TRS-80 PRODUCT INFORMATION BULLETIN 82/1 1

TO ALL DEALER STORES, AREA DIRECTORS  
FROM DAVE HENBY  
SUBJECT CHECKWRITER-80 MODEL III  
DATE 14th APRIL, 1982

---

CAT. NUMBER 260 1584 - CHECKWRITER-80.

- SUGGESTED RETAIL - \$139.95

CHECKWRITER-80 is a new, "simplified" bookkeeping system that replaces your pegboard bookkeeping system. It provides you with a cheque writer and register, plus an expense tracking and bank reconciliation system that's ideal for small business bookkeeping. It's as easy to use as filling out a cheque or deposit slip, yet you get all the speed and accuracy of the computer.

It handles up to nine banks of nine different accounts for one bank, 75 payees, 30 expense categories (including a miscellaneous description category), and 2,500 transactions (cheques and deposits). Even enter handwritten cheques and maintain year-to-date expense totals too. Bank reconciliation allows you to record information from your bank statement and post each cheque or deposit cleared by the bank.

Display deposits and cheques recorded in the system. Once entered into CHECKWRITER-80, payee names and addresses are printed on your cheques automatically. It also prints cheque register reports, bank lists, payee lists and expense lists. It lets you "clear" appropriate totals and reset the system for the next period.

The programme has been modified to fit Australian requirements as follows:-

- 1) All references to check is now cheque.
- 2) the date format is now in the form DD/MM/YY.
- 3) System definition now allows for a three (3) character state abbreviation, a four (4) digit postcode and telephone numbers in the form (02)-638-6633.
- 4) Cheque printouts have been changed to comply with Australian requirements.

5) Cheque forms are available through:-

Swift Forms  
28 Louis Street  
Chippendale, N.S.W. 2008  
Phone (02) 699-9933

HARDWARE REQUIREMENTS - 48K Model III, line printer  
and cable.
