

# Program Catalog

For Your TRS-80® Color Computer

# You're about to discover why your TRS-80 Color Computer is . . .

**. . . fun that never stops!** Experience the excitement and challenge of playing action-packed video games! It's like having all the thrills, spills and chills of a coin-operated arcade right in your own home!

**. . . something for the whole family!** Flip through this catalog and you'll see programs that let you keep a budget, set up a household inventory, analyze investments, file and update recipes, solve problems, write themes and reports, store and retrieve data, access up-to-the-minute news and current stock quotes, make a home handyman's work easier, and much more.

**. . . a great educational tool!** Kids can learn to type, sharpen math skills, compose music, even improve reading. Get our "learning lab" package, and everyone will be writing their own programs with color and sound, too.

**. . . expandable!** Add more memory . . . an advanced BASIC language for high-resolution color graphics . . . disk drives for greater data storage and to use our powerful disk programs . . . a printer . . . and more.

**. . . an adventure just beginning!**

# Project Nebula—assignment: save your home planet!

You're in control of a starship cruising the universe. Fiendish aliens are all around. If they destroy you, the Earth is next. Punch up your long-range sensors and enter hyper-space to search out targets. Get them in your sights, then fire away! Use your maneuvering skill to rendezvous with the "home" space station and renew your power. Four levels of play, ten levels of difficulty. Unlike any other space adventure!

39<sup>95</sup>  
26-3063

## Polaris—a rain of terror is about to begin!

Red alert! Enemy missiles are headed straight for six friendly islands. Your orders—defend them with your fleet of three submarines. Intercept waves of smart bombs and multiple warhead missiles before they split up! You must be quick or you're doomed. Keep track of each sub's salvo or you'll run out at the crucial moment. Attack intensifies at each new level of play. Compete against yourself or with another "sub commander".

2995  
26-3065

## Clowns & Balloons—follow the bouncing clown!

Uh-oh, there he goes again! In the craziest circus act ever, you control two clowns with a firemen's net who keep bouncing a third clown up toward the ceiling. When the third clown gets high enough he begins popping the balloons floating by overhead—and collecting points in the process. But watch out! The better you get, the faster he bounces. If you miss him, he falls with a splat and a funeral march is played. Three levels of difficulty.

**29<sup>95</sup>**

26-3087

Avail. Fall '82

## Space Assault—defend earth from attacking aliens!

Your small force is all that stands between the enemy hordes and the destruction of our world! As the attack starts, quickly maneuver from behind your protective bunkers and blast away at the invaders. Watch out for enemy missiles—they can knock out your defenders and disintegrate your bunkers! Wipe out the first wave and new waves appear, firing ever more aggressively. When you're ready, try the expert level for the ultimate challenge!

29<sup>95</sup>  
26-3060

## Microbes—wipe out deadly globs of bacteria!

While peering through your microscope, you make a dreadful discovery . . . a deadly plague is beginning to spread. No one is immune—not even you! Quick . . . the antibiotic spray is your only hope! But the bacteria is too strong, splitting apart again and again each time you spray it. But don't give up . . . the germ's growing weaker. Hurry—more spray—got it! Now for the others! Fifteen levels of difficulty increase the challenge.

2495

26-3085

Avail. Fall '82

## Galactic Attack—shoot invading enemy spaceships!

The assault is launched! Enemy spaceships peel out of formation and dive bomb your fortification. If you destroy this squadron of 8 ships, the enemy reverts to a special "night" attack. Your video screen changes to an ominous color. But all is not lost. Destroy the first wave of "night" attackers and your points are doubled! So steady your nerves, keep a sharp look-out and start racking up points—the enemy is upon you!

29<sup>95</sup>

26-3066  
Avail. Fall '82

## Shooting Gallery—step right up, sharpshooters!

The carnival beckons—flashing lights, happy music, and the shooting gallery! Hit the moving targets—owls, ducks, rabbits, faces, rectangles and diamonds—each worth different points. Watch out for those faces! Hit 'em when they're smiling and you score. But hit a frowning face and it's no score and a wasted bullet. It even puts another rabbit in the game! Just one of the surprises, my friend. You get 10 turns—with fewer bullets each time!

29<sup>95</sup>

26-3088

Avail. Fall '82

## Super Bustout—an “off the wall” paddle ball game!

Get ready for some knock-down fun! Use your paddle to break through not one but three brick walls. The more bricks you knock out, the more points you get. It's doubly hard when you play with “gravity”. You'll have to strike the ball hard, or it won't even reach the walls above you. It's a lot of fun, and there are several ways to play—alone or with up to 3 competitors, on the same or separate courts, with the wall running vertically or horizontally.

