

Tandy's TRS-80 Color Computer Adds Color And Sound To Personal Computing!

NEW to Australia! Tandy Electronics introduces the TRS-80 Color Computer.

Set to add a new and exciting dimension to the world of personal computing, the addition of colour and sound will make programmes come alive as you and your family enter a new era of the computer revolution.

A Tandy TRS-80 Color microcomputer, with our range of ready-to-run software, will involve every member of the family.

Apply the Color Computer to family/household management, use it as an educational aid for your children, or have hours of family fun as the Color Computer becomes an entertainment centre with our increasing range of game programmes, that feature full, vivid colour and exciting sound effects.

And remember, TRS-80 Color Computer is backed by the full resources of Tandy Electronics — a tradition of service, and product reliability.
