

Tandy Computer Centres Mean Total Customer Support

The Only Location Where You'll Find the Complete Line of
TRS-80® Computers, Accessories, Software, and Special Services

Tandy Means Total Support — Before

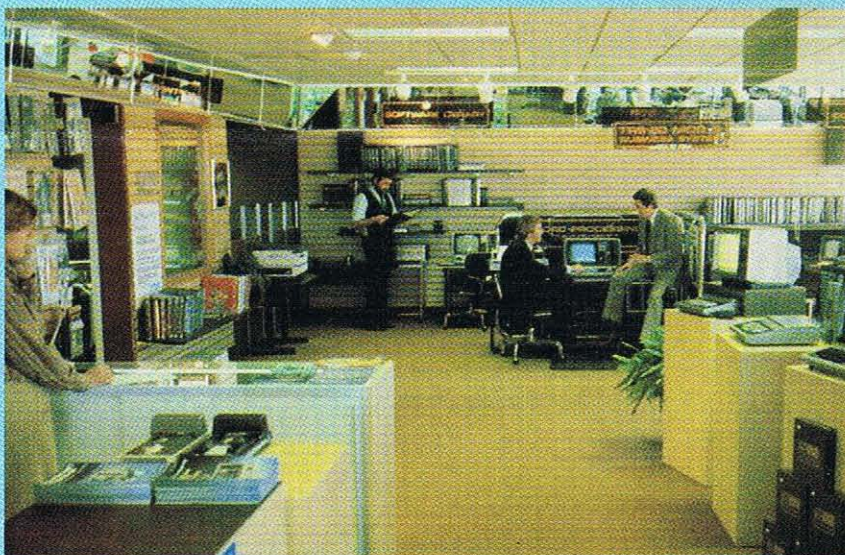

Total Support Means . . . A Professional Staff

Tandy Computer Centres are staffed by trained experts who can help you reach a decision on just the TRS-80 computer system you need. How? By understanding your needs, and by answering all your questions in plain English. They can explain leasing, service, and training plans, too.

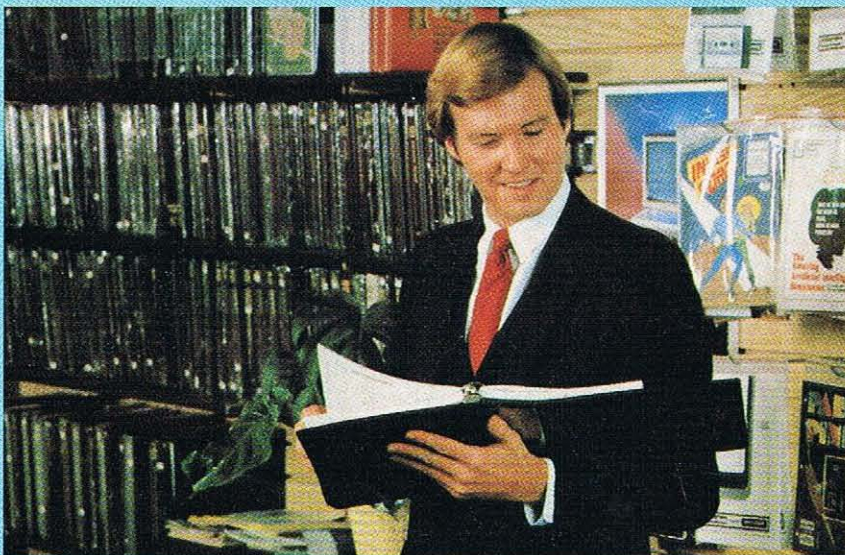

Total Support Means . . . More Than Just Computers!

Computer Centres offer you a full line of TRS-80 peripherals, software, and other business-related accessories, including telephone dialers and answerers, system furniture, computer stationery, and more. All this, in addition to the world's best-supported microcomputer — Tandy's TRS-80!

