen and report formats let you start using your database right away. Divide reports into as many as five sub-total sections and print grand totals. Math functions and user-menu creation are included. Select data to merge with SuperSCRIPSIT word processing documents.

Hardware Requirements: Two disk drives.

Support: Radio Shack.

26-1635 249.95

Profile Plus Upgrade

II/12

The Small Computer Company, Inc.

Description: Upgrades the Profile II program with the added features of Profile Plus.

Support: Radio Shack.

26-4517 120.00

Profile Archive

II/12

The Small Computer Company, Inc.

Description: This utility for Profile Plus purges inactive records and lists them on a printer and/or merges them into a history file. Also used to simply copy files, to rewrite files in sorted order, and to eliminate blocks of deleted records. Requires Profile Plus (26-4515).

Support: Radio Shack.

26-4557 49.00

DATABASE

Profile Forms

The Small Computer Company, Inc.

II/12

Description: This utility for Profile Plus fills pre-printed forms, such as invoices, insurance claims and loan applications, with any number of items from individual records. Also lets you use special printer codes. Requires Profile Plus.

Support: Radio Shack.

26-4556 125.00

Profile Lookup

The Small Computer Company, Inc.

II/12

Description: This utility for Profile Plus cross-references information for up to five separate files, and copies data either permanently or temporarily into the current record. Lets you be frugal with your disk space, since information is saved in only one file, while still accessible by all records. Requires Profile Plus.

Support: Radio Shack.

26-4559 199.00

Profile ProSort

The Small Computer Company, Inc.

II/12

Description: This utility for Profile Plus builds high-speed indexes on either primary or secondary keys for both inquiry and output. Lets you build indexes from indexes. Requires Profile Plus.

Support: Radio Shack.

26-4558 149.00

Profile Training

The Small Computer Company, Inc.

II/12

Description: Learn how to put Profile II to work for you quickly and easily. Includes four audio cassettes, 96 page manual, and diskette with sample files. Requires Profile II.

Support: Radio Shack.

26-4516 69.00

Profile 16

The Small Computer Company, Inc.

16/6000

Description: An electronic filing system and applications generator based on the popular Profile Plus data base manager, written to take full advantage of Tandy's multi-user computers. Both programmers and novices will appreciate how easy and quick it is to design a Profile system. You can change or expand a system at any time without having to re-enter data. Using Profile's menu-driven setup procedure, you can create your own menus. It can perform minimums, maximums, averages, totals and accepts all standard math functions. Interacts easily with word processors and spreadsheets. All prompts are in plain English. Includes a data processing language module that eliminates the need for BASIC, COBOL, C and other interfaces.

Support: Radio Shack.

26-6412 499.00

MICRORIM®

R:BASE 4000

1000/1200/2000/3000

Description: A flexible relational database management system that offers a wide range of benefits. With R:BASE 4000, all data defining, editing and manipulation progresses logically, similarly to the way people think. It also lets you easily create customized data entry forms and reports.

Hardware Requirements: 256K and two disk drives.

Support: Provided at no charge by MicroRim for a limited time, after which a nominal fee is charged.

90-0136 495.00

MICRORIM®

R:BASE 5000

1000/1200/2000/3000

Description: A relational database management system. Included in R:BASE are application generation capabilities, database query, database modifications, advanced report writing, flexible database modification and data entry. R:BASE 5000 also contains Application Express, a unique menu-driven system for creating complex applications with ease, and a compiler for locking down the source code in applications.

Hardware Requirements: 256K and two disk drives.

Support: Provided at no charge by MicroRim for a limited time, after which a nominal fee is charged.

90-0328 700.00

R:BASE 4000/5000 Upgrade. 90-0329 245.00

R:BASE 5000

Runtime Module

1000/1200/2000/3000

MICRORIM®

Description: Gives application developers a cost-effective way to distribute applications without purchasing a full R:BASE 5000. This execute-only version of R:BASE 5000 lets end-users run R:BASE 5000 without providing the ability to define or modify database structures or applications.

Hardware Requirements: 256K and two disk drives.

Support: Provided at no charge by MicroRim for a limited time, after which a nominal fee is charged.

90-0331 450.00

Rank and File

1000/1200/2000/3000

Description: Speed and ease of use are the key advantages of the Rank and File I data management program. The package includes both file management and report generating functions. No previous computer experience is required, because it's menu-driven with help screens. Use Rank and File I to maintain and analyze information on clients, customers, employees, inventory, billing, mailing lists, personal finances and more. Design a file cabinet to fit almost any need that you may have. Other features include flexible file handling functions and a powerful report generator.

Hardware Requirements: 256K.

Support: RAF Software Inc.

90-0332 160.00

INNOVATIVETM Software

The Smart Data Base Manager 1000/1200/2000/3000

Description: This fully relational data base does more than store and retrieve information. Perform special business functions like net present value and date calculations. Do decision analysis with if-then-else commands as well as statistical analysis. With a million record capability, maintaining a mailing list or accounting records no longer requires awkward multiple files. Other features include password protection, user-defined screens and extensive on-line help menus.

Hardware Requirements: 256K and two disk drives.

Support: Provided at no charge by Innovative Software for a limited time, after which a nominal fee is charged.

90-0316 495.00

INNOVATIVETM Software

SUPERLOG 4 4

Description: A sophisticated "free-format" information manager, which uses simple prompts to create custom notebook files on disk. Keystroke commands allow you to add, delete and modify information at any time. Fast Search commands will locate a specific text string anywhere in a file (no fields or keywords). SUPERLOG 4 resides in one of your additional 32K memory banks and can be called up at any time, even while another program is running. Features include: 1024 characters per page, up to 32,767 pages per file, up to 254 separate files per disk. CUT, PASTE, or export up to 19,000 characters at a time. Includes two printout options, five utilities and over 70 powerful commands.

Hardware Requirements: 128K and two disk drives.

Support: KSoft.

90-0291 119.95

T-base 100

Description: A true relational database system that allows you to easily define screen displays (using TEXT) and share information with up to eight different files. T-base also allows you to perform spreadsheet-like calculations within a database and automatically recalculate results any time a variable changes. Included with T-base is a powerful report generation program that produces virtually any type of report from simple mailing labels to a complex format using many files and calculations, as well as column totals and subtotals.

Support: Traveling Software Inc.

90-0129 99.95

The Filer 1000/1200/2000/3000

Description: The ultimate filing and reporting system. Power and simplicity are built into this product. Customized forms are created using its editor. Conditional four-function math allows logical operators such as AND, OR, EQUAL, GREATER/LESSER THAN, and combinations. You can calculate sales tax automatically, or print the number of days accounts are overdue. Indexing allows sorting without altering the original file structure. The Record format can be altered after information has been entered.

Hardware Requirements: 256K and two disk drives.

Support: Provided at no charge by Palantir Software for a limited time, after which a nominal fee is charged.

90-0222 145.00

UNIFY CORPORATION

UNIFY 16/6000

Description: UNIFY is a fully relational database management system designed to run and develop sophisticated business computer applications that handle large amounts of data. It includes interactive data entry, ad hoc queries, menu handler and security system. The UNIFY interface to the user is menu and screen oriented. SQL, UNIFY's query language, allows the user to add, display, delete and modify data. LST, UNIFY's report writer, is handy for such applications as mailing labels and form letters. A query-by-forms facility allows queries to be answered simply and easily by casual users of the system. Different screens may be defined for each data base to provide each user his own "view" of the data. UNIFY offers a combination of file access methods for fast retrieval of data. Two programming languages C and RM-COBOL are supported by UNIFY's language interface module. An extensive on-line HELP facility is included.

Hardware Requirements: 512K and hard disk drive.

Support: Radio Shack.

26-6415 750.00

Radio Shack

Versa File II/12

Description: Create your own personalized filing system. You decide what goes in your files and how, as data is entered in sentence form, without fixed fields. The computer does the rest. It's easy to store and retrieve almost anything, from a used car inventory to an client's insurance report. Versa File is written in BASIC and uses keywords to find information.

Support: Radio Shack.

26-4510 69.00

VIP Database Color Computer

Description: A sophisticated database program modeled after pfs:file. VIP Database allows you to see up to 85 characters per line, and it includes a math package for reports. It may be used with VIP Writer (90-0141) to merge forms and letters for mass mailings.

Hardware Requirements: 32K and one disk drive.

Support: VIP Technologies.

90-0140 59.95

MICRORIM[®]

XRW:Clout 1000/1200/2000/3000

Description: The Extended Report Writer is an optional utility package for use with MicroRim's R:Base database management products. It goes beyond the basic reporting capabilities provided in the base product to generate complex and detailed reports from R:Base database files.

Hardware Requirements: 256K and two disk drives.

Support: Provided at no charge by MicroRim for a limited time, after which a nominal fee is charged.

90-0138 150.00

cdex™

Advanced Training for Lotus 2000

Description: This tutorial covers Lotus 1-2-3 features that go beyond the usual spreadsheet manipulations. After a quick review of the basics, the user learns how to construct applications involving computer graphics, text processing, database management, and keyboard macros. The complete package includes tutorial diskettes with read-to-use Lotus 1-2-3 templates, and a reference guide.

Support: Cdex Corporation.

90-0226 69.95

Alphabet Zoo 1000/Color Computer

Description: Children learn to associate letters of the alphabet with the sounds they represent in two exciting maze games. Colorful pictures and music accompany the program.

Hardware Requirements: Joysticks for Color Computer.

Support: Radio Shack.

Tandy 1000. 25-1104 34.95

Color Computer. 26-3170 34.95

Assembly Language Tutor I/III

Description: Learn the fundamentals of Assembly Language programming in easy-to-understand lessons. Includes an instructional manual and a special editor/assembler monitor.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

Model I. 26-2017 39.95

Model III. 26-2018 69.95

TANDY Color Computer

Description: This exciting science program teaches the names of elements, their atomic numbers, configurations and main properties. The package also includes a beautiful wall poster.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3149 19.95

RadioShack III Basic Instruction

Description: A primary aid in learning BASIC. Designed so users will be able to write simple programs within a matter of minutes.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-2015 24.95

COW

CHILDREN'S COMPUTER WORKSHOP

Big Bird's Special Delivery

Color Computer

Description: This program is a Basic Skills Game for children between the ages of three and six. Children are encouraged to help Big Bird deliver his packages by matching pictures.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.

26-2525 19.95

TANDY Bingo Math Color Computer

Description: Children improve their basic math skills with stimulating exercises in addition, subtraction, multiplication,

division and number recognition. The object is to solve the problems and score a Bingo. For one or two players. Includes Bingo Math, Speed Math and Number Hunt.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3150 29.95

TANDY

Biosphere Color Computer

Description: Children become Captain of a Space Animal, Vegetation, and Ecological Survey (S.A.V.E.S.) starship that collects plants and animals from hundreds of worlds throughout the galaxy. Biosphere is an ecological simulation game that teaches children to create a workable ecology. Kids learn to balance many variables, such as what gasses do plants and animals breathe and expel, what foods they eat, and what temperatures and humidities they need to survive.

Hardware Requirements: 64K and one disk drive.

Support: Radio Shack.

26-3280 29.95

TANDY

Bridge Tutor Color Computer

Description: A grand slam for beginning bridge players. One hundred different hands—each completely analyzed. Play South, East or West, or exchange with a partner. Computer grades bidding and gives advice.

Hardware Requirements: 16K.

Support: Radio Shack.

26-3158 24.95

Bumble Games™ Color Computer

Description: Bumble™ the imaginary creature will help children between the ages of four and ten learn how to identify places on arrays and grids. These skills are useful in finding streets on maps, building charts and graphs, and designing computer graphics. Children can choose from six colorful and exciting programs.

Hardware Requirements: 32K and one disk drive.

Support: The Learning Company.

90-0461 39.95

Bumble Plot™ Color Computer

Description: Learn and practice the essentials of graphing both positive and negative numbers. Bumble™, the imaginary creature from the planet Furrin, leads children through five intriguing programs. These programs help make learning about number-pair plotting fun. For ages 8 to 13.

Hardware Requirements: 32K and one disk drive.

Support: The Learning Company.

90-0462 39.95

cdex™

Business Decisions with Lotus 2000

Description: Learn to understand and apply proven decision-making techniques to improve business performance. Users learn to recognize common business problems, isolate the data required to examine the problems, use a personal computer and electronic spreadsheet to analyze the data and reach a business decision, and manage their business for improved profitability as measured by return on sales.

Support: Cdex Corporation.

90-0227 69.95

cdex™

Business Planning with Lotus 2000

Description: This computer-based training program leads users step by step through the construction of a business plan, helping develop it a section at a time until there is a completed draft. Use the seven comprehensive models provided on a templated diskette to fine-tune the plan and produce professional-quality projected financial reports.

Support: Cdex Corporation.

90-0228 69.95

Radio Shack

Chemistry Math PC-1/PC-3

Description: Performs calculations and conversions commonly used in chemistry.

Hardware Requirements: Cassette interface, cassette recorder.

Support: Radio Shack.

26-3708 14.95

TANDY

Child Pace

Color Computer

Description: Track a child's early development from 3 months to 5 years old. Evaluates dexterity, language, personal and social skills. Based on national survey and a major university study.

Hardware Requirements: 64K and one disk drive.

Support: Radio Shack.

26-3248 39.95

Color Computer Learning Lab

Color Computer

TANDY

Description: The best hands-on, self-teaching programming course we've ever seen. Students learn Standard Color BASIC programming with the aid of their computer. Contains a 200-page manual and 8 cassette tapes with 30 lessons. The program also teaches students how to apply what they've learned.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-3153 49.95

TANDY

Color Math

Color Computer

Description: This program teaches math skills to children between the ages of six and fourteen. It includes a variety of problems in both addition and subtraction.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-3201 19.95

CCW

CHILDREN'S COMPUTER WORKSHOP

Cookie Monster's Letter Crunch

Color Computer

Description: It's cookie time and Cookie Monster is hungry. He's ready to bake cookies—but first children must match letters and words as fast as they can. There are six different levels to choose from. Children learn to match letters, words, practice letter recognition and letter sequencing skills. Ages 3-6.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.

26-2526 19.95

Business Planning with Lotus and Financial Analysis for Lotus/TM Cdex. Cookie Monster's Letter Crunch and Ernie's Magic Shapes/TM Children's Television Workshop. Dean Vaughn Memory Course/TM Dean Vaughn. Facemaker/TM Spinnaker.

Dean Vaughn Memory Course

III

Dean Vaughn

Description: A self-paced home study Memory Course with computer assisted instruction. Learn to remember anything through the use of organized memory systems—find acronyms, use association techniques.

Hardware Requirements: 48K and one disk drive.

Support: Radio Shack.

26-2024 89.95

Electronic Book Game

Color Computer

Overview: Each of the software packages contains "pages" which compose the Electronic Book. Different areas of the book's touch-sensitive surface are pressed to make selections. Interactive routines make learning a game. It's safe for kids to use, too—plugs into the joystick port.

Hardware Requirements: 16K, Extended BASIC and the Electronic Book.

Support: Radio Shack.

Word Wizard

Description: A spelling game where kids "shoot" the answer.

26-2544 19.95

The Number Factory

Description: One number goes "in," another comes "out"—children learn to identify the math operation.

26-2543 19.95

Maze Master

Description: With this program children are introduced to computer usage. Children solve mazes by writing instructions.

26-2541 19.95

Shape Maker

Description: Children learn to identify geometrical shapes and make their own designs.

26-2542 19.95

CCW

CHILDREN'S COMPUTER WORKSHOP

Ernie's Magic Shapes

Color Computer

Description: Children let Ernie wave his magic wand for a shape to appear, when they match the right shapes, Ernie's magic rabbit hops on the screen. Children learn to sort out the things they see by matching shapes and recognizing similarities and differences. Ages 3-6.

Hardware Requirements: Extended BASIC and cassette recorder.

Support: Radio Shack.

26-2524 19.95

Facemaker

1000/Color Computer

Description: Children create funny faces on the screen and animate them. Once the face is completed, children will giggle with delight as they make it do all kinds of neat things: wink, smile, wiggle its ears, or whatever their imagination desires.

Support: Radio Shack.

Tandy 1000. 25-1100 29.95

Color Computer. 26-3166 29.95

Financial Analysis for Lotus

2000

Description: Step-by-step instruction in techniques of financial statements analysis. Acquiring analytical skills is made easy by an exclusive financial model—The Commercial Credit Matrix (CCM)—which helps organize the analysis and interpret the results. A reference guide is included.

Support: Cdex Corporation.

90-0229 69.95

cdex™

CHILDREN'S COMPUTER WORKSHOP

Flip Side

Color Computer

Description: A Creative Exploration Game. Players learn to think and plan ahead by changing as much of the board as they can to their color. For ages 10 and up.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.

26-2529 19.95

Fraction Fever

1000/Color Computer

Description: All the graphics and action of an arcade game are combined with the educational value of a learning game. As children hop along on a pogo stick, they learn to match the right fractions, zap the wrong ones and avoid holes in the floor.

Support: Radio Shack.

Tandy 1000. 25-1103 29.95

Color Computer. 26-3169 29.95

TANDY

Fun With Reading

Color Computer

Overview: Each package includes an illustrated reader, a read-along cassette tape, and a computer tape with spelling and vocabulary exercises with immediate feedback. For grades 4-6.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

Dracula

Description: The classic tale of Count Dracula, his evil deeds, and his final destruction by Dr. Van Helsing.

26-2550 19.95

The Hound of the Baskervilles

Description: Master sleuth Sherlock Holmes expertly unravels the mystery surrounding the Baskerville family.

26-2551 19.95

Moby Dick

Description: The timeless story of the ship Pequod's voyage and the mad Captain Ahab's fateful hunt for the great white whale, Moby Dick.

26-2552 19.95

20,000 Leagues Under the Sea

Description: A fantastic under-sea journey around the world with Nemo, captain of the giant Nautilus submarine.

26-2553 19.95

Digital Learning System

The FUNdamentals

1000

Description: Experience the FUNdamentals of computer hardware, software, DOS concepts and commands, DeskMate, and much more in an interactive game environment designed specifically for the Tandy 1000. Features 16-color graphics, sound, and animation. A must for the first time computer user and helpful for the seasoned user as well.

Support: Radio Shack.

25-1124 29.95

Goofy Covers

Government

Color Computer

Description: Youngsters find out what the House of Representatives and the Senate do and how they work with the President. They also learn about the American system of government and how it works. Ages 10-14.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-2533 34.95

CHILDREN'S COMPUTER WORKSHOP

Grobot

Color Computer

Description: A Creative Exploration Game. Challenging action in which players plant, protect and harvest an outer space "astrogarden." Encourages quick thinking and good planning. For ages 10 and up.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.

26-2527 19.95

CHILDREN'S COMPUTER WORKSHOP

Grover's Number Rover

Color Computer

Description: Grover's Rover is ready to blast off and pick up Twiddlebugs. Grover has opened one window for each Twid on the ground, but it's up to the player to help the Twids get on board. Children choose from six different games, including one they create themselves. Children learn number identification, counting, addition and subtraction. Ages 3-6.

Hardware Requirements: Extended BASIC and cassette recorder.

Support: Radio Shack.

26-2522 19.95

Juggle's Rainbow™

Color Computer

Description: Juggle's Rainbow™ is designed to help children ages preschool through six prepare for school. Juggles™, the friendly clown, helps develop reading and math readiness skills using delightful graphics and simple instructions. Children can explore the concepts of left and right, above and below, by choosing from three different programs.

Hardware Requirements: 32K and one disk drive.

Support: The Learning Company.

90-0465 29.95

Kids on Keys

1000/Color Computer

Description: Children play three exciting games that teach them the location of letters and numbers on the keyboard while they have fun with the computer.

Support: Radio Shack.

Tandy 1000. 25-1101 29.95

Color Computer. 26-3167 29.95

Kidwriter

1000/Color Computer

Description: A story book game where children can choose from a variety of objects to make a picture on the screen and then type in a story about the picture. Screens can be added to build a computerized book.

Hardware Requirements: Color Computer requires one disk drive.

Support: Radio Shack.

Tandy 1000. 25-1105 29.95

Color Computer. 26-3249 29.95

Kindercomp

1000/Color Computer

Description: A collection of fun learning exercises. Match shapes and letters, write names, draw pictures, and fill in missing numbers. The screen comes to life with colorful rewards when the correct answer is given.

Hardware Requirements: Joysticks for Color Computer.

Support: Radio Shack.

Tandy 1000. 25-1102 29.95

Color Computer. 26-3168 29.95

TANDY

Klendathu

Color Computer

Description: Based on Robert G. Heinlein's "Starship Trooper." The planet Klendathu is crawling with giant bugs. Players must destroy the deadly "soldier" insects.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.

26-2567 14.95

Learning with Leeper

1000

Description: Parent's Choice Award—Family Computing. Leeper will lead your children through four games for pre-readers—shape matching, counting, eye-hand coordination and creative play. Several levels for youngsters to experience at their own pace.

Hardware Requirements: Joystick.

Support: Radio Shack.

25-1118 34.95

Magic Spells

Color Computer

Description: An exciting journey through the magical kingdom sharpens basic spelling, visual and mental skills. This adventure game has everything—a mystical castle, the royal court and a unicorn—plus colorful graphics. Adjustable timer and unlimited personal word lists enhance the game.

Hardware Requirements: 32K and one disk drive.

Support: The Learning Company.

90-0460 34.95

Management with Lotus

2000

Description: Training for the profit minded executive, financial manager, and entrepreneur. Includes: sales history and forecasting; product margins and forecasting; departmental expense budgets; profit and loss statement; cash flow projections; materials requirements; accounts receivable; accounts payable; balance sheet; and ROE:Cdex Profit Model.

Support: Cdex Corporation.

90-0230 69.95

Mastering the ECAT: English Composition

III

Description: Comprehensive, self-paced test preparation and review of the fundamentals of Standard Written English as presented in the College Board Achievement Tests. A five disk program with over 1,000 simulated questions offers practice in rewriting sentences, phrasing, editing, grammar, and sentence structure.

Hardware Requirements: 48K and one disk drive.

Support: Radio Shack.

26-1970 99.95

Mastering the SAT

III/1000/1200/3000

Description: A comprehensive, self-paced preparation course for the Scholastic Aptitude Test. Covers all areas of SAT: Verbal, Math, and Standard Written English. The course emphasizes principles behind each question and gives test-taking strategies. It includes a pre-test, self-paced study, a final test, and a workbook with additional practice exams.

Hardware Requirements: Model III: 48K and one disk drive.

Support: Radio Shack.

Model III. 26-1975 99.95

Tandy 1000/1200/3000. 25-1127 99.95

Math Adventures

with Mickey

Color Computer

Description: Mickey and Minnie Mouse catch a ghost when they solve everyday math problems. Youngsters learn to effectively solve math problems and correctly use decimals. Ages 9-13.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-2535 34.95

TANDY

Math Drill

PC-1/PC-3

Description: Teaches basic math skills to children in the primary grades.

Hardware Requirements: Cassette interface, cassette recorder.

Support: Radio Shack.

26-3514 14.95

Moptown Hotel

Color Computer

Description: Children aged six through thirteen will learn to sharpen their thinking skills using three fun programs. Moptown is inhabited by shy, friendly creatures called moppets. Each moppet is unique, and can be described according to certain moppet characteristics. Moptown provides a friendly environment where children, using moppets as concrete examples, learn to build logical structures using abstract ideas.

Hardware Requirements: 32K and one disk drive.

Support: The Learning Company.

90-0463 39.95

Moptown Parade

Color Computer

Description: Children between the ages of six and thirteen will sharpen their thinking skills with eight different programs. These games teach children the concepts of logical thinking and how to tell the difference between ideas like "exactly the same", "a little bit different", and "most different". Moptown provides a friendly environment where children, using moppets as concrete examples, learn to build logical structures using abstract ideas.

Hardware Requirements: 32K and one disk drive.

Support: The Learning Company.

90-0464 39.95

OLE' BASIC

1000/1200/3000

Description: The OLE' BASIC Volume (On Line Encyclopedia) is a simple, easy-to-use reference system that lets the BASIC programmer code without constant reference to the BASIC manual. It's organized by subject for in-depth study of BASIC topics including, Starting Up, Editing and Function Keys, Getting and Storing Data, Program Flow, Graphics and Music, or Keyword, which offers quick reference to a Command, Proper Syntax, or Sub-routine.

Support: Hypergraphics.

90-0334 69.95

OLE' DOS 1000/1200/3000

Description: The OLE' DOS 2.x Volume (On Line Encyclopedia) lets you learn DOS functions without using the manual. It can co-reside in RAM with most application software like dBase II/III, Lotus 1-2-3, etc., so help is instantly available. Users can access and exit OLE' with a single keystroke. The OLE' DOS instructional materials are organized by subject for in-depth study of topics like: Introduction to DOS, File Copying and Deleting, Directories and Paths, and Keyword.

Support: Hypergraphics.

90-0333 69.95

CHILDREN'S COMPUTER WORKSHOP

Peanut Butter Panic

Color Computer

Description: A Cooperative Strategy Game. Players catch stars for points. For ages 7-up.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.

26-2523 19.95

Pipes 1000

Description: Children help the plumber select the right pieces of pipe to connect the houses to the water supply in this economic simulation that builds problem-solving skills. The better the system is designed, the less money is spent.

Support: Radio Shack.

25-1108 29.95

Color Robot Battle

Color Computer

Description: Players program two robots for battle while learning about computer programming. Players are encouraged to challenge others to determine their programming skills.

Hardware Requirements: 16K.

Support: Radio Shack.

26-3070 39.95

Robot Odyssey

Color Computer

Description: A highly sophisticated program to help develop skills in logical problem solving, abstract reasoning and creative thinking. The concepts of electronic circuitry, circuit design and logic are explored.

Hardware Requirements: 64K and one disk drive.

Support: Radio Shack.

26-3284 34.95

Rocky's Boots

Color Computer

Description: Hailed as a software classic by the New York Times, the award winning Rocky's Boots helps develop skills in logical problem solving, abstract reasoning, and creative thinking. The concepts of electronic circuitry, circuit design and logic are explored in a motivating environment where players invent machines to solve puzzles and win over 30 different games, including games they design themselves. By experimenting with simulated real-world electronic parts and "electricity," players as young as 9 years old can learn basic computer logic.

Hardware Requirements: 64K and one disk drive.

Support: Radio Shack.

26-3283 34.95

Space Probe: Math

Color Computer

Description: In an interstellar atmosphere, youngsters learn about word problems and the concepts of area and perimeter. For ages 7-14.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-2537 34.95

CHILDREN'S COMPUTER WORKSHOP

Star Trap

Color Computer

Description: A Cooperative Strategy Game. Players race through a maze to trap a slippery star before time runs out.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.

26-2510 19.95

Success with Math Series

III

Overview: Comprehensive, self-paced math tutorials that go beyond the benefits of mere drill exercises alone. Each program works with the student every step of the way. Problems are generated at random and students are directed to the source of all errors before continuing.

Hardware Requirements: 32K and one disk drive.

Support: Radio Shack.

Addition and Subtraction

Description: Students choose the level of difficulty working with problems that have up to nine rows and nine columns.

26-1971 19.95

Multiplication and Division

Description: Students work with one to three digit number multiplication and division problems.

26-1972 19.95

Linear Equations

Description: Requires basic arithmetic operations on both sides of equations in the form $AX + B = C$.

26-1973 19.95

Quadratic Equations

Description: Generates quadratic equations at two levels of difficulty. Includes extensive practice in factoring.

26-1974 19.95

CHILDREN'S COMPUTER WORKSHOP

Taxi

Color Computer

Description: Players get behind the wheel of a taxi and drive through six different cities, anywhere from New York to Shanghai. Each time passengers are picked-up and delivered safely, players earn a fare. Children are encouraged to work together toward a common goal, divide responsibilities, and build on one another's strengths. Ages 7-up.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.

