| Description | Inventory Control |
| Model | III |
| Stock No. | 26-1553 Version 04.00.00 |
| Date | April 19, 1984 |
| Page 1 of | 1 |

Problem

Version 4.0 allows a search on a partial part number - for instance, "AR21" will find "AR21", "AR21234", etc. Some users do not want the scan feature.

* * THE FOLLOWING CHANGE IS OPTIONAL! * *

Solution

There are two ways to defeat the scan feature:

- (a) put a space after the part number when searching. (i.e. "1553 ").
- (b) make the following change:

1. BACKUP the diskette(s) and make the following changes to the BACKUP copy of the program.
2. In BASIC, load the program by typing LOAD"ICS".
3. Make the following corrections (retype the line or refer to the EDIT section of your computer OWNER'S MANUAL):

OLD LINE: 2440 J=V:GOSUB2630:IFINSTR(N\$,IS\$)=1THENIS\$=N\$:GOTO2470

NEW LINE: 2440 J=V:GOSUB2630:IFINSTR(N\$,II\$)=1THENIS\$=N\$:GOTO2470

4. Save the program by typing SAVE"ICS".
5. At TRSDOS READY, make a BACKUP copy of the corrected diskette.

If these OPTIONAL changes are made, a notation should be made in the Version Log; however, the Version number will remain 04.00.00 after making these changes.
