CUSTOMER SERVICE BULLETIN

NO.

0316-04

Description TRSDOS 6
Model 4
Stock No. 260-0316
Date OCT 24, 1985

***** PURPOSE *****

Our records indicate that you are the registered owner of TRSDOS 6. A new release of this operating system is now available which incorporates fixes and desirable enhancements to previous versions.

* * UPGRADING TO THE NEW RELEASE OF THIS OPERATING SYSTEM IS REQUIRED * *

***** DISCUSSION *****

If you are presently on a version of TRSDOS earlier than (i.e. a lower number than) 06.02.00, you must first acquire Version 6.2 by ordering stock no. 260-0316, which is available now through the month of December 1985 for the special price of \$24.95 (U.S.). (After December 31, 1985, 260-0316 will return to its regular catalog price.) The version number you will receive is 06.02.00. To complete the upgrade to 06.02.01 you will need to apply the PATCHES available on stock number 700-2298 (\$10 U.S.). We urge you to complete this upgrade at your earliest opportunity.

When you have fully upgraded your operating system, you will be using Version 06.02.01 of TRSDOS. Be sure to mark this version in your SOFTWARE VERSION LOG. (Contact a Radio Shack Computer Center, Radio Shack Plus Computer Center, or Participating Radio Shack Dealer if your OWNER'S MANUAL does not contain a Software Version Log.)

You may continue to use any prior version of TRSDOS 6; however, please be aware that starting January 1, 1986, the 06.02.01 operating system will be the only one supported by Radio Shack personnel.

Please check the front and back of all of your software manuals and be sure that all SOFTWARE REGISTRATION CARDS have been mailed to us. This will ensure that you receive notifications about required changes to other packages you own.

Letters will come direct to you when patches or changes are REQUIRED. Other, OPTIONAL patches or changes may be available for your software. Contact your local Radio Shack store for further information about possible optional patches.

***** PROCEDURE *****

As previously stated, to apply the version 06.02.01 upgrade, you must first have the 06.02.00 version of the operating system. To purchase the 06.02.00 version or to obtain the upgrade diskette, contact a Radio Shack Store or Participating Radio Shack Dealer and make arrangements for the appropriate item(s) to be ordered for you.

Cat. # 260-0316 (Brown Binder) TRSDOS Operating System 06.02.00 \$24.95(U.S.)
Cat. # 700-2298 TRSDOS Op Sys from 06.02.00 to 06.02.01 Upgrade \$10.00(U.S.)