26-2509 19.95

Telling Time with Donald

Color Computer

Description: Mayor Mickey and his friends show children how to tell time by the hour and half hour. Children learn the importance of telling time, how to identify parts of a clock and information about clock hands. Ages 5-8.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-2530 34.95

CHILDREN'S COMPUTER WORKSHOP

Description: A Creative Exploration Game. Children learn historical facts and use them to plan an escape from the planet Anakron. For ages 10-up.

Hardware Requirements: Extended BASIC, joysticks and cassette recorder.

Support: Radio Shack.

26-2528 19.95

Trains

1000

Description: A computerized train set puts the user in charge of an old-time American railway empire. Whether the business gets bigger or goes bankrupt is determined by the decisions made. Ages 10-adult.

Support: Radio Shack.

25-1107 29.95

TRSDOS 6 Training Course

4

Description: Learn the versatility and power of TRSDOS 6 operating system. The features include system concepts, initialization commands, diskette handling utility, file handling commands and utilities, creating and using JCL files and more.

Hardware Requirements: 64K and one disk drive.

Support: Radio Shack.

26-2019 74.95

TANDY

Typing Tutor Color Computer

Description: Teaches alphabetical, numerical and symbol keys. Both the novice and experienced typist will build speed and increase accuracy. Program monitors progress and creates new letter drills for practice on those areas where help is needed.

Hardware Requirements: 4K.

Support: Radio Shack.

26-3152 19.95

Simon & Schuster

Typing Tutor III

1000/1200/3000

Description: Get the most out of your computer by learning to type quickly and easily—the most effective typing instruction program ever developed. The program automatically adjusts to personal abilities and progress, creating custom-designed lessons. Users learn at their own pace. Program includes LETTER INVADERS, a fascinating new arcade-style typing game.

Support: Radio Shack.

25-1126 49.95

TANDY

Vocabulary Tutor

Color Computer

Description: This program uses the new Color Tutor system which combines pictures and text on the screen with spoken information. Children match words with definitions and use words in sentences. It includes reinforcement for correct responses and hints for wrong responses. Scores are reported at the end of each session. Designed for grades 3-5.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

Vocabulary Tutor 1. 26-2568 8.95

Vocabulary Tutor 2. 26-2569 8.95

Wizard of Id's Wiz Type

1000

Description: Johnny Hart's Wizard of Id, Spirit, and Bung help users practice typing characters, words, and paragraphs. Learn the correct fingering while building rhythm and speed. Great for beginners or professional typists who want to brush up on their skills.

Support: Radio Shack.

25-1114 34.95

Mickey's World of Writing

Color Computer

Description: King Mickey decrees the Rules of Capitalization to the Knights of I and the other letters in his realm. Children learn the basics of capitalization and sentence structure.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-2532 34.95

TANDY

Description: Your computer has been invaded by Data Bugs. Call on Androne, a user-controlled robot to hunt through your memory banks and "de-bug" them.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3096 19.95

Androne
Color Computer

TANDY

Art Gallery
Color Computer

Overview: Draw color images on the screen which can be saved on a cassette tape. Users can also type block letters which can be used later in a "show" simply by using "scrubbing" messages in the pictures.

Hardware Requirements: 4K for limited features. 16K for all features. (Joysticks and cassette recorder are optional.)

Support: Radio Shack.

26-3061 39.95

Each of the five display tapes below include 12 scenes for use with Art Gallery (AG) and 12 for Micro Painter (MP).

Images 1

(AG): skier, unicorn, motorcycle, Washington, Lincoln—(MP): lion, castle, knight, witch, dinosaur, more. 26-3300 5.95

Images 2

(AG): Christmas wreath, tennis, basketball, football, baseball—(MP): train, ducks, buffalo, flowers, Santa Claus, and more.

26-3301 5.95

Images 3

(AG): ballerina, cellist, pilgrims, deer, Tut's mask, Elvis, JFK—(MP): puppies, stagecoach, Nefertiti, chariots, and more.

26-3302 8.95

Bible Scenes

(AG): Noah's ark, David & Goliath, Nativity—(MP): Jesus & Children, dove, Crucifixion, and more. 26-3303 8.95

Fantasy Scenes

(AG): dragon, warrior, elf, dwarf—(MP): wizard, orcs, runes, and more. 26-3304 8.95

Audio Spectrum Analyzer

TANDY**Color Computer**

Description: Color bar graphs display power distribution over nine full octaves in 1/3-octave segments from 31.5 to 12,500 Hz.

Hardware Requirements: #26-1207 Cable to attach to cassette output of your amplifier.

Support: Radio Shack.

26-3156 14.95

B.C.'s Quest
for Tires

1000

Description: The beloved Johnny Hart characters come to life! Follow Thor over rocks and rivers, through volcanic eruptions and dark caves. Help him outwit the Fat Broad and brave the dinosaur to rescue the Cute Chick. Four difficulty levels. One or two players.

Hardware Requirements: Joystick.

Support: Radio Shack.

25-1115 34.95

TANDY

Banners
PC-1/PC-3

Description: Create eye-catching messages and signs. Input text from the keyboard and watch it print in large letters. Useful and fun.

Hardware Requirements: Printer/Cassette Interface and cassette recorder.

Support: Radio Shack.

26-3531 9.95

BLUE CHIP SOFTWARE

Baron

1000/1200/3000

Description: A real estate simulation game. Baron combines action-packed entertainment with a down-to-earth learning experience that can be applied to real estate investing. Learn the ins and outs of investing in property. Try to make a million dollars by buying and selling homes, shopping malls and farms.

Hardware Requirements: 256K.

Support: Blue Chip Software.

90-0439 49.95

TANDY**Bedlam****I/III/Color Computer**

Description: You're "in," and you want to get out of this nutty place! But can you trust Napoleon or the guy named X-Ray?

Hardware Requirements: Model I/III: 16K Level II or Model III BASIC, and Cassette recorder.

Support: Radio Shack.

Model I/III. 26-1917 14.95

Color Computer. 26-3312 14.95

TANDY**Bustout****Color Computer**

Description: Unique fun for one to four people. Break down a wall on the screen by knocking out individual bricks, gaining points for each one you destroy. Special Gravity lets bricks appear running across the top or down the side of the screen.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3056 19.95

TANDY**Canyon Climber****Color Computer**

Description: As a cliff hanger, you're challenged by one test after another—kicking goats, zinging arrows and falling objects.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3089 29.95

TANDY**Card Games****Color Computer**

Description: Six games in one—with something for everyone! There's challenging hands of Solo Poker, Solitaire and Black-Jack for adults. Kids will love playing Go-Fish, The Last Pirate and an all-out game of War.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-3320 19.95

TANDY**Castle Guard****Color Computer**

Description: Defend your castle from the giant fireball, using Merlin's magical pikes.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3079 24.95

TANDY**Checkers****Color Computer**

Description: The old game will never be the same because now it's you vs. the computer! Features eight skill levels—beginner to expert. And get ready to concentrate, because at the "expert" level the computer searches three moves ahead.

Hardware Requirements: 4K.

Support: Radio Shack.

26-3055 19.95

TANDY

Chess

Color Computer

Description: Sharpen your skills with eight levels of difficulty! You're playing against a worthy opponent—the computer! “Castling” allowed. The computer is always ready for a quick blitz or a slow, thoughtful game. With sound.

Hardware Requirements: 4K.

Support: Radio Shack.

26-3050 19.95

TANDY

Clowns and Balloons

Color Computer

Description: Bounce the clown with your net to pop the balloons overhead. Be careful—don't let the clown hit the ground!

PAN

Color Computer

Description: Write your own songs! Built-in features include everything you need to compose music in three-part harmony. User picks up quarter, half, whole notes and places on bass and treble clefs. Change tempo and tone. Plays back through TV speaker (mono only).

Hardware Requirements: 64K, disk drive, joystick or mouse and Speech/Sound Cartridge.

Support: Radio Shack.

26-3279 29.95

TANDY

Panic Button

Color Computer

Description: The pressure is on—the mad boss wants that order filled and the clock is ticking. Players can press the panic button to stop for a rest, but only for a second.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3147 19.95

Pegasus and the Phantom Riders

TANDY

Color Computer

Description. A game for 1 or 2 players. You can help the great white flying horse, Pegasus, destroy the Phantom Riders by destroying each successive wave of attackers from the mysterious Phantom Island. Watch out for the fire-breathing monsters and the deep, deep waters of the lagoon! A second player can help you destroy the Phantom Riders before they destroy Pegasus. Be cautious, though. Choose carefully—your partner may turn out to be a rival!

Hardware Requirements: Disk drive, joystick or Color Mouse. For more realistic sound, Multi-Pak Interface and Sound/Speech Cartridge. For 2 players: second joystick or Color Mouse.

Support: Radio Shack.

26-3281 29.95

TANDY

Pinball

Color Computer

Description: The classic arcade game! Allows up to four players to compete—five balls per player. Every 10,000 points wins a bonus ball. Design your own board for easier or tougher games. Features “bumping the table” and “tilt.” Action sound.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3052 19.95

Pinball Construction Set

1000

Description: Just like a real pinball machine! Design your own games using bumpers, chutes and flippers—24 different pieces in all. The parts can be positioned anywhere on the board. The unique “picture menu” makes it easy. Change shapes, colors, physics, bonuses and sounds at any time.

Support: Radio Shack.

25-1112 34.95

Pitfall II

Color Computer

Description: Pitfall Harry is on a treacherous journey to recover the magnificent Raj diamond, stolen a century ago, and believed hidden in an ancient lost cavern somewhere near an ancient fortress city in the Peruvian Andes. Help Pitfall Harry find his Niece Rhonda, Quickclaw the Cat, and the Raj diamond. The rewards can be great, for the caverns hold many treasures. They also hold many dangers!

Hardware Requirements: 64K RAM, disk drive and joystick. Sound/Speech Cartridge and Multi-Pak Interface optional.

Support: Radio Shack.

26-3287 29.95

PitStop II

Color Computer

Description. Now auto racing is head-to-head. PitStop II introduces true competitive auto racing, both on the track and in the pits. A split-screen display allows two players to race against each other, fighting for the lead on the track and struggling to be the first out of the pits. Grit your teeth and hope that your tires and fuel hold out for another lap, because if you “pit” now, it may cost you the race.

Hardware Requirements: 64K, one disk drive and joysticks.

Support: Radio Shack.

26-3282 29.95

INFOCOM

Planetfall

1000/1200/2000/3000/

Color Computer

Description: In this science-fiction comedy, you're a Stellar Patrol Ensign 7th class (as low as you can go). Then your luck takes a turn for the better. Your patrol ship explodes. Although the mysterious, deserted world to which you're jettisoned is plagued by floods, pestilence and a mutant Wild Kingdom, you'll have Floyd, a mischievous robot, to help you find the secret to saving it.

Hardware Requirements: 64K and one disk drive on the Color Computer.

Support: Radio Shack/Infocom.

Slay the Neries

Color Computer

Description: Defend your subs against deadly starfish and the ancient seaworm—the Neries.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3086 19.95

TANDY

Space Assault

Color Computer

Description: Get the highest score by eliminating invaders before they eliminate you! Take cover behind protective bunkers. But the enemy is aggressive and destroys the bunkers, too! Beginner and expert levels.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3060 19.95

Radio Shack

Space Warp

I/III

Description: Seek out the Jovians with your scanners and do battle with them.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-1912 14.95

TANDY

Spidercide

Color Computer

Description: Escape the spider's silky trap!

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3049 19.95

BLUE CHIP SOFTWARE

Squire

1000/1200/3000

Description: A financial planning simulation. Squire lets you play your own "financial game of life" using your own goals and game plan. You start at age 35 with \$70,000. Your goal is retirement at 55 with a net worth of \$1,000,000.

Hardware Requirements: 256K.

Support: Blue Chip Software.

90-0440 49.95

TANDY

Star Blaze

Color Computer

Description: Protect the Milky Way! Radar indicates menacing vessels nearby. Seek, destroy and check radar again. Red Alert! There's no letup in the excitement.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3094 19.95

Radio Shack

Starblaze-100

100

Description: Destroy alien ships to save the galaxy.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-3840 19.95

Radio Shack

Star Quest

I/III

Description: Explore a planet and fight off aliens!

Hardware Requirements: 16K Level II or Model III BASIC, and cassette recorder.

Support: Radio Shack.

26-1920 14.95

TANDY

Stellar Lifeline

Color Computer

Description: You're commanding a spaceship "convoy" traveling between star bases. Clear the path of asteroids, magnetic mines and alien attack ships.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3047 19.95

Radio Shack

Sword of Roshon

III

Description: A special interactive story—and you can be the hero! Make decisions that help determine the outcome, but be prepared to suffer the consequences of a wrong choice.

Hardware Requirements: Model III BASIC and cassette recorder.

Support: Radio Shack.

26-1918 9.95

TANDY

Temple of ROM

Color Computer

Description: Explore the ancient temple for the hidden treasures. But be very careful where you go! The chambers are guarded by dangerous creatures.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3045 19.95

TANDY

Tennis

Color Computer

Description: Hone your tennis skills against the computer or another player.

Hardware Requirements: Joysticks.

Support: Radio Shack.

26-3080 24.95

Software Affair**13 Ghosts****III**

Description: Armed only with your "Ghost Blaster," you're out to de-spook a Ghost Town. You'll encounter a skeleton that's immune to your blast and a "Laughing Ghost" with an annoying knack for waking up dangerous ghoulish friends. You'll be lucky to get out alive!

Hardware Requirements: 48K and one disk drive.

Support: Radio Shack.

26-1927 19.95

IMAGIC**Touchdown Football****1000**

Description: Gridiron action at its toughest! Challenge the computer opponent with your own run, pass, punt and kick strategies. Program your offense and defense as you like. You can even program individual players into superstars!

Hardware Requirements: Joystick.

Support: Radio Shack.

25-1123 29.95

**BLUE CHIP SOFTWARE****Tycoon****1000/1200/3000**

Description: Try to outmaneuver the commodities market. Tycoon focuses on trading in gold, foreign currencies, oil, agricultural products and other commodities. You have access to comprehensive charts and vital background information. But woe to the investor who thinks it is easy to master this volatile market.

Hardware Requirements: 256K.

Support: Blue Chip Software.

90-0438 49.95

Varloc**TANDY****Color Computer**

Description: Chess-style game with an unusual twist. Pieces must wage a battle for victory of each square. You control one side, the computer the other. Exciting game and quick thinking throughout the game.

Hardware Requirements: 64K, one disk drive and joystick.

Support: Radio Shack.

26-3291 29.95

Wildcatting**TANDY****Color Computer**

Description: One to four wheeler-dealers pick drilling sites. Hit a gusher and you're in the money. But watch out for dry holes! Soon production decreases and taxes and drilling fees mount. Player with highest profits wins. Joysticks optional.

Support: Radio Shack.

26-3067 19.95

INFOCOM**Wishbringer****1000/1200/2000/3000/****Color Computer**

Description: You begin as an ordinary mail clerk delivering a mysterious ransom note and end up—with magic stone in hand—embarking on a remarkable series of whimsical adventures. You'll need all the wishes that the stone will grant you, because your final destination is somewhere beyond your wildest dreams.

Hardware Requirements: 64K and one disk drive on the Color Computer.

Support: Infocom.

Tandy 1000/1200/2000/3000. 90-0450 39.95

Color Computer. 90-0449 34.95

INFOCOM**The Witness****1000/1200/2000/3000/****Color Computer**

Description: In this hard-boiled 1930's whodunnit, a case of blackmail turns to murder before your eyes. Anyone from the knockout heiress to the poker-faced Oriental butler could be the killer. And the only two things you can believe are your own two eyes, because you are the Witness!

Hardware Requirements: 64K and one disk drive on the Color Computer.

Support: Radio Shack.

Tandy 1000/1200/2000/3000. 26-5376 39.95

Color Computer. 90-0451 34.95

Sega**Zaxxon****I/III/Color Computer**

Description: Bring the popular arcade challenge home to your computer. Advance from "Rookie Pilot" to "Combat Ace Pilot" as you enter the floating fortress, destroy enemy defenses and finally defeat the mighty robot—Zaxxon. Add an optional amplifier for great sound effects.

Support: Radio Shack

Model I/III—Cassette. Requires 16K Level I or Model III BASIC, and cassette recorder.

26-1960 29.95

Model I/III—Disk. Requires 48K and one disk drive.

26-1956 29.95

Color Computer. Requires 32K, joysticks and cassette recorder.

26-3062 34.95

INFOCOM**Zork I****III/1000/1200/3000/****Color Computer**

Description: This phenomenally popular story plunges you into the extraordinary environs of the Great Underground Empire in search of incomparable treasures. You'll come face to face with outlandish creatures as you make an amazing odyssey with so many twists, it can offer new surprises every time you explore it.

Hardware Requirements: 64K on the Color Computer. 32K on the Model III. One disk drive.

Support: Radio Shack and Infocom.

Tandy 1000/1200/3000. 90-0453 39.95

Color Computer. 90-0452 34.95

Model III. 26-1951 39.95

INFOCOM**Zork II****III**

Description: The Wizard of Froboos takes you to new subterranean depths where you'll constantly confront new surprises, including the addled Wizard himself. He'll try to confound you with his capricious powers. It's a challenge the likes of which you've never experienced before.

Hardware Requirements: 32K.

Support: Infocom.

90-0454 44.95

INFOCOM**Zork III****III**

Description: The Dungeon Master draws you into the deepest and most mysterious reaches of the Great Underground Empire, testing your wisdom and courage as never before. Nothing is as it seems. And the one responsible for the shadow and darkness—the Dungeon Master—embodies the greatest mystery of all.

Hardware Requirements: 32K.

Support: Infocom.

90-0455 44.95

Autodesk**AE/CADD****1000/1200/2000/3000**

Description: Works with AutoCAD to produce architectural and background plans. Provides a library of shapes and symbols. There are shapes for plumbing and electrical fixtures, appliances, toilet accessories, furniture, stairs, wall textures and structure members. There are symbols for section, elevation, grid detail, room name and finish targets. AE/CADD shapes carry user-defined specifications, which can be extracted and read into a database system, such as dBASE or Symphony. You can quickly create a complete master template menu to reduce instructions, too.

Hardware Requirements: 512K, color graphics option, 11 x 11" Digitizing Tablet and AutoCAD ADE-3. Hard disk recommended.

Support: Autodesk.

90-0416 1000.00

Autodesk**Advanced Drafting Extension-2****1000/1200/2000/3000**

Description: A computer-aided drafting and design system that brings the benefits of a high performance CAD facility within the range of even the smallest drafting office. AutoCAD is a complete, professional CAD system that's simple to learn and use. It requires no prior computer knowledge and is easy to tailor to user-specified requirements. AutoCAD ADE-2 is equipped with all the features found in AutoCAD Standard, plus additional features that are designed to greatly increase drafting productivity. Drawings created with AutoCAD ADE-2 are compatible with any other level of AutoCAD for convenient upgrade.

Hardware Requirements: 384K, color graphics option, two floppy disk drives or one hard disk drive (recommended).

Support: Autodesk.

Tandy 1000/1200/3000. 90-0363 2000.00

Tandy 2000. 90-0181 2000.00

Autodesk**Advanced Drafting Extension-3****1000/1200/2000/3000**

Description: A computer-aided drafting and design system that brings the benefits of a high performance CAD facility within the range of even the smallest drafting office. AutoCAD is a complete, professional CAD system that's simple to learn and use. It requires no prior computer knowledge and is easy to tailor to user-specified requirements. AutoCAD ADE-3 is equipped with all the features found in AutoCAD Standard and AutoCAD ADE-2, plus additional features which enable a user to visualize an object in three dimensions. AutoCAD ADE-3 is compatible with any other level of AutoCAD for convenient upgrade.

Hardware Requirements: 384K, color graphics option, two floppy disk drives or one hard disk drive (recommended).

Support: Autodesk.

Tandy 1000/1200/3000. 90-0364 2500.00

Tandy 2000. 90-0361 2500.00

Autodesk**AutoCAD****1000/1200/2000/3000**

Description: A computer-aided drafting and design system that brings the benefits of a high-performance CAD facility within the range of even the smallest drawing office. AutoCAD requires no prior computer knowledge and is easy to tailor to user-specified requirements. AutoCAD Standard is equipped with all of the features necessary to complete a drawing. Any drawing created with AutoCAD Standard is compatible with any other level of AutoCAD, allowing you to easily upgrade to a higher level.

Hardware Requirements: 384K, color graphics option, two floppy disk drives or one hard disk drive (recommended).

Support: Autodesk.

Tandy 2000. 90-0214 1000.00

**Unison World Inc.****Art Gallery I****1000/1200/2000/3000**

Description: A collection of 140 all-new graphics for use with PrintMaster. Ideal for cards, calendars, stationery, signs and banners. Included are zippy graphics of animals, office items, sports, zodiac signs, holidays, background patterns and more.

Hardware Requirements: 256K and PrintMaster (90-0337).

Support: Advanced Products Solutions.

90-0365 39.95

Digital Research**DR Draw****2000**

Description: This interactive picture editor will produce amazing presentation-quality charts, diagrams and other visual aids for use in written reports and other office communication. To build a picture, select geometric or text elements and place them in the desired locations using the optional DIGI-Mouse controller. Picture elements include lines, marker characters, arcs, pie segments, filled rectangles and polygons, and circles. Once created, any element can be moved, copied, scaled or deleted. Zoom in to work on a specific section, zoom back to view the whole picture, or pan to a different section.

Support: Radio Shack.

26-5279 295.00

Digital Research**GEM Draw****1000/1200/2000/3000**

Description: An element-oriented graphics editor that can produce charts, diagrams, logos and drawings. The graphics library includes straight lines, rectangles, circles, polygons and arcs. Elements are easily moved on the screen, sized or duplicated by a simple "point and click" of the mouse. Additional features include a sketch option which permits free-hand design, text (in 6 point sizes) that can be bold or italicized, 39 fill patterns, and a pre-programmed picture library. The GEM Draw package also includes the GEM Desktop release 1.2.

Hardware Requirements: 384K. Color monitor is recommended.

Support: Digital Research.

90-0343 249.00

Time Arts**Lumena 2000****2000**

Description: An advanced creative tool for graphic artists and professional designers. Lumena is easy to use, with a simple menu-driven design. Using the Radio Shack GT-2000 Graphics Tablet or DIGI-Mouse, you can select colors, shapes, letters, fonts, or draw free-hand. The images can be duplicated, moved, changed in size, rotated and more. Objects can be filled with solid, banded, or graduated colors. Lumena 2000 combines the two intensities of the Tandy 2000's eight basic colors into 28 additional "dithers" or blends. Lumena also provides cycling and animation functions for impressive graphics. Output on CGP-220 Ink-Jet Printer.

Hardware Requirements: 256K (384K required for advanced features), two disk drives, GT-2000 Digitizer or DIGI-Mouse.

Support: Radio Shack.

26-5281 (Available 3/1/86) 299.95

MGI/Schematic Drafter 2000

Description: A versatile CAD program—ideal for organizational charts, printed circuit layouts, sheet music, chemical symbols, cattle brands and more. Includes symbol templates for electronic circuits, space planning, pneumatic and hydraulic diagrams, flowcharts, digital logic, electrical diagrams, P & ID'S and project schedules. Features include blocks, draw on infinite electronic sheet, zoom, scroll, variable text size, drawing auto-scales to finished drawing size, extra memory allocated to drawing, printer for quick draft copy, pen plotters (available from MGI) for finished drawings from 8 1/2 x 11" to 34 x 44" in size.

Hardware Requirements: 256K and two disk drives.

Support: Provided by Microcomputer Graphics for a nominal charge.

90-0156 895.00

**ISLAND
GRAPHICS
CORPORATION**

Micro Illustrator Color Computer/1000

Description: Draw beautiful pictures and designs on your computer. No programming experience needed—all commands are on the icon driven menus. Just point to choose shapes, colors, patterns, special effects and brushes. Save your pictures on disk and create your own picture show.

Hardware Requirements: Touch Pad, mouse or joystick.

Support: Radio Shack.

Color Computer. 26-3278 29.95

Tandy 1000. 25-1120 29.95

Z-SOFT

PC Paint Brush 1000/1200/3000

Description: PC Paintbrush gives you graphics for business or pleasure: diagrams, headings, patterns and charts. Use your mouse or digitizer to select easy-to-use pull-down menus, tools and color palettes. Change colors, patterns and line widths; add a heading; rotate; zoom; tilt; shrink; expand; flip; invert; save to disk; print; or make a slide show with optional PC Presentation. You can even edit pictures larger than the screen. Supports Lotus 1-2-3 PIC file loading (which loads a graph at your full resolution).

Hardware Requirements: 384K, one disk drive, graphics display and mouse, tablet or other drawing device.

Support: Provided by ZSoft Corp. for a nominal charge.

90-0421 139.00

Unison World Inc.

PrintMaster

1000/1200/2000/3000

Description: Turns your personal computer into a print shop. You can create and print your own greeting cards, letterheads, calendars, signs and banners—all with your computer and dot-matrix printer. PrintMaster brings out the graphic artist in you, with easy-to-use menus that let you choose from a variety of type styles, graphics, border designs and layout patterns. Choose ready-made graphics from PrintMaster's art gallery of 1200 pictures and symbols, or design your own and add them to your collection.

Hardware Requirements: 256K and IBM-compatible printer.

Support: Advanced Products Solutions.

90-0337 59.95

MICRODEX

T Cad Professional

4

Description: A general-purpose, two-dimensional CAD package. It allows production of exact, scaled technical drawings up to 24 x 36" on supported pen plotters. Ideal for smaller architectural, engineering or manufacturing businesses. An excellent education resource for schools, too. Features all essential

CAD functions, such as overlay drafting, cursor grid snap, numerical input, decimal and customary scaling, zoom up to 1/100-inch drafting accuracy, pan, copy, enlarge, reduce, rotate, horizontal and vertical mirror, clip, merge, text labels in upper and lower case and more.

Hardware Requirements: 64K, two disk drives and High-Resolution Graphics board.

Support: Microdex.

90-0193 345.00

T&W SYSTEMS, INC.

VersaCAD Advanced

1000/1200/2000/3000

Description: A general-purpose design and drafting program that is powerful, yet easy to use. Productivity features include ten built-in primitive objects, ability to group objects by any attribute for group manipulation, interactive editing, total flexibility of object attributes (color, line style, etc.) on any drawing level, easy creation and visual retrieval of commonly used symbols from user libraries, auto-dimensioning, hatching, geometric calculations (such as center of gravity and area/perimeter totals), snap to object, grid or user-defined increments, etc. It includes help screens, tutorials and automatic drawing recovery from error or power failure.

Hardware Requirements: 256K and two floppy disk drives or a hard disk drive.

Support: T & W Systems.

Tandy 1000/1200/3000. 90-0412 1995.00

Tandy 2000. 90-0325 1995.00

T&W SYSTEMS, INC.

VersaCAD Entry-Level

1000/1200/2000/3000

Description: A general-purpose design and drafting program that contains much of the power found in software five times the cost. Menu-driven operation and plain-English prompts guide you through the program as you work. Productivity features include 10 built-in primitive objects; ability to quickly group objects for collective manipulation; interactive editing (the object being worked on blinks on the screen and visually changes); total flexibility of object attributes (color, linestyle, etc.) on any drawing level (attributes may be changed at any time with a function key); unlimited zoom; auto-dimensioning; inquire about object locations, area/perimeter totals, etc.; drawing aids, such as center marker and template lines; snap at any time to an object; grid intersection or user-defined spacing increments; output to pen plotter or graphics printer with user-defined plot specifications; and automatic drawing recovery from error or power failure. Includes written tutorial and introductory audio tape.

