Radio Shack® CUSTOMER SERVICE BULLETIN

400 Atrium—One Tandy Center, Fort Worth, Texas 76102

Bulletin No.	4507-04
Description	MAILING LIST II
Model	Model II/12
Stock No.	26-4507 Version 02.00.00
Date	April 19, 1984
Page 1 of	1

Problem

The U.S. Postal Service requires a 10 digit Zip Code with a hyphen between the first five digits and last four, to a total of 10 digits. Currently the program only supports a 9 digit (no spaces) Zip Code.

* * THE FOLLOWING CHANGE IS OPTIONAL! * *

Solution

1. BACKUP the diskette(s) and make changes on the BACKUP copy of Mailing List II.
2. In BASIC load the program by typing LOAD"MLS/BAS":
3. Make the following corrections.

New Line: 2475 IFVAL(E6\$)>0ANDINSTR(E6\$," ")<1THENE6\$=MID\$(E6\$,1,5)+"-"+MID\$(E6\$,6)

4. Save the program by typing SAVE"MLS/BAS".
5. At TRSDOS READY, make a BACKUP copy of the corrected diskette.

If the optional change is applied, make a notation of it on your Version Log. The Version number remains 02.00.00 after the application of the change.