**2995**  
26-3056

## Popcorn—catch the kernels as they pop!

Above you: five rows of popcorn. Below you: a conveyor belt. In-between: five frying pans. The challenge: catch the popcorn with your pans before it reaches the conveyor. Miss one and you lose a pan. Catch five rows and you get an extra pan. Now the heat is really on, and the action is a-poppin'! Kernels are exploding faster and it seems they're all falling at once. Coordination is everything as you progress through nine levels of difficulty.

**24<sup>95</sup>**

26-3090

Avail. Summer '82

## Pinball

You're a pinball wizard! Talk about realistic—you can even bump and tilt, just like a real pinball machine. Hit the circle poppers and knock-outs for points. Design your own customized playfield for faster, more complicated games. And with a cassette recorder, you can save your board designs on tape to play later!

**29<sup>95</sup>**

26-3052

## Football

Armchair quarterbacks arise! This is your chance to make a name in the big leagues. You quarterback the offense with a choice of five plays. Your opponent calls the defense to protect against the run or pass, or to blitz the quarterback. Cross the end zone for 7 points. Key players appear larger. Hut! Hut! Hut!

**39<sup>95</sup>**

26-3053

DOWN 1      YARDS TO GO 10  
RED-00      15:00      BLUE-00

## Quasar Commander

You're at the helm of a starship shooting through space on a seek and destroy mission. Use the Auto Pilot to lock in on enemy scouts, battle cruisers or decoys, then take command and fire the laser beams. "Home in" with radar option. You have complete speed and maneuver controls. Ten levels of difficulty.

Retail Prices in This Catalog May Vary at Individual Stores and Dealers

**39<sup>95</sup>**

26-3051

## Dino Wars

Dinosaurs roam the earth again! And the heat of battle fills the prehistoric air. Your dinosaur lumbers into position for a ruthless attack on your opponent's beast. It "screams" and hits the ground with a "thud." Dinosaurs "roar" and "yelp" as the conquest continues. Only the strongest will survive!

**39<sup>95</sup>**

26-3057

## Skiing

Hit the slopes in your own home with this challenging, three-dimensional "sport." Race against the clock as you maneuver through the "gates." You're greeted at the finish line with cheers, but your best time isn't recorded if you hit any flags or veered off course. Then master the ski poles and try other courses.

**39<sup>95</sup>**  
26-3058

## Wildcatting

One to four wheeler-dealers pick drilling sites. A surveyor's report gives the chances of striking oil. Watch out for dry holes! Hit a gusher and you're in the money—for awhile, anyway. Production soon decreases, and taxes and drilling fees start to mount. Earn the highest profits in 10 rounds to win.

**29<sup>95</sup>**  
26-3067  
Avail. Fall '82

## Color Cubes

Play that maddening cube puzzle on your computer! Set up any number of possible solutions. You can make up to 255 moves—even undo and redo them. Retrace and analyze your moves step by step. A great way to study this ingenious puzzle. Save your position on tape with a cassette recorder and continue later!

**29<sup>95</sup>**  
26-3075

## Micro Painter

An "electronic coloring book" that's fun for any age! Just load a picture into your computer and "paint" it the way you please. Choose from 3 palettes, each with 4 colors. Special "magnifier" aids in detail work. Draw your own pictures and save on tape with a cassette recorder. With 8 pictures (more on next page).

**39<sup>95</sup>**  
26-3077  
Avail. Fall '82

## Art Gallery—express yourself in color!

"Draw" landscapes, seascapes, still lifes, cartoons—whatever suits your artistic fancy! Use colors of your choice—red, blue, green, yellow, orange, magenta, buff and cyan! Special features let you change cursor size, connect points, fill outlines, draw triangles and diamonds, shrink the picture and add letters with simple commands. Those with 16K memory can add scrolling messages in a variety of formats. You can use joysticks (optional) like "paintbrushes"—one for the color, the other for the movement. Save your favorite creations on tape with a cassette recorder. Includes 27 images—add more below.