Hardware Requirements: 256K, two disk drives, graphics monitor and Tandy GT-2000 digitizer.

Support: Radio Shack.

26-5282 399.95

American
Computer
Enterprises, Inc.

ACE Service Station Package

1000/1200/3000

Description: This program provides a daily bookkeeping system that does complete station checkout and employee productivity analysis. Features include daily and monthly pool margin information for all products with adjustments for discount for cash, gas inventory over or short, monthly totals for 40 cash paid out categories, balance for Accounts Receivable and credit cards, daily and monthly estimated profit and loss recap.

Hardware Requirements: 384K and two disk drives.

Support: Provided at no charge by American Computer Enterprises, Inc. for a limited time, after which a nominal fee is charged.

90-0324 995.00

AgriData Resources

Agridata

III

Description: Access the latest agricultural marketing, finance, news, weather, general business and production information from the Agridata network (formerly the AgriStar service). All you need is a Model 4 or Model III and a telephone interface. Includes a user's manual with quarterly updates, a reference flip chart, a subscription to Farm Futures magazine, a newsletter and a toll-free 24-hour support service from AgriData Resources.

Hardware Requirements: One disk drive.

Support: Radio Shack.

26-2227 399.00

AMORTIZER III

1000/1200/2000/3000

Description: AMORTIZER III is an easy-to-use program for preparing loan amortization schedules and summaries. AMORTIZER III handles variable interest rates, multiple loan combinations, negative amortizations, interest-only loans and balloon payments. It also provides a variety of payment intervals including annual, semi-annual, quarterly, monthly, bi-weekly and weekly. AMORTIZER III provides presentation-quality reports.

Hardware Requirements: 256K and one floppy disk drive.

Support: Good Software, Inc.

90-0238 89.00

Apartment Management

4

Description: Maximize income and keep financial control of properties. The program maintains a history of prior payments for each apartment, divides monthly rental charges into user-defined categories, and produces many financial and problem reports on request. It provides a printout of all transactions that can be used as an accounting audit trail, provides month-end income totals and maintains a history of repair orders and other notes regarding maintenance on apartments. It stores up to 450 apartment units on each diskette. Prints mailing labels.

Hardware Requirements: Three floppy drives or hard disk.

Support: Radio Shack.

26-1538 299.95

Radio Shack

Aviation

PC-1/PC-3

Description: All basic pilot equations and conversions, altitude, airspeed, Mach number, off course correction drift angles and more.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3513 24.95

CONSTRUCTION DATA CONTROL

Working with you to stay ahead.

Description: This program is an integrated accounting and job costing system designed for the homebuilder, remodeler and small general contractor. Easy to use modules include General Ledger, Accounts Payable, Accounts Receivable, and Job Costing. A complete instruction manual and tutorial guide aid the user in learning the system quickly. On line help screens provide the user with additional aid at any time. Other features included: Job Cost reports actual cost vs. budget at both job and category level, analyzes costs and provides historical data for improved estimating.

Hardware Requirements: 256K and two disk drives.

Support: Provided at no charge by Construction Data Control for a limited time, after which a nominal fee is charged.

90-0349 2395.00

CONSTRUCTION DATA CONTROL

Working with you to stay ahead.

Description: An estimating and reporting program for the homebuilder, remodeler and small general contractor. The user can create a custom database of construction materials along with prices and cost classifications. The system will automatically convert takeoff dimensions into order quantities and calculate tax, overhead, bond and profit figures automatically.

Hardware Requirements: 256K and two disk drives.

Support: Provided at no charge by Construction Data Control for a limited time, after which a nominal fee is charged.

90-0351 500.00

CONSTRUCTION DATA CONTROL

Working with you to stay ahead.

Description: This program is an add-on module for the Basic Builder accounting system. The Payroll option is fully integrated with the Basic Builder and will automatically send information to the General Ledger and Job Costing modules. Documentation and help screens throughout make the program easy to learn and use. Other features include: automatic calculation of withholding and other deductions, printing of Payroll checks, printing of W2 forms and tax tables for all 50 states. Yearly tax table updates are available for additional nominal fee.

Hardware Requirements: 256K and two disk drives.

Support: Provided at no charge by Construction Data Control for a limited time, after which a nominal fee is charged.

90-0350 600.00

BISNESS Construction Accounting System

1000/1200/2000/3000

Description: This program includes four integrated modules: Job Cost, Accounting, General Ledger, Payroll with Labor Distribution, and Accounts Payable. Integrates with other "BISNESS" accounting systems for additional accounting functions. Unlimited number of projects; labor cost and job cost reporting by project, phase, expense type; controls for retainage, burdens and overhead factors. Income statements by project and entire business; automatic ledger posting; unlimited expense allocations; prior period postings. Multiple pay structures; tax routines for all fifty states; unlimited labor distribution for each employee. Reporting for workmen's compensation, multiple unions, certified payroll and manpower utilization. Cash flow and aged payables analysis; accrual, direct payment, or cash accrued accounting.

Hardware Requirements: 256K and one hard disk.

Support: Provided at no charge by Bristol Information Systems, Inc. for a limited time, after which a nominal fee is charged.

1000/1200/2000

Basic Builder Payroll

1000/1200/2000

BUSINESS Construction Estimating System

1000/1200/2000

Description: This program maintains on-line files of products, labor rates, and estimates. Interfaces with BUSINESS Construction Accounting for posting of estimated costs as budgeted costs for each phase and project. Automatic line item compilations. Allowance for items and labor rates not on file. Bid summaries with subtotals by category and phase with optional page breaks. Revisions for additional phases, revised prices and rates, etc. 10-level Accessories List File for automatic access to an item's required components. Options for MCA standard labor hours or user-defined hours/rates. Standard and overhead factors. User-defined profit margins. Options to override original overhead factors when creating an estimate.

Hardware Requirements: 256K and a hard disk.

Support: Provided at no charge by Bristol Information System, Inc. for a limited time, after which a nominal fee is charged.
90-0336 800.00

AgDisk Business Management III

Description: Eight templates for the general management needs of any farm or ranch. Templates are included for depreciation, land purchase, business analysis, credit line, installment loan, investment payback and net present value.

Hardware Requirements: Two disk drives.

Support: Radio Shack.

26-1610 69.95

TANDY Civil Engineering PC-1/PC-3

Description: Simple beam computations, stress in cylinders and bolt torque, anti-levered beams and more.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3511 24.95

Mesa Research, Inc.

Construction Estimator 4

Description: Construction Estimator contains a number of worksheets or templates that work with VisiCalc. A template is a pre-defined set of contents for a worksheet. Construction Estimator includes templates for the following methods of construction estimating: Quantity Survey (Cost) Method, Square Foot Method, Unit-in-Place Method. A fourth template, Supply, allows for the comparison of material costs between different suppliers. Using Construction Estimator will allow you to estimate construction costs, property values and individual component costs. You can compare material and lumber suppliers, material and lumber costs, and actual costs versus estimated costs. Construction Estimator automatically calculates cost differences, percent of money expended, completion percentages, savings realized by item, individual item extensions, and cost savings and cost overages. Construction Estimator calculates tax and sales commissions. It provides for loan points, bank draws, home owner warranty and advances.

Hardware Requirements: VisiCalc (Cat. No. 26-1520) or VisiCalc Enhanced (Cat. No. 26-1569).

Support: Radio Shack.

26-2025 49.95

AgDisk Corn/Soybean Management III

Description: Contains five programs, each dealing with a specific area of crop management. The Grain Storage Decisions program calculates drying costs, net crop value, and the break-even point after storage. Entries may be changed to create unlimited "what-if..." situations. And easy-to-understand break-even graph shows at a glance the break-even prices for

on-farm and elevator storage for a whole range of different interest rates over a period of several months. Other programs included are: Harvest Loss Calculations; Crop Yield Calculator; Field Population Calculator; and Planter Calibration Calculator.

Hardware Requirements: One disk drive.

Support: Radio Shack.

26-1549 99.95

AgDisk Cow-Calf Herd Management III

Description: Seven templates for producers who pasture and breed cows for the production of calves or yearlings. Templates are included for beef cow-calf, cattle weaning, yearling weight, bull test records, gestation calendar, metabolizable protein and urea fermentation potential and ration formula.

Hardware Requirements: Two disk drives.

Support: Radio Shack.

26-1611 69.95

GREAT PLAINS Crop & Livestock Accounting 1000/1200/2000/3000

SMALL BUSINESS SOFTWARE

Description: Includes a complete general ledger and enterprise analysis with limited capabilities in payables and inventory. Multiple farming operation is built in. The enterprise analysis capability helps track the profitability of products you produce, such as wheat or cattle. It lets you allocate income and expenses to specified fields and lots and calculates revenue by enterprise or percentage ownership.

Hardware Requirements: 256K and one hard disk.

Support: Provided at no charge by Great Plains Software for a limited time, after which a nominal fee is charged.

90-0327 995.00

AgDisk Crop Management III

Description: Eleven templates to help anyone with cropping enterprises with decisions on yield estimates, plant population, harvest losses, analysis of marketing alternatives and others. Templates included are for grain marketing, grain yield, corn yield, gross margin, hybrid selection, growing days, field calculations, lime recommendation, pivot application, fertilizer needs and cost.

Hardware Requirements: Two disk drives.

Support: Radio Shack.

26-1612 69.95

Radio Shack Electronic Broker 12

Description: Maintains securities transaction records for stock brokers, investment advisors, accountants and small bank trust departments. The Electronic Broker organizes your account bookkeeping with flexibility and ease. Reviews and updates security prices, market averages, stock splits, and adjustments for dividends. Builds and maintains four libraries of information—a library of up to 500 Client Accounts, a library of up to 1500 Securities, an ongoing Transactions File and a matched-off Liquidations File. The program provides accurate, well-organized screen displays and printed reports. Additionally, the program prints a posting journal and a liquidations report as an audit trail.

Hardware Requirements: 64K.

Support: Radio Shack

26-4525 995.00

AgDisk Farm Accounting III

Description: Make record keeping easier and faster! You can have double-entry accuracy with the ease of a single-entry function, using either cash or accrual basis. Six preselected

account lists cover most farm or ranch operations to help save you time. In addition, you control the length of an accounting period, all report headings, the sequence in which reports are printed and much more.

Hardware Requirements: Two disk drives.

Support: Radio Shack.

26-1546 499.00

Ag Disk **Feedlot Cattle Management** III

Description: Eight templates to provide important information for those finishing cattle for sale. Templates included are for cattle feeder, higher grade cattle, steer marketing, carcass evaluation, cattle net energy, metabolizable protein and urea fermentation potential, protein supplement and ration formulation.

Hardware Requirements: Two disk drives.

Support: Radio Shack.

26-1613 69.95

Ag Disk **Financial Management** III

Description: Includes five programs, each dealing with a different area of money management. The Land Purchase Analysis program lets you make an in-depth cash flow study before any purchase is made. Other programs include Depreciation Scheduling, Farm Profit Analysis, Loan Cost Calculator and Interest Income Calculator.

Hardware Requirements: One disk drive.

Support: Radio Shack.

26-1547 99.95

TANDY **Flight Planning** PC-2

Description: Commonly used flight planning tools.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3707 24.95

Investor III

1000/1200/2000/3000

Description: This is a powerful program for analyzing all financial aspects of real estate investments. Investor III provides a comprehensive pro forma cash flow analysis, investment screening ratios including cash on cash return, CAP rate, gross rent multiple, calculates property appreciation, and analyzes operation proceeds, sales proceeds, before and after tax yields, internal rate of return, and return on equity. In addition, Investor III provides a 20-year projection capability and produces presentation-quality 8 1/2 x 11 reports.

Support: Good Software Inc.

90-0237 249.00

Job Costing

1000/1200/2000/3000

Description: Great Plains' Job Cost module helps manage all the details of a project, from the estimate through bid to completion. It helps improve resource management by allowing you to spot problems as they occur. Expenses are broken down by category for easy analysis. The project estimate is retained throughout the job's life to provide a measuring stick against actual performance. It allows contract changes and will override the computer calculated bill if desired. It allows three types of billing: fixed price, cost plus and cost plus with a maximum billing. It will calculate profit as a percentage of flat rate for a job. A wide variety of management reports will keep you informed of each job's status.

Hardware Requirements: 256K and one hard disk.

Support: Provided at no charge by Great Plains Software for a limited time, after which a nominal fee is charged.

90-0174 695.00

Radio Shack

Job Costing

II/12/16/6000

Description: Job Costing is designed to be used internally by small businesses—like construction companies—in the preparation of job estimates. This program provides the necessary budget, cost and time controls needed to complete a number of various jobs on time and at a profit. It records estimates for up to four cost categories and allows you to post cost transactions to each task by cost category. It maintains both current and to-date cost amounts for each task and job. It provides for revisions to original quotes and estimates.

Hardware Requirements: Multiuser operation requires hard disk. Single-user operation may use floppy disk or hard disk.

Support: Radio Shack.

Model II/12. 26-4513 149.00

Model 16/Tandy 6000. 26-6209 199.00

Radio Shack

Litigation Support

II

Description: A versatile computerized information storage and retrieval system designed for the attorney. Litigation Support is a docket control program that helps you research articles, organize notes, and keep track of reports and correspondence. Just enter an individual client's background, case history and correspondence. At a moment's notice, you can be reviewing the case. Litigation Support stores up to 350 client records, with 12 pleas and 20 documents associated with a case, such as memo, letter or conversation. Then by simply typing in a subject, topic, case number or keyword, the computer displays any matching records. Litigation Support even prints complete reports and mailing labels. You can also merge names and addresses into "personalized" form letters using our SCRIPSIT word processing program (26-4531) and an extra disk drive.

Support: Radio Shack.

26-4545 299.00

Ag Disk

Machinery Management

III

Description: Track vital information about your farm machinery. You can calculate the total fixed and variable costs of virtually any piece of machinery. Determine total operating costs per year, per acre and per hour, plus a breakdown of costs for depreciation, interest, taxes, insurance, housing, labor and repair.

Hardware Requirements: One disk drive.

Support: Radio Shack.

26-1548 99.95

Manufacturing Inventory

Radio Shack

I/III

Description: Manufacturing Inventory is designed to help reduce the time and expense of inventory control. This system will help control raw materials, finished goods, and assist in planning material requirements.

Hardware Requirements: Two disk drives.

Support: Radio Shack.

26-1559 199.95

Manufacturing Inventory

Radio Shack

II/12/16/6000

Description: The Inventory module allows you to enter On Order, Receipts, Issues, Shipments, Completions and Return transactions. The Bill of Materials Module pertains to the structure of sub-assemblies and finished goods. Order Status tracks customer orders from the time they are first entered into the system until they are shipped as finished goods. The Planning module allows you to schedule labor and project labor and material requirements.

Hardware Requirements: Model II: Three disk drives. Model 12: Two disk drives. Model 16 and 6000: Hard disk.

Support: Radio Shack.

Model II/12. 26-4509 750.00

Model 16/Tandy 6000. 26-6309 850.00

**Clinical Data
Systems****MDX-6000
6000**

Description: MDX-6000 from Clinical Data Design is a medical management office system designed to automate medical offices. It Automates all financial history, which includes billing, insurance and reporting.

Support: Provided by Clinical Data Design for a nominal charge. For an additional fee, the program can also automatically perform appointment copying and scheduling, and patients clinical records.

Medical Office System

12/1000/1200/2000/3000/16/6000

Description: Accommodates a large individual practice or a medical clinic with up to ten physicians. Handles records and billing for up to 3000 accounts and 9000 transactions per month. Features 450 procedures and diagnoses, 4 recall medications, 2 recall dates, and 2 insurance companies per patient. On hard disk, you can keep track of 64,000 patients, 64,000 transactions, 999 procedures and diagnoses. A powerful forms generator can produce any type of invoice or insurance form to match any state's requirements. The system lets you get daily recap, transaction review, aged accounts receivable, procedure and diagnosis reports. You may enter refunds, place invoices into collection, add charges to existing invoices, switch responsible parties and add notes into a patient's file. The system provides complete audit trails and detailed reports, cutting the time you presently spend on accounting and preparing statistical reports. Zero-balance double-entry accounting maintained automatically. You can also get an amazingly complete breakdown on your offices's financial status with numeric month-to-date and year-to-date totals for all categories. Use of a unique "scan" feature allows you to quickly locate patients who meet a very narrow selection criteria. Requires a minimum of two disk drives.

Hardware Requirements: Two floppy disk drives.

Support: 26-4508 supported by Radio Shack. 90-0492 and 90-0493 supported by Small Computer Co., Inc.

Personnel Search

12

Description: A program to help match employers with potential employees, so important when you have to have the right person to fit the job. Stores up to 246 records, with up to five referral and placement positions and five client contacted companies. Up to 66 character spaces are available for a description of employer benefits, and up to 227 character spaces for employee duties. Prints reports, plus two mailing labels.

Support: Radio Shack.

26-4621 299.00

**The Precedent
Docket Control System**

II/12/1000/1200/2000/3000/16/6000

Description: The Precedent Docket Control System is a software package that can be used by members of the law firm to schedule appointments, court dates, or items of general interest. The events can be scheduled individually or through the use of models developed by the law firm for its specific needs. The system will then generate calendars/schedules for individual attorneys as well as a master calendar for the law firm. Schedules for the individual members of the firm can be reviewed on the screen. Reports can also be produced showing events scheduled for a specific client or client matter. Docket Control is designed for integration with The Precedent Legal Accounting System; however, it can be used alone.

Support: 26-4622 is supported by Radio Shack. 90-0266 and 90-0264 are supported by Legal Data Services.

Model II/12. 26-4622 249.00

Tandy 1000/1200/2000/3000. 90-0266 249.00

**The Precedent
Legal Accounting System**

II/12/1000/1200
2000/3000/16/6000

Description: The Precedent Legal Accounting System is a comprehensive time and billing system designed especially for law firms. The system consists of three modules: Time and Billing, General Ledger and Cash Disbursements. While the time and billing module may be used independently of the other modules, the General Ledger and Cash Disbursements modules are designed for use with the time and billing module. The total package constitutes an integrated software package that enables the law firm to perform all legal accounting tasks quickly and efficiently including trust accounting. The Precedent enables the law firm to keep accurate, up-to-date records of both chargeable and non-chargeable time and expenses and to process invoices in a timely manner. This helps to improve the cash flow for the firm. The Precedent will also generate management reports providing the firm with meaningful information which will indicate to the firm the most or least profitable types of work, whether the existing fee schedule is appropriate, whether administrative tasks are preventing the lawyers from the profitable practice of law, the most or least profitable areas of the practice, and which attorneys are the producers. The Precedent can be used by the sole practitioner or by larger firms. File capacity is limited only by available disk space.

Hardware Requirements: Hard disk drive.

Support: 26-4620 supported by Radio Shack. 90-0265 and 90-0240 supported by Legal Data Services.

Model II/12. 26-4620 795.00

Tandy 1000/1200/2000/3000. 90-0265 795.00

Time Accounting

II/12

Description: Time Accounting is a "must" for any business that requires a detailed time analysis. It handles up to 14 professionals, 1000 clients, 500 jobs, 99 charge code categories and 2950 transactions. You may enter a fixed or maximum fee for each job. You can record all transactions, including time spent (billable and non-billable), expenses incurred (billable and non-billable), and the receipt of customer payments; all with complete descriptions (150 characters). It offers complete billing with flexibility for varied presentations of time and expense entries. Simulation run of statements, makes it possible to make final adjustments in the bill before the actual bill is printed. Reports include: Earnings Summary by Employee; Employee Detail Analysis; Job Summary (showing revenue), Selected Job Detail and Trust Statements.

Hardware Requirements: Model II: Four disk drives. Model 12: 16 and Tandy 6000: Two disk drives.

Support: Radio Shack.

26-4520 499.00

Radio Shack

Westlaw

II/12

Description: Turn your business computer into a powerful electronic law library! Just register with WESTLAW—a vast legal database and attach a 1200 baud telephone modem to your computer. Then each time you need to research a case, simply place a phone call to use the resource of WESTLAW. You'll have access to the US Code, Code of Federal Regulations, federal and state case law libraries, Shepard's Citations service and much more—all at a low hourly rate. WESTLAW lets you search through its "on-line" legal publications at computer speed to locate relevant cases quickly. That reduces the time you spend on research. Simple commands make WESTLAW easy to use, too. A "must" for every practicing attorney.

Hardware Requirements: 1200 bps modem.

Support: Radio Shack.

26-4560 249.00

Business Builder 1000/1200/2000/3000

Description: A single, comprehensive system that contains four accounting tools plus four management tools. The accounting tools include: General Ledger, Accounts Receivable, Accounts Payable and Payroll. Each program also employs automatic double-entry accounting, automated check writing, financial reports and more. They interface with other BPI accounting products to provide even greater accounting capacity and flexibility. The management tools include: Information Management, Spreadsheet, Business Graphics and Word Processing. These tools enable accounting data to be analyzed and used for decision making and strategic planning, as well as customized letters that are sent to preferred customers and vendors. Business Builder also interfaces with other BPI systems including Lotus 1-2-3, dBase II, WordStar, and ASCII text files for consolidation of data.

Hardware Requirements: 256K. Hard disk recommended.

Support: Provided by BPI Systems for a nominal charge.
90-0457 795.00

DeskMate

TANDY

4/4D/1000
1200/2000/3000

Description: Six popular applications all on one disk. Lets you put your computer to use from day one with word processing, spreadsheet analysis, electronic filing, telecommunications and electronic mail. Using DeskMate is the easiest way to become familiar with different computer applications, so when you buy more powerful programs, you'll know what features you need. DeskMate is user-friendly, using the same commands throughout all applications. Use TEXT for preparing correction-free reports, memos and correspondence. WORKSHEET is an electronic spreadsheet which lets you make countless "What if..." calculations. FILER is a convenient electronic filing program. TELECOM lets you communicate with other computers and information services. CALENDAR/ALARM reminds you of appointments and MAIL lets you send and receive messages to and from other DeskMate users over the phone.

Hardware Requirements: Modem for the use of Telecom and Mail.

Support: Radio Shack.

Model 4/4P. 26-1608 199.95

DeskMate

TANDY

Color Computer

Description: With DeskMate there are no complicated commands to memorize—you can put the DeskMate applications to work right from the start. Color Computer DeskMate is an integrated package of seven commonly used personal productivity applications on one disk. Use TEXT as a general purpose text entry and editing program. LEDGER is a simple spreadsheet which includes an easy-to-use menu and automatic column formatter. With PAINT you can easily create lines, shapes, patterns and fill in areas with color. INDEX CARDS is a personal filing system. Use TELECOM to access national information services, plus transmit and receive ASCII files from other computers by phone. CALENDAR is an easy way to organize your day and CALCULATOR is a four-function calculator similar to a printing calculator.

Hardware Requirements: 64K Extended Color BASIC and disk drive.

Support: Radio Shack.

26-3259 99.95

Framework 1200/2000

Description: Framework is the best productivity software available for people who need word processing, spreadsheets, database management, outlining, business graphics, and communications. Framework's outlining function provides powerful and unified management of text, spreadsheets, graphs, data bases, and ideas. Commands are consistent across all applications. Context-sensitive help is available on-line, and a powerful "undo" command allows effective error correction. Easy to learn and use for the first-time user. Integrate text material and graphics. Supports communication with main-frame computer and other data sources. Users can access DOS and run other programs without leaving Framework. Its programming language, FRED, permits the development of integrated, vertical applications. Framework has powerful micro capabilities, with keystroke recording. Framework provides a close coupling with dBase II® and dBase III™, as well as the capability to use files from Lotus 1-2-3™, WordStar®, and other standard formats. Framework also contains a rich procedural language.

Hardware Requirements: 384K and two disk drives.

Support: Radio Shack and Ashton-Tate.

Tandy 1200. 25-3160 695.00

Tandy 2000. 26-5320 695.00

Interactive Solutions

100

Description: The Interactive Solutions ROM module provides the user with three integrated programs; Data Manager, Data Calc, and Word Processor. Information stored in Data Manager can be utilized by the spreadsheet and word processor. Data Manager forms can have up to 20 fields per record. You may perform addition or subtraction on numeric fields and sort information in ascending or descending order. Data Calc, the spreadsheet, offers standard math functions plus averages, square roots, sines, cosines, and the constant Pi. The worksheet can be a maximum of 99 rows long and 99 columns wide. The word processor uses the functions of TEXT and adds more. Printing parameters such as: Page length; Page width; Top, Bottom, Right, Left margins; Justification; Line Spacing; and Headers and Footers can be specified before printing. The date and page number can be automatically printed. Uses optional ROM socket so that it does not occupy RAM.

Hardware Requirements: 16K.

Support: Radio Shack.

26-3844 149.95

Miracle 1000/1200

Description: MIRACLE is a powerful multi-function communications program. The program features automated on-line sessions with script files that can do anything from just "logging you in" to a complete download procedure. Downloaded information can, either be formatted directly into the built-in Lotus 1-2-3 compatible spreadsheet for numerical and graphic analysis, or loaded into a word processor for editing, formatting, and later printing. MIRACLE is the ideal program for both the novice and experienced user alike. Its on-line help function is active at all times. The comprehensive manual includes a practice session.

Hardware Requirements: 384K RAM and a modem.

Support: Provided at no charge by Micro-Systems Software, Inc. for a limited time, after which a nominal fee is charged.
90-0293 295.00

TANDY

Multi-Solutions 200

Description: Multi-Solutions software fits in the optional ROM socket of the Tandy 200 and uses minimal RAM memory. It can be run from any of the 200's banks of memory. The program contains three applications; a word processor which allows formatting of any text file; Time Minder, which is a calendar program that lets you keep track of appointments, things to do, tasks, etc. and even allows tracking of expenses; and Data Manager, which can be used as a database manager, for dates and addresses, inventories, etc. It also contains a mail merge function.

Hardware Requirements: 24K.

Support: Radio Shack.

26-3894 149.95

Offix

1000/1200/2000/3000

Description: Offix is an easy-to-use software package that integrates filing, forms design, word processing, mail merge, and report generation. Offix is designed for the user who wants a basic, multi-function office package. The information necessary to learn Offix is included in a short pamphlet, as well as on-screen help, menus, tutorials, and descriptive information. Offix uses familiar office terminology and procedures rather than computer procedures and computer jargon. Offix even looks like an office with filing cabinets, file drawers and file folders. Offix can handle routine correspondence, memos, form letters, and documents up to 100 pages. Forms can be created for every aspect of an office information system; from sales orders to invoices to inventory records.

Hardware Requirements: 256K and two disk drives.

Support: Radio Shack.

26-5325 99.95

SOFTWARE PRODUCTS INTERNATIONAL

Open Access

1000/1200/2000/3000

Description: Open Access is a useful and fully integrated program that includes five different applications. Information Manager is a fully relational database that offers simultaneous access to five related databases. Spreadsheet offers both Goal Seeking and Channel Linking and operates up to four spreadsheets simultaneously. 3-D Graphics gives you multiple bar graphs on a 3D axis. Word Processor is a complete text editing and text formatting system that also includes mail-merge. Communications lets you communicate with other computers, through a choice of available modems. And Time Manager is a complete

electronic calendar, appointment diary and address book.

Symphony 2000

Description: Symphony integrated software keeps pace with business managers and professionals. This management tool combines five business functions in one package. Easy-to-learn functions that can be used separately or together means you don't have to learn a new software package each time you need new capabilities. Symphony also includes a built-in programming tool, the Symphony Command Language, for users to create custom applications. Key functions include: Spreadsheet for analysis and planning; Word Processing for reports and memos; Database Manager for organizing, sorting and retrieving information; Communications to access other PC's, on-line services and mainframes; Graphics to visually summarize data. Symphony uses simple English commands and can read Lotus 1-2-3 Rel. 1A worksheet files.