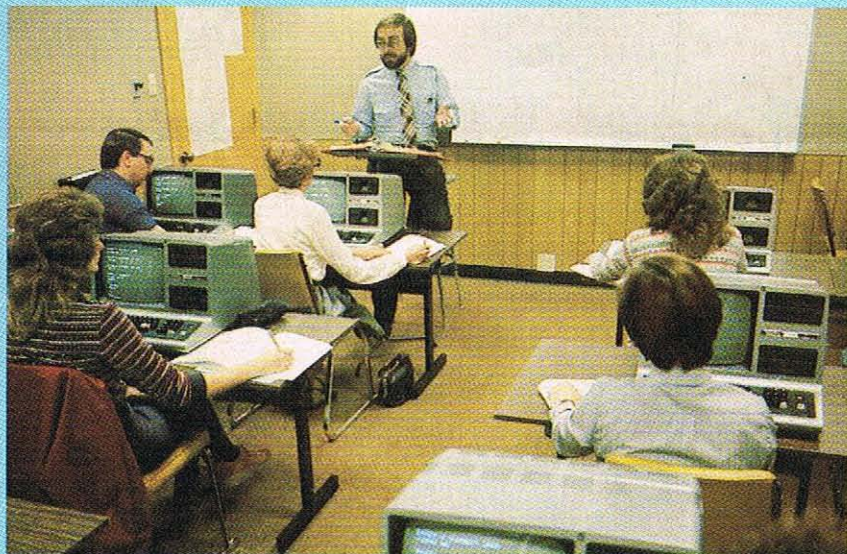

Total Support Means . . . Quality Software At Low Prices

A Computer Centre is the place to find the quality TRS-80 software you need. We offer more ready-to-run programs that any other microcomputer manufacturer. We have programs for business, industry, education, the professions, personal applications, even games! And, you can choose our software packages "right off the shelf" because they're in stock at Computer Centres nationwide.

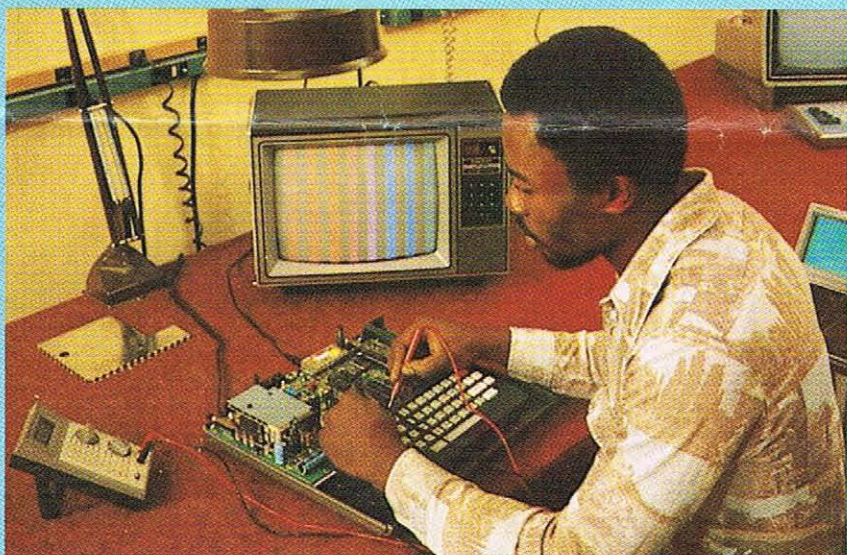

During . . . and After the Sale!

Total Support Means . . . Complete Training Facilities

Our professional seminars will acquaint you and your personnel with our TRS-80 computer systems. You'll get "hands-on" experience, because you'll be using the TRS-80 while you learn. Develop BASIC programming skills, learn specific business applications and more.

Total Support Means . . . Keeping Your System Up and Running

Service is available through all of our Computer Centres. You'll receive the kind of prompt, courteous attention you expect. We want to get you back in service as soon as possible. That's why Tandy offers affordable "On Site", "Extended Warranty" and "Express Maintenance" Service Agreements.

Total Support Means . . . Prompt, Personal Assistance

Our Customer Service representatives are devoted to helping you with any after-the-sale questions or problems. You receive complete technical assistance and support, whether you've purchased one system or one hundred. Tandy Computer Centres simply give you the best support you'll find *anywhere*.

TRS-80 Model 4P A Portable with Desktop Features

- 64K Memory — Expandable to 128K
- Use Extra Memory as a Super-Fast RAM-Based "Disk Drive"
- CP/M-Plus Software Compatibility
- Two Built-in 184K Double-Density Disk Drives

The new TRS-80 Model 4P "portable" computer has all the features of a powerful desktop micro. Use it in the office for accounts, inventory, word processing and forecasting. Transfer it from office to office or take it home to catch up on work. Model 4P's brilliant features make your job so much easier. Unlike many other portables it has a full 80-column x 24-line screen display.

The typewriter-style keyboard features CONTROL, CAPS, numeric keypad and three function keys. A Print Spool enables simultaneous entry/printing of different programs and a Job Control Language performs unsupervised tasks. But Model 4P is not only powerful, it's versatile. You can run existing TRS-80 Model 4 and thousands of CP/M-Plus based programs to meet any application. 26-1080

TRS-XENIX™ Multi-User System Complete 3-Workstation Office System

- Allows Three Operators to Access Different Programs Simultaneously
- Derived from Western Electric's UNIX™ Operating System
- Specially-Designed Multi-User Software Available Now

Ideal for Small Business Applications. TRS-XENIX lets you provide the power of the Model 16B to three people in your office without buying three separate systems. Think of it. Three people. All performing different tasks, all at the same time, on the same computer! And with the addition of the new 3-User RS-232 Card (below), up to six people can utilise the Model 16B!