**3995**

26-3061

***Each display tape includes 12 scenes for use with Art Gallery (AG) and 12 for Micro Painter (MP).***

Images 1—(AG): skier, unicorn, motor-cycle, Washington, Lincoln—(MP): lion, castle, knight, witch, dinosaur, and more. 26-3300, \$8.95

Images 2—(AG): Christmas wreath, tennis, basketball, football, baseball—(MP): train, ducks, buffalo, flowers, Santa Claus, and more. 26-3301, \$8.95

Images 3—(AG): ballerina, cellist, pilgrims, deer, Tut's mask, Elvis, JFK—(MP): puppies, stagecoach, Nefertiti, chariots, and more. 26-3302, \$8.95

Bible Scenes—(AG): Noah's ark, David & Goliath, Nativity—(MP): Jesus & children, dove, Crucifixion, and more. 26-3303, \$8.95

Fantasy Scenes—(AG): dragon, warrior, elf, dwarf—(MP): wizard, orcs, runes, and more. 26-3304, \$8.95

## Chess

Challenge this worthy opponent to see who's really the champ. Computer will take you on in a fast, "blitz" game or a slow-paced, "masters" game—where it's thinking three moves ahead! Eight levels of difficulty in all. Handles castling and "en passant" moves. Use it to work out problems, play demonstrations.

**39<sup>95</sup>**  
26-3050

## Checkers

Playing against Gramps was never like this! Plug in this program and your Color Computer becomes a checkers champion. Beware of its treacherous strategies and maneuvers as you climb the eight levels of difficulty. Beat it at the top level, and you can take on anybody. Plays demonstrations, too.

**29<sup>95</sup>**  
26-3055

## Roman Checkers

The classic game of strategic placement—as easy to learn as checkers but as rewarding to play as chess. You play against your computer—at the skill level you've gained. It doesn't hold a grudge, but generously offers advice. You can take back moves if you like—or save whole games on cassette tape.

**29<sup>95</sup>**

26-3071

Avail. Fall '82

## Backgammon

Challenge your Color Computer in this ancient, international favorite. It's as tough as playing the local champion . . . maybe tougher. The computer will even double the ante when it thinks it has a lock—unless you do it first! The only question is how to make it pay up when you finally beat it!

**29<sup>95</sup>**

26-3059

## Bridge Tutor

A grand slam for beginning bridge players! One hundred different hands—each completely analyzed. You sit South and bid the hand you see. Computer will grade your bidding and give advice. During play, computer will handle East and West—but will still offer advice on your play from hand or dummy.

**3495**

26-3158

Avail. Winter '82

## Crosswords

Two great word games in one package—fascinating and educational for any age level. You work against the clock to make as many words as you can from letters on the screen. Or pick from a letter “pool” to make the highest-scoring word which will fit on the game board. It's the first word in fun!

**2495**

26-3082

Avail. Winter '82

## Pyramid

The ancient pyramid, dark and mysterious, stands before you. Does it still possess its treasures? What deadly curses must you overcome to retrieve them? By working carefully, the expert adventurer will pick his way past the hazards and gain the fabulous hordes. The neophyte—well, he'll learn in time.

**14<sup>95</sup>**

26-3310

Avail. Summer '82

## Raaka-Tu™

Temple of a forgotten civilization, Raaka-Tu lies open to the adventurer who is daring and clever enough to slip past its guards and reach the inner chambers. There are vast treasures to be gained here, but the way is tricky. You'll have to work skillfully, drawing on your knowledge of magic and medicine.

**14<sup>95</sup>**

26-3311

Avail. Summer '82

## Bedlam

You're "in" and you want to get out—the whole place is crazy! Can you trust Napoleon? Or the guy who calls himself X-Ray? What about the one who looks like a doctor, but is restrained like a patient? And it keeps on being crazy because the way out changes every time through. It's Bedlam!

**14<sup>95</sup>**

26-3312

Avail. Summer '82

**Retail Prices in This Catalog May Vary at Individual Stores and Dealers**

## Bingo Math

Makes math fun! Kids improve their arithmetic skills while competing against each other, their own previous scores or, in Speed Math, against the clock. Number Hunt helps pre-schoolers learn numbers. Bingo Math and Speed Math have graded difficulty levels so kids can take on older kids and parents.

**2995**  
26-3150

## Music

Ever wonder how Bach—or the Beatles—did it? Get our Music program and try your wings as a composer. You don't even have to be a musician. Just follow the easy instructions and soon you'll be writing melody, harmony, counterpoint. Save your favorites with cassette recorder—maybe they'll be a hit!

**2995**  
26-3151

## Typing Tutor

Build your touch typing speed and accuracy. Start with the alphabet and work up to numbers and symbols—at your own rate. Program monitors your progress, reports on speed and errors, and designs further exercises to correct problems. Great for beginners and for review by experienced typists.