Hardware Requirements: 512K and graphics.
Support: Radio Shack.
 26-5304 695.00

T/Maker

T/Maker Integrated 4/1000/1200/2000/3000

Description: T/Maker Integrated lets you combine word processing, database management, spreadsheet analysis, spell checking, and bar chart graphing—without ever having to leave your document. It's easy to learn, easy to use and powerful. Each piece of T/Maker is comparable to dedicated programs costing hundreds more. It's ideal for common business applications because T/Maker contains common business templates that make your job easier. Templates include property management, form letter and mailing label generation, customer lists, student and employee record keeping, invoicing and P. O. forms, inventory management, check registry, stock portfolio management, and more.

Hardware Requirements: Model 4: 64K. Tandy 1000/1200/2000/3000: 128K.
Support: T/Maker.
 Model 4. 90-0272 299.00
 Tandy 1000/1200/2000/3000. 90-0127 450.00

Computer Creations

The Ultimate 7 in 1 1000/1200/2000/3000

Description: The seven specific subprograms contained in the system include: Word Processing, Spelling Checker, Data Base Manager, Sorting, Mail Merger, Electronic Mail and Zelink (a connection to Western Union's EasyLink). Each of the programs in the series uses the same commands and command structures thus giving the user the ability of learning each program without a lot of "homework."

Hardware Requirements: 256K and two disk drives.
Support: Computer Creations, Inc.
 90-0241 149.95

The Ultimate ROM II 100/200

Description: The "ultimate" in software on a single plug-in ROM chip. Reviewers have stated, "don't think twice about purchasing this product." It includes the number one rated relational data base called T-base, the best selling outline processor named "IDEAL", and a complete word processing system named "TWord." It also includes ROM-VIEW 80 which allows for TEXT, TELCOM, and BASIC to operate in a full 80 column display mode. Full TEXT editing capabilities are available while using ROM-VIEW 80. TWORD includes text editing enhancements such as the search, replace and typeover mode as well as a page format display graphing function. It even supports the Tandy Portable Disk Drive.

Hardware Requirements: 8K.
Support: Traveling Software.
 Model 100. 90-0409 229.95
 Model 200. 90-0410 229.95

VIP Integrated Library Color Computer

Description: VIP Integrated Library is an integrated program for the Color Computer. It includes VIP Writer (90-0141), VIP Speller (90-0142), VIP Calc (90-0143), VIP Database (90-0140), VIP Terminal (90-0139) and VIP Disk-Zap (90-0144), plus VIP Desktop and integrator program. This gives the user every application for serious use of the Color Computer, at a savings of \$150. These programs have high resolution displays that support up to 85 characters per line.

Hardware Requirements: 64K Extended Color Basic and a disk drive.
Support: VIP Technologies.
 90-0213 149.95

AndersonBell

TURNING INFORMATION INTO INSIGHT
SINCE 1980

ABstat

1000/1200/2000/3000

Description: A general statistics package. ABstat is easy-to-use, takes little effort to learn, and is fast. All the most commonly used statistics are included. Several non-parametric tests make it especially attractive to medical researchers. Users in all fields find ABstat the fastest and easiest way to get the statistical results they need from the data they have. Features include online help and ability to use ASCII and dBase files.

Hardware Requirements: 256K.

Support: Anderson Bell Company.

90-0305 395.00

AndersonBell

TURNING INFORMATION INTO INSIGHT
SINCE 1980

ABtab

1000/1200/2000/3000

Description: A cross tabulation and survey analysis package used by marketing and public opinion researchers, as well as by human resource and quality of service managers. With ABtab, you can easily do survey research in house quickly and inexpensively or use survey data files for new or more detailed analysis; compare progress and performance on one project with another, against plan, or both; and compare product by product or salesman by salesman performances. ABtab allows you to use dBASE II or III data, read an ASCII file or enter your data right into ABtab with its powerful editor.

Hardware Requirements: 256K.

Support: Anderson Bell Company.

90-0368 895.00

Advanced

RadioShack

Statistical Analysis

I/III

Description: Analyze data and forecast trends. Consists of 13 computer programs stored on cassette tapes. Includes random sample, descriptive statistics, histogram, frequency distribution, analysis of variance, T-test for matched pairs, correlation and linear regression, multiple linear regression, time series analysis and chi square analysis.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-1705 39.95

Business Statistics

RadioShack

PC-1/PC-3

Description: Ideal for marketing and sales decisions, forecasting and more. Computes loans, annuities, bond price, yield, compound interest and depreciation.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3516 19.95

Calculator

RadioShack

100

Description: Powerful math "scratchpad" for finance and regular math functions.

Hardware Requirements: 16K and cassette recorder.

Support: Radio Shack.

26-3827 19.95

Color Stat

RadioShack

Color Computer

Description: A general-purpose data analysis program that can maintain your data files, calculate a wide variety of statistics on your data, display the results on your screen and list the results on your printer. Color Stat can perform these data analysis

procedures: descriptive statistics, frequency distribution, graphic histogram, correlation statistics, linear regression equation, least squares prediction, matched-pairs T-test, scattergram with regression line, multiple regression with two predictors and analysis of variance for up to five groups. Includes instruction manual.

Hardware Requirements: 16K and cassette recorder.

Support: Radio Shack.

26-3107 24.95

RadioShack Electrical Engineering I

PC-1/PC-3

Description: Low and high-pass, active and passive filter design, complex impedance calculator for passive circuit analysis, low-frequency transistor amplifier design, RF coil design, current or resistance to wire size, and more.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3520 24.95

RadioShack Engineering Math I

PC-1/PC-3

Description: Performs Gaussian matrix reduction, matrix multiplication and matrix inversion.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3525 7.49

RadioShack Engineering Math II

PC-1/PC-3

Description: Performs common vector analysis in three dimensions, complex number arithmetic trigonometry and exponential functions.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3526 7.49

RadioShack Engineering Math III

PC-1/PC-3

Description: Solves linear simultaneous equations, polynomials and simple calculus.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3527 5.49

RadioShack Engineering Math IV

PC-1/PC-3

Description: Solves a variety of triangle problems.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3528 3.95

RadioShack Function Plotter

100

Description: Graph almost any algebraic function of one or two variables, including planar cartesian, planar polar, three-dimensional cartesian and cylindrical polar.

Hardware Requirements: 8K RAM; cassette recorder; CGP 215, CGP 115, FP-215 or Multi-Pen Plotter.

Support: Radio Shack.

26-3834 19.95

Lotus Development Corporation

Introductory Science Solverpack

4

Description: For use with TK!Solver. Covers a wide range of topics in introductory science at a level comparable to American secondary schools. Topics in chemistry, biology, physics, thermodynamics and population studies are included. The models are presented as examples of how the TK!Solver program might be used with textbooks or other teaching tools. The material is intended to serve as a guide and resource in the creation of new models for the sciences demonstrated. The documentation consists of a brief description of the topic covered by the models, the information needed to use the model, sample problems and listings of the contents of the model.

Hardware Requirements: 128K and one disk drive.

Support: Radio Shack.

26-1632 99.95

RadioShack

Math Pak I

PC-2

Description: Solves advanced math functions, polynomial math, calculus, 3-D vectors, complex numbers and triangles.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3709 14.95

RadioShack

Math Pak II

PC-2

Description: Gaussian reductions, matrix inversion and multiplication, simultaneous linear equations.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3710 14.95

Lotus Development Corporation

Mechanical Engineering Solverpack

4

Description: For use with TK!Solver for analysis of elastic beam bending, springs, area moment of inertia, Mohr's circle, rotational systems, heat transfer, fluid flow and hydraulics. Thirteen templates are included, along with units conversion in the U.S. Customary System and System International (SI) for the appropriate units. The manual contains information needed to use each model, sample problems and lists of the contents of each model.

Hardware Requirements: 128K.

Support: Radio Shack.

26-1633 99.95

RadioShack

Statistical Analysis

PC-1/PC-3

Description: Includes descriptive statistics, correlation and regression, ANOVA, Chi-square, distributions (normal, t, F, X²) and multiple linear regression.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3522 24.95

RadioShack

Statistical Analysis

PC-2

Description: Fifteen statistical modules, including descriptive statistics, histogram, frequency distribution, correlation and regression, matched pairs T-Test, time series, analysis of variance, multiple regression, chi square analysis, random sample and direct probability estimates.

Hardware Requirements: 4K RAM Module, cassette interface and cassette recorder.

Support: Radio Shack.

26-3704 29.95

RadioShack

Statistical Analysis

12

Description: A menu-oriented data analysis program. Ideally suited for applications in business, education, medicine and other fields. Programs can be run with little formal knowledge of data analysis techniques and no knowledge of computer programming. Includes descriptive statistics, histogram, frequency distribution, analysis of variance, analysis of covariance, correlation matrix, multiple regression, time series analysis, chi square analysis, test scoring and item analysis and random sampling.

Support: Radio Shack.

26-4540 99.00

RadioShack

Statistics

100

Description: A powerful set of statistical procedures. Generate reports for descriptive statistics, frequency distribution, histogram, correlation, regression, time series analysis, matched pairs t test, multiple regression and analysis of variance.

Hardware Requirements: 32K and cassette recorder.

Support: Radio Shack.

26-3825 29.95

Lotus Development Corporation

TK!Solver

4

Description: A powerful productivity tool for professionals and students who work with equations. TK!Solver lets you work easily with equations—obtain solutions without programming—from a simple formula to a complex mathematical model. Once you enter the equations and the known values, click the action key—!—and TK!Solver will give you the answer. TK!Solver can solve for any variable in a series of equations—just enter the new known values and it solves again. Key features include backsolving for different unknowns; automatic iterative solving when needed; conversion of units of measurement (for example meters to feet); 34 built-in functions, such as sine, cosine, log, modulus and square root; user-defined functions; and display plots of the results.

Hardware Requirements: 128K.

Support: Radio Shack.

26-1630 299.95

Trajectories

1000/1200/2000/3000

Description: A comprehensive statistical analysis package designed for professional and research use. It performs sophisticated statistical analysis, correlations, variances and plots with output to screen or printer.

Hardware Requirements: Two disk drives.

Support: DBI.

90-0126 395.00

Digital Research

CP/M Plus

4/12

Description: Designed for the business user, CP/M Plus allows you to choose from a wide variety of programs, including popular word processing, spreadsheet, and database programs. CP/M Plus is easy to learn and includes a handy HELP utility. Includes a high-performance file system. CP/M Plus automatically logs in a disk when it detects a media change. For easy file selection, CP/M Plus allows the user to record two entries for time and date for each file.

Hardware Requirements: Model 4: Two disk drives.

Support: Radio Shack.

Model 4. 26-2216 149.95

Model 12. 26-4740 249.00

Digital Research

GEM Desktop 1.2

1000/1200/2000/3000

Description: This program is an operating system interface. It changes the computer screen into a graphic representation of a desk's surface. No longer do you need to memorize the cryptic DOS commands. Just "point and click" your mouse and the Desktop does the rest. Familiar icons of disks and a wastebasket appear on the screen, while file folders and documents appear in user-controlled windows. By using drop-menus, you can open or delete a file, run a program or perform other basic operating system functions.

Hardware Requirements: 384K. Color monitor recommended.

Support: Digital Research, Inc.

90-0342 49.95

Logical Systems, Inc.

LDOS

I/III/4

Description: An advanced operating system. LDOS lets you read diskettes on Models I, III or 4. Also includes Job Control Language to control an unattended computer, a terminal utility, printer spooling and more. Most Radio Shack software is supported under LDOS (documented with purchase).

Hardware Requirements: 48K and two disk drives.

Support: Radio Shack.

Model III/4. 26-2214 129.95

Model I. 26-2213 129.95

MICROSOFT®

MS-DOS/BASIC

1200

Description: MS-DOS allows you to create and organize files, run and link programs, and access peripheral devices (such as disk drives and printers) that are attached to your computer. Microsoft BASIC is a full-featured BASIC that has become the standard to which other BASIC implementations are compared. Tandy 1200 MS-DOS is version 2.11.

Support: Radio Shack.

25-3130 89.95

MS-DOS/BASIC/DeskMate

MICROSOFT®/TANDY 3000

Description: Tandy 3000 MS-DOS is version 3.10, containing record-locking support for multi-user networking environments. Tandy 3000 GW-BASIC is Microsoft version 3.11 BASIC which provides record locking support and is upward-compatible with Tandy 1000/1200 GW-BASIC. DeskMate is a Radio Shack integrated software package that allows you to perform many functions of computing, including word processing, spreadsheet, data base, communications, calendar and mail.

Support: Radio Shack.

25-4101 99.95

OS-9

Color Computer

Description: A real-time operating system that accesses the entire memory of the 64K Extended BASIC color computer.

OS-9 includes a powerful editor/assembler, plus functions for disk and terminal I/O, software memory management and multitasking. Includes complete documentation, reference manuals and diskette.

Hardware Requirements: 64K RAM and disk drive.

Support: Radio Shack.

26-3030 69.95

RYAN-McFARLAND

RM/COS

16/6000

Description: A business-oriented multiuser operating system for the Tandy 6000. The operating system is specifically designed for fast response with RM/COBOL programs driving multiple terminals. In environments where execution speed of business applications is important, RM/COS is the system of choice. Included with the operating system is a printer spooler, a 2780/3780 mainframe communications package, and the RM/COBOL compiler with the COBOL SORT/MERGE verb. File and record locking are an integral part of RM/COS.

Hardware Requirements: 512K RAM and hard disk.

Support: Cybernetics.

900-0246 995.00

RadioShack

TRSDOS

I/III

Description: An operating system developed by Radio Shack with all the functions necessary to operate the TRS-80 disk system. Features include on-line help supporting a full set of commands, utility programs and many useful subroutines that can be called directly from user programs.

Hardware Requirements: Model I/III: 32K and one disk drive.

Support: Radio Shack.

Model I. Version 2.3b. 26-0310 14.95

Model III. Version 1.3. 26-0312 14.95

RadioShack

TRSDOS II

II/12

Description: This is an enhanced version of the TRSDOS operating system that allows a Model II/12 to operate with a hard disk.

Support: Radio Shack.

26-4912 24.95

TANDY

TRSDOS 6

4

Description: An enhanced version of the TRSDOS operating system, TRSDOS 6 includes a MemDisk feature that turns your Model 4's extra memory into a super-fast disk drive, Job Control Language, host/terminal package for easy communication and utilities for routing, linking and filtering.

Hardware Requirements: One disk drive.

Support: Radio Shack.

26-0316 39.95

VenturCom

VENIX 86 System 5

1200/2000

Description: The VENIX Operating System is derived from UNIX System 5, Release 2, and includes utilities from the Berkley 4.2 UNIX System. Venturcom has developed extensions for real-time data acquisition and communication environments. Features interrupt-driven response, asynchronous I/O, inter-process communication and shared data segments, process timing and pre-emptive priority and code mapping. Programming language support includes C, FORTRAN 77, BASIC and assembler.

Hardware Requirements: Hard disk.

Support: VenturCom.

Tandy 1200. 900-0306 1195.00

Tandy 2000. 900-0307 1195.00

Radio Shack Budget Management*I/III*

Description: Four programs in one to help you set up and monitor your own personal budget. Records up to 60 budgeted accounts with 25 cash expenses, 20 savings transactions and 50 checks per month. Produce reports with optional printer.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-1603 19.95

Radio Shack**Calendars***PC-1/PC-3*

Description: Solves date-related problems.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3529 19.95

TANDY**Cash Budget Management***Color Computer*

Description: Turns your Color Computer into a sophisticated personal bookkeeping and budgeting system. By entering your income and expense amounts regularly into the built-in petty cash, checking and savings accounts, you can keep track of exactly where you spend your money for up to 12 months. You may choose up to 10 income, 86 expense and 3 cash accounts provided by the program, or you may define your own budget categories.

Hardware Requirements: 16K Extended Color BASIC and one disk drive.

Support: Radio Shack.

26-3261 49.95

Radio Shack**Cassette Portfolio System***I/III*

Description: Maintains a current record and analysis of your investments in stocks, bonds, funds and options. The system will handle 20 current stocks, 10 current bonds, 5 current funds and 10 current options.

Hardware Requirements: 16K Level II and cassette recorder.

Support: Radio Shack.

26-1506 14.95

TANDY**Cookbook***Color Computer*

Description: Two programs in one! An all-purpose menu planner suggests complete meal menus which are tasty, culinarily correct and dietarily balanced. A recipe index file allows you to enter and store your own favorite recipes.

Hardware Requirements: 64K Extended Color BASIC and one disk drive.

Support: Radio Shack.

26-3257 39.95

**Expense/Graph***100*

Description: Two programs that work together to create financial reports and graphs. You enter expenses into any of up to 18 categories and up to 18 days. You can even define your own row and column labels. Expense has replicating, cumulative totals and automatic growth or decline rate projections. All math calculations are done automatically, you simply enter your figures. You can graph any set of data that you enter with Expense. Graph lets you print pie, bar or line graphs. It also shows percents on pie graphs, values on bar or line graphs.

Support: Radio Shack.

26-3837 49.95

InterActive

S O F T W A R E

Finance Manager*1000/1200/3000*

Description: Helps you gain a better understanding and control over your personal and business financial needs. Create net worth statements and budgets, determine net profit, print checks, account for taxes, monitor your income and expenses and analyze investment opportunities. The power of Finance Manager is in its practical straight-forward approach that is easy to understand and use. Automatic check printing and check-book reconciliation are both included. A search capability can be used to recall any recorded transaction. All income and expense activities can be entered into a budget that is automatically updated and represented graphically. All taxable transactions can be recorded and retrieved later for tax preparation. In addition, Finance Manager will track the totals for each type of taxable income and expense category. Finance Manager includes a program that will turn your personal computer into a sophisticated financial calculator. Decisions involving loans, leases or investment opportunities can be examined with Finance Manager. Net present value and future value calculations are available. A loan amortization schedule can be used to determine the principal and interest split for any loan payment.

Support: Radio Shack.

25-1148 99.95

TANDY**Handyman***Color Computer*

Description: For do-it-yourselfers! Just enter the measurements and Handyman will tell you how much lumber, paint, insulation, fertilizer, etc. you'll need.

Hardware Requirements: 16K.

Support: Radio Shack.

26-3154 29.95

Continental Software**The Home Accountant and Home Accountant Plus***III/2000*

Description: The Home Accountant's extraordinary flexibility and power will help you organize and maintain financial records ranging from the amount of cash in your pocket to the value of a sophisticated investment portfolio. You can define up to 200 budget categories, monitor transactions for up to five cash checkbooks, credit cards, income, expenses, other assets and liabilities, flag transactions to be recalled for tax purposes, handle automatic monthly transactions (up to five per check-book), reconcile bank statements and print checks. You can print a Balance Sheet, Net Worth Statement and Income and Expense Summary. The Home Accountant Plus includes a forecasting module which produces financial projections, such as future value of investments and the monthly amount you'll need to save to reach future goals.

Hardware Requirements: Model III: Two disk drives.

Support: Radio Shack.

Model III. 26-1511 99.95

Tandy 2000. 26-5340 124.95

Radio Shack**Investment Analysis***100*

Description: Helps optimize investment decisions. Includes bond analysis, options trading and commissioning programs.

Hardware Requirements: 16K and cassette recorder.

Support: Radio Shack.

26-3824 69.95

Radio Shack**Investment Analysis***PC-2*

Description: Calculates prices, yields and interest rates of various interest bearing securities, including municipal and corporate bonds and notes and discount securities, such as Treasury Bills.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3712 49.95

Investment Manager

1000/1200/2000/3000

Description: A portfolio management package that measures and reports investment performance for individual securities and portfolios as a whole. Beta and beta-adjusted returns are used to quantify risk and further measure the relative effect of one security on the portfolio as a whole, plus essentially all the data your broker would provide. A comprehensive tax report is included. Further analysis can be custom-designed by downloading your portfolio data to a DIF spreadsheet or to BASIC. Investment Manager can automatically access Dow Jones News/Retrieval, Warner Financial Database and Interactive Data Corporation.

Hardware Requirements: 384K and modem.

Support: International Microcomputer Software.

90-0355 195.00

TANDY

Investograph

Color Computer

Description: Charts stocks and trends. Features high-resolution graphics.

Hardware Requirements: 16K Extended Color BASIC and one disk drive.

Support: Radio Shack.

26-3258 49.95

Managing Your Money

1000/1200/3000

Description: Andrew Tobias' Managing Your Money is seven programs in one integrated, personal financial management package. Managing your Money serves as a reminder pad and a complete budget and checkbook program. It helps with tax estimation and can even print out your Schedule D. The program evaluates your family's present life insurance needs and suggests how you can improve your coverage. It is a financial calculator which can perform rental property analysis, loan analysis, investment analysis and financial planning. The sophisticated portfolio manager handles as many real or hypothetical stocks, bonds and options as you like, and can also manage collections such as wines, coins or paintings. And it's easy to use. Wherever you are in the program, just press the ESCape key and you get a HELP message from best-selling financial author, Andrew Tobias. The HELP messages tell you how to work with the program and where appropriate, also provides financial guidance. The different chapters of the program work together, so you don't have to buy or learn 7 separate programs or re-enter the same information several times.

Hardware Requirements: 256K.

Support: Provided by Meca for a nominal charge.

25-1159 199.95

Dow Jones™

Dow Jones Market Analyzer

III

Description: Collect historical market quotes and at a touch of a key perform standard technical analysis charts. Charting capabilities include: relative strength and comparison charts; individual price and volume charts; moving averages (simple, weighted, exponential, for time periods of your selection, with trading bands); straight line constructions; volume indicators; and oscillator charts. The Market Analyzer features automatic updating of daily data on stocks, bonds, mutual funds and options. With a modem, you have easy access to all Dow Jones News Retrieval databases.

Hardware Requirements: One disk drive, graphics board and modem.

Support: Radio Shack.

26-1606 249.95

Radio Shack

Personal Finance

PC-1/PC-3

Description: Five programs for maintaining a budget; recording checks and deposits and balancing your checkbook; making compound interest/annuities calculations; tracking the value of your portfolio; and performing Metric to English or English to Metric conversions.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3518 19.95

Radio Shack

Personal Finance

PC-2

Description: A group of five programs designed to help you manage your money more efficiently. You can use Personal Finance to set up and maintain a budget, keep a checkbook, figure stock portfolio values, or find interest and annuity yields on your investments.

Hardware Requirements: Cassette interface and cassette recorder.

Support: Radio Shack.

26-3700 19.95

Radio Shack

Personal Finance

100

Description: Helps you keep track of your financial activity. By entering your checking and savings account transactions, you can obtain an up-to-date account balance whenever you wish or you can print a report of all transactions entered. You may enter up to 150 transactions depending upon available memory space. The program maintains up to 50 expense accounts (depending upon available memory) with budgeted values.

Hardware Requirement: 16K and cassette recorder.

Support: Radio Shack.

26-3822 19.95

TANDY

Personal Finance II

Color Computer

Description: Set up a personal or household budget to see where all your money is going! Personal Finance can help you see where to correct bad financial habits. This easy-to-use program features 26 major expense categories: auto, gas, clothing, food, retirement and others. You can review your expenditures on a year-to-date or category basis.

Hardware Requirements: Cassette recorder to save data.

Support: Radio Shack.

26-3106 29.95

Radio Shack

Pocket Organizer

PC-2

Description: Plan your busy daily schedule with this handy organizer. List events and the times they will occur. Store names and telephone numbers. Calculate days between dates.

Hardware Requirements: 4K RAM Module, PC-2 Cassette Interface and cassette recorder.

Support: Radio Shack.

26-3706 19.95

Radio Shack

Trendex Stock

Market Analysis

I/III

Description: Provides stock market trend indications for short, intermediate and long-term periods. Maintains intermediate trends for portfolio of your choice. Not for counsel to buy or sell securities.

Hardware Requirements: 32K and one disk drive.

Support: Radio Shack.

26-1510 59.95

Alcor Systems

Alcor Pascal

I/III/4

Description: Alcor Pascal is a full Pascal implementation. For speed and efficiency, the compiler generates a p-code that can be interpreted, or further translated into machine code. An optional p-code optimizer reduces a program by 10-30%. The object code is portable so you can compile on one system while you execute on another. It includes compiler, interpreter, and linking loader for building libraries of commonly used routines, a full screen text editor, large library of routines, and documentation with 500-database program.

Hardware Requirements: Model I: 48K and two disk drives. Model III: 48K and one disk drive.

Support: Radio Shack.

Model I/III. 26-2211 249.95

Model 4. 26-2212 249.95

Assembler/Debugger

MICROSOFT®

100

Description: Now you can debug, write, and assemble machine language code easily with your Model 100.

Hardware Requirements: 32K.

Support: Radio Shack.

26-3823 49.95

Assembly

Radio Shack

Language Dev. Sys.

III/II/12

Description: A powerful package for the assembly language programmer. It includes a full screen Editor, an Assembler with sorted cross-reference listing, a Linker for creating an absolute file, automatic File Transfer, and Debug modules. This program offers important and helpful features and includes TRSDOS 6 and Model III TRSDOS 1.3 support.

Hardware Requirements: Model III: 48K and two disk drives.

Support: Radio Shack.

Model III. 26-2012 149.00

Model II/12. 26-4712 249.00

BASCOM

MICROSOFT®

III/4/II/12

Description: Designed to complement Microsoft's BASIC interpreter. MS-BASIC Compiler can support programs written for a wide variety of micro-computers with little or no modification. It allows you to create programs that execute faster and require less memory than the same interpreted programs, in addition to providing source code security. Features BASRUN runtime module. BASRUN also allows you to develop a system of related programs that use the same runtime environment.

Hardware Requirements: Model III: 48K and two disk drives. Model 4: 64K and two disk drives.

Support: Radio Shack.

Model III. 26-2210 195.00

Model 4. 26-2218 195.00

Model II/12. 26-4725 199.00

BASIC Compiler

MICROSOFT®

2000

Description: This program translates the statements in your BASIC programs into assembly language for faster run times. You can distribute programs without a source code to safeguard the design of programs. Supports Tandy 2000 GW-BASIC.

Support: Radio Shack.

26-5251 299.95

MICROSOFT® BASIC Language Lab

100

Description: A complete and easy-to-understand tutorial on

Model 100 BASIC. It covers redefining function keys, automatic program execution and much more. The program is easy to use because it includes a variety of examples.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-3821 29.95

TANDY

BASIC-09

Color Computer

Description: BASIC-09 is an enhanced version of standard BASIC written for the 6809 microprocessor. This program includes advanced features derived from PASCAL and with the interactive compiler it produces compact object programs for high-speed execution.

Hardware Requirements: 64K, disk drive and OS-9 operating system.

Support: Radio Shack.

26-3036 99.95

Summit Software Technology

BetterBASIC

1000/1200/2000/3000

Description: BetterBASIC is a structured programming language which allows the user access to the full memory of the computer. BetterBASIC combines the best features of Pascal and C while retaining familiar BASIC syntax. BetterBASIC is interactive and compiled. It is modular and supports true procedures and functions. Optional support for the 8087/80287 math co-processor chip and an optional interface to the Btrieve file management system. BetterBASIC is a significant improvement over traditional BASIC's. It's about six times faster and it's easy to learn. BetterBASIC also uses a unique incremental compiler which allows lines of code to be both interpreted and compiled on line entry. Allows access to the full memory of the computer.

Hardware Requirements: 256K.

Support: Summit Software Technology.

90-0225 199.00

Summit Software Technology

BetterBASIC Runtime

1000/1200/2000/3000

Description: The BetterBASIC Runtime System is an optional add-on module which works in conjunction with BetterBASIC (90-0225). The Runtime System creates stand-alone ".EXE" files from code written in the BetterBASIC programming language. The Runtime System is used by program developers so they can pass programs they write in BetterBASIC along to end-users. The manufacturers of BetterBASIC do not charge a royalty on the sale of programs written in the language.

