400 Atrium—One Tandy Center, Fort Worth, Texas 76102

Bulletin No.	1604-03
Description	VERSAFILE
Model	Model I/III
Stock No.	26-1604 Version 3.0
Date	August 11, 1982
Page 1 of	2

Problem

Subscript out of range or out of string space.

* * THESE LINE CHANGES ARE REQUIRED! * *

NOTE: This problem will normally not occur unless large number of long records are found in a global search.

Solution

This patch (1) segments the global search into 100 record groups on a 32K computer, and (2) allows multiple-consecutive-word searches, as in 'THE FIRST RECORD', which will be treated as one keyword. In order to enter multiple word keywords, type (for instance) 'THE+FIRST+RECORD', using the '+' sign instead of a space.

The problem is corrected by following the steps listed below.

1. Backup the diskette(s) and make the changes on the Backup copy of the program.
2. In BASIC load the program by typing LOAD"VERSA".
3. Make the following corrections:

CHANGES (Retype the line or refer to the Edit section of the owners manual)

Old Line: 110 CLEAR13000

New Line: 110 CLEAR13000:IFMEM>50000THENCLEAR25000:MM=200ELSEMM=100