**29<sup>95</sup>**  
26-3152

## Audio Spectrum Analyzer

Test your audio equipment—color bar graphs show power distribution over nine octaves in  $\frac{1}{3}$  octave segments from 31.5 to 12,500 Hz. Or just enjoy a kaleidoscope of dancing patterns. Cassette cable, mini-amplifier, microphone needed for some features.

**19<sup>95</sup>**  
26-3156

## Personal Finance

Want to know where your money is going, as compared to where you want it to go? You can make a complete budget breakdown with check register and balancing program. Set up to 26 budget categories, review expenditures on a year-to-date or category basis. Learn where to correct bad financial habits!

**39<sup>95</sup>**  
**26-3101**

## Investment Analysis

A tremendous help to both the novice and experienced investor in analyzing personal investments. Great for comparing various financial offerings. Easily figures interest, loan amortization, retirement needs, and stock and bond yields. Save on cassette tape to review or update records.

**39<sup>95</sup>**  
**26-3102**  
**Avail. Fall '82**

## Color File

Say goodbye to cluttered drawers stuffed with addresses, warranties and personal records! Color File lets you quickly and easily store, retrieve and use information. Alphabetize, examine, print or change your info, then save it on tape with a cassette recorder. Seven ready-to-use files, or create your own!

**29<sup>95</sup>**  
**26-3103**

## Handyman

Embarking on do-it-yourself home improvements? Lawn projects? Just feed in the measurements and Handyman will tell you how much lumber, paint, insulation, fertilizer, sand, gravel, etc. you'll need. Helps you compare prices, too.

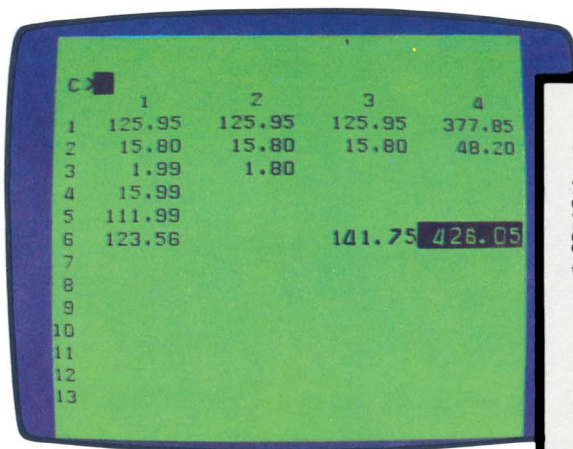

29<sup>95</sup>  
26-3154

# Spectaculator—time-saving planning tool

Do your planning, forecasting and problem-solving with this "electronic worksheet." Just enter numbers and formulas, and Spectaculator calculates and displays the results automatically! Enter new figures and it updates every related number. Features up to 99 rows and columns. You can add headings and labels, and "erase" your worksheet while leaving the format and formulas intact. Print your worksheet or save it on cassette tape.

**39<sup>95</sup>**  
26-3104

# Color SCRIPSIT™ — low-cost word processing

Color SCRIPSIT word processing puts an end to erasing, strikeouts and messy correcting fluids! Type-in and edit your letters, themes and reports right on the TV screen, then print them "correction-free"! It's easy to insert, delete, move and duplicate words, sentences, even whole paragraphs. Includes advanced features, like text search and replace, too. Outputs upper and lower case to printer. Requires cassette recorder (for text storage) and printer.

Since 1969, our college has emphasized adult education. In your interests are practical, and you want to enroll in one of our courses in real estate, accountants or business administration. Or, if your interests are cultural, you may want to take a course in photography, art, creative writing, or music.

#### Curriculum For Better Living

This year we have added a new category of courses to our continuing education program. The "Curriculum For Better Living" offers courses for those who want to explore the often unspoken problems and solutions that confront us in everyday life.

For further information, please contact our registrar located in your local community center.

Thank you for your time.

# TRS-80 VIDEOTEX—keeps you up to date

TRS-80 VIDEOTEX is like having a newspaper delivered right inside your Color Computer! You get access to news services like CompuServe® and Dow Jones News/Retrieval®. They bring you up-to-the-minute news day or night, major daily papers, current stock market information, reference material, "electronic mail," games, even workspace for programmers—all for a low hourly charge. Includes one free hour on both services! Requires modem.