Hardware Requirements: 256K.

Support: Summit Software Technology Inc.

90-0304 250.00

TANDY

C Compiler

Color Computer

Description: A high-level language that produces assembly language source code for the 6809 microprocessor. Almost any application written in C can be transported from a UNIX system to an OS-9 system, recompiled and correctly executed.

Hardware Requirements: 64K, disk drive and OS-9 operating system.

Support: Radio Shack.

26-3038 99.95

Lattice

Lattice C Compiler

1000/1200/2000/3000

Description: The choice of over 30,000 C programmers. The compiler accepts source code written in the C language and produces relocatable machine code. The object modules can be combined into larger programs by linkers. The Lattice C library contains many useful subroutines. Lattice C is a full implementation of the C language. The C-Food Smorgasbord, included with Lattice C, is a selection of utility functions. C-Food con-

tains: a BCD math package, I/O functions, a PC BIOS interface, a terminal independence package, plus directory, clock, and string functions.

Support: Radio Shack.

26-5254 499.00

Alcor Systems

C Programming System

4

Description: A complete implementation of the C language for program development. It includes a powerful, programmable full-screen editor. You can map editor commands to the keyboard and create your own commands. The compiler generates compact and very efficient object code-programs that execute 10 to 50 times faster than BASIC programs. Compatible with Alcor Pascal (26-2212).

Support: Radio Shack.

26-2230 249.95

Mark
Williams
Company

C Programming System

1000/1200/2000/3000

Description: A complete C development environment for the professional programmer. Compiler features are: MS-DOS format compatibility, 8087 support, full Kernighan & Ritchie C with extensions, register variables, ROMable code, full UNIX compatibility and complete libraries, large and small memory models, one step compiling, English error messages, Make, diff, ed, m4, and egrep, and microEmacs full screen editor with source. The csd C Source Debugger features debugs at C source level, set trace points, and has the capabilities of a C interpreter, but runs in real time. Separate evaluation, source, program, and history windows.

Hardware Requirements: 256K.

Support: Mark Williams Company.

90-0418 495.00

Digital Research

CBASIC

4/12

Description: A commercial dialect of the BASIC language implemented as a compiler/interpreter. It requires CP/M Plus, and is designed specifically to develop business applications. It compiles source code files into pseudo-code instructions so application programs use RAM more efficiently. CBASIC also maintains real numbers in BCD format to assure fractional parts of dollar amounts will be exact and ledgers will balance, and supports integer arithmetic to increase execution speed.

Support: Radio Shack.

Model 4. 26-2217 99.95

Model 12. 26-4742 99.00

COBOL

I/III/4/12/1000/1200/2000/3000

Description: The RM/COBOL compiler is ideal for developing business applications. RM/COBOL is a GSA certified error free implementation of the ANSI X3/23 74 COBOL standard. Since its introduction in 1976, RM/COBOL has been a product professionals depend on. The power and reliability of RM/COBOL applications is enhanced by more than 1500 third party applications. RM/COBOL features include: full level 2 sequential, relative, and index file access methods, interactive screen handling capabilities, and interactive debugging.

Hardware Requirements: Two disk drives.

Support: Radio Shack.

Model I/III. 26-2203 199.00

Model 4. 26-2190 199.00

Model 12. 26-4703 299.00

Tandy 1000/1200/2000. 26-5257 595.00

Tandy 3000 Development System. 90-0470 1250.00

Runtime Disk: Allows you to execute programs developed with RM/COBOL compiler.

Model I. 26-2206 30.00

Model III. 26-2207 30.00

Model 4. 26-2191 30.00

Model 12. 26-4704 40.00

Tandy 1000/1200/2000/3000. 90-0436 250.00

Phoenix Systems

COBOL Generator

12

Description: You can define a complete software package and generate a COBOL source program automatically. Requires RM/COBOL (26-4703).

Hardware Requirements: Two disk drives.

Support: Radio Shack.

26-4707 995.00

Compiler BASIC

I/III/12

Description: Includes compiler and runtime modules for program development and execution. Features single key ISAM files, cross reference, interactive DEBUG, easy calls to assembly, language, 14-digit floating decimal format, full error control, complete CRT control, and single-pass compiler. (Note: for program development, not for conversion of existing programs).

Hardware Requirements: Model I/III: 48K and one disk drive.

Support: Radio Shack.

Model 12. 26-4705 199.00

Model 12 Runtime Only. 26-4706 30.00

Model I Runtime Only. 26-2208 20.00

Model III Runtime Only. 26-2209 20.00

Mark
Williams
Company

CSD C Source Debugger

1000/1200/2000/3000

Description: Debug in C, not assembler, looking right at your source code through the CSD window. It's so simple it makes an ideal learning tool for new C programmers. Other features include use with Let's C compiler (90-0419); debugs in C, not assembler; provides separate source, evaluation, program and history windows; evaluates any C expression; online help screens; displays source code on the screen while you debug and it can execute any C function in your program.

Hardware Requirements: 256K.

Support: Mark Williams Company.

90-0420 75.00

TANDY

D. L. LOGO

Color Computer

Description: A programming language designed to run under OS-9. Based on LOGO developed by M.I.T. Special features include "MUSIC" to play songs with up to 4 voices, "SAY" for support of Speech/Sound cartridge, and joystick support for programs your children can create and enjoy.

Hardware Requirements: 64K, disk drive and OS-9 operating system.

Support: Radio Shack.

26-3033 99.95

Radio Shack

Debug

I/III

Description: Display memory in 128 or 256-byte full-screen mode. It displays Z-80 registers and also allows modifications to RAM and registers. Includes single-step execution of programs and breakpoint interruption of execution.

Hardware Requirements: 16K Level II or Model III BASIC and cassette recorder.

Support: Radio Shack.

26-2000 19.95

TANDY

Diagnostic ROM

Color Computer

Description: Performs eleven separate test routines of your Color Computer and peripherals. Graphics and interactive routines make it fun, too.

Support: Radio Shack.

26-3019 19.95

MICROSOFT®

Editor Assembler

12

Description: Quickly write, edit, test, assemble, and execute programs in assembly language. Use with Z-80 or 8080 mnemonics. Constants can even be specified in octal, hexadecimal, or binary. Line and character-oriented text editor.

Support: Radio Shack.

26-4702 199.00

TANDY

Color Disk Editor/Assembler

Color Computer

Description: You can develop your own 6809 programs and subroutines with this program.

Hardware Requirements: 16K Extended Color BASIC and a disk drive.

Support: Radio Shack.

26-3254 59.95

TANDY

Editor Assembler

Color Computer

Description: If you want to bypass BASIC and move directly to the speed and efficiency of machine language programming, then this program is for you. With it, you can develop your own 6809 software programs or subroutines for storing on audio cassettes. The manual discusses 6809E operational mnemonics, including Assembler Psuedo Operations, 6809 Instruction Set, and more:

Hardware Requirements: 16K.

Support: Radio Shack.

26-3250 39.95

Fast COBOL

6000

Description: PHILON Fast/COBOL is a fully optimized true compiler. Its syntax is compatible with RM/COBOL™ and ANSI '74. Designed for 32-bit configurations, Fast COBOL provides fast execution of program code. In addition, Fast/COBOL provides programmers with the ability to link modules written in other Philon languages, such as Philon Fast/C. It contains a powerful set of runtime libraries and file handling routines, as well as supporting ISAM, sequential and random access search techniques. It also supports COMPUTATIONAL-3 and record locking.

Support: Provided by Philon, Inc. for a nominal charge.

90-0381 2200.00

MICROSOFT®

FORTRAN

I/III/4/12

Description: Includes editor, compiler, linking loader, subroutine library functions, and a listing utility. Based on ANSI 66. You can translate the FORTRAN source into a relocatable object code. Linker lets you load a relocatable object file, combine it with others and save output in TRSDOS command format.

Hardware Requirements: Model I/III: 48K and two disk drives.

Support: Radio Shack.

Model I. 26-2201 99.95

Model III. 26-2200 99.95

Model 4. 26-2219 99.95

Model 12. 26-4701 299.00

RYAN-MCFARLAND

RM/FORTRAN

1000/1200/2000/3000/6000

Description: RM/FORTRAN is a mainframe level compiler for microcomputers. It's GSA certified at the highest possible level and RM/FORTRAN is a full implementation of the FORTRAN-

77 standard that includes popular language extensions from VAX, VS, existing minicomputer and mainframe FORTRAN application. RM/FORTRAN supports programs and arrays larger than 64K and produces highly optimized code for very fast execution.

Hardware Requirements: Hard disk drive.

Support: Ryan-McFarland.

Tandy 1000. 90-0466 595.00

Tandy 1200. 90-0467 595.00

Tandy 2000. 90-0468 595.00

Tandy 3000. 90-0469 750.00

Tandy 6000. 26-6451 699.00

MICROSOFT® FORTRAN Compiler

1000/1200/2000/3000

Description: The Microsoft FORTRAN Compiler combines fast, efficient code compilation with built-in support for the Intel 8087 or 80287 math co-processor. It's based on the ANSI 77 standard with extensions to provide greater programming flexibility. Separate compilation provides support for modular development, and allows you to link subroutines and create programs as large as a megabyte. Support for overlays allows you to run FORTRAN applications on machines with memory limitations. It also includes math library routines.

Hardware Requirements: 256K.

Support: Radio Shack.

26-5255 349.95

Mark Williams Company

Let's C

1000/1200/2000/3000

Description: Now the biggest name in C compilers comes in a size everyone can afford. This is no beginner's model. Let's C is a powerful programming tool, packed with all the essentials of the famous Mark Williams C Programming System (90-0418), it's the one chosen by thousands of professional programmers. Some of the features include, deep compact code plus register variables, full Kernighan & Ritchie C with extensions, full UNIX™ compatibility and complete libraries, many powerful utilities including linker, egrep, assembler, archiver, one-step compiling, tail, MicroEmacs full screen editor with source, supported by dozens of third party libraries.

Hardware Requirements: 256K.

Support: Mark Williams Company.

90-0419 75.00

MICROSOFT®

Macro Assembler 1000/1200/2000/3000

Description: The Microsoft Macro Assembler is the most powerful assembler and program development environment for MS-DOS computers. The package includes the macro assembler, symbolic debug utility, object linker, and cross-reference utility.

Hardware Requirements: 256K.

Support: Radio Shack.

26-5252 99.95

RM/RYAN-McFARLAND

Macro Assembler 6000

Description: An easy to use set of assembly language mnemonics. Macros allow you to control your output and compiler. You can assemble programs which access outside data and subroutines. Requires XENIX Development System (26-6401 or 26-6402).

Support: Radio Shack.

26-6450 399.00

MAI

MAI Business Basic/Micro 1000/1200/2000/3000

Description: MAI Business Basic/Micro (BB/M) is a powerful language product optionally available as a tool to access and modify the source code, provided at no additional charge with each MAI Integrated Accounting module. BB/M also functions as a powerful stand-alone development tool. It provides the familiarity of a BASIC language coupled with extremely powerful enhancements such as database-like file structures, high precision decimal math, error trapping and handling, powerful mnemonics and re-entrant code structures.

Hardware Requirements: Two disk drives.

Support: Provided at no charge by Promark Ltd. for a limited time, after which a nominal fee is charged.

90-0405 395.00

Menu Generator II/12

☎ The Small Computer Company, Inc.

Description: Easily create fast user-menus for all your Model II/12 TRSDOS programs. Run batch files, DOS utilities, Profile, SCRIPSIT, BASIC, COBOL, and other programs with a single keystroke. If the programs you use accept parameters or key input, you can run entire operations from only one key. Any or all prompts normally seen during the operation are answered automatically. Up to 12 functions per menu. Number of menus limited only by disk space.

Support: Radio Shack.

26-4555 39.00

TANDY

PASCAL-09 Color Computer

Description: A complete implementation of this structured programming language with enhancements for expanded, input/output and the OS-9 environment.

Hardware Requirements: 64K, disk drives and OS-9 operating system.

Support: Radio Shack.

26-3034 99.95

MICROSOFT®

PASCAL Compiler 1000/1200/2000/3000

Description: Compatible with the ISO Pascal standard. It generates machine code for faster run times. And the extensions facilitate systems and applications programming.

Support: Radio Shack.

26-5256 299.95

Oregon Software

XENIX PASCAL-2 6000

Description: A transportable multi-pass compiler that adheres to the Pascal ISO standard while performing optimizations to generate compact, fast code. Requires the XENIX Development System (26-6401 or 26-6402).

Support: Radio Shack.

26-6452 699.00

Program Editor 12

Radio Shack

Description: Use with any of our Model 12 TRSDOS languages to modify source code. Easily change, delete, and insert characters or lines. The file record formats are selectable. It also features global search.

Support: Radio Shack.

26-4710 79.00

MICROSOFT®

Series I Editor/Assembler I/III/12

Description: Program in machine language for faster execution and more efficient memory use. Editor features line numbering and renumbering, single letter commands and global search. Source text may be saved in disk files and Source files can be loaded together in memory.

Hardware Requirements: Model I/III Cassette: 16K and cassette recorder. Model I/III Disk: 32K and one disk drive.

Support: Radio Shack.

Model I/III (Cassette), 26-2011 29.95

Model I/III (Disk), 26-2013 34.95

Model 12, 26-4713 49.95

Supersoft

Tiny PASCAL III

Description: This is a great introduction to the structured programming language (fixed-point, non array version). It includes sample programs to help get you started. Model III Pascal is complete with monitor, compiler and editor.

Hardware Requirements: 16K and cassette recorder.

Support: Radio Shack.

26-2020 19.95

TANDY

TRSCOPY Color Computer

Description: Allows transfer of text files between "OS-9" disks and "Color Computer Disk BASIC" disks. The Text files are copied without modification.

Hardware Requirements: 16K Extended Color BASIC and one disk drive.

Support: Radio Shack.

26-3263 24.95

MICROSOFT®

XENIX BASIC INTERPRETER 6000

Description: Popular Microsoft BASIC for the Tandy 6000. It allows you to chain together programs and pass common variables. XENIX BASIC supports 40 significant characters per variable name, with logical record lengths of up to 32K, and record locking for multi-user program support.

Support: Radio Shack.

26-6457 299.00

XENIX BASIC Compiler

6000

Description: Philon Fast/BASIC-M compiler is closely compatible with Microsoft BASIC (26-6457). It features separate compilation facility and extremely fast execution of compiled code.

Support: Radio Shack.

26-6458 349.00

XENIX COBOL Development System

6000

Description: A high level implementation of the ANSI-74 COBOL standard for minicomputers, the RM/COBOL compiler is ideal for developing business applications. Since its introduction in 1976, RM/COBOL has been a product professionals depend on. The power and reliability of RM/COBOL applications is enhanced by more than 1500 third party applications. RM/COBOL features include: full level 2 sequential, relative, and index file access methods, interactive screen handling capabilities, and interactive debugging.

Support: Radio Shack.

26-6455 699.00

XENIX

Development System

6000

MICROSOFT®

Description: This program includes the powerful C language and many standard UNIX utilities for developing multi-user software. Because of C's flexibility, it can be used to develop applications software for business uses, including numerical, text processing, and database programs. With assembler, text editor, spelling dictionary, electronic mail, sort utility, and compiler generators.

Support: Radio Shack.

26-6402 750.00

Radio Shack

XVIEW

6000

Description: A versatile full-screen text editor for creating and editing program source code (operates under XENIX).

Support: Radio Shack.

26-6404 149.00

SPREADSHEETS

Computer Systems Center

Dynacalc

Color Computer

Description: A powerful electronic spreadsheet. Features up to 256 columns or 256 rows of cells. Built-in numeric functions and 16-digit precision (15 for transcendental).

Hardware Requirements: 64K and OS-9 DOS.

Support: Radio Shack.

26-3275 99.95

Elite Software

ELITE*Calc/3.0

Color Computer

Description: A full-featured worksheet calculator. With four screen displays and 255 rows by 255 columns of grid size, this program has all the functions that you need to perform everything from sophisticated "What if . . . ?" business projections to balancing your checkbook. A full range of single-key commands makes ELITE*Calc easy to learn and use. Worksheet information can be transferred between ELITE*Word (90-0183 or 90-0184) and ELITE*File (90-0189).

Hardware Requirements: 32K and one disk drive for #90-0188. 32K and cassette recorder for #90-0187.

Support: Elite Software.

Disk. 90-0188 69.95

Tape. 90-0187 69.95

Lotus Development Corporation

Lotus 1-2-3

1000/2000

Description: An easy way to go from spreadsheet to graphics to information management—instantly! You can change your spreadsheet data directly and then graph it in less than a second. Take data from your spreadsheet and search and sort it. Special "macro" keys let you substitute a single keystroke for a long sequence. If help is needed, just one keystroke brings you on-screen instructions. Lotus provides you with 256 columns and 2048 rows. Set them up just the way you want. Enter formulas in plain English, instead of obscure symbols. Sophisticated graphing commands help you create detailed bar charts, stacked bar charts, line or symbol graphs, XY graphs or pie charts. Your database can store up to 2000 records and sort with primary and secondary keys.

Hardware Requirements: 256K and two floppy disk drives, or one floppy drive and a hard disk. Tandy 2000 requires High-Resolution Monochrome Graphics Board for mono graphics, and a High-Resolution Monochrome Graphics Board with a High-Resolution Color Graphics Chip Kit for color graphics.

Support: Radio Shack.

Tandy 1000. 25-1145 495.00

Tandy 2000. 26-5300 495.00

Lucid

100

Description: A ROM spreadsheet that performs on the Model 100 like Lotus 1-2-3 does on a desktop micro. Lucid has individually variable column widths, cut-and-paste and many other features that make it one of the most powerful spreadsheets on the market today.

Hardware Requirements: 8K.

Support: Portable Computer Support Group.

90-0236 149.95

MICROSOFT®

Multiplan

100

Description: A ROM version of the popular Multiplan spreadsheet analysis program.

Hardware Requirements: 16K.

Support: Radio Shack.

26-3829 149.95

MICROSOFT®

Multiplan

4/1000/2000/16/6000

Description: An incredibly easy-to-use decision-making tool. Ideal for profit and loss projections, budgeting and sales forecasts. This popular "second-generation" spreadsheet lets you consolidate related worksheets so that information is transferred between them automatically. You can assign plain-English names to any column, cell or area, vary individual column widths, center numbers and text within a column or align decimals. Sorting can be performed in alphabetical or numerical order. Cells can be set up individually, by row, column, block—or globally. Displays up to eight windows on the screen. Includes on-line help and a tutorial manual. Multiplan can directly utilize your current VisiCalc files. Multi-user version available for the Tandy 6000.

Support: Radio Shack.

Model 4. 26-1530	199.00
Tandy 1000. 25-1152	195.00
Tandy 2000. 26-5311	195.00
Model 16/Tandy 6000. 26-6480	349.00

pfs:

pfs:plan

1000/1200/3000

Description: An easy-to-use spreadsheet for the manager or professional who wants a fast way to develop budgets, forecasts, balance sheets and other financial planning models. With *pfs:plan*, setting up a worksheet is quick and easy. Popular column headings, such as Jan, Feb, Q1 and Q2, can be entered by a single keystroke. Column widths adjust automatically to fit the amount of information you enter. You create your formulas with English words like "Sales-Expenses," instead of confusing codes like "C6-C7." Plan uses keywords to perform common mathematical and financial calculations, like total, average and cumulative. Plan's unique targeting function is a major step beyond conventional "What if . . . ?" capabilities. You can easily exchange data with other spreadsheet programs, like Lotus 1-2-3, Multiplan and VisiCalc. Also, Plan is integrated with the other programs in the *pfs's* family of software.

Hardware Requirements: 256K.

Support: Radio Shack.

Tandy 1000. 25-1144	140.00
Tandy 1200/3000. 25-3164	140.00

Comshare

Target PlannerCalc

4

Description: Create your own financial models by entering and processing data by column, row or individual location. Features a variety of mathematical operations, including conditional commands. Prompts are in plain English and a handy "Help" screen is available at the touch of a key.

Hardware Requirements: One disk drive.

Support: Radio Shack.

26-1512	99.95
---------------	-------

The Smart Spreadsheet

with Graphics

INNOVATIVE
Software

1000/1200/2000/3000

Description: This spreadsheet outperforms all others in speed or memory management. Powerful mainframe-like "virtual memory" capability and sparse matrix design accommodates nearly a million cells in any one spreadsheet. Complex financial consolidations are made easy with multiple spreadsheets available in memory and on-screen. Includes a graphics package for turning your data into eighteen different options, including 3-D graphs. A "slide show" command displays your graphs.

Hardware Requirements: 256K and two disk drives. Hard disk recommended.

Support: Provided at no charge by Innovative Software for a limited time, after which a nominal fee is charged.

90-0318	495.00
---------------	--------

Radio Shack

Spectaculator

100/I/III/Color Computer

Description: An electronic spreadsheet for forecasting and problem solving. Great for engineering computations, financial projections, even family budgets. Enter labels and numbers in row/column format. Up to 99 rows and columns. Change a value or formula and all affected figures are updated automatically. Run totals of each column and the grand total, then save your worksheets to disk for later revision and use.

Hardware Requirements: 16K and cassette recorder for Model I/III/100/Color Computer. Color Computer disk version requires one disk drive.

Support: Radio Shack.

MICRO PRODUCTS DIVISION

SuperCalc3

2000

Description: An integrated software productivity tool including: Spreadsheet Plus, Data Management, Text Editing, Presentation-Quality Graphics and SuperData Interchange used to import/export data to and from other spreadsheets, word processors and database programs. SuperCalc3 is easy to learn with an extensive on-line help, AnswerCard and 10 Minute Guide. A full 63 columns and 254 rows are available for spreadsheet entries. With the sparse memory manager, no valuable memory is wasted by keeping track of blank cells. The Execute function simplifies repetitive functions. Data Management is a powerful database management module based on the spreadsheet model. SuperCalc3 fully supports calendar/date functions, plus a wide range of statistical and financial modeling functions. Also supported are split-window displays and consolidation of spreadsheets. Create line, bar and stacked bar graphs, pie and exploded pie charts, even X-Y, hi-lo and area graphs using single-keystroke commands.

Support: Radio Shack.

VIP
TECHNOLOGIES

VIP Calc

Color Computer

Description: A spreadsheet program modeled after VisiCalc. You get all of the features of VisiCalc, plus additional features unique to VIP Calc. This means you can exchange information with other computers and use VisiCalc templates created on another computer. VIP Calc uses high resolution to display true lowercase characters with up to 85 characters per line. Includes tape and disk versions.

Hardware Requirements: 32K and cassette recorder or disk drive..

Support: VIP Technologies.

90-0143	69.95
---------------	-------

Radio Shack

VisiCalc Enhanced

4/12

Description: A spreadsheet analysis program ideal for a wide variety of planning and forecasting applications in business and engineering. VisiCalc organizes your video screen into columns and rows. You simply define the formulas, enter the figures and VisiCalc performs all calculations automatically. Change any value or formula and every affected number is updated. View countless "What if . . . ?" situations in seconds. Enhancements include an entry editor for modifying formulas and labels without re-entering them, plus logical and comparison operators to perform testing and branching.

Hardware Requirements: 64K and one disk drive.

Support: Radio Shack.

Model 12. 26-4521	299.00
-------------------------	--------

SPREADSHEETS

BACK/REST with RESTORE

POWERSOFT

I/III/4

Description: This utility provides a fast hard-disk "image" backup and restore system. Individual files may be restored as well as an entire platter. BACK/REST automatically calculates the number of diskettes needed prior to backup to avoid wasted time. Files larger than a floppy are not a problem. BACK/REST makes backups easier and faster (example: 5 megabytes in 10-15 minutes). Only allocated cylinders are backed up for fast, efficient backups.

Hardware Requirements: Hard-disk drive. Model I/III: 48K.

Support: Powersoft.

90-0244 99.95

Bar Code Drivers

100/200

Description: Adds additional capability to the software included with the Bar Code Wand. Allows Bar Code Wand to read Interleaved 2 of 5, Codabar and UPC-E bar codes.

Hardware Requirements: 16K, cassette recorder and Bar Code Wand.

Support: Radio Shack.

Model 100. 26-3846 19.95

Tandy 200. 26-3896 19.95

Bar Code Writer

100/200

Description: With Bar Code Writer, you can easily convert text files into bar code listings in any of the following formats: 3 of 9, Interleaved 2 of 5, Codabar, Long UPC (UPC-A), Short UPC (UPC-E), and Plessy. These bar code listings can then be read with the Bar Code Wand.

Hardware Requirements: 24K, cassette recorder, and selected dot-matrix printers.

Support: Radio Shack.

Model 100. 26-3845 34.95

Tandy 200. 26-3895 34.95

Radio Shack

BFBLIB

BASIC Routines

I/III/4

Description: Supercharge your programs with these 121 sub-routines, functions, and utilities described in BASIC Faster and Better & Other Mysteries (62-1002, not included). Modify routines or use "as is."

Hardware Requirements: 32K and two disk drives.

Support: Radio Shack.

26-2021 19.95

SPECTRUM PROJECTS, INC. CoCo Checker Color Computer

Description: A complete diagnostical program designed to check all the major functions and peripherals of the Color Computer. Checks cassette port, disk controller/drives, joystick ports, keyboard, Multi-Pak Interface (if used), PIA chips, printer port, RAM/ROM chips, timing accuracy and video (VDG chip).

Hardware Requirements: One disk drive and Extended Color BASIC.

Support: Spectrum Projects, Inc.

90-0289 19.95

TANDY Color Screen Print Utility Color Computer

Description: Provides multi-color printouts of color graphic screens produced from any graphics program. For use with color Ink-Jet Printer (26-1268) or any dot-matrix printer with bit-image capabilities for black and white printouts.

Hardware Requirements: Extended Color BASIC and cassette recorder.

Support: Radio Shack

26-3121 9.95

Educational Micro Systems CONV3TOPC I/III/1000/1200/2000/3000

Description: This program makes it feasible for Model I/III owners to move programs up to a Tandy 1000/1200/2000/3000. The package contains HYPERCROSS to transfer all your Model I/III files to Tandy 1000/1200/2000/3000 diskettes and CNV3TOPC to convert your BASIC programs to run on a Tandy 1000/1200/2000/3000. HYPERCROSS formats a diskette readable by Tandy 1000/1200/2000/3000 in one drive and copies files directly to it from Model I/III diskettes. The entire transfer process is done on the Model I/III—no modems or cables are necessary (Model I requires a doubler). CNV3TOPC automatically performs 95% or more of the conversion.

Hardware Requirements: Model I/III: 48K and two disk drives. Tandy 1000/1200/2000/3000: 256K and two disk drives.

Support: Educational Micro Systems.

90-0345 139.95

Radio Shack Cross Reference Utility I/III

Description: Build a cross-reference table for any BASIC program. Listing by variable, reserve word, or line number.

Support: Radio Shack

26-2008 14.95

SPECTRUM PROJECTS, INC. Disk Utility 2.1 Color Computer

Description: Designed to ease the use of the Color Computer disk system. It organizes disk operating functions such as copying, moving, and renaming files. Commands include: Format, Backup, Rename, Copy, Verify, Kill, and Alphabetical directory.

Hardware Requirements: 32K, one disk drive and Extended Color BASIC.

Support: Spectrum Projects, Inc.

90-0290 24.95

Disk Plus 100/Color Computer 4/II/12/16/6000/ 1000/1200/2000/3000

Description: Disk Plus on snap-in ROM turns your desktop computer into a disk storage device for your Model 100. Text, BASIC, ".CO" and Lucid files are transferred quickly, easily and reliably. You view the disk directory just like your main menu on your Model 100 screen. You get a ROM for the Model 100 and a disk for the other computer. You just run Disk Plus on the other computer, and then all your transfers are done from the Model 100 through RS-232 cable.

