Show and Spell

Cat. No. 26-1712

Suggested Retail Price (may vary at individual stores and dealers) \$29.95

Description

Show and Spell is a home instruction program designed to help children from preschool to second grade in developing fundamental spelling skills.

Format

The program is provided with one Program Tape (Two Programs), Four Data Tapes and an instruction manual in a three-ring binder.

Minimum Hardware Requirements

- 4K Level II TRS-80 Model I Microcomputer

Detailed Description

The Show and Spell program tape is used with one of the eight data sets found on the four data tapes. Each of these data sets provides drill in one of the following areas (Note more than one data set may provide drill in an area):

- Alphabet
- Beginning Sounds
- Ending Sounds
- Vowels and Blends
- Three-Letter Words
- Word Patterns
- Action Words, Position Words, Compound Words, Days of the Week, and Numbers

Each Data tape has two levels or modes of difficulty. The first is the Tutorial Mode in which the child matches a word's spelling letter for letter. The second is the Drill Mode in which the child chooses letters which complete the beginning, ending, or entire spelling of a word.

Included with the package is a Utility tape which allows you to create your own data tapes to be used with the Show and Spell Program Tape. This utility allows you to expand your child's vocabulary and spelling abilities at any time.

Your child's interest is maintained and learning facilitated by the use of pictures (graphics) to represent the words being spelled. The Utility program includes a graphic mode to enable you to include graphics in the tapes you produce.

Information is presented in short sections (three words at a time) to help maintain concentration, and to provide your child with constant review of material covered. If a word is missed, the child is given a chance to spell it correctly during the review.

To aid you in assessing your child's progress, a "score" is provided at the end of each word list to give you the number of correct and incorrect spellings which were made.