**29<sup>95</sup>**  
**26-2222**

**Direct-Connect Modem I**  
**(shown at right)**  
**#26-1172, \$149.00**

## Card Games

Take a hit or stand? Computer plays the house hand expertly—can you beat it? Besides Black Jack, you can play Solitaire and Solo Poker. Small fry will go for Last Pirate—trying to keep from ending up with the last card, Go Fish—the kiddy classic of strategy, or an all-out, salvo-trading game of War.

**1995**

26-3320

## Diagnostic ROM

Make sure your Color Computer is in tip-top shape with this diagnostic program. You can test BASIC and Expansion ROM, RAM, video, RS-232, cassette and printer ports, sound and keyboard. Just for fun, the joystick test lets you “paint” the screen with dual cursors in four colors. Optional equipment may be required.

**29<sup>95</sup>**

26-3019

# Editor/Assembler with ZBug

If you want to by-pass BASIC and move directly to the speed and efficiency of machine language programming, then this program is for you. With it you can develop your own 6809 software for storing on audio cassette. Features include trial assembly and execution of your program in-memory before final assembly to tape, an editor that enables you to change your program and re-assemble, and ZBug for quick and easy debugging—all in one Program Pak.

WITH ZBUG**

## **"Reading is Fun" Series**

Radio Shack's "Reading is Fun" packages are an entertaining way to learn at home. Your child learns through reading, listening, and drill. Package includes an illustrated reader, a read-along audio cassette tape, and a computer tape which presents spelling and vocabulary exercises based on words in the story.

### **Dracula**

The classic tale of the horrible vampire Count Dracula, his evil deeds and his final destruction by Dr. Van Helsing.

**14<sup>95</sup>**  
26-2550

### **The Hound of the Baskervilles**

Master sleuth Sherlock Holmes expertly unravels the mystery surrounding the Baskerville family.

**14<sup>95</sup>**  
26-2551

Retail Prices in This Catalog May Vary at Individual Stores and Dealers

## **"Reading is Fun" Series**

Exercises are selected randomly by the computer from numerous exercises stored in the computer programs. This allows your child to repeat lessons again and again without seeing the same exercises in the same sequence. A great "home tutor" for children reading at grade levels 4-6.

### **Moby Dick**

The timeless story of the ship Pequod's voyage and the mad Captain Ahab's fateful hunt for the great white whale, Moby Dick.

**14<sup>95</sup>**  
26-2552

### **20,000 Leagues Under The Sea**

A fantastic under-sea journey around the world with Nemo, captain of the giant Nautilus submarine.

**14<sup>95</sup>**  
26-2553

## Color Computer Learning Lab

---

The best, most complete hands-on programming course we've ever seen. You'll learn Standard Color BASIC on your computer. Initial lessons have a "monitor" that watches your entries and indicates any mistakes. Each program teaches you something new and provides a game to apply what you've learned. There are 22 programs discussed in 30 lessons. Includes 200-page manual and eight cassette tapes. Cassette recorder required.

**49<sup>95</sup>**  
26-3153

## Expand for Added Versatility

Expand your TRS-80 Color Computer with high-resolution graphics and more memory for advanced applications!

**16K RAM Upgrade Kit.** Converts a 4K Color Computer to 16K. 26-3015, \$99.

**32K RAM Kit.** Converts a 4K or 16K Color Computer to 32K. 26-3017, \$149.

**Extended Color BASIC ROM Kit.** Upgrades a 16K or 32K Color Computer to 256 x 192 graphics. Create advanced graphics with just a few one-line commands! 26-3018, \$99.

### Joystick Controllers

**2495**  
Pair  
26-3008

Joysticks give faster, more realistic action to many games! Use joystick instructions in your own programs, too! On-screen objects can be made to simulate 360° movement. Each has a "single-shot" button. Easy hookup.

# Add Disk Storage to Your Color Computer

Now you can have increased capacity to store and quickly access complete programs and large amounts of data with your TRS-80 Color Computer. Just add a Color Disk Drive and you'll have a full 156,672 characters of storage. You can add up to three more drives for a total system capacity of over 626,000 characters.

Installation is easy. You simply plug the Color Disk Drive cable with the attached Program Pak into the computer's cartridge port and you're all set. The Color Disk Operating System is completely contained in the Program Pak, so the full 156K-byte disk capacity is available for on-line data storage. If you're familiar with writing programs in Extended Color BASIC on your TRS-80 Color Computer, you won't even have to learn a special operating system language. Your first drive includes one 5 1/4" double-density, 35-track floppy disk drive, direct-connecting cable for up to two drives, plus Program Pak cartridge containing Color Disk BASIC, one blank 5 1/4" diskette, reference manual and operator's instructions. To use disk drives, your TRS-80 Color Computer must have at least 16K memory and Extended Color BASIC.