Hardware Requirements: Color Computer: 64K and a disk drive. Tandy 1000/1200/2000: 256K and optional modem.

Support: Portable Computer Support Group.

Radio Shack

DOTPLOT-80

I/III

Description: Create beautiful graphics with easy-to-use BASIC commands.

Hardware Requirements: Graphics-mode printer.

Support: Radio Shack.

26-2023 19.95

Software Concepts

DoubleDuty

4

Description: Lets you load two programs at once, switch between programs without reloading. DoubleDuty retains all TRSDOS and BASIC commands while running. It's like having two computers in one!

Hardware Requirements: 128K.

Support: Radio Shack.

26-2231 69.95

OS-9 Screen Print Utility

TANDY

Color Computer

Description: Print high-resolution Color Computer graphics. Requires CGP-220 for four-color printouts or dot-matrix printer with bit-image mode for B&W.

Hardware Requirements: 64K, Extended Color BASIC, one disk drive and OS-9 operating system.

Support: Radio Shack.

26-3221 14.95

POWERSOFT

PowerTool

I/III

Description: A very flexible and powerful disk, file, and memory utility package based on the widely heralded SUPER UTILITY. PowerTool contains menu-oriented utilities that allow you to directly examine and modify diskettes written in any version of TRSDOS or LDOS, restore unreadable diskettes to a readable condition, examine or modify memory, reformat a disk without erasing the data, restore killed files, format or backup all or part of a diskette and many more handy features. Allows easy copying of files between all versions of TRSDOS and LDOS, regardless of computer type. Since PowerTool is totally memory resident, you have all your drives available for operations. Very educational as well as useful tool! (Hard disk not supported.)

Hardware Requirements: Model I/III: 48K and one disk drive.

Support: Radio Shack

26-2022 49.95

MISOSYS

PRO-NT0

4

Description: This program is an integrated windowing application manager with assistance for many of the tasks commonly done every day. It provides an ADDRESS file, a BRINGUP file, a CALENDAR, a CARD filer, two calculators, a telephone list DIALER, and more. Applications can be called from most programs and provide data import and export between windows.

Hardware Requirements: 64K.

Support: Misosys, Inc.

90-0353 59.95

RAMDisk 2000

Blue Cat

2000

Description: A utility program for creating a super-fast disk-drive emulation in the memory of your computer. The more memory you have installed, the more useful this utility becomes.

Support: Blue Cat.

90-0146 29.95

Microtech Exports

ReformatTer

II/12

Description: Prepare programs and data for use with IBM equipment. Handles the transfer of files between TRSDOS and IBM-formatted diskettes. It organizes data to conform to the 3471 single-density IBM format, performs optional EBCDIC/ASCII character conversion and automatically initializes diskettes to the IBM format, eliminating the need for special preformatted diskettes.

Support: Radio Shack.

26-4714 249.00

Remote Disk 100/Color Computer I/III/4/II/12/2000

Description: An easy-to-use file-storage program. Use Remote Disk to store files on disk and retrieve stored files from disk by connecting the Model 100 to a disk-based computer system. No conversions are necessary to transfer the files, and Remote Disk eliminates the need for the tedious, time-consuming process of saving files on cassette tape. Any type of file created on the Model 100 can be transferred and the file name and extension remain the same. Save single files or subdirectories of up to 19 files. Includes a File Transfer Utility that converts the format of disk-based text files so that files you create on the Model 100 can be used on your desktop computer and vice versa.

Hardware Requirements: 16K and RS-232 cable.

Support: Radio Shack.

26-3839 59.95

SuperCross/XT I/III/4

Description: This utility allows you to move your data files between your Model 4, III, or I/DD and other DOS formats, including the Tandy 1000, 1200, 2000 MS-DOS and Model 4 CP/M. This includes text files, word processing and spreadsheet files such as SCRIPSIT, SuperSCRIPSIT, VisiCalc, Multiplan, or pfs files, etc. The transfer can be accomplished with existing hardware, eliminating the need for terminal programs, and cables.

Hardware Requirements: Model I/III: 48K.

Support: Powersoft.

Model I. 90-0301 99.95

Model III. 90-0300 99.95

Model 4. 90-0299 99.95

Super Utility 1000/1200/2000/3000

Description: This desk utility includes features such as file recovery, sector modification, string search, changing volume names, sub-directory names, and file names with their attributes. Other features include disk maps, FAT mapping, copying sectors to a file, and sector verification to warn you of faulty media. Works with fixed-disk or floppy systems, including devices such as the Bernoulli Box or Tandy's new Disk Cartridge System.

Support: Powersoft.

90-0407 89.95

Blue Cat

SuperZap 2000 2000

Description: A utility program—sometimes referred to as a “Disk Editor”—for modifying and recovering disk data. It can

display and/or change the data sector on a disk. In addition, there are a number of utilities included that can be used to assist in locating and recovering data.

Support: Blue Cat.

90-0145 49.95

T-Backup 100/200

Description: T-Backup saves the entire contents of RAM to cassette in minutes, eliminating the tedious and time-consuming task of backing up files individually. Stores the contents as a single file, then verifies that the backup copy is complete. Restores the backup copy as easily as it was saved. T-Backup saves all BASIC TEXT and machine code files—even “invisible” files. Prompts appear throughout to make the program easy to use. T-Backup does not conflict with any machine-language programs residing in high memory and takes up little memory space.

Support: Traveling Software.

Model 100. 90-0198 19.95

Tandy 200. 90-0340 19.95

T-View 80 100

Description: A display-enhancement program that expands the 40-column screen capacity of the Model 100. Displays 8 lines by 60 columns at once and scrolls up to 8 lines by 80 columns. Capital and lower case letters in this enhanced mode are easily readable. Allows the entry and editing of documents in the TEXT mode and switching between regular and enhanced display modes to check formats before printing or telecommunicating. Also allows the entry of text in the enhanced mode; text is then passed into a new or existing file. With its TELCOM option, T-View 80 allows files to be sent and received in a full 80-column format. Under 4K of machine code, T-View 80 is small—and fast.

Support: Traveling Software.

90-0360 39.95

Tandy Code Read/Write 100/200

Description: A unique bar-code format used to record Model 100 files on paper. Text, BASIC and machine-code files are all easily printed on a printer and can be reloaded through the Bar Code Wand. Tandy Code is useful for reliably storing programs and data and provides an alternative to cassette tape storage. Compatible with the Disk Video Interface (26-3806).

Hardware Requirements: 24K, cassette recorder, Bar Code Wand and selected dot matrix printers.

Support: Radio Shack.

Model 100. 26-3847 24.95

Tandy 200. 26-3897 24.95

Telecommuter

1000/1200/2000/3000

Description: Moves files between desktop and another computer, especially the Model 100 and Tandy 200. Portable computing environment lets you use the same editing and communications commands on both machines. Host mode permits remote control of the desktop by the portable computer over standard telephone lines. Full Telcom communications with on-line text editing and automatic calling and log-on. Supports all Radio Shack and Hayes-compatible modems. Fast file transfer at 9600 baud over the included null modem cable. Complete word processing and text formatting with full 64K-file capacity. Right justification, titles, page numbers and many other advanced features.

Hardware Requirements: 384K and a modem.

Support: Provided by Sigea Systems, Inc. for a nominal charge.
90-0210 200.00

Telecommuter Plus

1000/1200/2000/3000

Description: Integrated word processing and communications for the toughest requirements. All the features of Telecommuter (90-0210), plus: XMODEM for error-free file, text and binary file transfer between computers; full DEC VT52 terminal emulation; automatic redial of busy telephone numbers; macros and scripts for fully automatic communications and file transfer; host mode with eight user-access levels and fourteen-character system password; DOS access from Word Processor allows use of spelling checker, language compiler, spreadsheet, database or other program in Telecommuter.

Hardware Requirements: 384K and a modem.

Support: Provided by Sigea Systems, Inc. for a nominal charge.
90-0347 400.00

Toolbelt Utilities

4

Description: This collection of software tools is designed for use with hard disks or floppy disks using the TRSDOS 6 operating system. Features include disk, file and memory examination and modification, directory check and repair, disk and file compares, maps, cleanups, sector verification and password removal. Other useful features include mass moving or deleting of files from one disk or platter to another. Each program contains a built-in "HELP" command for ease of use.

Support: Powersoft.

90-0245 49.95

TRSDOS 6.2 Utilities

4

Logical Systems, Inc.

Description: Includes Quick Format and Backup, to make a backup in less than one minute; The BASIC Answer, which allows the use of labels rather than line number in BASIC programs; MOD 324, to simplify conversion of Model III BASIC programs; UNKILL to recover killed programs; BSORT, to sort from BASIC with tag variables; and COMP, to compare two disks or files for a match. Requires TRSDOS 6.2.

Support: Radio Shack.

26-0315 39.95

VIP Disk-Zap

Color Computer

Description: VIP Disk-Zap is a disk-repair utility that allows you to fix just about any kind of disk error and allows you to retrieve information from damaged disks. You may also alter sectors and directories and print the contents of files.

Hardware Requirements: 32K and one disk drive.

Support: VIP Technologies.

90-0144 49.95

XMENU

6000

Description: A software utility under TRS-XENIX that instantly gives your system a menu-driven interface for the system administrator. XMENU makes your system so easy it requires only limited knowledge about XENIX to operate it. Menus can also be easily set up and customized for all users on the system. XMENU performs most system administration functions with just a few simple keystrokes; functions like setting and configuring the TTY ports, displaying and killing active processes, file and directory functions, backup and restoration of files and execution of XENIX shell commands from the menu. In addition, a restricted menu option is available to limit a user's access to the menu and its options only. Menus are easily created with a menu editor.

Hardware Requirements: 512K and hard disk drive.

Support: Telexpress, Inc.

90-0415 150.00

XPD

6000

Description: A print utility for TRS-XENIX. XPD gives the user the ability to easily direct printer output from any port to any other port. The system includes a print monitor mode, allows print files to be QUEUED and printed at a later time, either selectively or batched as single or multiple copies. The monitor mode also allows full printer control at the terminal, allowing the user to pause between pages, control queue operations and even adjust forms. A terminal can be set up as a dedicated printer device, or a printer can be hooked directly to any TTY port. XPD will work with any application that can call the system spooler, SCRIPSIT-16 version 1.1 and the XENIX COBOL applications version 3.0.

Hardware Requirements: 512K and hard disk drive.

Support: Telexpress, Inc.

90-0252 250.00

UTILITIES

PROSOFT**Allwrite**

4

Description: A full-function word processor. Commands and controls are English words and on-screen markups. It is ideal for students, teachers, attorneys and professional writers.

Hardware Requirements: 64K and two disk drives.

Support: Prosoft.

90-0242 199.95

TANDY**Color Disk
SCRIPSIT****Color Computer**

Description: An easy-to-use word processing program that offers optional upper and lowercase display and background printing. Allows the user to insert, delete, move and duplicate words, sentences and paragraphs.

Hardware Requirements: 16K Extended Color BASIC, one disk drive.

Support: Radio Shack.

26-3255 49.95

TANDY**Color SCRIPSIT****Color Computer**

Description: A simple word processing program. Type and edit your letters, themes and reports right on the screen. Insert, delete, move and duplicate words, sentences and paragraphs. Text can be saved on cassette or printed with optional printer. Includes text search and replace.

Hardware Requirements: 16K and cassette recorder.

Support: Radio Shack.

26-3105 29.95

TANDY**Color SCRIPSIT
Dictionary****Color Computer**

Description: Use with Color Disk SCRIPSIT (26-3255) to check for spelling errors automatically.

Hardware Requirements: 16K Extended Color BASIC and one disk drive.

Support: Radio Shack.

26-3265 59.95

**DMP 2100P
Custom Font System**

4/II/12/1000/1200

2000/3000/16/6000

TANDY

Description: Enhance the appearance of your printed material. Using the Custom Font System, your computer and the programmable DMP 2100P printer, you no longer have to purchase expensive fonts to produce italics, script, foreign language characters or special graphics symbols. Create or edit fonts, then load them into your DMP 2100P printer. The only limit to what you can print is your imagination. Includes ten professionally designed fonts: Italics, Gothic, Bold, Bold Italic, Outline/Shadow, Script, Old English, Micro Gothic, Micro Italic and Game fonts. Compatible with Tandy 1000, 1200, 2000 and XENIX versions of Scripsit word processing software.

Hardware Requirements: Tandy 1000: 256K.

Support: Radio Shack.

Tandy 1000/1200/2000/3000. 25-1158 24.95

**COMPUTER
ASSOCIATES**
MICRO PRODUCTS DIVISION**EasyWriter I**

2000

Description: A document-oriented word processing, spell-checking and mail-merge program. Move, copy, or delete blocks of text, even recall deleted characters and words. Edit text on half of the screen while keeping the original in the other half for comparison. Formatting features include variable margins and line spacing, justified or "ragged" right margins, tab settings, automatic paragraph indentation, page numbering, titles and headings, and centering. Files can be included in other files in memory, or linked together for printing, spell-checking or search and replace. EasyWriter I System offers fonts, as well as expanded and compressed print. Check spelling against an 80,000 word dictionary. Up to four possible corrections are suggested. Mail-merge sorts in ascending or descending order, using up to three sort keys.

Support: Computer Associates, Micro Products Division.

90-0115 250.00

**EinsteinWriter**

1000/1200/3000

Description: A full-featured word processor that is easy to learn and use. It has intuitive on-screen instructions and single key-stroke commands that allow maximum capability with minimum effort. Features include: unique split-screen capability; on-screen centering, boldface, underline and page indicators; instant on-screen text reformatting; multiple headers and footers; extensive on-screen instructions and prompts; simultaneous printing and editing; prints multiple files/copies; custom designed printer commands; save and find files by key words; allows for the creation of ASCII files; automatic pagination; access of directories; spelling checker/correctors; and more.

Hardware Requirements: 256K and one disk drive.

Support: United Software Technologies, Inc.

Tandy 1000/1200/3000. 90-0309 149.95

**Electric Pencil
Dictionary**

1000/1200/2000/3000

Description: An optional add-on package for Electric Pencil Pro (90-0147). It is both a dictionary and spelling corrector, with the ability to learn the words you most often misspell.

Hardware Requirement: 256K and one disk drive.

Support: BlueCat.

90-0148 129.95

Blue Cat**Electric Pencil Pro**

1000/1200/2000/3000

Description: The MS-DOS (and highly enhanced) version of a previous Electric Pencil release. The "Pro" package includes an advanced console editor and "TUTOR", which is a manual on disk. You can learn how to use Electric Pencil Pro in 30 minutes, and master it in an hour.

Hardware Requirements: 384K and one disk drive.

Support: BlueCat.

90-0147 149.95

**CORNUCOPIA
SOFTWARE****Electric Webster
Correction Feature**

4

Description: An integrated enhancement to the Electric Webster Spelling Checker (90-0262). After the Spelling Checker identifies a list of potential errors, the Correction Feature displays each error individually and offers a menu of correction options. Integrates with SuperSCRIPSIT (26-1595), SCRIPSIT (26-1596), Allwrite (90-0242), and LeScript (90-0231).

Support: Cornucopia Software.

90-0261 59.95

CORNUCOPIA
SOFTWARE

Electric Webster Dictionary and Speller

1000/1200/2000/3000

Description: Proofreads documents and typographical errors by comparing the text of your document to a built-in 50,000 word dictionary. Automatic Hyphenation feature determines where a word might be hyphenated. Grammar and Style Checker helps find "trouble spots" in your documents. Works with word processors such as WordStar Professional (25-3170) and Open Access (90-0114 or 90-0247).

Support: Cornucopia Software.

90-0338 169.95

CORNUCOPIA
SOFTWARE

Elite Software

Elite*Spel Color Computer

Description: A super-fast dictionary program for Elite*Word (90-0184). It's compatible with standard ASCII files, too. Elite*Spel "reads" your text and checks it against a 20,000-word dictionary. The program can also learn up to 4,000 of your own words. Other features include easy-to-use menu commands, a single-pass dictionary search, and corrections to your text in a batch or interactive mode.

Hardware Requirements: 32K and one disk drive.

Support: Elite Software.

90-0185 29.95

Elite Software

Elite*Word Color Computer

Description: Offers two text entry modes (Insert and Exchange), true block text moves, a screen display with true upper/lowercase characters and "smooth scroll" for easier proofreading. There is a "View" function that gives you a high-resolution screen display (64x19) of your final text before printing. Includes right-side justification, margin changes, page numbering and page breaks.

Hardware Requirements: Disk: 32K and one disk drive. Cassette: 32K and cassette recorder. OS-9 Disk: 64K, one disk drive and OS-9 operating system.

Support: Elite Software.

IDEA!

100/200

Description: An outline processor similar to ThinkTank for desktop micros. IDEA! is ideal for note taking, proposals, appointment or address lists, even writing complete articles or essays. Great for students or attorneys. Easily create outlines with heads and subheads of unlimited text. Outlines can be sorted, moved, copied or rearranged at any level.

Hardware Requirements: 16K.

Support: Traveling Software.

Model 100. 90-0281 79.95

Tandy 200. 90-0322 79.95

LEADING EDGE

Leading Edge Word Processing

1000/1200/2000/3000

Description: Leading Edge Word Processing with Spelling Correction includes all the features and functions you'd expect from a professional word processor: insert, delete, search and replace; file merge; boldface, underlining, super and subscript; block functions; on-line help; justification; full cursor movement; headers and footers; centering; auto backup; cut and paste; and extensive printer support. This easy-to-use package also includes advanced features like: an 80,000-word dictionary, a personal dictionary of up to 4,000 words, merge print, macros and windows.

Hardware Requirements: 256K and one disk drive.

Support: Leading Edge Products, Inc.

90-0422 195.00

Anitek Software Products

LeScript

I/III/4

Description: An exceptionally powerful, yet easy-to-use word processing system. The tutorials, easily understood instruction manual, and logical "single" keystroke commands make it possible for the average beginner to start writing professional looking letters and memos on LeScript in only a few hours. LeScript's many features include: printer drivers for more than 200 printers, 90K text buffer on the 128K Model 4, form letters, on-line help screens, disk directories, programmable macro keys, on-screen underlining, keyboard access to foreign language characters, dual screen editing, multiple copy printing, and direct integration with the Electric Webster Spelling Checker (90-0262) for automatic proofing of documents.

Support: Provided at no charge by Anitek Software Products for a limited time, after which a nominal fee is charged.

90-0231 129.95

Softest Inc.**LEX-68****6000**

Description: A menu-driven, "what you see, is what you get," interactive, multi-user word processing system. It features a form-based list management/mass mail system, 120,000-word speller and a programmable four-function calculator. LEX-68's on-line control functions make it extremely easy to use. LEX-68 also features on-screen boldface and underline, automatic footnoting, complete cut and paste facilities, multiple columns on the same line and vertical typing mode.

Support: Provided at no charge by Softest for a limited time, after which a nominal fee is charged.

90-0155 695.00

**Lyrix****6000**

Description: A comprehensive, fully user-configurable, menu-driven word processing system. Lyrix can be easily altered to suit a particular user, market or terminal, simply by editing a file. All commands and messages can be redefined or translated to a foreign language, with support for special characters and accents. The Lyrix menu provides access to integral XENIX functions, such as mail or file management utilities. Lyrix can also be used as an editor for electronic mail or source code. Special features include on-line page break indicators for easy formatting, file merging, adjustable margins, mail merge, and a comprehensive on-line help facility.

Support: Provided at no charge by Santa Cruz Operation for a limited time, after which a nominal fee is charged.

90-0243 595.00

MICROSOFT**Microsoft Word****1000/2000**

Description: A high-performance word processing program with the capabilities to quickly handle complex writing tasks. You can produce high-quality business documents that make a good first impression, fast and easily. You don't have to print the document to see how it will look, WORD shows you right on the screen. With glossaries, style sheets and a flexible merge, you can quickly put together the most complex document.

Hardware Requirements: 256K and two floppy disk drives. Tandy 2000 requires graphics board.

Support: Radio Shack.

Tandy 1000. 25-1153 375.00

Tandy 2000. 26-5314 375.00

**MultiMate****2000**

Description: Duplicates the features of a dedicated word processor. Packed with over 100 features and functions, which can be accessed with just one or two keystrokes. Training lessons and on-screen help make it easy to learn and easy to use. Includes a spelling verifier/corrector from Houghton-Mifflin containing over 77,000 words. Performs column math and offers easy column manipulation. Merges with several different file formats.

Support: Radio Shack.

26-5330 249.95

**Palantir Speller****1000/1200/2000/3000**

Description: A fast intelligent spelling checker to aid with professional document preparation. A 60,000-word dictionary is included, with room for 20,000 additional words. Unlimited auxiliary dictionaries can be added. More than 6,000 words can be checked per minute. The ability to "guess" the spelling for a

misspelled word is uncanny. Most spellings can be automatically corrected by selecting one of the first three "guesses." Errors are displayed in context. Misspellings are corrected in the document, not just displayed or marked. Dictionary scan is an option for words it can't guess. You can check multiple files in one session. The Speller can be executed from within Palantir's Word Processor and works with most other word processors.

Hardware Requirements: 256K, two floppy disk drives and a compatible word processing program.

Support: Provided at no charge by Palantir for a limited time, after which a nominal fee is charged.

90-0221 145.00

**Palantir Word Processor****1000/1200/2000/3000**

Description: The power of a dedicated word processor for the advanced typist, but with the simplicity a beginner needs. Unlike other word processors, you don't have to memorize numerous double keystroke codes. Commands are logical and mnemonic. All Radio Shack printers supported, plus over 200 others (including laser). The Bay Area Computer Currents Magazine (September, 1984) calls Palantir: "Unexcelled in its power to manipulate numbers and text to produce custom reports and truly personalized mailings."

Hardware Requirements: 256K.

Support: Provided at no charge by Palantir for a limited time, after which a nominal fee is charged.

90-0220 250.00

**pfs:write****1000/1200/2000/3000**

Description: An easy-to-use word processor that combines the simplicity of a typewriter with the power of a computer. Page formats, headers and footers appear just like they will on the printed page. You can highlight your key ideas with boldface or underlining. Create form letters with Write and merge them with a client list from pfs:file. Since Write is integrated with the other programs in the pfs family of software, it integrates easily with the other pfs products.

Support: Radio Shack.

Tandy 1000/1200/3000. 25-1142 140.00

Tandy 2000. 26-5309 140.00

**Samna Word III****1200**

Description: A full-featured word processing/office automation system. Advanced features include: true floating footnotes, auto mailmerge utility, and a "zoom" function. It includes support for expanded symbols for 11 different keyboards, ability to print to any desired printer port or to a file, and support for the HP Laser Jet printer.

Hardware Requirements: 256K and a hard disk.

Support: Provided at no charge by Samna Corporation for a limited time, after which a nominal fee is charged.

90-0296 550.00

Radio Shack**SCRIPSIT****I/III/4**

Description: Prepare memos, letters, reports and manuscripts. Editing features let you delete, insert, copy, and move blocks of text. Print as many correction-free originals as you need. Advanced features include global search, formatting, automatic hyphenation, centering, automatic headers and footers, justification, automatic page numbering, and more.

Hardware Requirements: Model I/III Cassette: 16K and Cassette Recorder. Model I/III Disk: 32K and one disk drive. Model 4: 64K and one disk drive.

Support: Radio Shack.

Model I/III (Cassette). 26-1505 39.95

Model I/III (Disk). 26-1563 99.95

Model 4. 26-1596 99.95

Radio Shack

SCRIPSIT

II/12

Description: A powerful, full-featured word processor. Easy-to-understand prompts and menus. An on-screen status line shows cursor position, margins, tabs, line spacing and page number. Multiple formats and reverse indentation can be used for outlining. Offers many advanced print features, such as super and subscripts, underlining, headers and footers, and multi-column printing. Other features include ASCII convert, programmable user keys, background printing and embedded print codes.

Support: Radio Shack.

Model II. 26-4531 399.00

Model 12 Thinline/Hard Disk. 26-4835 399.00

TANDY

SCRIPSIT

1000/1200/2000/3000

Description: Prepare memos, letters, reports or manuscripts, then print as many correction-free originals as you need. All the features of a dedicated word processor with an easy-to-use command structure using function keys. Function key labels appear at the bottom of the screen. A built-in spelling verifier/corrector from Houghton-Mifflin. Standard features include global search, block move or copy, automatic headers and footers, centering, justification, on-line help and undo commands. Advanced features include proportional spacing, multiple fonts, merge files, column manipulation, boilerplating and more.

Hardware Requirements: 256K and two disk drives.

Support: Radio Shack.

Tandy 1000/2000. 25-1155 299.95

Tandy 1200/3000. 25-3171 299.95

Radio Shack

SCRIPSIT 100

100

Description: Turns your Model 100 into a true word processor with far more power and features than the built-in TEXT function. Includes advanced formatting capabilities and print features.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-3830 39.95

TANDY

SCRIPSIT 16

16/6000

Description: Multiply office productivity. With multi-user SCRIPSIT, several people can cooperate in the preparation of a document—one person can create, the others edit and proof. Print queuing and background printing allow all users to share a single high-quality printer. Includes all of the features of a dedicated word processor, as well as multiple font styles within a document, column math and manipulation, boilerplating, mail merge and more. Includes a self-paced training course on audio cassettes.

Support: Radio Shack.

26-6431 499.00

Radio Shack

SCRIPSIT Dictionary

I/III/4

Description: Finds misspellings and typos in documents created with SCRIPSIT, SuperSCRIPSIT or ASCII files. Includes a 73,000-word list (34,000 for Model I). Create your own word list, too.

Hardware Requirements: Model I/III: 48K and two disk drives (Model I requires three drives when using SuperSCRIPSIT). Model 4: 64K and two disk drives (26-1600 works only with SuperSCRIPSIT 26-1595).

Support: Radio Shack.

Model I/III. 26-1591 99.95

Model 4. 26-1600 99.95

Radio Shack

SCRIPSIT Dictionary

II/12

Description: Check your documents against a 100,000-word list to find typos and misspellings. You can also create your own list of proper names and often-used words and abbreviations. Also performs automatic hyphenation.

Hardware Requirements: 64K and two disk drives.

Support: Radio Shack

Model II. 26-4534 199.00

Model 12 Thinline/Hard Disk. 26-4834 199.00

SCRIPSIT

Plotter Driver

II/12

Radio Shack

Description: Add clarity to reports and transparencies. Print nine character sizes in six colors. Draw boxes, straight lines, underlines, sub and superscripts.

Hardware Requirements: 64K, SCRIPSIT program and Multi-Pen Plotter.

Support: Radio Shack.

26-4536 49.00

TANDY

SCRIPSIT PRO

4

Description: Similar to Model 4 SuperSCRIPSIT, but with these additional features: windows for viewing two documents simultaneously, chaining of document modules, boilerplating, footnoting, manipulation of columns of text, and access to DOS commands from within the program.

Hardware Requirements: 128K and two disk drives.

Support: Radio Shack.

26-1601 249.95

TANDY

SCRIPSIT Speller

16/6000

Description: A spelling system based upon *The American Heritage Dictionary* published by Houghton Mifflin Company. Contains over 74,000 words and allows the creation of up to three separate user lists. Highlights misspelled words to be edited or replaced with similar words found by the program. Will also hyphenate words within your document automatically. To be used in conjunction with SCRIPSIT 16.

Support: Radio Shack.

26-6434 249.00

Radio Shack

SCRIPSIT Utilities

II/12

Description: Allows you to move columns of text and numbers, as well as get totals, subtotals and averages of numerical columns automatically. You can also copy often-used text stored in a special "boilerplate" utility without closing the document you're in. A communications utility lets you transmit and receive documents by phone (requires modem).

Hardware Requirements: 64K, SCRIPSIT program and two disk drives.

Support: Radio Shack.

26-4532 129.00

INNOVATIVE Software

Smart Word Processor

1000/1200/2000/3000

Description: A relational word processor for simple memos or professional documents. Includes on-screen cut and paste, moving, copying, search and replace and automatic reformat as you edit. Choose multiple fonts, easy tab operations, automatic footnote numbering and placement, and more. Smart Word gives you unlimited document size, a handy calculator, and undelete function. Execute mailmerges or a document that

requires a graph with text wrapped around it. A full range of on-screen help menus are always available.

Hardware Requirements: 256K. Hard disk recommended.

Support: Innovative Software, Inc.

90-0320 295.00

Stylo-Graph Color Computer

Description: Get very sophisticated word processing functions with less keyboard commands than other word processing systems. "Dynamic screen formatting" creates text on the screen in the same way it will appear on the printed copy. Symbols are used on the screen to help the operator identify the location of Carriage Returns, Headers, Footers, Page Breaks and Line Lengths wider than the screen. Cursor control is made simple by requiring only single keystrokes. Menu driven configuration programs allow Stylo-Graph to support true proportional spaced printing.

Hardware Requirements: 64K, one disk drive and OS/9 operating system.

Support: Stylo Software, Inc.

90-0195 99.95

Stylo-Merge Color Computer

Description: A complementary program to Stylo-Graph (90-0195). Text files can be edited in smaller increments and chained together at output. Page numbers, format commands, headers and footers are all retained. Any text file containing names, addresses and dates can be defined and used in form letters. Any text file can be used to print envelopes and labels.

Hardware Requirements: 64K, one disk drive and OS/9 operating system.

Support: Stylo Software, Inc.

90-0197 59.95

Stylo-Spell Color Computer

Description: A spelling checker for Stylo-Graph. The basic dictionary contains 42,000 common words. In addition to the main dictionary, you can add words for a "user-defined" dictionary. This is a useful option for building up specific occupational dictionaries with medical, legal and scientific terms. Special utility programs are included to compress the dictionary files to conserve disk space.

Hardware Requirements: 64K, one disk drive and OS/9 operating system.

Support: Stylo Software, Inc.

90-0196 69.95

Radio Shack

SuperSCRIPSIT I/III/4

Description: Offers standard editing and block manipulation options, plus many advanced features. Supports underlining, boldface, super and subscripts, and more. Allows programmable user keys, proportional spacing and justification, multi-column printing, multiple format lines, file merging, on-screen format line, user print codes for special characters, headers and footers, and more. Self-paced audio cassette training tapes are included.

Hardware Requirements: Model I/III: 48K and one disk drive. Model 4: 64K and one disk drive.

Support: Radio Shack.

Model I/III. 26-1590 199.00

Model 4. 26-1595 199.00

T-Writer

100

Description: One of the most popular and versatile print formatting programs available. T-Writer allows editing and formatting of TEXT files. Provides both function key options and "dot" commands to set tabs, center, and justify left and right margins. Use with any printer to boldface, underline, condense print and more. T-Writer includes over fifty options, yet is simple to use. A special merge allows you to use T-Writer with T-Base (90-0129), the ADRS.DO file, and all "Business Manager" products from Traveling Software to include specific information in boiler plate letters or other documents. With this feature, it's possible to print over 300 letters from your 100 automatically!

Hardware Requirements: 16K.

Support: Traveling Software.

90-0130 49.95

Telewriter-64 Color Computer

Description: A full-featured word processor well suited for educational or home use, as well as professional applications. Telewriter-64 provides three screen displays, 51 x 24, 64 x 24 and 85 x 24. Features word wrap, global search and replace, block copy and delete, 4-way cursor control, chain printing, headers, page numbering, full margin control, and more. Embedded codes give you control over the intelligent features of your printer (like underline, boldface, different fonts, etc). Includes a 53-page tutorial and 35-page reference manual.

Hardware Requirements: Cassette: 16K and cassette recorder. Disk: 16K Extended Color BASIC and one disk drive.

Support: Cognitec.

Cassette. 90-0253 49.95

Disk. 90-0254 59.95

TANDY

Text Power 200

Description: Turns your Tandy 200 into a true word processor with far more power and features than the built-in TEXT function. Includes advanced formatting capabilities and print features.

Hardware Requirements: Cassette recorder.

Support: Radio Shack.

26-3881 39.95

TANDY

TSEDIT Color Computer

Description: A high-resolution full-screen text editor that allows upper and lower case in lines from 32 to 80 columns.

Hardware Requirements: 64K, one disk drive and OS-9 operating system.

Support: Radio Shack.

26-3264 34.95

TANDY**TSWORD****Color Computer**

Description: A format program that forms a powerful OS-9 word processing package when combined with TSEDIT (26-3264). Includes illustrated menus.

Hardware Requirements: 64K, one disk drive, OS-9 operating system and printer.

Support: Radio Shack.

26-3267 39.95

**VIP Speller****Color Computer**

Description: A powerful spelling checker program. It includes a 50,000-word dictionary, which you can expand. You can also create special dictionaries. It shows misspelled words in text, allowing you to change them on the spot. Works with most ASCII-based word processors.

Hardware Requirements: 32K Extended Color BASIC and one disk drive.

Support: VIP Technologies.

90-0142 49.95

**VIP Writer****Color Computer**

Description: A powerful, yet easy-to-use word processor, which integrates spell checking. VIP Writer forms the cornerstone of the VIP Integrated Library (90-0213), and can merge files from the entire library. Displays up to 85 characters per line. Utilizes all printer capabilities. With VIP Speller (90-0142). Includes tape and disk versions.

Hardware Requirements: 32K. Spelling Checker requires one disk drive.

Support: VIP Technologies.

90-0141 69.95

**Volkswriter Deluxe****1000/1200/2000/3000**

Description: A sophisticated word processor that's easy to learn and use. Features full text editing and excellent formatting and printing capabilities. Displays foreign language and scientific characters; on-screen underlining, bold, shadow and strike-through; visible automatic pagination; horizontal scrolling to 250 characters; document size of up to 1 million characters; document stored in ASCII (compatible with many spreadsheets and spelling checkers created in this format). Printer support includes multiple fonts, colors, proportional spacing and microjustification. Includes TextMerge for customizing letters and keeping mailing lists.

Hardware Requirements: 256K and two floppy drives, or one floppy drive and a hard disk.

Support: Lifetree Software Inc.

Tandy 1000/1200/3000. 90-0263 295.00

Tandy 2000. 90-0121 295.00

**Volkswriter Scientific****1000/1200/3000**

Description: A truly interactive scientific word processor, which allows you to compose text and complex mathematical or scientific formulas on-screen as they will appear when printed. On-screen special effects include boldface, italics, medium and large font sizes, micro-proportional spacing and microjustification. Special characters—made with a maximum of two keystrokes—include the Greek and Roman alphabets, subscript and superscript numerals, and mathematical and scientific symbols. Near typeset quality can be achieved, even when

using a dot-matrix printer.

Hardware Requirements: 256K and two floppy disk drives, or one floppy drive and a hard disk.

Support: Lifetree Software Inc.

90-0295 495.00

SSI Software**WordPerfect 4.0****1000/1200/2000/3000**

Description: A full-featured word processor. It features full merge capabilities; a phonetic spelling checker with a 120,000-word dictionary; extensive cut and paste features, including block highlight; full printer control; and a color-coded template that uses all ten function keys. The color coding corresponds to the color-coded manual. WordPerfect also features expanded footnote and endnote capabilities, date insertion, redline and strike-out printing, table of contents and index generation, and automatic outline and paragraph numbering.

Hardware Requirements: 256K.

Support: Satellite Software International.

Tandy 1000/1200/3000. 90-0249 445.00

Tandy 2000. 90-0100 445.00

**WordStar Professional****1000/1200/2000/3000**

Description: Offers simultaneous editing and printing; automatic search and replace, word wrap and right margin justification; and print effects. WordStar Tutor helps users become productive in eight quick lessons. CorrectStar—based on Houghton-Mifflin's *American Heritage Dictionary*—locates and corrects typos and misspellings, and also allows users to create their own dictionaries. MailMerge merges data and form letters. StarIndex automatically builds a table of contents and alphabetical indexes.

Hardware Requirements: 256K and two floppy disk drives.

Support: Radio Shack.

25-3170 395.00

**WRITE ROM****100**

Description: Based upon the popular Scripsit 100 (26-3830), and includes over 60 features: function key formatting, dot commands, search and replace, underlining, boldface and other special printer fonts. WRITE ROM's Merge, Library, Interactive Form and Pixel Mapping features give you capabilities beyond some dedicated desktop word processors.

Support: Portable Computer Support Group.

Low As \$37 Per
Month on CitiLine*

- Multiplan Built In
- 24,000-Character Memory
—Expandable to 72K
in Banks of 24K

Tandy 200. A powerful problem solver. For complex spreadsheet analysis and calculations, we put popular Multiplan software into the Tandy 200's permanent memory. Do sales forecasts, profit-and-loss projections, budgeting, pricing, engineering calculations and more. An improved version of the Model 100's easy-to-use word processing program makes Tandy 200 especially useful for memos, reports and correspondence. Four other "instant-on" programs are a personal appointment calendar, address and phone directory, and telephone auto-dialer. You can even create your own programs in BASIC. The Tandy 200's high-contrast flip-up liquid crystal display has 240 x 128 resolution for big, clear graphics, or 16-line by 40-character text. Includes parallel printer, RS-232C, cassette and bar code reader interfaces. 26-3860 799.00

SPECIFICATIONS. **Microprocessor:** 8-bit 80C85 CMOS. **Clock Speed:** 2.4 MHz. **Memory:** 72K ROM, expandable to 104K; 24K RAM, expandable to 72K. **Keyboard:** Full-sized 56-key typewriter style with embedded data pad, plus 8 programmable function keys, 4 command keys and 4 cursor control keys. **Display:** 16 x 40 liquid crystal display, upper and lower case ASCII characters, 240 x 128 dot-matrix graphics. **Modem:** Built-in 300-baud direct-connect modem with auto-dialer. FCC registered. Originate and answer modes. Tone dialing signals. **Input/Output:** Parallel printer interface. RS-232C serial communications interface programmable up to 19,200 baud. Cassette tape interface loads at 1500 baud. Standard bar-code reader interface. **Dimensions:** 23 1/16 x 11 3/4 x 8 1/2". **Weight:** 4.5 lbs. **Power Supply:** Operations—Up to 16 hours on 4 "AA" alkaline batteries, and can use nickel-cadmium rechargeable batteries with minor additional-cost modification. Optional U.L. listed AC/DC charger/adaptor available. Memory—Internal rechargeable nickel-cadmium batteries will retain memory for up to 15 days with power off (depending on the amount of RAM installed).

NEW TANDY 600 WITH DISK DRIVE

**NEW '86
FOR**

1599⁰⁰

Low As
\$74 Per Month
on CitiLine*

Tandy 600. Finally, an "affordable portable" that matches the performance of a desktop computer. Our new Tandy 600 features a 16-bit microprocessor, an 80-character by 16-line display, a built-in 3 1/2" disk drive and 32K RAM (expandable to 224K*).

Built-In Programs. The Tandy 600 also features five resident applications. Multiplan, the popular "second-generation" spreadsheet, can do and show more because of the Tandy 600's larger display and expanded memory. Word processing is easy using a subset of Microsoft® Word. You'll have quicker access to documents, and better storage with the built-in disk drive. File is an electronic database for names and addresses, expenses, client billing, inventory and more. And you can keep a large number of different files

- Self-Contained 3 1/2" 360K Mini Disk Drive
- Five Full-Featured, Built-In Applications
- Internal 300 Baud Direct Connect (Auto Answer/Auto Dial) Modem—Tone and Pulse
- Full-Featured Typewriter Style Keyboard

on the pocket-sized diskettes. With Telecom and the Tandy 600's built-in modem, you're able to communicate with other computers over phone lines and access national information networks. Telecom will even dial the phone number of anyone listed in File. Calendar helps you keep track of daily tasks and activities.

User Friendly. The easy-to-learn resident System Manager lets you run each application, exchange information between applications and manage the files created. The Tandy 600 is so lightweight you can take it anywhere. It only weighs 9 1/2 pounds and measures 12 x 13 x 22 3/4".

POPULAR COLOR COMPUTER 2

16K Color Computer 2 with Standard BASIC

119⁹⁵
Less TV

Low As \$20 Per Month
on CitiLine★

16K Standard BASIC. A true family computer! The Color Computer 2 helps you set up a personal budget, keep track of your investments, create an inventory of household items, store recipes, write letters and reports, and improve your kids math, spelling and reading skills. You can even play exciting games. Simply attach the Color Computer to your TV and add instant-loading Program Pak™ cartridges or ready-to-run cassette software (requires recorder). You can learn to write your own programs in easy-to-use BASIC for home or school (a 185-page beginner's manual is included). You'll be able to create graphics in eight vivid colors with exciting sound effects, too. The built-in Standard BASIC language features data and string handling, dimensioned arrays, math functions and 9-digit accuracy. Best of all, the Color Computer 2 is easy to expand as skills and needs grow with more memory, joysticks, a printer or telephone modem. Includes 16,000 characters of memory. U.L. listed. 26-3134 119.95

SPECIFICATIONS. **Microprocessor:** 6809E 8-bit. **Clock Speed:** 0.894 MHz. **Keyboard:** 53 keys, including BREAK and CLEAR. **Video Display:** 16 lines of 32 uppercase characters. Color graphics capabilities range from 32 x 64 (8 colors) to 192 x 256 (1 color and background color) with 3 intermediate formats. Higher resolutions in the same range are available through machine language, Extended BASIC or Program Paks. **Memory:** 8K ROM, 16K RAM. **Input/Output:** 1500-baud cassette (recorder optional). Two 2-dimensional joysticks (optional). RS-232C serial port. Standard TV connection (300 ohms). **Dimensions:** 3 x 10³/₈ x 14³/₄". **Power:** 120VAC, 60 Hz.

64K Color Computer 2 with Extended BASIC

NEW LOW PRICE!

199⁹⁵
Less TV

Was \$219.95 in Cat. RSC-15

Low As \$20 Per Month
on CitiLine★

64K Extended BASIC. An affordable computer for writing your own sophisticated programs. Ideal for many small business and professional uses, too. You can access 32,000 characters of memory using the built-in Extended BASIC language. Or add a disk drive and optional OS-9 operating system to access the full 64K memory. Simple, one-line commands make detailed color graphics easy to create. Ideal for drawings, designs, charts, engineering diagrams, even animation. Features 256 x 192 screen resolution (49,152 pixels); multi-character variable names (two significant); string arrays up to 255 characters; full-featured editing; tracing; floating point 9-digit accuracy; trigonometric functions; user-definable keys; specific error messages; and PEEK, POKE and USR commands. Ready-to-run software is available for personal and household tasks, education and entertainment. Attaches to any TV. Easy to expand. Includes tutorial manual on Standard and Extended BASIC. U.L. listed. 26-3127 199.95

SPECIFICATIONS. All specifications for 64K Color Computer 2 with Extended BASIC are the same as the Color Computer 2 with Standard BASIC (at left) unless otherwise noted. **Memory:** 16K ROM, 64K RAM. **Interrupt Timer:** Accessible from Extended BASIC or machine language only. **Commands/Statements:** CIRCLE, CLOADM, COLOR, CSAVEM, DEF FN, DEFUSRn, DEL, DRAW, EDIT, GET, INSTR, LET, LINE, LINE INPUT, MID\$, PAINT, PCLEAR, PCLS, PCOPY, PLAY, PMODE, PRESET, PRINT USING, PSET, PUT, RENUM, SCREEN, TROFF, TRON. **Functions:** ATN, COS, EXP, FIX, HEX\$, LOG, PEEK, POS, PPOINT, STRING\$, SQR, TAN, TIMER, USRn.

- Frees Your Computer During Printing
- 62K RAM Buffer for Text Storage

PTC 64 Printer Controller. Now you can print one job while working on another! The PTC 64 accepts and stores information from your computer, then feeds it to your printer as fast as the printer can handle it. Features a clear memory function, a pause function and a copy function for printing up to 100 consecutive originals. Built-in Z-80 processor can be programmed by the host computer to handle graphics and special text. U.L. listed. 26-1269 249.95

Printer Selector Switch

Low As \$20 Per Month
on CitiLine*

119⁹⁵

SW-302 Parallel Printer Switch. Stop plugging and unplugging cables! Connect two printers to one computer or two computers to one printer. Select the printer or computer you want with a flip of a switch. Standard parallel interface only. Cables not included. U.L. listed AC power module. 26-1498 119.95

Daisy Wheel Acoustic Cover

Standby Power System for Home and Office

695⁰⁰

Low As
\$32 Per Month
on CitiLine*

BPS 400. Guards against data loss in case of a brownout or electrical failure. Provides more than 10 minutes of full power operation (400 VA) to allow you to shut down your system safely. During normal operation, the BPS 400 also operates as a power line filter, protecting your equipment against harmful electrical spikes. Note: Read/write errors can result during power switching when used with AC-type drive motors (Model II and Model II Disk Expansion Unit or 8-Megabyte Hard Disk). Four outlets. 6 × 10³/₄ × 12¹/₂". U.L. recognized. 26-1189 695.00

Universal Monitor Pedestal

16⁹⁵

Computer and monitor not included.

Adjustable platform rotates and tilts. Holds all Tandy monitors. Color and finish matches monitors. Base: 11 × 10¹/₄".
26-1369 16.95

Anti-Glare Mask

16⁹⁵

Cut Glare and Reflections

Nylon mesh screen improves contrast without loss of monitor resolution. Installs in seconds on Model I/II/III/4/12/16. 26-511 16.95

Deluxe Printer Platform

49⁹⁵

Stack Paper Under Printer
Printer not included.

Saves desk space. Elevates your wide-bed (132-column) printer so paper feeds from below (3" clearance). Smoked acrylic. 3¹/₂ × 22 × 16". 26-1383 49.95

TV/Monitor Screen Cleaner

3⁹⁵

■ 4 oz. Pump
■ Includes Lint-Free Wipe

Cleans smudges. Helps prevent dirt and dust build up. 44-1150 3.95

Flexible Cord Cover

11⁹⁵

Reduce danger of tripping on electrical and phone cords. 6 ft. 26-1379 ... 11.95

Automatic Power Strip

69⁹⁵

Simplify Your System

SW-301. Activates up to five peripherals when you turn on your computer. Two-stage surge protection. U.L. listed. 26-1429 69.95

Universal Printer Supports

19⁹⁵

NEW '86

Printer not included

Elevates printer so fanfold paper can be placed underneath. Use with 80-column printers. Durable crystal polystyrene. Easy to assemble. 26-1367 19.95

Anti-Static Mat

89⁹⁵

Chair not included

Drains static charges. Vinyl. 45 × 53". 26-1351 89.95

Anti-Static Spray

5⁹⁵

Helps eliminate problem-causing static. Safe. 26-515 5.95

Power Line Filter

49⁹⁵

Filters transients and line noise from appliances. Reduces interactions between peripherals. Features surge protection. Single switch controls eight outlets. 6.5A, 780W. U.L. listed. 26-1244 49.95

NETWORKING SYSTEMS AND VIS

Classroom Networks
Provide Shared
Learning Systems

Our Network 4
Brings Up to 63 Stations
Into One System

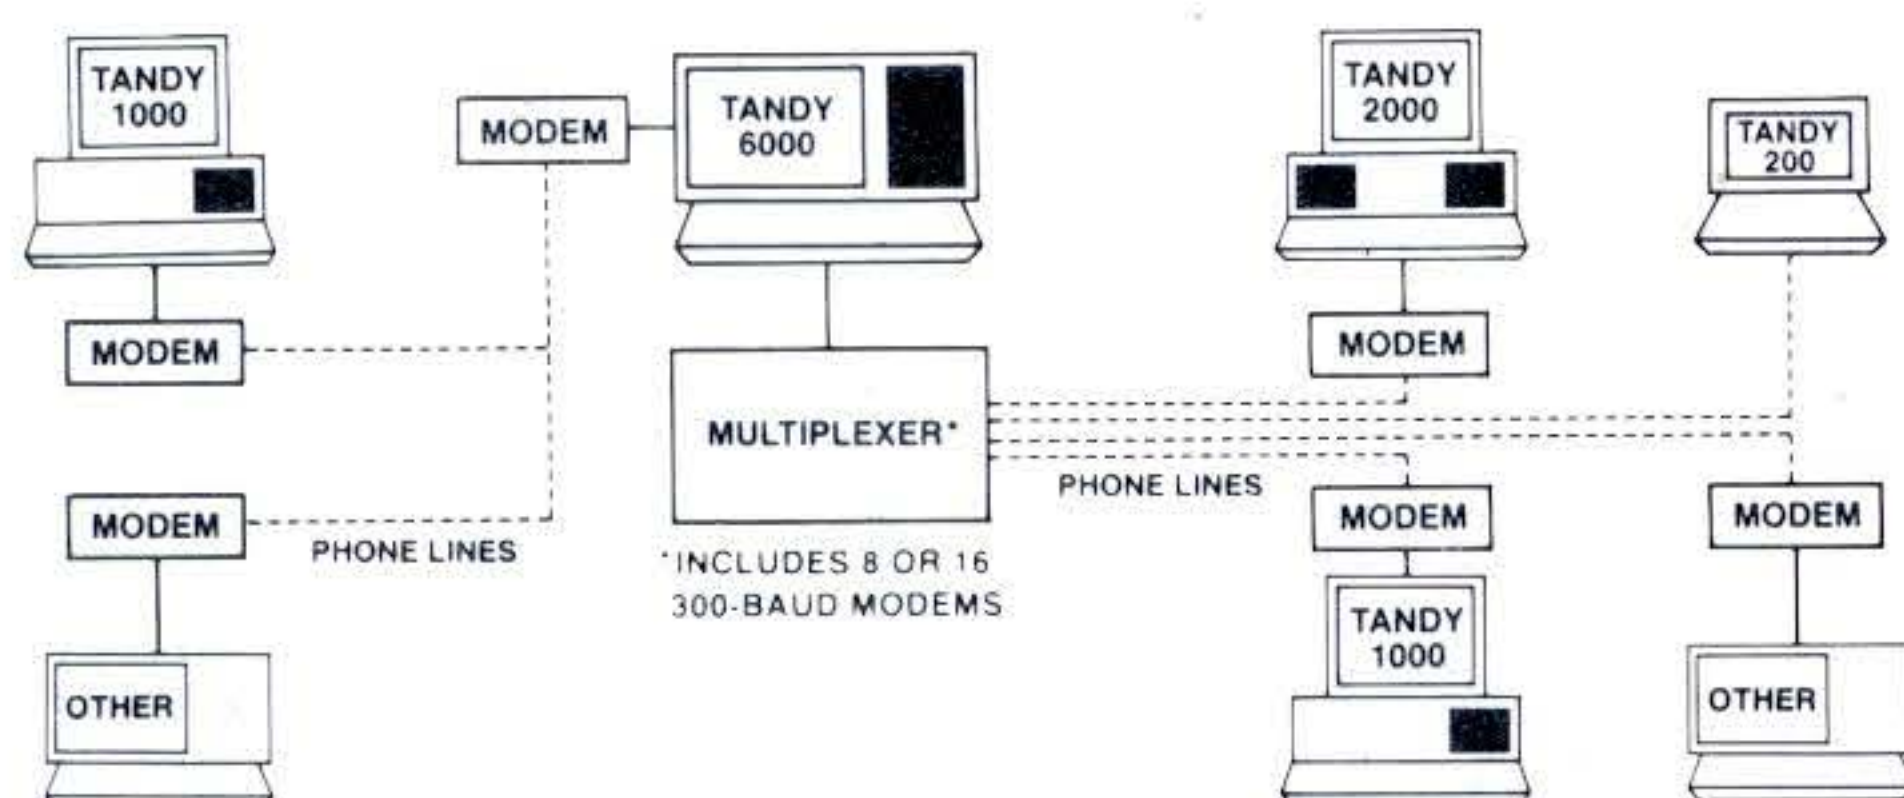

Classroom Network Systems

Network 4. Using a twisted pair cable, the Network 4 lets you connect up to 63 upgraded Model III or Model 4 computers to a master computer with a hard disk drive. The student stations can then share the hard disk, each station operating virtually as a stand-alone system under TRSDOS 1.3. Each user can quickly access programs, data files and storage areas on the hard disk as designated by the teacher. Student stations have full print capabilities at their own local printers. For remote printing, a spool utility directs print output to a file. Spool files can be printed on the printer connected to the master station or other dedicated station.

Network 4 Operating Software. 26-2773 230.00
Non-Disk Model 4 Student Station. 26-1058 1099.00

- Protect Information Through Multiple Security Levels
- Design the Information Base to Fit Most Any Application
- Access Information with Most Any Terminal

VIS[™] Videotex Information System

Videotex Information System (VIS). A versatile "Host" program that provides access to information through keywords or menus. The centralized storage of a VIS Information Base can contain organized collections of text, programs and graphics. A "public" VIS Information Base can be designed to allow access to classified ads or local activities for paid subscribers. Departments within large corporations require time-sensitive information distribution. A VIS Information Base can be designed to deliver this information and, at the same time, allow for the centralized storage of spreadsheet templates to be shared between the departments. A VIS user simply logs into the VIS Information Base and enters a request for information. This request can be in the form of keywords or menu options.

VIS Software. 26-6470 3500.00*

*Installation required (not included)

MULTIUSER TANDY 6000

512K 2-Disk
Priced From **4499⁰⁰**

Commercial Lease Available for Only \$160 Per Month
(Plus Applicable Use/Sales Tax)

- 512,000 Characters of Internal Memory—Expandable to 1 Million Characters
- Includes XENIX Multiuser Operating System
- Choose Two Built-In 1,250,000-Character 8" Floppy Disk Drives or Our Powerful System With One Floppy Drive and 15-Megabyte Hard Disk Built In
- Unique Dual-Processor Design ■ Four Internal Plug-In Expansion Slots

Tandy 6000. For many companies, it's hard to justify the cost of a separate computer for each individual who could benefit by using one. That's why we designed the Tandy 6000. It's ideally suited for today's offices, providing simultaneous job-handling *without* the expense of multiple computers. It offers the high operating speeds and large memory capacity that many business users require. And it can handle complex, computation-intensive jobs and highly sophisticated programs that only a 16-bit computer can.

What the Tandy 6000 Can Do for You. Now you can accomplish complex tasks with ease—the Tandy 6000 microcomputer puts superior performance in a compact desktop system! Advanced 16/32-bit technology permits the Tandy 6000 to utilize much more memory and process data at much higher speeds than 8-bit micros. The Tandy 6000 features 512K memory, easy user expansion and the latest version of the XENIX multiuser operating system that lets you turn the Tandy 6000 into a three to six-workstation office system for accounting, spreadsheets, data base needs and more. You can even choose the Tandy 6000 with a built-in 15-megabyte hard disk system!

Advanced 16/32-Bit Technology. The Tandy 6000 is designed around a state-of-the-art 68000 microprocessor that accepts 16-bit data and processes it internally as 32-bit "words". A second microprocessor—the Z-80A—handles input/output and a variety of other "housekeeping" chores.

Software Compatible With Model 12. The Tandy 6000 can use the software designed for the Model 12 business computer (in the single-user mode only), plus multiuser software and other programs that are designed to take advantage of the Tandy 6000's advanced 16/32-bit technology.

Expandable. Two RS-232C serial communication interfaces and a parallel printer interface allow expansion with a variety of peripherals. Add additional memory and other options via the user-accessible card cage. Expand with up to four external 70-megabyte hard disks for over 280 million characters of storage.

Deluxe Features. The Tandy 6000 includes a high-resolution 12" green video display with 24 lines of 80 characters, and a detachable typewriter-style keyboard with numeric keypad and 8 function keys. You can choose the Tandy 6000 with two built-in 1,250,000-character double-sided, double-density 8" slim-line floppy disk drives or one floppy disk and a hard disk drive.