1st Drive

# Color SCRIPSIT—Disk Edition

A more powerful version of our Color SCRIPSIT word processing program (see page 26). Now get upper and lower case characters displayed on the screen as you're typing. You can even print one document while working on another. Print elongated characters with the TRS-80 Line Printer VII or VIII. Line Printer VIII also prints underlined characters. Quickly store and retrieve your text on disk for later use. Load text from cassette tape, too. Easy to use.

Now you can have increased capacity to store and quickly access complete programs and large amounts of data with your TRS-80 Color Computer — just add one or more Color Disk drives with Disk Color BASIC. Check the many advantages: Plus-in Program Pak controller allows quick and easy attachment of disk drives to your Color Computer; does not require the user to understand an "operating system" or learn an alternate operation mode. Mem=00002 Line=032 001-032

**26-3255**  
**Avail. Fall '82**

Key/Command	Function
Insert	Moves cursor left one column when inserting text; deletes character as cursor moves left.
Left arrow	Moves cursor left one column when inserting text; shifts one character following cursor left if you were typing blank.
Right arrow	Moves cursor right one column when inserting text; shifts one character following cursor right if you were typing blank.
Up arrow	Moves cursor up one line.
Down arrow	Moves cursor down one line.
Shift L.A.	Moves cursor to start of text.
Shift R.A.	Moves cursor to end of text.
Shift P.A.	Tab key moves cursor to right to next tab setting or to end of line; when inserting text, moves cursor right to next tab setting or to end of line, while inserting spaces (deletes memory).
Shift L.B.	Back-tab key moves cursor left to previous tab setting or to beginning of line; when inserting text, moves cursor left to next tab setting or to start of line (does not affect memory).
Shift D	Changes upper/lower case letter mode to upper case (only press again to go back to active both upper and lower case letters).
Break	Shows (LEAD, HEND, FIND, REPLACE, CHANGE string, HYPERMATION, GOTO, LOAD and PRINT functions).
Enter	Ends a line or paragraph; cursor will move to next line.
Clear	Deletes character under cursor; use when finished inserting text. (Break 3) shows DELETE/WORD/CHAR functions before marking the end of the block; deletes blank after marking the end of the block.
Shift Clear	Deletes word.
Break 1	Returns to Main Menu.
Break 2	Reverses the colors used to indicate upper and lower case letters; makes upper-case text easier to read when the graphic display is turned off; press again to go back to original color scheme.
Break 3	Shows up a gap in your text to allow inserting text.
Break 4	Prints the line the cursor is on.
Break 5	Safe tabset; press again to delete tabs.
Break 6	Changes line alignment.
Break 7	Finds and/or changes strings of characters.

# Spectaculator—Disk Version

The new disk version of our original Spectaculator (see page 25) lets you do much larger planning, forecasting and problem-solving jobs. Now you can quickly save your worksheets to disk for later revision and use. Calculations are automatic, including the ability to run totals of each column and the grand total. Add a printer and get a listing of any portion of your worksheet. It's so easy you'll never use pencil, paper and calculator again!

# The Excitement Never Ends with TRS-80!

---

**Coming Soon—Filing System on Disk!** No more hectic searching for needed info! It's a breeze to keep up with addresses, home inventories, warranties, investments and more because it's all on one convenient disk! This new disk filing system will let you store and retrieve information quickly and efficiently. You can alphabetize, select, examine, print, change and save data at will! Use the standard files already set up or create your own.

**Coming Soon—Editor/Assembler on Disk!** Program in machine language for more efficient memory use, faster execution, and when developing real-time games. You enter the source code, consisting of abbreviations and symbols. Then it's converted into an object code—which the computer understands—and is assembled directly into memory. This eliminates the constant loading and relocating of programs, and makes more of your computer's RAM space available to your program. A "debug" utility lets you test programs quickly.

## Complete Your System With a Printer

Get high-density black and white printouts of Color Computer graphics with the Line Printer VII. Also prints 80 upper and lower case dot-matrix characters on an 8" line. Uses standard 9½" fanfold paper. (Requires cable, 26-3020, \$4.95.)  
26-1167, \$399.00