512K 2-Disk Tandy 6000.
26-6021 4499.00
512K Tandy 6000 With Built-In Hard Disk. The same features as the Tandy 6000 described above, but includes a self-contained 1.25-megabyte 8" floppy disk drive *and* a 15-megabyte hard disk drive. Add one external hard disk for a total of 85 megabytes of hard disk storage!
26-6022 5499.00

SPECIFICATIONS. Microprocessors: 8 MHz MC68000 16/32-bit CPU and 4MHz Z-80A 8-bit CPU. Direct memory access and vectored interrupts. Memory management includes protected system mode and user spaces. **Memory:** 512K RAM bytes, expandable to 1 million bytes. 2K video memory. **Keyboard:** 82-key professional-type, including Numeric Entry Keypad. Special keys include HOLD, ESCape, BREAK, CTRL, CAPS and REPEAT, plus Up, Down, Right and Left arrow keys and eight programmable Special Function Keys (F1 thru F8). **Video Display:** High-resolution 12" green display monitor with 80 or 40 characters per line by 24 lines. Displays upper and lower case characters with descenders, plus 32 "business graphics" characters. Automatic scrolling. Partial screen scroll protect available. **Disk Drive:** Two built-in double-sided, double-density 8" slim-line floppies (or one floppy and one 15-megabyte hard disk). **External Expansion:** Add up to two 1.25-megabyte floppies and four 70-megabyte hard disks (one hard disk for 26-6022). **Internal Expansion:** User-accessible Card Cage provides additional plug-in card slots. **External Connections:** One standard parallel port and two RS-232C serial ports. **Dimensions:** 13 1/2 x 21 1/2 x 28 1/8". **Power Requirements:** Built-in filtered power supply for 120VAC, 60 Hz. U.L. listed.

EXPAND THE TANDY 6000/16/12/II

Deluxe Data Display Terminal

795⁰⁰

- 14" High-Resolution Screen
- 80 or 132 Columns by 26 Lines

DT-100. Fully compatible with most DEC and UNIX-based software systems. Features green display screen, a high-resolution character set (128 ASCII), 16 programmable keys, cursor control keys and numeric pad. Terminal configuration is set from the keyboard. U.L. listed. 26-6052 795.00

DT-1 Terminal. 26-6050 599.00

Serial-to-Parallel Converter. Attach a parallel printer to the DT-100 when running under XENIX. 26-1198 99.95

DT-100 SPECIFICATIONS. Data Transfer Rate: Up to 38,400 bps. Video Size/Format: 24 lines (plus 2 status lines) of 80 or 132 characters. Upper and lower case. Video Attributes: Normal, underline, reverse and dim. Input/Output: One RS-232C communications port and one RS-232 printer port. Power: 120VAC, 60 Hz.

10-Megabyte Disk Cartridge System

2195⁰⁰

Ideal for Hard Disk
or Floppy Backup

10-Megabyte Disk Cartridge System. Removable disk cartridge makes it easy to backup and store data. Get the flexibility of floppy disk storage combined with the high storage capacity and rapid access time of hard disks. Includes one 10-megabyte disk cartridge. U.L. listed. 26-1245 2195.00

10-Megabyte Disk Cartridge Kit. Add a second internal drive. Requires installation (not included). 26-1246 999.00

10-Megabyte Cartridge. 26-1372 89.95

Interface Kit for Tandy 6000/16. 26-6018 119.95

Interface Kit for Tandy 1000/1200/3000. Installation recommended (not included). 25-3022 199.95

Hard Disk Storage for a Powerful System

70-Megabyte System. Compatible with our XENIX system only. Use with our 12, 15 and 35-megabyte drives. Not compatible with 8-megabyte hard disk. Expand with three secondary drives.

Primary Drive. Requires cable kit and installation (not included). 26-4173 4295.00

Secondary Drive. Requires installation (not included). 26-4174 3895.00

Monitor sold separately.

- Comes with DeskMate™ Multi-Function Disk Software
- Includes Adapters for Monitor, Printer, Light Pen Interface and Joysticks—Plus a DOS and BASIC
- Get IBM PC Compatibility for Much Less—Choose From Thousands of Popular MS-DOS Based Software Packages

Tandy 1000. In price and performance, it's only natural to compare the Tandy 1000 with IBM's PC. After all, both let you choose from an astounding collection of MS-DOS programs, including Lotus 1-2-3, the pfs: series, Multiplan, MS-Word, dBASE II, DR Graph and many others. Buying an IBM PC, however, is like getting only half a machine. You'll also need to purchase adapters to use a monitor, printer, joysticks and light pen. The Tandy 1000 includes these adapters, as well as such "extras" as a disk operating system and BASIC. Indeed, an IBM PC equipped with these features, 256K RAM and a color monitor will run you over \$3153*. The equivalent Tandy 1000 is only \$1698.90 and gives you superior

RAM, expandable to 640K. Monochrome and Color Graphics Adapters are built right in for easy hookup to a monitor—and you can even connect the Tandy 1000 to any color TV**. There's also a three-voice sound circuit, plus a built-in speaker for sophisticated sound and music generation. 25-1000 999.00

Tandy 1000 HD. Now you can get a high-capacity business computer at a lower price than you ever dreamed. The Tandy 1000 HD comes with 256K memory and a built-in ten-megabyte hard disk drive. That's 10 million characters of fast-access storage for data base processing, inventory control, accounting and payroll. Best of all, the Tandy 1000 HD is only \$1999. An IBM PC *without* a hard disk is also \$1999*. Pick the 1000 HD and you've got a superior system—for much less. 25-1001 1999.00

DESKMATE®—NOW FOR MANY PC's

Included with the Tandy 1000 at No Extra Charge, and Now Available for Use With Other PC's for As Low As \$99⁹⁵

- Text Processing for Preparing Correction-Free Documents
- Convenient Electronic Filing Program
- Electronic Spreadsheet for "What If . . . ?" Calculations
- Telecommunications and E-Mail for Data Communications
- Calendar/Alarm to Remind You of Appointments

Tandy 1000 beats the crowd because this multi-function disk software is included at no charge! DeskMate lets you put your Tandy 1000 to work the minute you get it unpacked*. DeskMate is user-friendly, using the same commands throughout all applications. The system utilizes the Tandy 1000's control keys, so there are no complicated commands to memorize. Each day you'll be greeted by a menu that displays a calendar, appointment schedule and a list of each file stored for every function.

TEXT. Text processing made simple. Control-key editing features make it easy to compose and edit text right on the screen. Then print correction-free originals with an optional printer.

WORKSHEET. This electronic spreadsheet uses simple "plain English" entries to make complex calculations instantly! View countless "What if . . . ?" situations in seconds. You can print all or a portion of your spreadsheet. A valuable planning tool for everything from personal finance to marketing.

FILER. Create a name and address file, a small inventory list and more. Simple commands let you create and find files easily. You can sort files by one or more fields and also print your files in any order.

TELECOM. By adding an optional modem, DeskMate lets you communicate with a host computer, information service or another terminal. Information you receive can be saved, printed or stored on diskette for later reference.

Monthly Calendar with Current Date Highlighted

Appointment Calendar and Event Reminder

Function Menu Displays Your Files for Each Function, Plus Control Key Commands

CALENDAR. Set up an agenda for a month, as well as set your daily appointment calendar. Finding, adding and deleting events is easy. And you can also place events in an alarm file that will trigger an alarm through the Tandy 1000's built-in speaker.

MAIL. This special program lets you send and receive messages to and from other DeskMate users over the phone.

DeskMate for the Tandy 2000. 26-5316 199.95

DeskMate for the Tandy 1200, PC, Compatibles. 25-3166 199.95

DeskMate for the Tandy 3000. Includes MS-DOS/GW-BASIC. 25-4101 99.95

DeskMate for Model 4. 26-1608 199.95

DeskMate for the Color Computer. See page 52 for details. 26-3259 99.95

*DeskMate requires 80-column monitor.

Add Versatility to Your Tandy 1000

Touch Pad

A Touch Pad. Ideal for creating free-hand graphics—simply touch the tablet's surface with your finger or the included drawing pen. Use the Touch Pad like a joystick with Tandy 1000 or Color Computer games and programs.

26-1185 59.95

Color Mouse

B Color Mouse. Adds speed to games and graphics creation. Simply "roll" across tabletop to accurately position cursor. Use with all joystick programs.

26-3025 49.95

Deluxe Joystick

C Deluxe Joystick. You can feel the difference. Patented stick mechanism for more accurate cursor control and quicker response. Select "spring-centering" or "free-floating" operation.

26-3012 29.95

26-1245 2195.00

Interface Kit for Tandy 1000/1200/3000. Installation recommended (not included). 25-3022 199.95

10-Megabyte Cartridge. 26-1372 89.95

User-Installable Tandy 1000/1200 Expansion Boards and Options

300-Baud Modem Board. This easy-to-install board is entirely controlled by Tandy 1000 keyboard entries or software. Your Tandy 1000 can dial or answer the phone completely unattended. And you don't waste any desk space because this 300-baud modem fits right inside your Tandy 1000. Programmable for originate/answer modes and auto dial/answer. Get complete control through optional communications software, such as Videotex Plus or Telecom (with DeskMate). It can be used alone or operated with installed RS-232. Works with single-line or multi-line telephones. FCC registered.

25-1003 149.95

1200-Baud PC Modem. An auto-dial/auto-answer modem for the Tandy 1000/1200/3000, the IBM PC and PC compatibles. Features powerful automatic dialer commands that are compatible with virtually all communications software. Hayes® compatible. Switchable 1200/300-baud operation. Save time with faster transmission of data. FCC registered. 25-1013 .. 299.95

RS-232C Option Board. Lets your Tandy 1000 talk with other computers and access national information services, when combined with communications software and external modem. Use with high-speed modems or serial plotters and printers. Plugs into one of Tandy 1000's option card slots. 25-1006 99.95

PLUS RS-232C Option Card. Mounts on Memory PLUS Expansion Board to save a card slot, or use with PLUS Upgrade Adapter Board in a PC card slot. For 1000/1200/3000/PC/Compatibles. 25-1014 99.95

Hard Disk Controller Board. Allows you to add hard disk drives for up to 70 million characters of storage for data and programs. Compatible with most Tandy 1000 software—most programs transfer directly to hard disk. Includes cable for use with our 10, 15 or 35-Megabyte Hard Disks. 25-1007 299.95

Digi-Mouse Controller/Calendar Board. Dual-purpose board includes controller for Digi-Mouse™ and perpetual time/date clock so that you don't have to re-input time and date into your applications programs. Includes demo program and documentation on how to use the Digi-Mouse in your programs. Battery back-up. 25-1010 99.95

PLUS Digi-Mouse Controller/Calendar Board. Mounts on Memory PLUS Expansion Board to save a card slot, or use with PLUS Upgrade Adapter Board in a PC card slot. For 1000/1200/3000/PC Compatibles. 25-1015 99.95

NEW! PLUS Upgrade Adapter Board. Allows you to use PLUS Upgrade Boards in a standard PC card slot. 25-1016 14.95

Tandy 1000 Disk Drive Kit. Provides an additional 360K of disk storage. Mounts internally. Installation recommended (not included). 25-1005 199.95

Memory Expansion

256K Memory Expansion Board. User-installable board expands your Tandy 1000 to 256K RAM. Lets you add additional memory for total system size of 384K. Also includes Direct Memory Access (DMA)

controller which can speed up computer operations. 25-1004 239.95

Memory PLUS Expansion Board. Provides DMA and an additional 256K of memory—bringing your 128K Tandy 1000 to 384K. Add the 256K RAM Kit (below) for a full 640K. PLUS Expansion Board (RS-232 or Mouse) can be plugged into a special connector, saving a slot for other applications. 25-1011 319.95

256K RAM Kit. Installs on the Memory PLUS Expansion Board (#25-1011) to increase your Tandy 1000's memory to the system capacity of 640K. 26-6019 199.95

Memory Expansion Board. Uses an expansion slot to upgrade a Tandy 1200 to 384K or a Tandy 1000 to 512K. Also provides sockets for an additional 128K. For Tandy 1000/1200/PC/Compatibles. 25-1009 199.95

128K RAM Upgrade Kit. Use to upgrade your Tandy 1000 from 256K to 384K or from 512K to 640K. 26-5162 129.95

NEW! 256K Parity Memory Kit for 1200/3000. 25-3062 219.95

Text and Graphics Adapters

Graphics Display Adapter. Produces color graphics on CM-2, monochrome on VM-3. 25-3043 299.00

NEW! Deluxe Text Display Adapter. For use with CM-1/VM-1. 25-3046 249.95

NEW! Deluxe Graphics Display Adapter. For use with CM-1/VM-1. 25-3047 499.95

(Plus Applicable Use/Sales Tax)

Monitor and adapter not included.

Uses the Same Hardware and Software As IBM's 10-Meg PC XT

How would you like a system that works like an IBM PC XT—but costs \$2400 less? That's the Tandy 1200 HD—it's compatible with virtually all software and hardware for the IBM XT.

We Invite Comparison—Tandy® vs. IBM®

A Tandy 1200 HD, a VM-1 high-resolution monochrome monitor and Deluxe Text Display Adapter totals \$2448.90. A comparably equipped IBM 10-Meg XT totals \$4920*. Pick the 1200 HD and you save \$2471.10.

Or compare color graphics systems. A 1200 HD with CM-2 color display and color graphics adapter is \$2757.95. The comparable PC XT system is priced at \$5319*. Pick the 1200 HD and save \$2561.05.

This is great news for offices already using an IBM PC. You can expand affordably and continue using virtually all of the same quality software and expansion boards you've been using on your PC.

The Tandy 1200 comes with 256K RAM, expandable on board to a total of 640K. A standard parallel interface—an extra-priced option on the IBM—is included, too. The 1200 has seven expansion slots, and is compatible with additional boards made for the IBM PC, and available from leading vendors. The 1200 HD features a 360K floppy drive, plus an internal 10-megabyte hard disk drive. The 1200 features two thinline floppies. The 84-key detachable keyboard with tilt legs has the same layout as an XT, with improved placement of the shift keys.

The Best Choice in Software

The Tandy 1200 uses many popular MS-DOS packages that are available off-the-shelf, as well as other software designed for the IBM PC. Independent testing by Future Computing Inc. found the 1200 HD to be "operationally compatible with the IBM personal computer".

Tandy 1200 HD. Requires MS-DOS/Microsoft BASIC (below). U.L. listed. 25-3000 1999.00

NEW! Tandy 1200. Same as 1200 HD, but with two floppy drives instead of hard disk. U.L. listed. 25-3001 1499.00

MS-DOS (2.11)/Microsoft BASIC (2.0). 25-3130 89.95

DeskMate for 1200/3000/IBM PC/Compatibles. 25-3166, 199.95

SPECIFICATIONS. Microprocessor: Intel 8088. Clock Speed, 4.7 MHz. **Operating System (purchased separately):** MS-DOS 2.11 with GW-BASIC 2.0. **Memory:** 256K RAM, expandable to 640K. 8K ROM. Includes power-up diagnostics. Speaker included. **Keyboard:** 84 keys with improved key placement, LED indicators for caps lock and number lock, otherwise same placement and function as that of the IBM PC keyboard. Retractable legs, 6-ft. cable and tactile keyclick. **Video Display:** Either Deluxe Text Display Adapter (alphanumeric text and block graphics only) for VM-1 Monitor or graphics display in color (CM-2) or monochrome (VM-3). Graphics are 320 x 200 4-color or 640 x 200 monochrome. **Disk Drives:** 1200 HD—One 360K (formatted) 5 1/4" drive. One 10-Mb hard disk drive. Optional expansion with peripherals from other sources. 1200—Two thinline 360K (formatted) 5 1/4" drives. **Internal Expansion:** 6 "long" slots and 1 "short" slot for cards manufactured for the IBM PC. One slot each is used for the video display adapter, and hard disk controller. Includes Centronics parallel printer interface. Socket for 8087 math co-processor. **Power Supply Rating:** 130W. **Dimensions:** 5 3/4 x 19 x 15 1/3". Keyboard, 17 1/8 x 17 3/4 x 7 1/16". **Power Requirement:** 120VAC, 60 Hz.

*Based on manufacturer's pricing as of 9/1/85.

- Twice the Graphics Resolution of the IBM® PC, With Twice the Colors
- Dramatic Speed and Increased Storage Capacity Let You Perform Bigger Tasks in Less Time
- Ideal for Computer-Aided Drafting
- User-Expandable to Easily Meet Your Future Needs

High Technology...for Less

Like the IBM PC AT, the 256K Tandy 2000 performs two to three times faster than the IBM PC. Each Tandy 2000 disk drive offers over twice the storage of an IBM PC drive, but still reads and writes their format. Our color graphics are twice the resolution of COMPAQ or IBM, and offer twice as many colors. And all four of our user-accessible card slots are available for future growth. Check out the Tandy 2000...we invite comparison!

Advanced Color Graphics

The Tandy 2000's high-resolution graphics let you create razor-sharp charts, graphs and diagrams in a brilliant array of colors. And by adding our computer-aided design (CAD) software and graphics peripherals, the Tandy 2000 offers minicomputer performance at an exceptional low price.

Extremely High Speed

An 80186, true 16-bit CPU makes the Tandy 2000 dramatically faster than other MS-DOS computers. That means Tandy 2000 software runs faster, so you get the job done quicker.

Vast Storage Capacity

The Tandy 2000's two floppy disk drives let you store more documents and crunch through bigger tasks with ease. For even greater storage, the Tandy 2000 HD features a built-in 10-million-character hard disk drive.

Large Library of Proven Software

The industry standard MS-DOS operating system lets us bring you the most popular and sophisticated programs on today's market. Programs like Lotus 1-2-3, dBASE II, Multiplan, PFS:File, Multi-Mate, SuperCalc³ and many more. You can even exchange data between the Tandy 2000 and an IBM PC, using PC Maker™ (included at no charge). With PC Maker, you can create a disk that you can load and read on an IBM PC. You can also read PC disks on the Tandy 2000.

Flexible, Ergonomic Design

The Tandy 2000 easily adapts to you and your environment. In fact, you can actually "fine-tune" the modular system to your personal needs. Using our space-saving options, you have the smallest possible desk "footprint"—only 8½ × 12¼". And the low-profile, 90-key keyboard with 12 function keys and a 10-key numeric datapad assures fast, comfortable typing.

Easy Expansion Capabilities

Add expansion memory, stunning high-resolution monochrome and color graphics, our Digi-Mouse™ and more. And you can install most of these options yourself.

Compare the Tandy 2000 to the IBM PC and PC-AT

Feature	Tandy® 2000	IBM® PC	IBM® PC-AT
Microprocessor	80186	8088	80286
Clock Speed	8 Mhz	4.7 Mhz	6 Mhz
RAM Standard/Maximum	256/768K	256/640K	256/3 MEG
# Drives/Capacity	2/720K	1/360K	1/1.2 MEG
Monitor Support Included?	Mono	Option	Option
Printer Adapter	Included	Option	Option
Optional Graphics	640 × 400	320 × 200	640 × 348
RS-232 Adapter	Included	Option	Option
Price—CPU only (Mfr.'s list as of 7/1/85)	\$1599	\$1995	\$3995

Tandy . . . Clearly Superior™

At \$4995†, a similar PC AT configuration is \$2400 more than a 2-disk, 256K Tandy 2000. In fact, you can get a complete Tandy 2000 system with color monitor and graphics for just \$2757.90—still over \$1000 less than an AT without a monitor! Putting it simply, the Tandy 2000 delivers extraordinary quality performance at a remarkably low price.

256K 2-Disk Tandy 2000. 26-5103 1599.00
10-Meg Tandy 2000 HD. 26-5104 2499.00

TANDY 2000 EXPANSION OPTIONS

Digi-Mouse Two-Button Mouse

Plugs in for easy cursor movement in programs like Microsoft Word, DR Graph, DR Draw, and others. Requires #26-5144 (below). 26-1197 99.95

Digi-Mouse/Clock Controller

Dual-purpose board includes controller for Digi-Mouse and perpetual time/date clock so that you don't have to re-input time and date into your applications programs. Includes demo program and documentation on how to use the Digi-Mouse in your programs. Battery back-up. User installable. 26-5144 99.95

8087 Math Co-Processor Option

Upgrades your Tandy 2000 with additional circuitry to perform graphics-intensive tasks. Increases speed as much as 50%. Programs must be specifically written (such as VersaCAD and C Compiler) to take advantage of this option. Installation required (not included). 26-5143 499.95

128K RAM Module

Expands your 128K Tandy 2000 to 256K of memory, but does not use a card slot. Installation required (not included). 26-5160 179.95

Memory Expansion Board

Contains 128K of memory. Our 128K RAM Upgrade (#26-5162, below) expands this board to 256K. Two boards can be added. User installable. 26-5161 219.95

128K RAM Upgrade

Installs on Memory Expansion Board (#26-5161, above). User installable. 26-5162 129.95

New Low Price! 10-Megabyte Hard Disk Kit

Requires installation (not included). Was \$1299.00 in Cat. RSC-15. 26-5125 1000.00

Choose Your Display Monitor

We offer two display monitors for Tandy 2000 to suit your needs. Both the VM-1 High-Resolution Monochrome Monitor, shown, and the CM-1 High-Resolution Color Monitor tilt 5 or 10 degrees so you can find your best viewing angle, and each features an 80 x 25 display for easy viewing. The VM-1 has a 12" green phosphor, non-glare screen and can display optional graphics. The 14" CM-1 gives you vivid 8-color graphics with the Monochrome/Color Graphics options.

VM-1 Monochrome Monitor. Pedestal extra. 26-5111 .. 199.95

CM-1 Color Monitor. Requires #26-5140 and #26-5141 graphics options. 26-5112 599.00

High-Resolution Monochrome Graphics

Produce detailed business graphs, tables, charts and more on either the VM-1 Monochrome or CM-1 Color Monitor. 256,000 picture elements (640 x 400) produce amazing detail. User installable. 26-5140 299.95

High-Resolution Color Graphics Chip Kit

Create spectacular 640 x 400 color graphics on the CM-1 monitor. Displays 8 of 16 colors. Requires Monochrome Graphics Option. Does not use a card slot. User installable; however, installation by our technicians is recommended. 26-5141 124.95

Space-Saving Options

Tandy 2000 is more than just attractive, it's a milestone in ergonomic design. Choose the Floor Stand to position the CPU beside or under your desk to increase usable space. The compact Monitor Pedestal for your VM-1 monitor tilts and swivels for optimum viewing angle. The monitor and keyboard can be used up to 8 feet away from the computer. Using both the pedestal and floor stand, with the keyboard in your lap, you have the smallest possible "footprint"—just 8 1/2 x 12 1/4". And in the standard desktop configuration, the keyboard slides under the computer to minimize storage space.

Monitor Pedestal. 26-5115 89.95

Floor Stand. 26-5116 145.00

New! External Hard Disk Controller

Connect one external secondary hard disk drive (10, 15 or 35-megabyte) to a floppy disk-based Tandy 2000. Installation recommended (not included). 26-5127 350.00

Tandy 2000 Serial Expansion Board

Connect your Tandy 2000 to a mainframe computer, or hook terminals or additional serial devices to the Tandy 2000. Includes four serial channels with connectors. 26-5164 325.00

You can slide expansion boards easily into slots in the back of the computer (as shown above).

SPECIFICATIONS. Microprocessor: Intel 80186 processor with 16-bit data path. Clock speed, 8 MHz. Object code compatible with 8086/8088. Two direct memory access channels. Three programmable timers. **Operating System:** Includes Microsoft's advanced MS-DOS 2.11 with BASIC. **Memory:** 256K RAM with parity, expandable to 768K. Includes power-up diagnostics. Sound included. **Keyboard:** 90-key sculptured, including numeric entry keypad. Special keys include HOLD, ESCAPE, BREAK, CTRL, CAPS, INSERT, DELETE, HOME, Up, Down, Right and Left arrows. Twelve programmable Special Function keys. Retractable legs, 6 ft. coil cable and tactile keyclick. **Video Display:** Optional high-resolution, non-glare, non-interlaced 12" monochrome (green) or 14" color monitor. 80 or 40 characters per line by 25 lines. User-definable character set. Reverse video, underline, blank, blink, double-wide/double-high. Smooth scrolling and split screen. Optional high-resolution monochrome and color graphics (displaying 8 colors selected from 16—white, yellow, cyan, green, magenta, red, blue, black. Full and half-intensity). **Disk Drives:** Two built-in double-sided, double-density, thin-line 5 1/4" mini-floppies, with 720K per drive (formatted). 96 tracks per inch. Tandy 2000 HD has one 720K mini-floppy and one 10-megabyte hard disk drive. **Internal Expansion:** Four available user-accessible plug-in card slots. **External Connections:** Standard parallel port, RS-232C serial communications port, monochrome monitor, AC outlet. **Dimensions:** 8 1/2 x 12 1/4" footprint (pedestal base) when using floor stand and pedestal, keyboard in lap. 18 3/4 x 21 1/4" with monitor on CPU and keyboard under CPU. Keyboard 6 1/4" x 7 3/4". **Weight:** 41 lbs. **Power Requirement:** 120VAC, 60 Hz. U.L. listed.

- Software and Hardware Compatible with the IBM® PC/AT and PC/XT
- Uses the MS-DOS 3.1 Operating System
- 8-Megahertz 80286 CPU—Twice the Speed of Industry Standards
- XENIX Multiuser Capabilities
- 512K RAM, Expandable to 640K on the Main Board
- Ten Expansion Slots

Introducing the Tandy 3000, the affordable alternative to the IBM PC/AT. Here's the power to manage your business, to network computers, or to create a multiuser system for your office.

Unmatched Compatibility Gives You the Best Choice in Software

Our new Tandy 3000 is compatible with software designed for the IBM PC/AT and the PC/XT. Choose from advanced word-processing packages to heavy-duty database management and accounting software. But when it comes to the 3000's versatility, compatibility is just part of the story.

Multitasking, Multiuser Capacity

The Tandy 3000 is designed to use the XENIX 5.0 multiuser operating system. In such a configuration, multiple display terminals will be able to tap the high-performance 80286 microprocessor. Thanks to its high processing speed, two to six users throughout an office will be able to use the Tandy 3000 simultaneously. Each user can work independently on such products as accounting, word processing and electronic filing. All of the users can share the Tandy 3000's accessories, eliminating the need for a printer or modem at each workstation. Thus, each remote user has the power of a fully configured computer system for the price of a terminal.

Because of its speed and high storage capacity, the Tandy 3000 HD is the ideal "host" for data processing jobs like accounting, payroll and inventory systems.

Designed for High Performance

The Tandy 3000 comes with an Intel 80286 microprocessor for the ultimate in speed and performance. Its 16-bit architecture is designed to operate at 8 megahertz—twice that of the industry standard. The Tandy 3000 features 512K main memory and a high-capacity 5¹/₄" slim-line floppy disk drive. For compatibility, this drive can read 1.2-megabyte and 360K formats for use with IBM PC diskettes.

Or for maximum storage capacity, choose the Tandy 3000 HD. In addition to the floppy drive, the 3000 HD comes with a built-in 20-megabyte hard disk drive for fast access to volumes of important data.

Both versions of the Tandy 3000 feature a built-in real-time clock with battery backup for automatic posting of all jobs, process control and other time-sensitive applications. A serial/parallel adapter is standard, making Tandy 3000 ready to interface with peripheral devices like telephone modems, printers and plotters.

Remarkable Expandability

The Tandy 3000 is equipped with ten expansion slots, including seven PC/AT-compatible slots, two PC/XT-compatible slots and a PC/XT-compatible half-slot for the serial/parallel adapter.
